## **Snowbound in Starlight Bend** Jennifer Ashley

Haley McKee is furious to find herself stuck in the tiny town of Starlight Bend so near Christmas, helped out by the handsome Maddox Campbell, a cowboy who's not impressed with her fancy job title and parents' money. In fact, no one has given her this much crap her entire life. But there's a lot more to Maddox than at first seems—he's a hard-working man who gives much of his time and patience to help those who have little. When a spark of Christmas magic promises Haley all she wants, will she make her wish with her head or her heart?

**SheLove2Read says**

Not a fan of insta-love, especially in a contemporary. It wasn't awful, but I'd have to say it wasn't great either.

---

**Caryn says**

**CUTESY**

Christmas stories are always nice to read! A common theme is of love blossoming between two strangers when one of them, usually the woman, is saved by a handsome stranger. For me, this never gets old and I loved this short but satisfying read!

---

**Terry Sasada says**

**Awesome love story**

Everything you wish could happen to you if you are stuck in the snow. Haley, a rich CEO needs to see how the other half lives, Maddox was just the cowboy to do it. He is falling hard for her, but will it be enough to get her away from her city life? Loved this book, makes you rethink what is important in life.

---

**Sandra R says**

Well written romance novella. 7/10

---

**Trudy Dowling says**

Even better the second time around. The only problem is now I this it was snowing. Maddox is just as rough as a rancher as his cousins. He loves the life. He loves the quiet. He loves the pace of being on the ranch in Montana.

It was a simple life until Haley ran into a snowdrift in her fancy Mercedes with paper plates. Haley is out of

place in the small town. But tell that to her heart. Anything can happen at Christmas. Wishes that you didn't even know you wanted can come true.

---

### **Sue Stewart says**

Really fun feel good Christmas novella - really wanted it to be a lot longer, I was loving it!!! I really, really liked Haley and Maddox but Aunt Jane was the greatest character of them all!!!

---

### **Bronwyn says**

A lovely quick addition to the series, we take a step away from the Campbell brothers and visit a cousin of theirs, Maddox who actually trains horses for them and he has all the country charm and sex appeal that you would come to expect from a Campbell.

Lovely character development for a novella length story, which is what I come to expect from this amazing author. Really great secondary characters like Aunt Jane and Hayley's dad.

Really nice to see a strong confident and wealthy woman hold her own, even if she did need rescuing in the snow.

I liked Haley and Maddox together, they had great chemistry, in and out of the bedroom,, loved their banter. Overall a great short addition to the series and I look forward to more.

### **Linda says**

#### **Loved it**

Maddox and Haley's story was nothing short of magical. Haley gets her car stuck in a huge snowdrift while driving to Seattle to spend Christmas with her Dad. Maddox comes to her rescue. Nothing short of pure Christmas magic after that. Absolutely loved it!

### **CarolKat says**

I read this originally in Holiday Heat: The Men of Starlight Bend.

Haley has gotten herself caught in a snowstorm that cancelled her flight. So in a move typical for her, she buys a car and starts driving, determined to make it home for Christmas.

Unfortunately when she decides to take a detour through a small town she ends up in a snowbank and rescued by an honest to God cowboy.

Maddox is her rescuer along with his dog Lance. But his method of transportation surprises Haley, Sammy is a horse.

She perseveres but not without a bit of protest. For some reason these two just like to bicker, fortunately his

Aunt Jane was warm and welcoming. Unable to reach her father, she is able to text her best friend, who would notify her Dad. Otherwise her phone wouldn't work at all.

A surprise winter storm party with many good neighbors that make her feel welcome add to Haley's adventure.

The Sporting Goods store gift tree, a Santa Claus with unusual gifts in his bag and a strange geeky nerd named Andy all add to the charm and laughter of this book.

Interesting developments as Haley takes a star from the tree and Maddox finds he is more than a little interested in this city girl.

Fun, laughter and intrigue as they find the gifts requested for the children on the selected stars and the two of them become an item in spite of themselves.

---

### **Deborah says**

This starts off the Holiday Heat bundle perfectly. This is a funny hot story about a young woman who is brainy and beautiful and thinks everything can be taken care of with her money. And a guy who is going to teach her that that is not true while he learns that she is not what he assumed. Enjoy I did.

---

### **Roslyn Donohoe says**

#### **Loved it.**

I have always enjoyed her paranormal and her historical series but this is the first contemporary of hers I've read. I thoroughly enjoyed it. I can see I will have to look out for more. So very well worth the read.

---

### **Terry Sasada says**

What an outstanding addition to the Riding Hard series. Haley is about to find out what is really important in life when her brand new sports car get stuck in the snow. She is rescued by Maddox, a cowboy who lives with his aunt in the middle of nowhere, near Starlight Bend. Haley ends up staying with them....no phones and no way out. She is finding she likes this cowboy and he feels the same. Haley is a city girl and Maddox is all country. But Christmas is a time for those special things to happen. This book was more than about Haley and Maddox, it is about family, friends, and discovering what is important.

---

### **Mrs. Garen L. Herd says**

#### **Good but short**

Well, of course, it's a novella. Maddox trains horses and lives on a ranch in the middle of nowhere. Haley is

on her way back home in a snowstorm. He rescues her and takes her home. And the sparks fly! Highly recommend.
