## Suburban Zombie High Jeremy Flagg

The zombie apocalypse may be the only thing worse than a geometry pop quiz...

Boxford High pranksters cause a chemistry lab to go wrong and students are forced to face something far worse than S.A.T.'s and cafeteria lunches – an infection that turns students into zombies scouring the halls for survivors.

A group of unlikely companions; an artistic goth, star-athlete jock, disgruntled loner, would-be marine, sassy cheerleader, and angry Asian, must fend off the living dead. As they fight through locker rooms and dance their way across the theater, they will find surviving zombies is more complicated than puberty.

Will they be able to put aside their differences to fend off the zombie apocalypse before the infection reaches beyond the walls of their suburban high school.

### Valerie says

#### Outrageously funny

Very funny, the writing was good with no grammar issues. I enjoyed the story & characters. Not a likely scenario but funny

### ?Tara Sheehan? says

This is the type of funny, campy, outrageously hysterical kind of drama that more than likely would never happen but is best to be prepared for just in case.

The witty writing makes it hard to put this down as Flagg takes the genres of Action/Adventure, Horror and Humor to a new level with this irreverent, sometimes sarcastic, examination of teenage behavior at the high school level. It's got something for everyone between the zombies and teen melodrama. Using Breakfast Club like tropes you have all the necessary personalities covered here. The few adult characters weren't really done well but then they seemed to be there more as props to give the students something to act against.

The only negative I found was some of the language used by the characters towards each other which came off a bit racist but at the same time I know teens actually talk to each other like this so at least the author was capturing some realism. I'm always on the fence with this kind of stuff because on one hand I don't want to encourage it but to ignore that people talk like this doesn't make it go away.

If you get to the end and felt you liked it more than hated then be happy because this is just the first in a series.

This is not exactly what I was expecting. I've been reading it in fits and starts for several days, and I probably will go back to it, but there's no urgency. I can't tell the characters apart, even though so far they all seem like American cliches ... the nasty cheerleader, the emo teen, the jock and so on. Maybe they'll gain some depth as the story continues. Everyone seems to accept the idea of their friends and schoolmates being zombies very easily with very little pause or worry about bludgeoning them to death. I know, crisis situation, but still. And I haven't quite figured out how it was passed. (view spoiler) Again, maybe it's made clear later on, and I do plan to continue reading.

This isn't bad, exactly. It just doesn't seem to be much of anything right now.

Thanks to netgalley and Brave New Worlds for this e arc, which I received in exchange for an honest review.

### Ann O'Nymos says

Unfortunately, not what I expected. I've seen some FB posts from the author and they were snarky but funny. But these books are not, at least not my kind of fun.

The characters are stereotype, prejudiced and just not believable, leave alone likable. And the dialogues.... It might be that High School kids nowadays just slash out on one another with racist or bullying comments. Or they drool and have lost every coherent thinking when they are in love (Nate or Cadence when she sees Shawn's brother). Nothing inbetween, they never say a word of compassion or understanding, not even to their „friends“ (if that's what Cadence and Min are). This makes it absolutely impossible to like them. So, I don't really care if this bunch of racist, teenage angst bullies survives, I can't even tell them apart properly.

When the zombies rise and chase the survivors, they still don't get their stuff together and rather lash out on each other (Dione and Olivia) or even shove one to death. And the racist Asian girl becomes the prototype of a kung-fu movie fighter.

But the adults/teachers are not any better. One turns into a self-proclaimed hero (who finds some minutes in the closet with the nurse and another stupid dialogue follows where he asks her if she thinks they will become a couple and she retorts indignantly that she is not easy to get.... uha, concentrate please, zombies next door). And if I ever meet a librarian who is a gun lover, I will let you know.

And last but not least, there are logical questions: (view spoiler)

The only good point I can give this book was the idea of the zombies having some kind of memory. Even though it was ridiculous that they could be threatened by failing them in their AP class.

If you like „Scary Movie“ than this B-Movie (or rather D-Movie) dialogues and characters might entertain you – not me.....

### **DNF @ 14% (Chapter 5)**

I am a zombie fanatic. Obsessed really. Anyone that knows me will tell you I live and breath almost everything zombie. But this book... was a insulting mess.

Normally I don't rate DNF books but I have so many problems with this book that I couldn't not rate it. I actually started highlighting all the parts that pissed me off. Sorry if feminism and racism pisses me off but it does. And by 14% there was more highlighted texts than not.

If you don't want to know possible spoilers, stop reading. But if you are curious to know why it pissed me off, by all means, continue.

While they are in gym class Jacob tells the teacher "**no offense I don't see how this is exercise. It's just really slow dancing.**" to which Racist Min replies "**T'ai Chi is an ancient martial art, cracker.**"

Jacob tells her to calm down and Racist Min then attacks him. To which the teacher just sits and watches.

Min then says "**I am calm like a running river.**" to which a boy replies "**Wait, rivers aren't calm.**" Min then gets pissed off and says "**You're not Asian, you don't understand.**"

right..... Because race is what totally makes you understand some things. Because there is no way that people

could just KNOW. They HAVE to be a certain race to know. Mulan would be disappointed in Min. LOL!

BUT WAIT! It's not over. Min then stands over Jacob who is still in pain and says "**Don't fuck with rice power. Once I'm done kicking your ass, I will ruin you down with my Honda.**"

Only then does the teacher do something. Though sadly all she does was tell some other kid to take Jacob to the nurse and "**let her know he mouthed off to Min.**"

Are. You. Freaking Serious. He didn't do anything! Just ugh! Ugh!

And we aren't done yet. Feminist-Marcotte orders the class to split in to teams and the last one picked has to "**Run laps for being weak.**"

Riiiiiiight. Couldn't be because they are unpopular or something. They must be **WEAK** so they must be punished. Yeah, okay.

and of course because she didn't assign captains, teens boys are fighting over who gets to be captains.

**"Rodney and Tom, stop fighting or I'll kick your asses.**

Ummmm... those are kids you are screaming at. In school. You have ZERO right to cuss or threaten them. You should be fired.

and in case you are wondering where I got feminist from, she tells Min "I don't hate mean, I just think they're the weaker sex." Lol yeah okay. whatever you say lady.

This book just pissed me off so much, I don't want to even try to finish it. this isn't even half of the stuff I have highlighted! I mean it makes me want to ask, was this book MEANT to be racist and feminist?  
(Rhetorical question)

Racist quotes from the book:

- "Victor, you're going to be the white man's cannon fodder."

-He was dumb, very dumb, dumber than the average white man.

-Another - another jealous cracker"

- "White woman's gone crazy."

There are tons more that I could write and I just find that incredibly sad that all this was bunched into the first 14%! If it is this bad now, then I am scared to know how much worse it gets later on. Normally I wouldn't call a book trash, but this one is. We literally have enough hate and junk in the world. I don't want to read about it. I just want to enjoy zombies.

I don't recommend this book. Save your sanity. Dodge this book like you are dodging a baseball to the face.

Suburban Zombie High by Jeremy Flagg May 1st 2017

I was an ARC reader for this Author.

It's High School so all the usual suspect make an appearance from the science geek to the mean cheerleader and a representative from every clique in between.

This is a fun fast read as the clueless need to band together to survive during a most stressful SAT testing when a science project goes awry.

While pinned down in the Auditorium they discover who the real master mind was behind the undead catastrophe... and it is not who you thought it would be.

Jeremy Flagg did a phenomenal job with this book, one would think he was just a few years out of High School himself. He nailed the teen state of mind. I look forward to reading more in this series.

### **Ron says**

As if high school is not bad enough, now add in zombies caused by a chemistry lab accident. Or was it an accident? In any case our plucky band of heroes....what? They are not plucky? Nor heroes? Then what are they? Well, they are the tropes of modern horror movies. The angry Asian, the nasty cheerleader, the soap opera watching teacher, the jock, the gay would-be-Marine, the black and white power couple, the loner who stockpiles weapons in his school locker, and the gun-toting librarian, plus the various zombie bait. They start out trapped in various rooms in the high school and over two days managed to get to the auditorium to have the final fight with the zombies and try to push through a Pull door. Some folks survived, many do not, and mayhem home to zombie movies are found throughout the book. And then they claim there are sequels? Are you up to the effort?

### **Sofia The Great says**

good story but way too much racial stereotypes. I get its suppose to be satire but having a character known as their race was too much. It needed to be tone down.

### **Lisa Brennan says**

Older teens will immediately connect with these quirky characters and the all-too perfect portrayal of "high end" high school life. Stereotypes drive each character, but teens will revel in the humor and hyperbole generated by each. Problem? The language, content, and sexuality is excessive (and unneeded to support this brilliant plot). Had this book's content been reeled in by a teen-savvy editor, it would have soared in both Middle School and Upper School markets. As librarians, we're a flexible set who believe in freedom to read. This book, however, restricts itself from the most liberal of school library surveyors.

**\*This book was received via Netgalley in exchange for an honest review\***

This book had a really interesting premise. The thought of a zombie apocalypse occurring in a high school is both intriguing and horrifying. I really liked the diversity of the characters and the fact that the book was told from quite a few of their different perspectives. While often this can be unsuccessful making the book feel disjointed, in this case it really worked, helping to develop the plot. I did think that many of the characters seemed a bit cliche though and this detracted from the book. Also, the book seemed to drag in places. Overall, this was a good book with an interesting plot however it didn't blow me away or overly excite me.

### **Sheryl Martin says**

I received an e-copy of this book from netgalley and it was so cute. A fast read with fun characters although there were so many I got confused a few times. Amazing comedy zombie book though. Definitely worth the read.

### **Jessi says**

Totally campy, absolutely hysterical, it's got something for everyone!

### **Thomas Jr. says**

I received a copy for an honest ARC review, and I was not disappointed in the least.

Suburban Zombie High is an uptempo, witty and sarcastic joyride. It was a hard book to put down. I found myself lost in the story and wanting to know what comes next. Flagg did a spectacular job of blending action, humor & horror. There was a natural rhythm to the story telling that made the quick, uptempo changes easy to follow. Highly recommended for fans of well written genre blending story telling. If you liked The Zombie Survival Guide, World War Z or are a fan of Zombie films like Return Of The Living Dead 1 & 2, Cooties & Dance Of The Dead, you'll love Suburban Zombie High. Can't wait to read the sequel.

### **Cheryl Viner says**

#### **Good tale for teenagers**

I liked the story but it was a bit too corny for my taste. However if you like the Scream movies , it will be right up your alley. I did enjoy that the mastermind behind the outbreak was a science teacher who was off

her rocker.
