Aced Ella Frank , Brooke Blaine

From Ella Frank's Sunset Cove series and Brooke Blaine's L.A. Liaisons series comes a scorchingly hot novel that blends humor, passion, and romance.

What happens when these two worlds collide?

Ace Locke is Hollywood's hottest action hero. Women across the globe fling their panties in his direction, but Ace isn't interested in those—he's more of a boxer briefs kind of guy. Specifically, those of the nearly naked male model on a billboard he drives past every day.

Though he recently made headlines for his public coming out, Ace is wary about pursuing a relationship, fearing what the court of public opinion will do to his career. But there's something in the model's expression that intrigues him and has him wondering what if?

Dylan Prescott just scored his biggest modeling campaign yet. One that has him plastered all over L.A. in not much more than what he was born with. And when he's cast in Ace's latest blockbuster, it puts him in close proximity to his ultimate fantasy.

Outwardly confident, Dylan has no problem with his sexuality or his pretty-boy looks, and uses both to his advantage to get what he wants. And what he wants is the impossible—Ace Locke.

5 BIG stars for an AMAZING and VERY HOT STORY

I really loved this book!!! Minus the cliffhanger.

The characters were awesome! Ace Locke is a famous Hollywood actor while Dylan is a super HOT model. Each man dreams about the other. Ace has fantasies with the hot model in Calvin Klein boxers and Dylan has fantasies with the beautiful movie star.

They meet when and where they least expect and the attraction is HUGE!!! What made me crazy and kept me glued to the pages was the slow burning. Ace seemed very sure of himself but he kept his distance. Dylan was at first surprised by Ace's attitude, but he was not afraid to speak his mind and seduce Ace!

I read this wonderful book while travelling to Austria. I was very tired but I just couldn't put it down. It took me some time to finish it because I had a lot of thing to do, but I really felt connected to the characters and the story and my thoughts were with Ace and Dylan. A lot!

SEX is SMOKING HOT! A lot of dirty talk, smart comments and cute surprises. And a few HOT fantasies! I must admit I fell in love with Ace and Dylan! This couple is awesome!!!

Even if I couldn't understand Ace's choices regarding Dylan, well I really liked this story.

It was a very pleasant read, with not too much angst. I can't wait to read the next book. I wanted to scream when I finished reading this book because I really, really wanted to know what Ace is going to choose. So it killles me that I have to wait! But I am sure it is worth the waiting.

Ace Locke is a 33 yr. old movie star who is arrogant, confident, & sexy-as-sin! As one of the biggest action stars in Hollywood he lives his life under a microscope. After he comes out of the closet the paparazzi really up their game harassing him & trying to get the first public shot of him with a man. He valued his privacy & the press were just waiting to pounce, so he didn't feel he had the freedom to pursue someone he might find himself interested in & wasn't really putting himself out there.

One thing that he did indulge in though was his daily ride past the giant billboard of a hot as hell model giving a come hither look. He drove past it every day & this guy in his calvins totally did it for him.

Dylan Prescott is a model who moved to L.A. about three months ago from Florida. When his agent calls to tell him he booked him an acting job with Warner Bros studios, Dylan is stunned. He soon learns he will be in the new blockbuster with his idol Ace Locke aka the man of his dreams. He's had a crush on Ace for as long as he can remember.

Ace Locke arrives at work one day to find his new cast member is none other than the man he is currently lusting over on his daily drive to work. The best part of his morning & his ultimate fantasy is suddenly right in front of him & he's even more beautiful in person. Dylan Prescott had definitely caught his attention & fully had his interest. He wanted Dylan bad, but knew he had to be smart about this.

-I had never been so attracted to someone in all my life, yet the thought of acting on that was utterly terrifying.

-Dylan was even more attractive in person. He was...breathtaking.

-I wanted this, wanted him, and only the devil himself could drag me away.

Ace tries to use self control & be professional with Dylan, but Dylan is a man comfortable with himself & his sexuality. He was at ease with himself in a way Ace wasn't. He was a shameless flirt, self assured, & extremely forward with Ace. He was a man who went after what he wanted, & he made it very clear he wanted Ace. Ace finally reaches his breaking point in trying to resist Dylan & gives in to their connection. He finally decides he deserves happiness & wants to try something real with Dylan. Things just feel right when they're together & Dylan is everything he's ever wanted, but in Ace's public life drama seems to follow him.

This book ends on a bit of a cliffy, so I'm really looking forward to the next book Locked. Aced combined characters from both Ella Frank's Sunset Cove series & Brooke Blaine's L.A. Liaisons series. These two men I was already familiar with collide in L.A. & things get pretty steamy. I really enjoyed this story & can't wait for the next book!

-This guy was making me feel things I'd only dreamed about.

-There wasn't one damn thing about him I didn't find appealing.

-"I love looking at you. For any reason. Even just to reassure myself that I'm not imagining you so close to me."

★★★★ 1/2! **Aced**, book 1 of 2. Hollywood heartthrob & billboard wet dream fights paparazzi & their growing sexual needs on the movie set!

“It suddenly feels like it’s five thousand degrees in here.”

Books in PresLocke series should be read in order:

Book 1: Aced

Book 2: Locked

Book 3: Wedlocked

Aced (book 1) opens up to the daily routine of movie superstar **Ace Locke** ogling a billboard with a hot underwear model he would very much like to undress.

Underwear model and debut actor **Dylan Prescott** has always had a thing for Ace, but their first encounter leaves much to be desired and **working on the same movie** is not ideal for a bromance.

Ace has recently gone public about his (homo)sexuality and has since been hounded by the paparazzi to get the scoop on his sex life. In addition to wanting to his privacy, he is **still figuring his sexual preferences and needs** with a man.

Dylan is open and **carefree** in his sexuality. But he does have secrets and a painful past that he rather not introduce into his flirtation with the Hollywood heartthrob.

Played out in front of the relentless paparazzi and the world the story goes on to follow them in a flirtatious friendship **fueled** by steaming hot sexual tension and **held back** by secrets, confusion, logistics, cock-blocking, hesitation and privacy concerns...

Eight words to describe **Ace Locke**: Arrogant, reserved, conflicted, cocky, bossy, jaded, insecure and possessive.

Seven words to describe **Dylan Prescott**: Frank, self-assured, cocky, reflective, care-free, naïve, flirtatious and determined.

Aced, told from dual POVs, is a **slow brewing** flirtation and **hold-cold** seduction. A mixture of forbidden romance and facing secrets/coming out. It ends with a **shocker** leading right to book 2, **Locked** for the continuation of their story!

Off-the-charts sexual tension! **Explosive** sex! Dirty **secrets**, damaging **lies**, reckless **behavior** and everything else that makes for **scandalous** tabloid headlines!

I'm kinda ashamed, you guys. I broke up with Ella Frank, because it's not YOU, it's ME. But now we're back together.

See, when Amazon recommended this book to me, I was so excited it wasn't recommending Pokemon (I have a 7-year-old boy!), I caved.

And then I got sucked into the story. Because sex!

Dylan and Ace are not deep characters, but they sure are hot together.

I shelved this book under Angst Central, but it's more drama than angst. I really did not understand why uber famous superstar Ace, newly out of the closet, couldn't be seen with a man?

In typical Frank fashion, the first-person POV jumps frantically between both MCs, and the voices don't sound distinct enough. Likewise, the men talk TO you, breaking the fourth wall. I'm not a fan of that.

You know what else I'm not a fan of? Cliffhangers. And Ms. Frank is a multiple-time offender.

I really enjoyed Dylan and Ace's (first) story. I was already intrigued by both characters from their introductions in Ella Frank's Sunset Cove series and Brooke Blaine's L.A. Liaisons series, respectively. Although, originally I thought this story was directly a part of both series, it is now obvious that it is a spin-off all of its own... which I kind of love because it definitely had a different vibe going for it, compared to

the angst ridden stories Ella has expertly crafted within the *Sunset Cove series* and the feel-good chick-lit romps Brooke has created with the *L.A. Liaisons series*. This was somewhere in-between and I have no complaints about that.

I honestly enjoyed everything about this story, from the writing quality, to the characters themselves and their crazy hot chemistry.

I'm most definitely looking forward to book #2.

Re-read: October, 2017 (Audio Edition)

I was having a horribly sleepless night when I decided what I needed to calm my mind, and hopefully send me into peaceful rest, was a new audio of a book I'd already read (and hence knew would be a winner). Seeing Charlie David's name attached to this was enough of a motivator to green-light my one-clicking prowess. I've yet to have any kind of negative experience with his narrations and this time was no different. If anything, this second read, and first listen, actually made this story even more enjoyable than I initially recalled, so hats off to Charlie for somehow enhancing the story even further. I'll no doubt revisit this narration whenever I'm in need of some fluffy and romantic audio-goodness to get me through my week.

Maybe it was the particular reading mood I was in this week, or maybe it was the comfort I already felt in knowing what fabulously romantic things lay in store for this smokin' hot pair, but whatever it was, I can confidently say, I enjoyed Ace and Dylan's introductory story even more this time around. As such, I'm bumping my initial rating up a notch.

This was one hot steamy read. I'd fallen for **Dylan Prescott** in Devil's Kiss and wanted his story. Thank you, Ella Frank!! I love that this story is the combination of two characters from different series. Brilliant! In addition to becoming a fast fan of Ella Frank's, I also got to read Brooke Blaine for the first time.

I simply adored Dylan. His flirty, easy going ways are addictive and his open heart and loose tongue are adorable. He's not only easy on the eyes but also on the heart. **This guy is all around special and H-O-T!!**

And put him with Ace and forget it, panties...buh-bye!

Ace Locke is a big time action-hero actor who has recently come out of the closet. He wants Dylan...I know the feeling. He struggles with the constraints of being a big star, forever under scrutiny and now with his recent news, the paps are circling like sharks, just waiting for that first glimpse of him with a guy. These two embark on a secret relationship that is tested and also seriously combustible. **These two together are beyond hot and steamy.**

I'm still a M/M newbie with only single digit reads, but it's couples like Ace and Dylan that make me want to read more!

I must say that this ends on a cliffy. I didn't know this was a series but I was beginning to think so as I neared the end and I still had many questions. I'm glad you got more and I'm looking forward to more of this hot, sexy duo!!

Prettier Review @ Vanilla & Spice Books

When I read that the author of my most favorite MM series ever was working on a super-seekrit project with Brooke Blaine I was intrigued. I saw the cover and was sold on it. Yeah, I'm a cover-ho, sue me. Brooke Blaine's series L.A. Liaisons and Ella Frank's Sunset Cove are crossing over in this story so I was super curious about the result. What follows now is an attempt to put my fangirling feelings into words while giving you a spoiler-free review.

Ace Locke is Hollywood's hottest actor. He goes out of his way to drive by a CK billboard ad with a gorgeous model on it. The model is male and in boxer briefs wearing a kickass leather jacket. His breathtakingly good looks make the traffic stop and get Ace's imagination going. Ace has been out of the closet for a year but shies away from having a meaningful relationship because of the danger the publicity would pose to his career and a potential relationship.

Dylan Prescott is new in Hollywood. He has pocketed his first movie gig after the big campaign he modeled for which brings him into the orbit of the person he has wet dreams about - Ace Locke. Dylan has no filter whatsoever, is confident, witty, cheeky and easy to talk to. He is the least judgemental person on the planet and along with his beauty he has the "what you see is what you get" personality people seem to flock around. He also goes after what he wants without hesitation and he wants Ace. Their attraction in real life is instant yet Ace is reluctant to give into his growing feelings for this beautiful man.

Ace on the other hand is not as open as Dylan, his vulnerability is what defines his personality and he doesn't let just anyone in. He doesn't give his trust easily but Dylan sneaks past his walls and soon Ace finds himself addicted to the drug that is Dylan. There are surprising little details about these two characters I don't want to give away because finding them out was adorable and while I had already been on their team before those details were what sealed the deal. Ace's and Dylan's banter is hilarious, their personalities, while pretty diverse still cover some major traits.

*"You said when we get home tonight. Whose home did you mean?"
I caught his eyes with mine and then said with the utmost sincerity,
"Anywhere you are."*

These two dance around each other for a while and watching them fall for each other is like unwrapping your favorite candy. Peeling back the wrapper one layer at a time, knowing what it will taste like yet savoring the anticipation of having it on your tongue. And the moment these two let their bodies speak for them is like a

sensual explosion. Their chemistry is off the charts. Fair warning: have a second pair of panties ready. There is something insanely HOT about these two guys hitting it off, getting their MM-mojo on and bro-talking their way into bed.

If falling in love was the single scariest act a person could make, then I was ready to take that leap.

This author duo does an amazing job of co-writing, they are in tune and I could only guess what was written by Brooke Blaine and what by Ella Frank. They blend their styles together to one and make this story a fluid reading experience. I got a kick out of seeing characters from Ella Frank's other books pop in and I will definitely read Brooke Blaine's L.A. Liaisons soon!

Maybe I'm not the best judge...

Confession time AGAIN!! I signed up for the ARC of *Aced* before I even found out what it was about. Yep, I saw that cover and went...ooh baby...come to Mama (OMG, I'm so embarrassed that I just admitted that). Now, the problem with this whirlwind cover love is that I'm not really an M/M reader. I have a lot of friends who love them and when I do read them I enjoy the experience but I can't connect. In most of my normal reads to some extent, I'm picturing myself in the story which I obviously can't do in M/M. So, then I have to put on my peeping tom hat, pull out my magnifying glass for closer inspections and observe the scene like I'm at a Justin Bieber concert. I find myself smirking at times because I'm hanging with the cool kids completely out of my comfort zone. My eyes are wide open and shocked that people get off on this while tapping my foot every once in a while because I can't help but be pulled into the buzz. BUT...In the end, though, if someone asked me straight out if I liked the concert I'd probably deny I'd even been there. I'm sorry M/M authors, M/M fans and Justin Bieber fans, I'm probably going to stay in the closet a wee bit longer.

Well, now that I've got that off my chest I can tell you that I enjoyed *Aced*. I really enjoyed seeing Ace and Dylan connect and had a few chuckles watching them realise they were each the other's biggest fans. Dylan had been watching Ace's movies for years and Ace had been going out of his ways to admire the pin up picture of Dylan in his C K undies. Their first meeting was probably not the best, but it doesn't take them long to realise there is really strong chemistry between them. It does make things a little awkward that they're actually working together on Ace's latest movie. They have to try and be as professional as possible and not make googly eyes at each other.

The relationship between Ace and Dylan is very sweet. Dylan is confident in his sexuality and has loving parents who don't make him feel bad because of it. To be honest, I think Dylan's parent Sunshine and Ziggy nearly stole the show. They were both an absolute CRACK UP!! Now, poor Ace is very much the opposite of confident in his sexuality. He has only "come out" in the last 12 months and hasn't really settled into his new skin. Dylan is very understanding and doesn't mind being Ace's dirty little secret. Ace hates the secrecy but knows the hullabaloo it will cause when the press finds out. They decide it would be best for both of them to keep things on the down low.

Aced was a fast paced look into the lives of the rich and famous. Ace is coming to realise that the perks he gets with the job are something he just takes for granted. Being with Dylan has reminded him to stop and enjoy them again. The sexy times between this couple are steamy and intense. There's definitely a wee bit of kinky going on but it's not OTT or icky.

Aced finishes off with a bang and it looks like Ace has to make a major decision really quickly. Can they survive together or will they be better off apart? Tune in for another adventure in PresLocke...The Daydreamer and the Action Hero.

First thing first, this isn't a standalone. Yeah, you heard it right. There is a cliffhanger. Most of the time, I will be **moaning** and **whining** my ass off. But this time, I'm actually **thrilled**. Absolutely excited. I will tell you why by the end of my review.

Ace Locke is an action hero. Although he is out of the closet, no one actually seen him with a man before. The most action he got recently is masturbating to his fantasy man, the male model by the highway billboard.

Dylan Prescott is a male model who is working on his first movie with non other than the man of his dream, Ace. He is more than excited, but he is worried of making a fool of himself.

What are the chances that they are both each other fantasy came true?

It goes without saying Ella Frank's m/m work always have the hottest scene ever. So is no surprised that I love the foreplay and the actual deed between these two hot men. But this book actually offer so much more beside the smut.

Ace actually caught me by surprise by his insecurity and vulnerability. I would have thought being the hottest celebrity in town, he will be cocky and a total manwhore. Ace is actually a total opposite of that because he is so afraid of going after the man he is attracted to because according to him, no one wants to watch a gay action hero. I can totally sympathize with his predicament.

Dylan is a happy go lucky and down to earth guy who loves Ace, despite having to hide himself from the public. His background was a bit more ambiguous. He had a pair of crazy hippie parents that adored him, but the more he tried to avoid talking about his biological mother, the more I'm curious.

Ace and Dylan constantly tried to avoid being seen together, their stolen moments make each and every encounter much more meaningful. But how long can their honeymoon phase last before someone is there to burst their bubble?

By the time I reach the last quarter of the book, I'm starting to get worried I might not be satisfied with this book because there is so much that was left unexplored. I want to meet Dylan's parent, I want to know what the deal with his secret past and the most important part that I really need to read is Ace admitting his relationship to the public. So yeah, this book is simply too short to cramp everything in one book. There is so much more to Ace and Dylan's story and I can wait for the next book.

Review:

Aced by authors Ella Frank & Brooke Blaine is going to rock your world. This is a fan-f*cking-tastic story and If you don't end up loving Dylan Prescott and Ace Locke, then you might be crazy. No seriously. These two guys are so much fun and so **H.O.T.** Your panties are going to melt off, so bring an extra pair and grab this book!

Ace Locke, he is a Hollywood superstar, if you read Brooke Blaine's *L.A. Liaisons Series* then I am told you meet Ace there. I have not read that series but I have heard good things about it, not reading the series didn't cause any issues for me with understanding this book. Ace is getting ready to start a new film when this book starts. He has no idea the man on a billboard ad for Calvin Klein boxers with abs to die for and the perfect f*ck me hair, the man he has been drooling over and dreaming about is also going to be in this film.

Dylan Prescott is out in L.A. From Sunset a Cove Florida working on a modeling campaign when his agent gets him a part in a film. When Dylan finds out that this film is the latest by his wet dream of a favorite actor, Ace Locke, he is flying high. Until he meets him, then his perception of his idol is slightly altered. Even though he thinks Ace is a bit of a dick at first he can't deny that, dick or not he still wants him. Yeah, he probably wants him more because of his cocky attitude and body that won't stop - but can he deal with the life of Hollywood and all that goes with it? One of my favorite quotes from Ace to Dylan that showcases his cockiness - "*Be careful about making promises, Dylan. I just might take you up on them.*" - Dylan takes as a challenge and accepts it wholeheartedly!

The chemistry in this book - it is scorchin' hot! Dylan and Ace seriously will blow your mind. Dirty Talk? Check. Teasing? Check. Foreplay? Check. Sex in unique places? Double Check! These two are not afraid to pleasure each other, they get down and dirty and offer no apologies for their raw, almost animalistic at times, sex life. *Sigh* If only all of us had a relationship like them!

"God, I wanted him. On top of me, inside me, his body covering every inch of mine."..."I'd never wanted anyone the way I wanted Dylan in that moment. It was as though every single part of me was drawn to him. And I was done denying that.".."I knew in the seconds that followed that everything in my life was about to change."

I really enjoyed this story. I loved seeing some cameo appearances from Ella Frank's characters that we all know and love - and I have to give props to these two authors they really went all out in this story. Trust me, you don't want to miss it! I think once you get to know these two guys, you will fall in love with their personalities and their passion. So grab a copy of this 5+ Star book and hang on as these two go zero to 100 in more than one way!

Huh. I wasn't really expecting that.

I have mixed feelings about this book. On one hand, in my opinion it still had all the great basics one expects from an Ella Frank novel (even though it's cowritten with Brooke Blaine, which I'm not saying is a bad thing). On the other hand, the feel was just a tad off.

So... how likely is it that the top person starring in your fantasies becomes a reality? Pretty damn near impossible, but not if you're Dylan and Ace who happen to be working on the same movie. Each has been lusting after the other from afar, and wouldn't you know, the live version is even better than their own imaginations. And what do you think happens when these two cocky bastards hook up? Only good things right?? Right.

Points to stellar writing, great UST, and definitely to 2 hot MC's getting it on, well...hotly. Extra bonus points towards the ever appreciated minimal angst that touches on privacy issues regarding Ace's hollywood stardom. However, there's always a but right?? (view spoiler) Despite having certain expectations and ideas about how this was going to turn out and didn't, this was still enjoyable, still smexy, and in no way will it dissuade me from reading more.

Well, I really thought I'd love this one. I adored Dylan in Devil's Kiss and couldn't wait to get his story but this really wasn't doing it for me.

Ace is a hot film star and has been lusting after a hot model...Dylan.

Dylan is a hot model and has been lusting after a hot film star...Ace.

They meet on a flim set and it's intsa lust/love. Don't get me wrong I'm not against this if it's done well but this definitely didn't work for me.

I found the whole thing boring and they were just so childish at times...the banter between them didn't work for me and if I read anymore *Hard* references I was going to scream

The thing that really put me off was the whole gay thing with Ace.

So, he's completely come out as being Gay but is terrified of being seen/photographed with a man??

The sex scenes did nothing for me and felt staged and I skimmed most of them.

I enjoyed searching for hot images of them but that was the most enjoyable part for me.

Yes, I'm definitely in the minority here, but, I didn't enjoy what I read ...

Dylan Prescott is new to the world of Hollywood and acting. Ace Locke is a pro at the Hollywood scene, and one of the most well known action hero's. Their lives collide on the set of Ace's new movie, and they both want the other. But Ace needs to keep his life private, while Dylan has no problem showing who he is. Opposites attract, but can that attraction survive Hollywood?

I love the creativity of bringing two series from two different authors together. There was nothing that made it necessary for you to read either the Sunset Cover series or the L.A Liaisons series, but if you have you'll get that giddy little feeling of hearing about past characters a few times. Brooke Blaine and Ella Frank writing one story together came out flawlessly and I honestly couldn't tell where one author ended and the other began.

Like the authors, their characters came together in a very strong way. Once you saw Ace and Dylan together there was no denying the chemistry they had and I just wanted more. I became a greedy reader begging for more and more scene with them fighting and then ripping each others clothes off. M/m has it's own type of hotness, that's just a giving, but with this book the authors took that normal "oh wow, that book was sexy" and turned it into "holy shit my panties are ruined." I really wasn't expecting the kinky turn these characters took, but I'm definitely not complaining.

It was interesting to see how Dylan and Ace had a lot of similarities, yet were so different in their way of life. Dylan was a very open person that went after what he wanted, while Ace was still a little shy about taking what he wanted. Their relationship was slow to start, but it worked with the story because that way we got to see Ace working his way up to accepting that he needed to take a chance for Dylan.

When they worked up to finally letting that chemistry guide them, it exploded right off of the pages. They went from zero to sixty, one moment having those cute flirty moments, and then next...well let's just say I'm sure some knee's got rug burn. They were perfect together, all sexy and unique in a out of control way. Definitely something that makes you stop and take notice.

Bottom line, this book is one that must be read by all...but maybe don't read it in public. Unless you're into that sort of thing ? At first I was angry at the way it ended and wanted to rant and rave about it. But now I'm actually kind of excited that there will be a whole new book with Ace and Dylan. So bring it on!
