## **Lover Wanted: A Billionaire Boss Romance** Rylee Swann

I've touched every inch of his raw masculine body. He makes me reach heights of ecstasy I've never known. I can scream his name in pleasure, but I can't fall in love with him. Why? He's my boss, and even though my job is unusual, that's a no-no.

Hi, I'm Kim and I'm about to be homeless, so what's a girl to do? Browse the Casual Encounters section of Craig's List, of course. Why not have a night of passion to help me forget my troubles for a little while?

What I didn't expect to find was a life-changing job opportunity.

Passion beyond any expectation, a ridiculously hot boss, and getting paid to let a different stranger watch us blow each other's minds. Right, that's the catch, but what could possibly go wrong? Plenty – my boss doesn't believe in love, has some deep dark secrets, and... yeah, I think I've already fallen for him.

This has all the makings of not ending well... or does it?

Maybe I should just stick with the sweet Adonis of a cop I just met. He seems like the safer option, but I just can't stop thinking about my boss. The one who piledrives me to spectacular oblivion a couple times a week. While a stranger watches.

Ah, hell. All bets are off. Especially the safe ones.

## **From Reader Review Lover Wanted: A Billionaire Boss Romance for online ebook**

### **Laura says**

This is fantastic first book from debut author Rylee Swann. Follows the story of Kim, down on her luck and struggling to pay her bills and put food on her table and keep a roof over her head. When she searches online for jobs she sees one on Craigslist that catches her eye. Could you have sex while someone watches, for money? That's the question Kim faces when she decides to answer the ad that piqued her curiosity. Michael has been burned in love before and has decided that no-strings sex is all that he wants or needs from relationships now. To find out what happens between Michael and Kim (besides scorching-hot sexytimes), pick up Lover Wanted today. You won't be disappointed.

I voluntarily read an ARC of this book and decided to post a review.

---

### **R says**

I didn't start laughing at the beginning of this story, but it didn't take long. Kim's life is like a run-on sentence that just keeps going around all these quirky corners and makes me wonder all kinds of wonders... But at the beginning I kinda cringed... Well more than kinda... sorta. I knew I was buying a "sexy" book, but this was off the wall. Really? Seriously? Exhibitionism for "doe"... via desperation and Craig's List. Oookay...

Well, I'm a big girl now, right? And Kim is seriously funny. Is that an oxymoron?? Never mind. I gotta see what's gonna happen here. I'm hooked and it's only the second chapter.

Okay. Well, I'm making light of this, but this book was seriously rough for me at first. Because I did cringe. It deals with subject matter that is not for the faint of heart... I worried about the heroine's self respect. In the end, was it worth it all? For money? (I'd rather wash dishes. I know. I'd have to wash a lot of dishes). But of course it wasn't just the money. There are layers to the story. I found it interesting. And I started caring about the characters... Michael's cynicism toward love, and yet falling nonetheless... Kim's problems with self/body image-- she's a little chubby, but still attractive, and she can't see it...

And what, exactly, is going on with Scott?? How many people are gonna get hurt, here? But then, Michael has already been hurt beyond belief.

And Kim. Is there something more for her? Is it possible to find true happiness in this crazed and round-about way?

Nice surprise at the end. There really is a HEA, however twisted the journey. I loved the epilogue.  
4 stars.

I received an ARC of this book, and this is my voluntary and honest review.

### **Andrea says**

I received an ARC of this book for a honest review.

OMG!!! This book is HOT!!! I loved it!!

This story is based on a woman that is broke and trying to find a job and a man who has a kink for voyeurism

and wants to pay someone to have sex with him while his client watches.

The book is an easy read as the writing flows effortlessly. You will not want to put this book down. The 'scenes' are descriptive and extremely hot. The chemistry between the main characters is explosive. If you want a hot read you will not be disappointed.

### **CaffeinatedFae says**

I received this book in exchange for an honest review.

I really wanted to like this book but it really just fell flat for me. The characters were likable enough but not very flushed out. Kim seemed to show no growth throughout the book and the rest of the characters were the same. There was no character growth and I almost DNF'd the book multiple times.

This book falls in line with the "rape is the only thing that can be traumatic for a woman" trope and it doesn't handle it very well either. The ending was rushed and honestly, I just wasn't impressed with the writing. It felt like I was reading a diary entry on someone's fantasy.

Personally, I wouldn't recommend this book. It had a good premise but I was not impressed.

### **Mary Mutisya-Astin says**

Love, Love, Love Kim and Michael! Unexpectedly great debut book!

This is such a great mix of lust, smut, insta-love and of course an HEA!

Kim is down on her luck after another failed relationship, not being able to hold a job and an eviction notice posted on her door, so she does something out of the ordinary one day and answers an ad on Craig's List asking her to have sex while someone else watches for money! Desperate times and all that! So she meets Michael her new "boss" and my, my, my do the sparks fly between these two.

She then starts dating a cop who looks like an Adonis and it seems her luck has changed! But how long will all this luck last?

You must read this book to find out what happens but you will not be disappointed!

I read an ARC of this book voluntarily for an honest review.

---

### **Di says**

This book is HOT. Like Kindle melting hot!

Right from the outset, the standard is set, and what a standard it is!

Kim and Michael strike up a 'working relationship', although not an altogether conventional one! But it pays the bills and that is all Kim needs right now.

I enjoyed the storyline, it was different. I also enjoyed how Kim basically just threw herself into the role. She found things difficult, but she pulled up her big girl panties and went for it. I loved how Michael treated her.

It was obvious from the outset that Michael had baggage, and that aspect lingered in the background, just begging to be unravelled.

What I loved about Kim was her view of herself. It's not very often that the female lead is this honest about how she feels about herself, but as the story progressed, her confidence grew.

There were a lot of steamy scenes, but I would sometimes find myself skimming over them. But, that was just me. Sometimes I feel less is more.

However all in all, if like me, you like to take a chance on a new author, then I suggest you pick up this little gem and give it a try for yourself.

I received a copy of this book, in return for an honest review.

---

### **Mei says**

Kim is so desperate for money, she is at the point of almost being evicted. So she has no choice but to answer to a Craigslist ad looking for exhibitionist in exchange for money. She has never done anything like this. So when goes and meets Michael for the interview, she ends up liking this more than she expected. Michael and Kim have this off-the-charts chemistry. But he doesn't believe in love. Kim wants everything, the whole nine yards. They work well in bed, but is that enough? Will he ever want more? Will she wait for him? Or would they only keep it professionally? When Kim starts dating Scott, how will this affect her? Scott is the total opposite of Michael. Will she let him know what she does? Will she be able to move on from Michael? What will Michael do when he finds out?

So I absolutely LOVE this book!!! I knew when I read the summary, I HAD TO GET THIS BOOK!!! This is such an interesting plot, so original. I wanted to see how it would play out. I thought sex scenes were super HOT! Everything was so well-written. The characters were so amazing. You would root for them to literally do anything! You also root for them to be together! I did not want this book to end. I recommend this book to everyone!!!!

I voluntarily read an advance reader copy of this book.

---

### **Daniella says**

So good! I wasn't sure what to expect, and boy was I delightful surprised. This book manages to be original and sexy and fun and all things awesome. Kim is fabulous, super relatable, and Michael is wonderful. I even liked a well-timed, if light, comeuppance for a certain jerk. I loved it! The chemistry is spot on, the story well written, pace is perfect, and the entire book just flies by. I highly recommend picking up this book. I'll certainly be looking for more from this author. This is a voluntary review of an advance reader copy, although I just bought a copy because talent like this needs to be supported.

---

### **Marie says**

A very good debut effort by this author, quite polished for a first book. I loved Kim right from the first chapter, not gonna lie Michael took a bit to grow on me but once he did, I liked him as well. This book has a lot of twists and turns to it, I honestly wasn't sure how it would turn out (or how I wanted it to turn out!) through most of it. Fair warning there are lots of kinky, very well done sex scenes. The plot was innovative

and inventive. It loses a star for me because I found that the last few chapters were a little rushed and having seen how well the author wrote the rest, I thought she could have done a bit better.

Recommended for people who want something a little different that's hot and steamy. I received a copy of this book from the author and have chosen to review it.

### **Space Cowgirl says**

JUST LIKE THAT?

ARC received for an honest review.

Kim?? is desperate for money, she has lost her job, can't find one, and is out of unemployment now, too. Perusing Craig's List, she finds an ad that is offering ?hot sex??? with a fit white male? while someone watches(voyeur) for doe(dough).?

Her "interview" takes place at a nearby hotel restaurant, where she meets Michael????, a 40ish man in absolutely ripped? condition. Kim is carrying a few extra pounds from the stress she has been going through, but Michael???? doesn't seem to care. In fact, he's rather infatuated with her, she's smart, feisty, pretty?, and she is awed with how handsome???? he is, with his ripped abs and huge, jacked? arms.

Michael???? is a pretty strange guy. He's very wealthy, yet he does some highly paid gigalo??? gigs, plus he has been getting paid big money for live porn??? scenes he does with a woman in front of a paying voyeur. He's an exhibitionist! The woman he beds must of course be an exhibitionist, too. He has lost his partner, and needs a new one.

Kim?? is crazy in lust with him and she needs money? so bad she's willing to try it. Michael???? is immediately smitten? with her, but he takes great care to keep his interest a secret. He's had a very bad love? experience in his past and vows to never say or fall into the four letter "L" word again! Michael???? trains Kim?? to ignore the voyeur in the room and concentrate on him as he turns? her inside out???? and every which way? but loose! YEHAW!???

Michael???? is a total stud?, a Spankmeister??, a binder, and everything that Kim?? could ever want!

Now, all she has to do is figure out how to get him!

YEHAW! Ride em Bareback?, Cowgirl!????

I liked this book but it's just very different than any thing I have read, as far as erotic romances go. I guess some readers will say there is cheating by Kim?? in the book, but she is told over and over by Michael????? that he is her employer and it's just a job! Some crazy job! I highly recommend the book if you are tired of reading the same old same old office romances.

---

### **Kat Ryker says**

I should start off by saying that I read an ARC (Advanced Reading Copy) of this book in exchange for an honest review. So here goes.... There probably aren't enough superlatives to describe this book. I read this in one sitting, after removing any interruptions in my life for a few hours. That was after the first few pages, where the story got me hooked and just kept pulling me in. I love to be a voyeur, so this also touched me in a different way and I totally understood Mike/Michael and what his kinks really were. Kim was broke and

fought down any reservations she had with participating in this type of relationship. On top of being incredibly hot and steamy, this is also a love story that patiently brings the characters together. On top of all that, it made me laugh out loud, especially when she was initially meeting him in the hotel bar. Very few people carry newspapers any more, so to find that group all holding them was a coup on his part and a great practical joke. It also told him a lot about how smart this woman was. The only negative might be that in the book there are narratives that lean towards young adult rather than adult fiction. It is just a glimpse now and then and they don't affect the story as much as I would have thought. In fact, if it weren't for the fact that I read carefully and tend to re-read anything that isn't clear, I wouldn't have even noticed.

I would recommend this book to anyone who likes their love stories steamed up with sex and anticipation. And to think that a month ago, I'd never heard of Rylee Swann. Silly me for thinking that I'd read all the "good ones". Congrats to the author for keeping me reading where others haven't been able to. Great book, keep writing.

---

### **Heather says**

This is the first book I have read by this author and I have to say it was not at all what I expected. Kim is broke and about to be evicted when she sees an ad on Craigslist asking for someone to have sex with a stranger while being watched. Not sure if she can really go through with it, Kim agrees to meet with Michael for an "interview." What follows is some seriously steamy encounters between Kim and Michael but what happens when Kim starts having feelings for her boss? Her boss that has been adamant that there can be no feelings, just sex. Full of heat and with plenty of twists this was an unexpected romance that will keep you reading.

I voluntarily reviewed an ARC of this novel.

---

### **Amanda Dubuque says**

I loved this book. This is my first book of Rylee Swann and it won't be my last. The story of Kim and Michael is different than your normal love story. Kim is out of work and getting pretty desperate for money when she answers an ad on Craigslist and the fun begins from there. Kim is paid to have sex, whatever the customer wants to see, not with the customer but her boss as the customer watches, and it's some pretty hot, amazing sex. Kim and Michael soon develop feelings for each other and it goes from there. I'm trying to not give out too much info, don't want to spoil it for you. I loved it and highly recommend it to everyone, a must read.

---

### **Keri Loves Books says**

Wow! This story is so HOT it will melt your kindle!!!

Kim is divorced, just recently split up with her alcoholic fiance and broke with no real job prospects. Oh and she just received an eviction notice.

Desperation leads her to accept an offer on Craigslist. It asks if she's willing to have sex with a fit, older

guy while someone watches for money. What? But considering her circumstances, well she thinks what does she have to lose. Plus sex...it's been awhile for her so that's an even bigger incentive.

So she meets Michael. He interviews her for the job of having sex with him, while a paying customer watches them. Michael is extremely good looking, alpha who enjoys exhibitionism/voyeurism with no feelings. He warns her that if she takes the job, no falling in love, no feelings.

After her interview concludes, she's hired. We are taken on a fantasy ride of debauchery that will leave you hot and bothered. Their relationship has sweet moments and keeps you rooting for them.

This is a get down and dirty story. The sex is incredibly HOT. I really enjoyed the premise because it was something I had not come across before. A steamy, hot read that you will enjoy from beginning to end.

---

### **Dee says**

I really enjoyed this book that involves a man who gets his kink filled thru a Craigslist ad. Voyeurism plays center stage (\*groan...sorry about the pun) in this hot, sexy, explicit book. I thought it was fantastic. Did I mention that the sex is hot? You are left wondering throughout the book what happened to our lead male to make him so hesitant to fall in love. It's almost anti-climatic when you finally find out what happened.

In the meantime, enjoy the ride. It's kink to the nth degree. There's a HEA with no cliffhanger and no cheating. You gotta love it.

I received an advanced reader copy of this book in exchange for my honest review.
