It is a great great book !!! I absolutely loved it <3 I'm thrilled with the nightshade series. I thought it has a very good ending. Once I read the first two books I thought : how will they ever give an ending to this story ??? I'm TOTALLY team Shay !!! And loved how Andrea Cremer closed this story, though somehow I feel it is not the end, like something is still missing. I think Connor, Ethan, Adne, and Sabine deserve to know they were not forgotten by the pack. I know it is not going to happen but it would be great to have a fourth book, Logan and Lumine escaped, and of course it would be great to hear from all the characters again !!!

I have read all 3 books and enjoyed them all. The third book was good however it took until 50% through it before it really got good.
