Belky says

Adorable, very simple but the pictures are just so fun to look at. It has been a great tool to teach English to young kids.

I read a copy of this from the publisher via work, with no obligation to leave a personal review.

So, so sweet. I have a particular weakness for daddy stories, since moms receive lots of deserved love but dads should get some too. This one is paired with warm illustrations and perfect, simple text, to give you all the warm and fuzzies.

Briana says

Beautiful illustrations...that's about all I got from it.

Braun, Sebastien I Love My Daddy. BOARD BOOK. Harper Collins, 2017. \$7.99

This is a simple board book that celebrates the relationship between a child and their father. The baby bear narrates the story, telling all the things Dad does for him--feeding him, playing with him, cuddling him, etc. All of these things are reasons he loves his dad. I liked this little book that will be perfect for the youngest readers. The illustrations are in a soft lighting that makes the whole book feel peaceful and sweet. Kids will love reading this one with their own dads.

Christy says

This soothing bedtime read tells the story of a loving father bear and a very lucky cub. Sebastien Braun's furry pair spends happy times together in a gentle woodland setting; their unfeigned happiness and warmth visible in every evocative two-page spread. As festive as a splash in the pond.

Natasha North says

A pleasant read to share with toddlers and wee ones to celebrate fun with fathers.

Stephanie says

My 9-month-old son adores this book, and so do I!

Courtney says

So simple and sweet. Perfect for preschoolers and dads to read together.

Drew Graham says

A daddy bear does lots of things to look out for his cub, but the one thing the cub does in return is more than enough.

I always like a good daddy book, and this was a great one. The illustrations are charming and original, there's a lot to look at and think about, and there's a nice turnaround at the end. The Boy (2.75) and I act it out as we read along.

Michelle MacQueen says

An adorable little story to share with the babies in our lives.

The book:

I Love My Daddy is a board book that details all of the wonderful things fathers do for us in the simplest terms. Each page is a cute image of a daddy bear and a baby bear doing various activities - sitting, bathing, chasing, etc. - with only a single line of text.

beautifully illustrated and sweet sentiments

Roberta says

Perfect for a Father's Day program

Jeniece Goellner says

Not gonna lie, it hurt the "mama" to hear baby Grace just yell out "DADA" as we were reading this book and look at her daddy. But I can't fault the book. It is a sweet story that any kid will find comparison in their daily activities. The illustrations are soft and lovely.

Paul Davidson says

Wonderful book to read with my 2.5-year old son. He can almost read the Book by looking at the wonderful pictures. We have some other father son books, but this is the only one that prompts him to give me a hug.

Kiersti Baxter says

I thought this would be cute and it is. It's not a huge hit between my husband and son though.
