## **Cheater: Guilty** Jamie Fuchs

Tiffany is your average woman: she needs to feel not just loved, but desired. Sex with her husband is good, but it's starting to lose its luster. What she really needs is something she can never get from him; something a bit more... wrong. When his best friend Ed ends up staying at their house, she realizes that he might have just the thing to satisfy her.

This is part 1 of the *Cheater* series:

1. Guilty
2. Stolen
3. Caught

# **From Reader Review Cheater: Guilty for online ebook**

## **Dee says**

3.5 sex without a lot of plot stars.

This story was basically a sexfest - The heroine plays maid for her husband, then further on in the story fucks his mate while said husband is passed out drunk. Short, hot, no frills, spank bank material.

I didn't care for the reference to 'that' book, or find it necessary.

Very well edited, which is always a pleasure these day.

Will I read the next instalment, not likely. I need a little more substance with the drippy stuff.

---

## **Diamond Drake says**

This was a hot little teaser. However, I didn't really see a big difference between Tiffany's interaction with her husband, Dale, and his best friend, Ed. If anything, I thought things were hotter with Dale. The synopsis made it seem as if Tiffany was bored in her sexual relationship with Dale and that Ed offered the excitement she needed . . . but he basically did and said the same things so I didn't quite grasp what Tiffany was missing. Oh well, it was entertaining, nonetheless.

---

## **Patrick Shelly Jr says**

Quick, hot, and wrong... All elements that made this a hot little story!

---

## **~Mel :)~ says**

Cheater was a hot quick dirty fantasy read! I am not much for cheating, or books with cheating, but this was done decently. (not that cheating is every really decent) If that does turn your crank though, this is a for sure read!

---

## **Rob says**

Ah Tiffany, you dirty cheating horny little slut!!

---

### **Stefanie says**

What a dirty, filthy and hot book.....I need more of Ed and Tiffany now

---

### **crystal sturges says**

**Wow**

**Wow**

another awesome book can't wait to read the rest of this series either. my husband is very happy when I read stories like this makes our nights more interesting after the kids are asleep.

---

### **Blondie says**

yes this is a serial story/novel but the author did not end this book in a cliffhanger which is better than some but I personally would rather have the entire book.

The author did a good job with this portion of the book but it is just a sample of it but I will check out the compilation.

This book has a little bit of a plot but not much and no character development but I think it is only the 1st installment

---

### **Indie Editor Nancy says**

Another quick sexy read, excellent writing and believable story. A married couple strive to keep the passion and excitement in their relationship. A friend needs help and a wife ends up feeling guilty. Great start to a series by this talented author.

---

### **Selene says**

2.5 stars

This was a short and okay read featuring a bold woman and her desire to give into fantasies at her fingertips. This story was a freebie on Amazon.

---

### **Joanne Carr says**

## **Blah**

This story was so short and went nowhere other a wife and best friend of the husband getting it on while the husband is passed out..

Thank goodness this book was free I would have been disappointed if I had to pay. I hope the next book is better.

---

## **RB Martin says**

Short fappable material

---

## **Keishua says**

### **Good read**

Tiffany is a real piece of work. This story made me like her at the beginning, but she and Ed changed that in the end. I can not wait to see if Dale finds out in the second book.

---

## **Steve Vander says**

The sex was fun and exciting, for the most part. It was the cheating aspect that caused me to not be able to give more than 3 stars. That and how the book description was misleading. It opens with an exciting scene between husband and wife - both have great fun. Then another man moves in, and the woman humps him as well - while her husband is nearby passed out. The misleading part was the part wherein the description noted that the woman was kind of bored of the sex with her husband - but she wasn't. It's more that she's a nympho more than anything else.

---

## **Cassie Kabrick says**

loved it. It was hot. The reason for 4 starts instead of 5 is because it was more of a teaser than the book, and both of the next two segments were short as well, wanting \$3 each, which seemed excessive. This was great for a free read though.
