### Angela says

I wasn't sure what to expect with this series, as it is a spin-off of the Caged series. I absolutely love the Caged series: Ruby, Sean, Scarlet, and the boys. It's hard for me to read a spin-off to a series I love because what if I don't love the new one? What if I don't like the characters or the way the story lines are used? It's a lot of what ifs and unknowns and sometimes it can be scary.

So, Sapphira is the daughter of two very powerful supernaturals, and when you find out who they are, wow! The pressure that this woman has on her shoulders is huge! She can't control her powers and her family can't trust her. She hates her life and lashes out at anyone and everyone to show her frustration.

This is a supernatural, fantasy story but has a romantic element to it. During some of the story in Iowa, I was wondering why Amber Lynn Natusch doesn't have many contemporary romances in her repertoire. She has some amazing skill at writing these characters that have attraction but have such complicated issues going on that it almost makes it impossible to have a relationship. She doesn't write "love at first sight" type stories; they have depth, complexity, ups, downs, attraction, and steam. I am someone who doesn't like to read many romance novels, however I love the romantic aspects of her stories, especially this one.

Bottom line, if you love the Caged series (how could you not?), then get this book. If you love romance with a little supernatural bad-a\$\$ery thrown in, then get this book. You might want to read the Caged series first, but you don't have to. But!! Don't read this first and then read the Caged series. Huge spoilers abound in here!!

#### Same world, New story

An amazing new series set in the same world as the Caged series. Amber Lynn has made yet another amazing read that I could put down. Be sure to get the Caged series as well, you don't want to miss one heated and exciting moment of this world she has created.

The strong points of this story out-weight the weak ones, but only just. Sapphira, as introduced at the start of the novel is a most unlikable character. Profane, promiscuous and combative, there is no reason for the reader to like her. Very quickly she loses her memory and we are left with a new, much more likeable protagonist who spends most of the story trying to get her memory back. By the end of the book we end up with a third character (and sort of a fourth that coexists with her).

There were editing problems where the story seems to skip, almost as though a few connecting paragraphs were missing. The author seems to have a hard time visualizing the scene she describes at times. In one instance, Phira is halfway up the stairs when she notices Gabe's mother watching her. This seems improbable

as I would think that her back would be to the room and using crutches to navigate would make twisting in the middle of a staircase difficult if not dangerous.

The story did bog down during Phira's stay at the farm. I was almost ready to put the book down when the pace finally began to pick up again. Phira's defeat of the Anemoi was so quick and perfunctory that it was almost anticlimactic. Not sure if I'd read any more of the series.

wow.... Having sex with with many men makes you "a dirty whore" "disgusting" and a "Bad Person" Slut shaming much?

She "Had" to have sex with many men though, so that makes it a bit forgivable  
Seriously?

Having sex with many guys not make you a "Whore" there is nothing wrong with fucking a lot of people. It doesn't make you bad, impure or disgusting.

Trying to Finish the book, but already now halfway through I'm tired of this misogynistic shaming bullshit. It's too bad, cause the story seems like it could be somewhat interesting, but this shit is distracting as fuck

#### **Mind blowing!**

What a great start to what I'm sure will be an amazing series! I was so happy to jump into The Caged world again! I was sad to see Ruby's series end, but thankfully we get to catch up with her children in this heart stopping Urban Fantasy! I can't wait to see what happens next

#### **It's a miss for me on this book...**

I felt like this was just a rambling narrative. It's like the author didn't know where she was going with this story or what type of story line she really wanted, but kept typing to meet an end.

I've read her books in the past and enjoyed them. This one...not so much.

### **Set in the world of Caged series**

Meet Sapphira, the daughter of Sean and Ruby from the caged series. I loved the caged series and I'm so happy this is sort of a continuation of that series. Don't think this book is about characters from the caged series, because it is all about Sapphira and what powers she has and how they impact her life along with the people in her life. Some characters from caged make small appearances, but that's it and I happy to get to know other characters set in this world. Get set for an interesting read full of action, adventure , and mystery.

### **Awesome Character Development!!!**

For one I am SO Happy that the Caged series continued with the children and the development of each character and their super natural power. So far it has just added to the overall experience for me and I am in Live with Gabe and Phire she is totally kick ass and I can't wait to see what happens next with her!

I did like this story. For me it started out great(ish), not exactly the greatest fan of her coping mechanisms, the middle was wah, wah, wah for me, then it all came together at the end. I liked the characters, the story was unusual and I enjoyed it, and I did emotionally connect with a few of the characters. Overall nice way to spend my time.

There are a lot of things that I want to like about this book but they're not quite enough to overpower some of the things I really did not like. I almost gave up after the first chapter but I wasn't quite put off enough to stop reading.

So the good things—the main character, Sapphira, is really intriguing. When we meet her, she's having sex with a stranger to help take the edge off her powers, which seem to be even a mystery to her. I love when authors "remix" established stories—in this case it's Greek and Roman mythology mixed with some additional supernatural beings—and I wish there'd been more of that world in the story. But there were a lot of things that just bothered me.

The not so great things.(view spoiler)

## **Kelly says**

Sapphira, or Phira, is having some anger issues to say the least. She is under constant monitoring since a supernatural incident that left a town destroyed. The constant babysitting doesn't help her rage issues either. While she always has her twin brothers, Nico and Alek, or The Specialist, TS, with her at all times she feels lonely. Everyone around her feels her wrath because she has no choice in what she can do with her life and she can't soothe the anger she feels. Circumstances are set in motion for Phira to find her true self.

Live Wire grabs your imagination and holds it to the very end. It is the perfect blend of action, mystery, and suspense to keep you glued to the story. There is even a little romance throw in there that is perfectly done. My heart ached for Phira during this story as she found true self.

This book is part of the Caged World. You DO NOT have to read Caged to understand this book. This series stands on its own. If you liked or loved Live Wire like I did, check out the check out the completed Caged Series.

I need the next book, Kill Switch, like now.

### **A complex story of humanity and the supernatural**

This was an author I had heard good things about but hadn't had a chance to explore yet. I can't say I'm disappointed.

The building of characters and the intricate weave of the story was brilliant. We were able to see how a shattered life can be put back together with a little self belief.

Spoiler Alert!!

She's done it again!!

Where to begin??

This woman is Midas when she writes!!

This book has all kinds of kick ass action, love and the right amount of magic!

It was fun to get to see Sean again. Missed that guy

I am dnf'ing this. I'm sorry. A lot of people seemed to enjoy this book but if I have to read one other page where Sapphira is talking about how she's allowed to be a slut and a bitch because her life is "oh so hard", I am putting my head down the toilet and flush until my brain is cleansed.
