Keisha Ervin is a very good writer. this book is about this girl name Dylan is one of them girls that loves to hate. She's a material girl, living in a material world filled with diamonds, furs, limousines, celebrities, and private planes. this book on some pages can reflect on my life some can't but dont get me wrong Keisha Ervin is a strong writer.

Shanae says

I *really* enjoyed this book. I finished it in 2 days and it would have been one if I could have kept my eyes open last night. Ervin is definitely one of my favorite urban lit writers...she is very good at telling a story! She does a good job at creating characters that you can relate to and understand. Many of Ervin's writers will be able to relate to Dylan and Billie, some may even be able to relate to Tee Tee. Ervin kept my interest and the plot was quite intriguing. I'm actually going to buy Material Girl 2 and support Ervin. I appreciate a good story. And Ervin actually delivers.

Keisha Ervin has done it again. She's such an amazing writer especially for the Urban Literature world. Her books have always showed that there's a truth in Love. From "Me and My Boyfriend", "Mina's Joint", "Gunz and Roses" and "Material Girl" all are the epitome of true black love. You may have obstacles but love somehow prevails.

Ervin is an inspiration to me. This book was a strong eye-opener that you have to know you deserve love and it can be there right in front of you. You definitely see the character arc in this book for the characters Dylan and Billie.

Let me start off by saying that Keisha Ervin is one of my FAVORITE urban fiction authors. I have read all of her books starting with her first novel "Me and My Boyfriend", which is still by far one of my favorite books of all time! I find that her books encompass relatable situations for the every day young woman heightened with some things we may want to experience but do not have the means to. When one hears "urban fiction" I think they instantly think vulgarity, sex, and drugs. While a lot of times that is the case, this author goes beyond that. I notice a pattern of "relationship" related topics. If we have not experienced something that she has written, I can guarantee we know someone who knows someone who has been through it! I read a lot of books mainly from the urban fiction genre but because of the type of person I am (a "sucka for love"), my reading preference is books that deal with the topic. I am going to try to do a review of her latest book entitled "Material Girl" without it doubling as a spoiler, just in case any of you lovely people

are interested in picking it up.

In my opinion, Material Girl is a good book. If I had to put it on my list of favorite novels written by Keisha Ervin, it would be number 4. The book is about a young woman by the name of Dylan Monroe and her relationships with her boyfriend, State, the handsome, successful, liar, her mother, Candie, the outrageous man and money chaser, her best friend, Billie, who is brutally honest with everyone else but herself, her cousin Tee Tee, who is just off-the-hook, and Billie's brother, Angel, who is also handsome and successful like State, but is the opposite in every other way as far as Dylan is concerned. The title of the book definitely describes Dylan, she is a "label-whore", who purchases more than she necessarily can afford and thinks she has it all because she owns a mass amount of material things. Throughout this novel you will see Dylan loving someone that doesn't love her back, then she gets a good man but is so stuck on the bad one that she doesn't recognize it until it's too late. I recommend for anyone who loves to a good read about love, hate, lies, betrayal, infidelity, denial, drama, and steamy sex scenes. The ending isn't strong but you can tell it's a set-up for a part II and I respect the growth of the character so I was satisfied.

Oh and I just read that we can expect part II to release on July 26, 2011. I already have it added on my Amazon Shopping List because although it wasn't my favorite, it definitely is a good read that held my attention from beginning to end and I would love to see what happens next!

Material Girl

Definitely a great read that I didn't want to put down. Dylan was so blinded by materialistic things that she often found herself making many mistakes. She allowed one man's lies to cause her to lose the best thing she'd ever had. Billie and Tee-Tee were great friends to have because they often kept it real regardless of how harsh it seemed. Tee-Tee was beyond a trip and I truly loved his character. Billie was caught up in Cain but it was good knowing Knox was able to bring some joy back into her life. Now Candy was trifling for what she pulled on Dylan and needed to find her own way instead of all the get rich quick schemes. Angel was the epitome of a good man and instead of Dylan appreciating it, she allowed her insecurities to dictate her decisions. State worked my nerves to no end and Ashton got one up on him for sure. Dylan proved that things can change in the blink of an eye and none of the materialistic possessions owned will matter. I can't wait to start part 2.

Greatness

I loved this book from the very beginning. Dylan was spoiled rotten and thought that money could buy happiness. State kept coming into her life and was her drug of choice. I loved the bond that Billie and Tee Tee had with Dylan. It's hard to find that bond these days. Angel was the one for Dylan but she didn't see it until it was too late. I highly recommend this book.

Mrs. Ervin did a more than splendid job on this book! I recommend this book to all the pretty girls put there who think they have it all and love to be selfish and spend spend spend! This was a delight to read and I learned so much about each character. Some are just not willing to change their ways like Candy. Eventually, everyone is happy and chooses their own directions and make their own personal decisions. I can't wait to read the rest of the series! I'm dying to know if the baby will be Dylan Jr or Angel Jr...

Ney Ney says

I absolutely looooved this book. This was the first book Ive ever read by Keisha Ervin but its sure not the last. This is a must read and I hope there is a part 2 coming out.....SOON!!!!

4 out of 5STARS

Genre Urban Lit/Romance

I thought this book was pretty good but the main chick Dylan was not quick on the up take. Dylan has an inheritance and throughout the book she just spends, spends and spends some more. Mind you Dylan does not have a J O B. In the mean time she has been seeing her off and on ex bf State. Problem is this dude is all out for self and will throw Dylan under the bus if need be. While out in LA with her bestie Billie(girl) and she finds out just how out for self State can be... But Dylan is not broken she moves on with Billie's little brother Angel. Angel is a pro boxer and all kinds of sexy, him and Dylan hit it off and sparks fly. Unfortunately Dylan has a weakness. State. And when he calls she goes running right back to the heartbreak hotel much to Angel's dismay.

Dylan was very naive and insecure about herself in a lot of ways. I gave this book 4Stars b/c/ause of Angel this dude was smokin HAWT!!!! It took waaaay to much for Dylan to come to her senses. This chick had to suffer too much lost to finally see the light. SMDH...

The secondary characters played their part well Candy,Billie and Tee Tee are hilarious to the point of tears!!:D

My Rating

Characters- Likable

Writing Style- Good and Witty

Plot/Storyline- Enjoyable

Overall- Enjoyable Read

Teaguem2005 says

Very well paced story of poor little rich girl Dylan Monroe. Dylan is, a self centered, label whore who spends frivolously but loves too seriously. The object of her desire is State. He is a rich, egotistical man who does what he wants while blindly stringing Dylan along.

We get to meet Candy along the way and makes it perfectly clear how Dylan came to be the way she is. Dylan has 2 bffs that love her to death but hold no punches when they think she's letting State play her.

When Dylan finally has her "aha" moment it changes her life.

Ezraela-Bat says

As usual Keisha delivers another exclusive read, just when you think her books are going to be predictable she fools you, the ending wasn't quite what i thought it'd be but a good ending nonetheless.

Monie says

I love this book series, I read this one, 2 & 3 all in two days. If you're a fan of urban fiction you'll love this.

Danita Brown says

Material girl by Keisha Ervin was a damn good read. This book brought me 2 tears at the end. I'm so glad Dylan put her big girl panties on and finally so the light. And I hope it's not 2 late 4 her. Can't wait 2 read the next 2 books in this series.

A. Jones says

It was nice to read an 'around the way' romance, without the drugs and violence.
