## Propositioning Her Brother's Best Friend Sam Crescent

Can Rachel grab his attention with a simple proposition?

Rachel Kramer is tired of hearing about Paul's sexual exploits. He's the guy she's been in love with her whole life, and he's also her brother's best friend. They're friends, but she wants more. She wants to know if his feelings are the same as hers—and she's tired of being a virgin.

Paul has stayed away from his best friend's little sister because he was warned away. He's been part of the Kramers' life for as long as he can remember. Rachel has always been the love of his life, but he loves her from afar.

Her proposition soon leads to something more. He starts to teach her about sex, but that soon changes. Paul is in this for the long haul. He's waited for her for a lifetime. No more waiting. Rachel will be his.

But what will happen when her brother comes back to town and one of Paul's exes starts to make waves? Can their love survive, or will their time be over?

## Angie says

I liked how Rachel propositioned Paul. Rachel was sweet and looked past Paul's past. Paul knew he loved Rachel, but wouldn't do anything about it until she propositioned him. It was a good story and these two had a lot of chemistry.

### 2.5stars, underdeveloped story, could have been much better

This was a short read, so my review can be even shorter. The story was cute, the characters not developed, I did not feel for them. Mostly telling, not enough showing. It was ok.

## Mudpie says

2.5\*

Rachel was brave to proposition her brother's best friend... Paul WAS a manwhore and regretted it, but it's only because his best friend had warned him against Rachel so he had no choice.

But Mitch the brother's reason for keeping Paul away from Rachel was so silly...

A short and sweet read.

## Black.angel88 says

2.5/3ish

It was ok. Could have been a lot better. If the story was fleshed out a bit more and the relationship more developed between the main characters, I would've been a lot more invested in the characters.

I have always liked the brother's best friend trope so I can't tell if my rating/how I feel about this book is more a reflection of what could have been and how I feel about this genre.

Original Review Published here: <http://www.nightowlreviews.com/v5/Rev...>

Rachel is tired of the way things are in her life. The one person she wants is the one person she is to stay away from. She is in love with Paul, her brother's best friend. Paul has loved Rachel for years but was warned away by her brother. When Rachel comes to him wanted him to teacher her about sex he can't wait any longer.

Rachel is a strong and hardheaded woman. She pushes Paul for a reaction because she is in love with him. Rachel is a full figured curvy woman. She has a real figure not some skinny, bony, and unrealistic woman. I loved how she was outspoken with Paul to make the request she did. I don't think many people have that kind of ability.

Paul is older that Rachel by about 10 years. He has been in love with her for years but was warned off. Therefore, Paul has worked hard to forget Rachel by sleeping with most of the town. However, the one thing he never did was bring them back to his place. It seems he only wanted one woman there, Rachel.

The chemistry between Paul and Rachel is sizzling hot. I think Paul did a great job of not just trying to keep his promise to stay way but also keep an eye on her. I don't think anyone would be good enough for Rachel's brother, as it should be. The sex scenes were hot and spicy. I loved how realistic they were as well.

Overall, this was a wonderful story. I just wish it were longer. I can't wait to see what happens to Rachel's brother, and how Paul and Rachel do down the road.

I am not going to give this one any stars since I can't seem to finish it. I have picked it up half a dozen times because I love the concept and I love the authors other books but I can never get passed the 25% mark despite the fact I keep picking it up and trying to read it so I am going to mark it as read to stop the vicious cycle.

I've read many books from Sam Crescent, hoping she would change her typical curvy-full-figure heroine. I don't know why but I really really wish she'd try a different type of heroine. Say, what about a skinny heroine? I've never read one in Crescent's books. Oh well, this short book has the same body type heroine if you were wondering like me.

The story is one I've read before, the girl is in love with her big brother's best friend and in return said best friend is also in love with the girl. They both don't know about each other's feelings until BOOM something happens and they end up together.

It is a very short read, less than 200 pages in my iBooks, so I couldn't really fall for Rachel and Paul. I know they're obsessed with each other and want the whole family and children and dog but that's it. I didn't get a background from their previous years and the way Paul realized Rachel was 'The One' was a bit quick for me. I like it when you can read the slow building of their feelings towards the all-consuming love.

I was a little creep out when Paul bought all these sex toys a couple years ago and they had the name Rachel on them. I thought Paul was warned to stay away from Rachel by her brother? Paul had agreed because he didn't want to jeopardize his friendship with Mitch. Now, all of the sudden, Paul is all for Rachel and who cares about Mitch. What a good friend Paul is. Oh yes.

I don't understand how Paul, a man who has slept with different women every week, could be a one-woman man now? Come on! One doesn't change their ways in a night or a day. Yes, Paul had all this 'love' for Rachel but he still slept with 2/3 of town. Now you're telling me that it took all but one kiss from Rachel and BAM he is now whipped at 31? Yes, very believable indeed.

Annnnnd it gets more ironic. After they have sex, Paul decides that Rachel should go live with him. Yes, Paul, who has never brought a girl back to his house. Wow. This is so unrealistic, I'm skimming so much, it ain't funny.

I want to say more but I won't. I'll leave it up for those who will probably read this book.

#### **QUICK READ**

Rachel has been in love with her brothers best friend forever. He's got a reputation with the ladies, and Rachel has heard the women gossiping about Paul around town. Determined to get him to notice her she asks him to teach her about sex. She just hopes her brother Mitch doesn't find out.

While I like the theme of an older man with a younger woman, the age difference is ten years here. This was just okay for me. It was a bit too short for any real depth to the story or character development. But the sex

scenes were hot.

### **Dina says**

Too much telling, not enough showing - except for the sex scenes, which were plentiful. I didn't get to "know" Paul nor Rachel, so the "love" scenes were "just sex" to me and I couldn't skim fast enough to get over them. Rachel's brother Mitch's reaction to finding out about her "relationship" with his best friend was OTT and, to make it worse, his objection turned into full support after an unbelievably flimsy explanation.

All in all, a very forgettable read. Not awful, but not good.

### **Aiko says**

Feels like reading a bullet train. Too fast, too vague. But a happy ending is a happy ending, I guess.

---

### **Ava says**

I'm again in my flow of wanting more in the story but I can't say that with Sam Crescent's books because there is a style. Quick, fast, mature contents and HEA.

I didn't expect anything before reading this book, I just wanted a quick read. And it went faster than I thought. Maybe a little bit of expectation, quick and somehow fast track love. But in this one, the story gave more languish from the guy. Which I liked.

I think it went a bit faster than usual because of foreplay and the actual play. It's smutty read so deal with it.

Propositioning Her Brother's Best Friend by Sam Crescent is not part of a series but I do with it was. I chose this book because I enjoy reading Sam Crescent's books. I also chose this book to see how Ms. Crescent would spice up they fairly typical story premise.

Rachel is a woman that knows what she wants and is strong enough to go after it. Rachel has been in love with Paul for a while but him being her older brothers best friend put a damper on going after him. Rachel has made the decision to go after him. She is tired of being a virgin and she wants Paul to be her first. Rachel strikes me as a strong woman who know what she wants and goes after it.

Paul is Rachel's brothers, Mitch's best friend. While he is attracted to Rachel, he respects his best friend's

wishes to stay away from her. Paul is older than Rachel is and while he is in love with her and it shows he is willing to do what he thinks is best regardless of what he wants. Paul is someone that you respect. He makes the hard choices, even if it is not what he wants.

The sex scenes were scorching. I loved seeing how Paul struggled to do the right thing. I found this book well written with thought-provoking and appealing characters. The only issue I had with the book was it was not long enough. All the events went quicker than I would expect. Overall, this was a great story. I hope there is a sequel.
