Rebound With Me Kayley Loring

When you're in your neighborhood liquor store trying to figure out what kind of alcohol to consume after finding out your fiancé has dumped you for a 22 year-old nanny, and the hottest guy you've ever seen comes up to you and offers to get you a drink at the bar down the street, you'd go—right?

It's not the kind of thing I would have done before now. I've been a Good Girl my whole life. Always played it safe, always followed the rules. I even got engaged to the principal of the school I teach at. Well, look where that got me.

It got me back here in my apartment, with the sexiest most charming guy I've ever met. When I find out that he's the nanny's ex-boyfriend and his plan was to sleep with me to get back at my ex—you'd think I'd kick him out, right?

Wrong.

This guy Vince Devlin is exactly the kind of trouble I've been protecting myself from. Do I want to help him get back at my ex in this way?

Oh.

Hell.

Yes.

I want him to get back at my ex hard. With wild abandon. All night long.

I expect the hottest (and only) one-night stand of my life.

I don't expect him to come back for more and show me the best summer I've ever had. I don't expect us to fall in love. I don't plan to invite him to come with me on my weekend getaway, I don't expect him to say 'yes,' and neither of us expects to run into our exes there.

We don't expect any of it. The only thing we know for sure is that rebounding with each other is a bad idea. The best bad idea that either of us has ever had.

REBOUND WITH ME is a sexy and sweet romantic comedy about a hot summer fling that just might turn out to be the real thing.

LWM says

Cute cute, cute!

This was funny, eye-opening with regard to manipulative, scheming women like Sadie (and wasn't it great how her name even sounded jaded and scheming?!), and heartbreaking that the real culprits and users in this drama were so manipulative and used to lying that they began to believe their own lies about who played the cheater and who got cheated on.

Ironic, but very satisfying that Nina and Vince find love out of their initial heartbreak. Four solid stars.

Barraza1 says

Awesome book!

I can't say exactly what it is about this book that I loved so much, only that when I finished it, I had a big smile on my face and I was HAPPY. Like really happy. This book completely satisfied my romance-soaked brain. How rare is that? So read this book and be happy :)

Cherye Elliott says

Still laughing

I had so much fun reading this book. I was laughing. Highlighting passages. I thoroughly enjoy this author.

Fav quotes:

“Did you get the picture yet?” “Hold on.” There is a pause, and then I hear her suck in her breath. “Shhhhia LaBoeuf!” She’s an elementary school teacher too. “That’s the guy?” “Yeah.” “I think I just got pregnant. Which bar are you at? I’m leaving my husband and kids. I will have sex with this guy and test him out for you.”

“Please tell me you didn’t meet him on an app.” “I didn’t, Mom. We met the old-fashioned way. In a neighborhood liquor store.”

Stephanie says

Sweet and Sexy

I am an avid romance reader and was slightly apprehensive about reading this book.

After reading it, I am so glad I did! So much cheese but in a good way! Love these main characters, and the story line is great!

Overall, a great read. Definitely going to check out more books by Kayley Loring.

Maria Sarah Koutrakos says

Love prevails

I enjoyed reading this story, for me rebound or not if it's true love in the end it will still prevail. So many cute situations, love the humor. Kudos to you Kayley. Good job!

Kimberly says

When I started

When I started this story I really thought it was going to be a DNF..... I got through the first 3 or 4 chapters and fell in LOVE!!!!!! Really it was a great story.

Liz says

Nina meets Vince 2 or 3 days after her fiance dumps her....he's also her principal. She goes to the liquor store to find some hard liquor and randomly meets Vince. He's supposed to be a fling, but then it turns out they like each other. We meet her parents, his family, their exes come back. It's fun to read, but don't expect depth.

The most complex character of all of these is Vince, but the repeated descriptions of how hot he is made this whole book significantly more shallow than needed. Gah, even her mom was attracted to him -- and that was icky.

Breanna Dalmolin says

Loved it

Wow! I absolutely enjoyed reading this book! Vince and Nina are perfect! I love how much chemistry they have! I definitely laughed and swooned the whole time. I highly recommend it!

Chelsie Fountain says

Laugh out loud awesomeness. Kayley Loring never fails to disappoint with her emotional witty and steamy books.

Kathryn Langford says

Sweet romantic book

It's a sweet book about finding love when you least expect it. Give this book a try along with other books from this author!

SyLvIa says

[1.25 stars] meh, book was pretty boring i feel.

Amber says

I don't know what made me click on this book in the Bookstore on Amazon, but i'm SO GLAD I did. I'd never heard of this author before, but the synopsis of this book was too good to pass up, so I 1-clicked it and was sucked in from the beginning. I didn't want to go to work because I just wanted to stay home and read this book.

Holy Motherfucker! Vince is delicious. I love that he's the "Bad Boy" With the looks and the tattoos and the "Don't give a shit" attitude, but inside he's a huge softie and isn't afraid to let you know that he's not even close to being perfect. And that's exactly what makes him perfect!

This book is FANTASTIC and I highly recommend it to any one in the Indie community. Especially the fans of Staci Hart, J. Daniels and Helena Hunting.

Definitely found a new favorite!

JLOluvsbooks&dogs says

Awesome!

Don't waste your time reading any other reviews....not even mine! Trust me, just read this already and leave a fantastic review for other potential readers to skim and convince them to read this fabulous, stay up all night kind of book! Seriously....go....now!

Going to go stuff my purse with mom snacks now.... If you read this book you'll get the inside joke ;)

Natalie Hughes says

First book from this author.

I will definitely be looking at getting her other books. This one was well worth it. I loved how Vince and Nina were with each other. Vince really managed to bring her out of the shell she had been living in.

Leigh Ann Atwood says

Just perfect

Easily one of the coolest books I've read in a while. Two great main characters and perfect supporting cast. A common bond of exes who cheated on them. Each with their separate issues. Each with a different way to work through them. Willing to give up some space, they do.
