Number FOUR World Facts TheBrothers

" Knowledge is a familiarity with someone or something, which can include facts, information, descriptions, or skills acquired through experience or education " Wikipedia.

As parents we want the best for our children.

This book is about acquiring knowledge. We wrote this book in a very unique, fun and interesting way in order to enable you, as a parent, to read, learn and explain these new facts to your children.

It took us a long time and a lot of effort to investigate, discover and bring you the most interesting and amazing facts.

Each book includes a different number which is associated with facts that contain this number, as we said before, it is unique.

Read it the book to your children, speak to them about it and explain it to them.

From Reader Review Number FOUR World Facts for online ebook

makayla lynn cuthbertson says

It was really good.

It gives you a lot of good facts.I like it.

It gave you a lot of good facts facts about the number 4

Seyi says

Nice book

Only few facts

No peep of the other books??

Not much books written

Disappointed ?

Very short book ?

Nice facts anyway?????

Ailende says

Awesome

Awesome

It was great

I learned so much about the number four and also still had fun reading.
even though it is a short book it tells you a lot of facts

Angela Hutchinson says

This a great book that has interesting facts that involve the number four. This could be used with

kindergarten/1st grade to learn the number four, or it could be used for older elementary students to show facts that involve the number four. I like the concepts that were linked to the number four such as, the seasons, elements, and math. This is one of a series on the numbers.

ghunaim says

Valuable info for children

I'd recommend this book for children as a start for reading and knowing useful information.

Number one, two & three book are nice ,too.

Zara Jayne Faloon says

GOOD KIDS BOOK

This is a good book for parents to read at bedtime because it's short enough. Cool facts for kids all dealing with fours.

Jane says

Number FOUR World Facts points out that we have four seasons, four points on a compass and that cars and pickups have four tires, which are all everyday things children can observe and learn the number sense for the number four in the world that surrounds them. This is an excellent series to promote math skills and point out some science facts too.

Doingitwritenow says

Too short

this book was very informative but too short! I even learned a few things but I wanted to hear more!

Jessica says

Fun book

Fun facts for kids. Laughed a lot while attempting to move our pinky without moving the ring finger...lots of fun

Amanda Kay says

Interesting

My daughter is 4, so going through this with her was quite fun! Some of it was over her head, but it led her to thinking and using her imagination. She enjoyed counting 4 on every page, showing off her intelligence lol!
