## **Kim says**

I love reading about ghosts and their haunts from all over the world. This book did a good job of presenting interesting paranormal cases from all over the state of Pennsylvania. There was a fair amount of information concerning Gettysburg, but that would be expected. I also liked the way the author compiled different versions of the urban legends and presented them instead of choosing the most popular one.

If you are into the paranormal and looking for some real life places, this book is a good beginning point.

## **Jeannie says**

As an elementary introduction to the various hauntings throughout the state of Pennsylvania, "Haunted Pennsylvania" is a suitable read: as much more, it's unfortunately far too basic. Coverage of reported phenomena across the state is decidedly focused on the hot bed of paranormal activity in Gettysburg, with further emphasis placed upon Philadelphia and the surrounding areas. Sadly, this leaves a vast portion of the state entirely overlooked, including the capital region in Dauphin and the farmlands of Lancaster. Furthermore, the text, while weighted toward specific, well-known locales (i.e. Eastern State Penitentiary, Gettysburg, etc.), reads like a C-grade high school research paper, complete with horrible editing (Baker's Mansion becomes "Baker's Manson" for several paragraphs). Overlooking the cheesy, digitally-rendered photographs (see cover) throughout the book is a must, as is expecting any detailed, original reporting. Look at "Haunted PA" is exactly what it is: a barest of bones introduction for the curious of all ages or a fun read for your middle-schooler. Happy Hauntings!

## **Diana says**

Great ghost stories from Pennsylvania.

---

## **Alyssa Boxer says**

This was a nice collection of ghost stories.

---

## **Renea says**

I love ghost stories and was tickled that there were entire chapters on both of my home towns--Philadelphia and State College. That being said the book is pretty cheesy and not exactly the most compelling or comprehensive list of narratives. But it is an easy, quick read for folks who love ghost stories.
