Three years after the bitter demise of my marriage, I was still no closer to opening my heart to a new man than I had been the day I'd found out about my ex-husband's affair while he was overseas in the Marine Corps.

The only positive thing to come from it was my blossoming accounting business. After a year of sweat, tears, and more hours than I could ever count, I'd survived my first solo tax season and was beyond ready to treat myself to a two-week vacation.

My only companion for the trip was my recently adopted Chocolate Lab puppy, Hunter. A chubby little ball of energy, affection, and more than a sprinkle of mischief. He was a welcome balm to soothe the lonely nights after long days spent alone in my office. The only drawback? His appetite for my expensive shoes. And purses. Couches, table legs...whatever he could sink his teeth into.

A few days after tax season, I locked the door of my office and loaded the little troublemaker into the back of my SUV and took off up the California coast to Holiday Cove, an idyllic beach side town for some serious relaxation.

Less than two days into the trip, Hunter proved to be an obedience school dropout—until he fell in love with Princess—a yellow lab who gave Hunter the right motivation to behave himself. The only problem? Princess came as a package deal with the dreamiest man I'd ever seen.

Lieutenant Jack McGuire. Aka Boomer. A hard-bodied fighter pilot in the US Navy who was charming, sexy and had a smile as wicked as the devil himself.

A man that had me questioning my vow to never get tangled up with a military man again.

And now he's leaving for a six-month tour, and my life will never be the same.

Don't miss BOOMER - The Elite! Part One and Part 2! KB Winters' brand new Fighter Pilot Military Romance!

KB Winters Boomer Part One & Two Review

KB Winters painted a picturesque view using a descriptive nature with words instead of paint brushes. I was pulled into this story with a rambunctious puppy, over worked tax accountant, her best friend, a much needed vacation in quiet beach town, quaint coffee shop and unexpected company. In a few short weeks Holly went from hiding a wounded heart to letting down her defenses and slowly opening up her heart to endless possibilities. KB Winters grabbed my imagination, allowing my mind to wonder with images of the story playing in my mind as the scenes unfolded. Just could see Holly running up the beach after Hunter. Watch as the look of shock and awe played across her facial features when she spied Jack and Princess coming towards her. KB's descriptive abilities gave my minds eye view of how I pictured the handsome man, see the intensely rugged muscled legs and arms, his sexy smile and expressive eyes and relate to Holly's shy approach. This story is a mixture of uncertainty, helpfulness, sexually charged anticipation and confusion. Anyone who's been in love can relate and understand especially those who have experienced heartache. The unknown future, wanting to take that chance and being afraid of the what did. This story has all the elements and kept my interest.

Then comes part two when Holly realizes Jack is worth taking a chance on even after her uncertain feelings regarding military men she is willing to take a leap of faith. Jack and Holly have a precious few moments together before he is deployed. KB Winters is on cue with relating the restless feelings Holly portrays in her thought process due to Jacks absence and the anxiety once she understands the seriousness of his responsibility once she realizes his ship is I. the middle of a war zone. The story is so accurately portrayed from all angles. I am sure many of those reading this can relate on some level to the anxiety, terror, frightening feelings described in the pages of this story. I thoroughly enjoyed the story, could relate to Holly in many ways and was so happy they found their happily ever after. Highly recommend all my fellow romance lovers read this!! Now it's to see what happens with Player!!!

Kendra Needs says

KB Winters this book series has moved to the top rankings of my most favorite books of yours, Boomer and Holly are a match made in book heaven.

Book two sucked me in faster than book one did, I flipped pages faster than I ever thought possible. I needed to know what was going to happen along with Holly as she sat on pins and needles every day while Boomer was deployed. At the same moments she was going through heartache and worry, so was I. I don't think I could have taken any more suspense of waiting than the book offered, it was slowly tearing my heart apart. Holly literally fell apart, but I guess that's the way it is for wives/husbands that are at home while their loved ones are deployed.

Boomer and Holly's story will not disappoint

Christina Oswald says

Love this 2 book series by KB Winters!

Book 1

Holly is a CPA who just got done with tax season and can't wait to get away for 2 weeks at the beach with her puppy Hunter.

Jack, "Boomer", is a career fighter pilot for the Navy on leave for 2 weeks before a 6 month deployment in the middle east.

Holly and Jack's chemistry is felt in their first meeting. I fell in love with Jack and Holly and their 2 dogs. I'm a big fan of KB Winters. I'm excited to see where she takes us with this new series. Cliffhanger warning

Book 2

With Jack on deployment, will Holly be able to handle a long distance relationship? Will Jack make it home to Holly in one piece?

This is a great series! I'm a big fan of KB Winters and her writing. You will not be disappointed.

Sue says

It's hard to describe this book, because to me it was very boring. It's about a divorced female CPA and her pup take a much needed 2 week vacation to a beach cottage where she meets a Navy pilot who is visiting a retired Navy buddy at the same location before he goes on his next mission. Just couldn't get into this book.

Charlotte says

I loved this book

Allyson says

ARC Review: As I was not happy with Part 1; Part 2 was surprisingly MUCH BETTER! At first the story was a little slow but then took off when Jack "Boomer" deployed and went on his mission. There were a couple of times I could not put the book down; wanting to keep reading to find out what happened. As a military spouse who has endured 2 deployments, I know what it's like to wait by the phone/TV. So, KB Winters did a WONDERFUL job at the emotions that Holly portrays.

I am looking forward to "Player's" story. I hope its about him and Rachel.

Lorraine Anton says

Great

Holly is a CPA on vacation with her puppy.

Jack (Boomer) is fighter pilot in the Navy on a 2 week leave before his deployment for six months. He has a

dog too.

They both fell in love with each other when they met. The dogs and the people.

Part 2 was much better than part one.

Their attraction was so hot.

I liked Rachel and Player also.

Carrie Renteria says

KB Winters you've really caught my attention here. This is my favorite series of yours to date. I couldn't put it down for one moment.

Jack and Holly were amazing characters you honestly felt every single emotion going through this book. As an Army wife I completely felt Holly's pain it was intense, real and incredibly close to what you actually feel. Which is impressive and you do not see that come across in a book very often. This book makes you feel connected with the characters from the very beginning. Jack and Holly were clearly meant to be together from the beginning.

I really hope to see Aaron and Rachel end up with their own little spin off ;)

Don't miss out on this series it was by far the best one yet!

KB says

4 stars

I received a copy of Boomer-The Elite books 1 and 2 the complete series in the book Show Time by KB Winters and this review was given freely.

From the first paragraph which introduced Boomer, I was Channeling Top gun. The first book is ironic, funny, and mostly sweet with a hint of steam as Jack aka Boomer and Holly begin to trust each other and, Holly accepts a life with another military man is possible. The addition of Jack's buddy Aaron and the dogs Princess and Hunter bring humor, complexity, and depth to the story. The second book holds lots of drama, action, and intrigue as Aaron and Rachael help Holly through the crisis of Jack being shot down. KB Winters words flow easily, the stories are filled with emotion, the characters feel like real people, and the ending is happy.

Rebecca says

Holly and Jack (aka Boomer)

(4 stars because I'm annoyed I paid for book 1, then book 1&2 - and there is still another f'ing cliffhanger, but it goes to Player's story)

Jack leaves for the middle east leaving Holly a hot mess. She is no stranger to having a significant other over seas during war time, but this time, she worries for Boomer's safety. Not knowing what he is up against. During the middle of a video chat, Boomer leaves amidst an alarm leaving Holly a bigger mess. She can't sleep, eat, work after his abrupt leaving for the alarm. She and Rachel drive to Player's house/airplane museum to see what he can find out. Turns out his plane got shot down and he ejected in time. But now is the

waiting game to find him. Boomers steals an enemy plane, shoots their hidden home base up and becomes a hero. Boomer gets sent home afterwards for debriefing.

Boomer goes to Holly first where they declare their love for one another, and on a whim when discussing their future, Holly gives up her CPA business to go to Germany with Boomer.

And that's where it ends and begins Player's story... I hate these cliff hanger books that make you buy the next one. Great story tho. I'm annoyed also that Holly gives up her life so quickly to go and be with Jack.

Like her business can just go away. Her apartment. What about her dog!? I'm sure all these questions would be cleared up in the followup, but i'll just sit here still annoyed with her decision and guess that more shitty decisions will be made.

Sue says

I can't even imagine being in love with someone in the military. The fear families must live with while they are deployed must be excruciating. In this book we get both sides--waiting at home for someone deployed and wanting to get home when you are deployed. This book has definitely given me even more empathy for their situation. Jack and Holly's story is engrossing. I would definitely give this one a try

Coco.V says

Sheri says

Once I started the book I could not stop. Jack, a fighter pilot that is about to get shipped off for six months has a two week leave. Holly finally is able to take a much needed two week vacation. They end up on the same beach with their dogs that are just too adorable together. Can they just be friends? Because can they really be anything more when he is leaving for six months? Will they be able to forget about their past issues and hold on to each other when they are physically separated? This two part series is a quick read and definitely enjoyable. I can not wait to read Player's story.

Kathleen says

Would you ever believe that you would meet your soulmate while on vacation? That is exactly what happens for Boomer (Jack) and Holly. Boomer is a naval pilot who is taken a few weeks before his next deployment. Holly is taking a few weeks after a busy tax season. When their dogs meet romance blossoms for both the humans and their pets.

You will laugh with the antics of Hunter and Princess. You will ache as these two decide to take a chance on a relationship and you will hurt for Holly when she lives through Boomer's deployment.

This book is well written and you will find yourself not wanting to put it down until you find out what happens. The dogs and Player even give you a few chuckles along the way.

I received this book along with an Arc form the author and am voluntarily writing this review.

Carol says

Boomer-The Elite: part one and two

Two meet by chance on the beach, with Holly's puppy taking off towards Jack's dog Princess, and of course there they are both attracted, but definitely not going to do anything. She is there for a two week vacation, he is on a two wk leave before heading on assignment. He doesn't do relationships, she is divorced, not really wanting a relationship, and especially with him getting ready to be gone for 6 months or so. Still the attraction is there, what will happen, will she give him a chance, a beautiful story, amazing, heartfelt, will leave you wanting more! Would love a follow up❤?
