Horizontal Analysis E.M. Leya , Nicole Colville

When Zachary is sent to London to audit a very high profile company, the last thing he expected was to meet the man of his dreams on the flight there.

Killian's life has been hell for the last few years, but meeting Zach is the breath of fresh air he needed, even if he is half his age. He didn't expect things between the two of them to escalate as fast as they do.

One night of passion isn't enough, but there is danger in pursuing more, especially when fate throws them a curveball they never expected, and with Killian's ex ready for the attack, they could lose everything, still, with the chemistry between them, staying apart isn't an option.

With an attraction like neither has experienced, they are willing to risk it all, fighting the world around them that wants to keep them apart. Challenged in ways the two couldn't imagine possible, they must figure out how to hold on to something they know they might never find again.

~I received a free copy of this book to read and review for Wicked Reads Review Team~

This book grabbed my attention from the very beginning and it never stopped, I didn't want the book to end. Dream job + dream man = dream come true right? This was a great story, it had passion, instant love, drama, angry ex and hot sex. I loved Killian from the beginning, I felt his pain from the start and his lust and want for Zach from the moment he set eyes on him. Zach was sweet and innocent and you couldn't help but love him. This is a must read story, there were some twists that I saw coming but ended different than I thought and of course I was in shock and shed some tears. I truly enjoyed this book and will re-read it again.

Thankfully I have the second book in the series ready and waiting and I can't wait to dive in and hopefully catch up with Killian and Zach.

Characters: well written

Sex: yes

Religious: no

Would I recommend to others: yes

More than one book in the series: yes

Genre: M/M/Romance

Would I read more by this author: yes

I loved this book!!!

Zack and Killian were made for each other and me :)

easy, nice read.

I received a free copy of this book to read and review for Wicked Reads.

3.5 STARS

Here is what I knew going in: Insta-love and lots of sex.

I am not a fan of insta-love but *Horizontal Analysis* jumps in right from page one. If you can over look that, it really isn't a bad read. The sex scenes (which there were plenty) was extremely HOT. Each orgasm was better than the last, a man in his forties going more than three times in night without much of a break, (I call bullshit) and there is some cheesy dirty talk but together as a whole it works. This is FICTION and anything can happen. Sometimes I have to remember that when reading.

Is someone worth taking a risk for? Giving up everything you know for just a tiny shot at happiness. That's what Killian and Zach are unknowingly searching for.

I was entertained enough to finish in a few hours. The sex scenes kept me going, the suspense at the end was a nice little surprise. Not bad for my first read from this pair of authors.

Heather K (dentist in my spare time) says

I struggled for DAYS to get through this book, which read like a checklist of what I don't like to read in M/M. This was most certainly NOT the book for me.

Where do I even begin?!? If your reading tastes are the same as mine, you will struggle greatly with this one.

1) Insta-love: Ah yes, my arch nemesis insta-love. Do you like your romance with proper buildup? Lots of sexual tension and then a gradual falling in love over a long period of time and many shared experiences? I certainly do. However, in this book the two men are in lust within seconds, have a "deep connection" within minutes, and are in love within days. They are utterly devoted to one another and are CRAZY reckless with their bodies/health without knowing each other for more than a week. It was annoying to read, and touched upon a few HUGE pet peeves of mine.

2) A plot that is utterly implausible: There is just simply no way that an auditing company would send a 21 year old (who graduated college and got work experience as a baby, apparently) to work on a huge account with a major corporation BY HIMSELF. That plot point just rang so completely false. To top it off, Killian, as the head of the corporation was also utterly ridiculous. Having sex at work all the time, having a relationship with co-workers (not in a company with investors, no way), and acting like a baby was just part of what Killian did that irritated me. To top it off, Killian and Zach barely hid their relationship, going clubbing and touching hands at work, while they were trying to pretend like there was nothing going on. Crazy.

3) A villain character: The character of Max was so one-sided, so cartoonish, that it was laughable. He was the ultimate "bad guy," to the point where I was hoping the secretary or something was the mastermind, just to spice things up. It was irritating how Max was such a two-dimensional character.

4) The editing: There is no way that this book was professionally edited.

Killian hissed slightly, that wouldn't do the laptop any good.

This book shows a basic lack of knowledge of comma usage, when to use a semicolon/colon, and who/whom-type errors. I'm not a grammar buff, but I know when a sentence is uncomfortable to read. This book needs an editor with a firm hand.

5) The sex: There was SO. MUCH. SEX. Literally over a dozen sex scenes, possibly more. And each sexual encounter was THE BEST EVER with the BEST ORGASM EVER. It was to the point where I started skimming when I saw a sex scene coming up. Not to mention the cheesy dialogue during the sex scenes.

I want you like a fire needs oxygen. You're burning me up, taking everything I've got and turning it into a raging inferno.

GROANS

This book has a lot of positive reviews, so don't just go by my opinion. However, I think I'm going to think long and hard before I try any other books from these authors in the near future.

Shannon says

Holy hot sex! Wow, there is a lot of sex in this book. I mean A LOT!! It's like they can't be anywhere near each other without someone reaching for the other's bits. Most of the story was a lot on the mushy side and I hate the endearment "darling" which was used a whole lot. Who says that? Anyways, it was an entertaining read and there really was a bit of a story line in between all the smexing. I'd probably have given it 3 stars but upped it due to the deliciousness of many of those scenes. I need a fan!

Debbie says

Independent review for Paranormal Romance and Authors That Rock. I was given this copy in exchange for my review.

I have to be fair, and say I read book two BEFORE writing this review, and I enjoyed that one much more than this. So it has made me drop a little in the star rating, BUT only a little!

Zach is sent to London to audit a client. Killian is on the same flight. I'm not kidding you, the attraction between these two is hot, heavy and INSTANT!!! On the plane, people, on the bloody plane, they are getting down and dirty! Sometimes, I'm not a great fan of instalove but here?? Here, its just so perfect. While they continue on after the flight, and into the new week, totally oblivious to the sh*t storm heading their way, its still instant.

Its immediately obvious, to me anyway, that Zach will end up as the auditor Killian and his staff talk about, and also when Zach finds out about missing money, who was stealing it. I liked that I got it, its nice to be

right sometimes and not totally surprised. What I WAS surprised about was how Max went about getting to Killian, and I'm not saying how he did.

I LOVED Mammy! She made me howl, at times but the love she has for her son, Killian, and for Zach when they meet is a powerful thing. Regardless of how Killian left Ireland, regardless that he never officially came out to them. Mammy and Da love their son, unconditionally, how they should. She sees a lot, does Mammy, and she can see right through to both Killian's and Zach's soul and heart.

There is steam, way loads of steam, but equally, passion, and heart break. Love and hate. Lots of different emotions, altogether in 346 pages, although, when reading, it doesn't seem that long.

As I said, I read book 2 immediately after this, and much preferred that one, that's not to say I did not like this, because I did, greatly. But book two has an edge that isn't here, and that's why, after reading book 2, I downgraded this from the original 5 stars, to 4.5 stars. I'm sorry if you don't agree with me, but I am being fair and honest and that's what read-for-reviewing is all about.

Thank you for introducing these people to my life. I hope I get many more of their tales.

4.5 stars

Breann says

What to expect: Insta-love, lots of sexy times and evil villains...

Zach has Killian's attention the instant he sets eyes on Zach at the airport. Killian's checking out this sexy guy in the terminal, and now they're on the plane together. Poor Zach is having panic attacks on the plane, so Killian decides to help him stay calm. I mean really, airlines should offer blow job/jacking off services on planes for this type of situation. It's just rude not to. Good thing Killian was there for Zach.

After they land, they continue to see each other and fall for each other pretty fast. They find out that the big account Zach was traveling for is actually Killian's company. I really expected there to be more of a fallout because of this. Killian didn't seem to care at all the Zach was there to audit his company. Instead, he just bent him over the desk. Really? This dude's in charge? Hmm. Didn't ring true to me.

And the whole thing with the ex... over the top. Completely over the top, unbelievable and just silly. I can just picture him in his office, rubbing his hands together, cackling evilly... like a power ranger villain or something equally cheesy.

Three hearts might be a bit generous, but I did finish it up pretty quick. It was enjoyable enough to read in just a couple of days.

...that might also be because I was skimming over the sex scenes. *shrugs* There are lots of glowing reviews for this, so I'd say check those out, too.

Diana says

This was just ok for me. As much as I enjoy good sex scenes it became too much at points. That and after awhile it just felt like the book dragged a bit. Not sure I'll read the next one.

Denise H. says

*** I love these two authors ! *** This begins the two part, Sinful Temptation set, and starts with a super sexy kaboom !

Younger, 21, blonde, green-eyed Idaho guy,

stunning Zachary/Z, is headed to London for a new job, auditing a big company.

Killian/K, 40, is a dark and beautifully handsome CEO

on his way home to London. Killian notices Zachary at the airport. When the two meet on the flight to Gatwick, Killian is already attracted to "Z", and Zachary thinks Killian is way out of his reach. Both are surprised by the immediate emotions and needs, because it's overpowering and yet feels SO right. Many readers do not like "love-at-first-sight" books, but I do ! This is fun, entertaining, and so sexy.

Throughout, they burn up every surface they are near. When they reach London they decide to give themselves one night, before "Z" begins his job, and "K" must resume his position, and set his company to rights. Their incendiary, passionate night

is NOT ENOUGH for either man. They get to their jobs, where Z starts auditing the company, finding things are not correct. K finds a company crackdown on spending is in order. K's ex is Max, an evil creep who causes only mayhem, and we see his evil has no bounds toward the end. After a week, Z needs to talk to the CEO about the discrepancies in the audit, and they discover the "same company" connection. Surprise ! Then, the sex and emotions are re-ignited

and the two become everything to each other; more than just sexy times, it's MORE.

I loved this amazing set of characters, from family, friends, and employees, and especially the two men. Wow !

We get plot twists, a shocking event near the end, and the aftermath, plus a terrific ending. Do we get every answer we want? No. We still get to use our imagination, and of course, this is book one, so I'm looking forward to book two, Absolution.

I also look forward to seeing more from K and Z.

=====

Some readers complained about bad editing, etc., but I found none of that. IMO, The language phrasing for Killian and his Mam and Da, was Irish Brogue, so it's different. I found it charming. I did not find mistakes in the writing. I just enjoyed the super sexy tale, and got wrapped up in their hearts. I guess I get caught up in the emotions, and that's awesome, I think.

I highly recommend this wonderful, sexy story !

ENJOY !

=====

I know the blurb says we can read book two as a stand alone, but I think the book one relationships are important for book two. Both books are free on Kindle Unlimited.

This review is from: Horizontal Analysis: Sinful Temptation Collection (Kindle Edition)

First off I'm going to start by saying I absolutely loved this book from page one.

If you love to read Love At First Sight books than this is one of the best ones out there these two Authors nailed it perfectly.

During his flight back home Killian (hot sexy Irish) CEO notices this young very obviously nervous and inexperienced guy who has his attention from the Get Go.

While on the plane Killian can't hrlp the attraction he has for this certain young very sexy boy so he goes over to him and Well let's just say " introduces himself and gets quite acquainted ".

Zachary (the young hot american) has been given an assignment to go to London to audit a very large company.

What Zachary didn't expect was to meet this perfect gorgeous stranger on his flight to London (yes you guessed it) Killian the stud who helped ease his nervous jitters of flying overseas.

Unbeknownst as to who each other are they end up staying in a hotel together that night , the attraction between the both of them will absolutely have you needing a very "ice " cold shower.

A misunderstanding leads them to be seperated in the morning and both men cannot get the thoughts of each other out of their heads.

Zach reports to work the next morning to start the job he was sent to do, but in the process finds discrepancies while doing the audit and makes an appointment to go over this with the CEO.

I'm not going into any detail from here on but let's just say when Zach walks into the office of the CEO he is very much shocked . This story picks Uo and we are introduced to new characters now and there are so many twists and turns that had me at the edge of my seat.

An ex boyfriend is damned set in destroying everything between Killian and Zach, will he succeed? Or will a turn of events and an attraction so strong be able to save what Killian and Zach.

I also have to mention we get to meet a very feisty Red Head who happens to be Killian's mammy, she will have you laughing and loving her to the point that you wish she was your own Mam.

I have to say I stayed up until 5 am until I finished this book because I just could not put it down there are so many emotions you Will go through while reading this book, from needing a cold shower, to wanting to just smack somone to Omg please No but in the end you will be totally in love. If I could give this book more than 5 stars I definitely would.

Oh you will most definitely not look at

American Apple Pie the same after reading this either. " inserts big grin"

So go on and one click this amazing story now!!!!

I received a free copy of this book to read and review for Wicked Reads

3.5* review

I enjoyed this read, and the underlying premise behind the story, although I did have a few issues. Crazy the biggest issue for me was probably totally silly in anyone else's eyes, but as an accountant, I felt that the repeated mention that Zach struggled with the foreign currency was a bit ridiculous. We are talking pounds sterling, which are divided into one hundred pennies ... not some weird hexadecimal currency! And even the dollar to pound exchange rate varies between \$1.5 - \$2 : £1. Millions of tourists manage this each year, but not a highly intelligent man? sorry, but that annoyed me, a lot! It was also somewhat crazy to send a 21 year old half way around the world to do an audit ... but hey, I could choose to suspend belief to an extent

The story itself, is quite clever, and although the depth of their feelings was somewhat hasty, I could accept that as neither of them were of that nature, it really must have really bowled them over. I was with Zach though questioning Kilian's previously terrible choice!

Overall I enjoyed the series and would read more by this team of authors who's works I have admired and read avidly in the past.

Bo says

Outrageous, But It Works

SPOILER ALERT: The publisher states that even though this is the first in the series, you can read the second as a stand-alone. DO NOT DO THAT! This is a super paced, extremely erotic, sometimes marginally believable, but in the end brilliant tale of instant erotic attraction that morphs into uncontrollable lust, and then love.

You will find the first chapter unbelievable, but it could happen. You will find that the author's description of Killian and Zach are perfectly portrayed on the cover, Killian the dark 40-year-old, Zach the blond 21-year-old. You will meet one seriously deranged character (no spoiler here) and one exceptionally whacky and totally clairvoyant mother who is crucial to this book and its sequel.

You will have to hang on tight here--it's outrageous, but it works. I am totally out of breath.

Jessica Lynn says

Must read!!!

Loved this book!! The characters and the story were wonderful. I just love Zach and Killian. Story was hot and engaging. I hope there is more to come in this series. Several hints towards the end that point to more installments with other characters. I'll definitely read more from these authors and especially about this universe!

Lelyana says

Wanted or not, liked it or not, I have to compare this one with Changing Plans by L.A. Witt.

11% and I'm like deja vu. Broken heart caused by shitty ex, and meeting someone while traveling, one night stand at the Hotel after a few hours.

While Changing Plans really was good in giving us the vibes that they 'should be' together, this one is like, you know, rushing to it. And I'm already rolling my eyes a few times.

Zach and Killian met in a plane to London, it was like a stinky electricity between them, lust at first sight, definitely. Soon, very soon, there's shameful blow jobs and promises to get together soon they're arrived in London. So yeah, one night stand and one little misunderstanding after one night of blissful sex marathon and loads of "cum" everywhere.

And 'coincidence' in the next day, that Zach seemed to work as an auditor for Killian's company.

With a shitty ex and some jealousy and more and more office sex, and ...*cough* , "cum" everywhere, well, I felt tired of too much sex in the book, it's almost 80% of the story, Killian and Zach **sexing**.

They're both definitely have a stamina of a Trojan horse.

Or, maybe just because Zach is only 21, and Killian is in his 40, which both are 'perfect' ages for sexing all the time. Grins.

Or I'm too old for sex, and cum in command, and sticky ass all the time.

I'd thought of DNF-ed this one, but the story is quite good, so I went on with the story in focus. I've made it. YAY!

I just wish this one is shorter, with enough hot sex and less and less flower-ish words in tow, maybe, my rating would be better.

A few chapters near the ending is good to be fair. And the ending is a little bit too good to be true, I guess. So, yeah, it's not a bad book, it's just not match my mood at the time. Blame on me.
