### **Sabrina Lyons smith says**

I read the play then watched the Opera. I didn't care for the play or the opera version. The main character Tosca was an annoying character that was full of jealousy and whiny in every single scene.

If you are beginning to learn about opera like me, I suggest reading Alexandre Dumas~The Lady of the Camellias then watching La Traviata with Anna Moffo. It was beautiful! And grab a box of tissues because it will bring tears.

Here's a link for the Opera, subtitled in English.
