### **Racquel says**

This is a simple story, but still more of a story than some of the learning to read series books. Against all reasoning, Pete gets to go on an actual space mission to the moon, even bringing his guitar along, despite only being in a summer camp for all intents and purposes. Rather unrealistic, but we're talking about a "groovy" fictional cat here. I guess it's cute, especially if you have a little one that enjoys space travel.

\*\*\*All questions answered by my 4 year old\*\*\*

Do you like this book?

Yeah but I like the rover. And I love Pete blasting off into outer space! (At this Finn counts down from 5 and starts running around)

What's your favorite part of the book?

I love Pete, because he's a kitty. And I love outer space. And I got stickers and I love stickers

What do you think of the cover?

I just love it because it's a kitty, and I love kitties.

Do you want me to read it again?

Just later.

What Momma Thinks...

Pete the Cat books are some of our favorites in the house, and this one definitely didn't disappoint. Finn really loved looking at some of the planets, and learning about the rover.

### **Emily Bedford says**

Pete the cat goes to space camp! He meets all sorts of new friends and sees new things, and then at the end, he gets to go on a rocket ship and fly to the moon.

Activity: Have this book be an introduction to space and have kids do activities like a moon dig (a box covered with clear plastic wrap, holes in the side with gloves in them; children stick hands in gloves and use tools inside like magnifying glasses and tweezers to explore objects).

**Heather says**

I like cats, but I don't get the Pete the Cat thing.

---

**Amanda says**

Cute premise, but holy cow does Mr. Dean need to rein in the imagination regarding the possibility of space travel. Our son is a space geek and letting him think that he could just go from the moon to Mars and back within an hour or so WITHOUT A SPACE VEHICLE, JUST WEARING A SUIT goes beyond imagination and into ridiculous. Still, we love the lessons in these books.

**Maxwell Rae says**

Astronauts and space are cool and all, but not as cool as Pete the Cat!

---

**Kelly Burroughs says**

Fun read for kids! Perfect for elementary school solar system unit. :)

**Savannah Liebsack says****Summary**

Pete the Cat goes to space camp. He suits up with his friend Glenn Cat. They learn all about space and do super fun astronaut activities. Soon Pete, Glenn, and Sally go on a space adventure. The rocket takes off to the moon. The cat takes lots of pictures and collects samples. Pete ventures off to Mars by taking a jet pack. Pete loses track of time and hurries back to the rocket. Pete goes back home.

**Activity**

Pretend you are Pete the Cat. What planet would you travel to? What pictures would you take? Draw 5 pictures of what you would see on the planet you took the jet pack to. Use your imagination. There should be more in the pictures than just rocks. Use your pictures to share what you did on your space adventure to the

class.

Pete the Cat and Rockets? Oh yeah! :)

---

### **Carissa says**

Pete The Cat books are simple, cute books. This one is no exception as Pete makes some friends and goes to space. A fun premise, especially for a kid interested in space (or space camp!).
