Sleighed Harmony Raines

Join bear shifter Bas as he decides to go up Mistletoe Mountain for some R&R, just him and his bear—when his mate falls out of the sky. Literally.

Pepper has *one job*. It's a pity she can't remember what it is!

Waking up in a strange cabin, well everything is strange when you've lost your memory, she learns to trust Bas, even if he is a lawyer! Things get stranger when she learns what she was wearing when Bas found her.

Something is amok! Join Bas and Pepper, as they put the pieces back together in this fun filled, holiday romp.

Warning, includes two flying reindeer, a sleigh, a sexy bear shifter, Krampus and maybe a Christmas Elf or two. Unsuitable for those who **do not** believe in Christmas Magic! You have been warned!

Lori says

A cute book!

There are so many books out during the holidays and of course, they run on the same theme. So it's always fun when a new twist is found, as we have here. I also enjoy it when the author is from outside the U.S., because then we can find a turn of phrase that just doesn't seem logical when read. Just a "for instance", to us the words "fancy dress" would mean a suit or tuxedo for the gentleman, and most likely a gown for the lady. I had a laugh when the character's outfit was termed "fancy dress". It's a cute book, it's a fun book. I hope you enjoy it too.

Kym says

Cute

Pepper has a sleigh wreck, falling on top of Bas Manners, but she can't remember who she is or what she was doing. She even forgets the sleigh. Bas recognizes her as his fated mate but thinks she might be "two sandwiches short of a picnic"

because she was dressed as an elf and all her answers to the questions he asks to try to jog her memory indicate an obsession with Christmas. When she does remember who she is and what she was supposed to be doing, Bas helps her with her mission.

Nice story, cute characters, a couple of tastefully described sex scenes.

Nancy E Morrow says

I just want to let all know how great this book was! Enjoyed all the twists and turns and the love story!

The book was great! It was entertaining how everyone turned out being great and not expected to do all the good they did. Just goes to show you shouldn't judge anything by first impressions.

Sally906 says

What a wonderful Christmas paranormal romance. The first in a trilogy 3 friends each find their mate at Christmas. In this book werebear Bas, meets Christmas elf Pepper, and after a wonderful adventure and lots of Christmas magic they get their Happy ever after!

And even better? I have the next two in the series. In the next one a werebear meets his mate - a fairy godmother and the last werebear meets his mate with the help of a fairy and a leprechaun!

Jenny Prose says

4.5 Stars

I really enjoyed this bear shifter story, it's book one and was so cute. While Bas is a lawyer in the real world, he needs a few days away in his cabin to let his bear lose. He has no plans on finding his mate until he comes across a woman in an elf costume in the snow. Then everything changes for both of them. We get to meet Dasher and Dancer, who are Raindeer Shifters that pull Santa's sleigh. We even get to meet Krampus! This was such a different, yet enjoyable holiday read.

Sandie Mumford says

Flying bear???

I loved this book! The idea of a Christmas Elf falling from the sky and landing on a bear was great! And Krampus was hilarious! You have to read this! Thank you Harmony Raines.

Ski Croghan says

Santa, elves, reindeer and a bear.....

What happens when Santa's sleigh, pulled by two reindeer and driven by a curvy, Christmas Elf crashes into a bear named Barnabas? A bear and an elf find their mates!! Can a bear shifter lawyer who doesn't believe in Christmas believe his mate is a Christmas elf who has lost her memory when she crashed Santa's sleigh into him high in the mountains during a snowstorm? And who or what is a Krampus? To find all the answers you will need to read *Sleighed*, the 1st book in the the Christmas Bears series. The writing is outstanding, the characters fun and believable and the storyline charming. Highly recommended.

Anna's Herding Cats says

Aw I loved that! *Sleighed* was super cute and perfect for the Christmas season. Sexy bear, a lost heroine, some Christmas magic and surprises along the way. Yes, it hit the spot.

The Gist: Pepper is on a dire Christmas mission. The first she's been given. And...she crashes the sleigh! Not only that but she loses her memory! Thankfully a wandering bear comes to her rescue and with his help and that of a few surprise individuals...Christmas is saved!

Pepper was cute. She's an elf who's lost her memory and doesn't have the most confidence in herself on a regular day. But she's sweet and kind and you can't help but adore her. And Bas... big sexy bear. Can there be enough big sexy bears? No, there really can not! He's a good guy and easy to fall for, too.

Their romance is fated so there's an initial attraction. Things are kept pretty innocent for a while due to her memory but it worked and eventually some steam came into play, too.

I enjoyed their mission. A race to save Christmas from a supposed evil doer. Some magical reindeer sidekicks, a little love and kindness. It was a fun ride that left me smiling and cheering them on, too.

All in all, Sleighed was the perfect shivery Christmas read.

? FREE on Amazon today (11/24/2018)!?

Elizabeth says

the author has two series with almost the same name. i thought i was reading the other series but after a few searches figured out what i was reading. I enjoyed the story and liked the characters just wasn't too crazy about the fact that both H and h has daddy issues...
i am going to read the next two in this series

Louisa says

A magical Christmas romance

A very enjoyable paranormal Christmas romance story. Pepper is on mission to deliver a special Christmas gift when an accident occurs causing her to not only lose her memory but also to meet her mate. Bas was hoping for a quiet weekend getting knocked on the head by his mate falling from the sky was what he expected. Now they're in a race to get her memory back and deliver the present in time before Krampus night.

Cenaida says

It was a great story, a lot of Christmas magic going around.

Pauline Frost says

A great read that pulls you in from the start. You do need to believe in Christmas magic happening with this story. This is about Bas a lawyer/bear shifter who finally finds his mate and about Pepper the Christmas Elf falling from the sky so to speak. Of course, what would a Christmas story be without reindeer involved. Well written perfectly paced.

Linda Johnston says

Bas is a lawyer and a bear shifter wanting some R&E during Christmas. He didn't want to go home so he decided he would go to Mistletoe Mountain along with his bear. He was walking and his mate fell out of the sky too of him. She was dressed like an elf in a sleigh with 2 reindeer loosing her memory. She remembered her name was Pepper and she had one job but not what it was. Bas help her go where the accident happened and she remembered and they worked together

Chantal-Lise Mirman says**We've got your Christmas Spirit, Right Here!**

More Christmas Spirit than you can shake a Krampus stick at! When unmated grumpy Bear Shifter Bas runs into frazzled Christmas Elf Pepper in a snowstorm, sparks literally fly. Amnesia, an invisible sleigh, Daddy issues and a mission to a (mostly) reformed Krampus all contribute to a far from smooth journey of fated mates coming together. Read with a cup of hot chocolate (with marshmallows and candy cane)for maximum effect!
