Winning Your Husband Back Before It's Too Late: Whether He's Left Physically or Emotionally, All that Matters is... Gary Smalley

He's walked out and she still wants him back. Thousands of discouraged and hurting women ask, "Is there anything I can do to win my husband back?" Though there are plenty of books on divorce, few talk about what it takes to initiate a reconciliation. Gary Smalley and Dr. Greg Smalley offer women a biblically based strategy for winning back their mate.

Included is an appendix of additional resources on organizations, counseling centers, video series, and books that have proven particularly helpful in this situation. Full of practical advice and realistic encouragement, ***Winning Your Husband Back*** can help heal a marriage. And whether the marriage is healed or not, the ideas will also help readers become responsible for their own choices and draw nearer to God.

Sarah says

You can't change him you can only change yourself. The book will make you think life is very unfair, but he has a point. God will allow your husband to remain in your life if you do the work he needs you to do on yourself. It gives you a better understanding of the male mind and heart and gives you great tips to heal and become who you are meant to be. And be again with whom you are meant to be with. Hopefully your husband!

It helps to know also that you aren't alone and men do these things because they can't carry the emotional baggage like we do. It definitely helped open my eyes to how I'd like to move forward in my relationship with my husband. IF/When the guy returns!

Jennifer says

I had a couple of friends dealing with difficult marriages and read this hoping to help them. The book gives excellent advice and so much encouragement to persevere, regardless of the circumstances. I loved that the message of the book is really that it's never too late to repair your relationship. Even if there have been affairs, even if you are divorced, reconciliation is possible. For those who have decided to win their husband back, determined to hunker down for the long haul and done all they can to find him unyielding, there is still encouragement. God is pleased and He sees what you have done. This book has an overtly Biblical message and unashamedly purports that Christ-like attitudes and submission to His will is the only thing that will change anything in your life. Great examples, solid ideas and helpful for those of who aren't on the verge of divorce as well.

Kendra L. Cook says

Good basic book that brings hope.

Good basic book. Hoping to put the wise words to use in my broken marriage. I will be using the step by step process. First I need to focus on God & myself, then I can earnestly begin the process of winning him back.

Mindi says

Probably horrifying but only paid 50 cents.

Update: utterly horrifying

Mrs. Nesbitt says

The premise of this book seemed to be a "you can't change him, you can only change yourself" which is very true, but I feel it was written as a sort of "rebuttal" book in regards to his previous books which do hold the tone that basically men are idiots in the relationship department, and the woman has to show him how to do it. I feel like this book was just an updated compilation of a bunch of different ideas.

Gladys Landing-Corretjer says

Heart breaking advice, however, we must admit, that if we walk in God's will, we will be victorious independently of what the world says.
