Princess J. Antoinette says

Pretty good book but hated that it ended with a hellacious cliffhanger...Anyway I'm looking forward to reading the last book of this series, and really hoping for a HEA.

Overall rating:

4*~ A Good Read

Terri West says

Loved, loved loved it. Nearly died when I hit the end at a cliffhanger but am rushing off to read book 3.

Patricia Rohrs (words we love by blog) says

My mind is racing and omg I need more! Soars has done an amazing job weaving together this supernatural world! So many facets and yet I'm not confused! She writes with such clarity that I can see it all taking place in my mind as I read! Each character in this story has become a favorite of mine and I can't wait till this talented author gives us more from this new world that has come to feel like home!

Well that went to garbage fast.

Wow, super sadden on the way this book played out. Well I will definitely not be finishing this series since in went to straight garbage, I skipped my way through this entire read, a lot of stupidity seems to be going on, lots of self sabotage that I really can't stand, and also loss of common sense, and the ending, lol, yeah sometimes more isn't always better. Disappointed deeply.

Velma Hayes says

I hate cliffhangers! That said I do understand that it is necessary to have them when writing a series. (Doesn't mean I don't like them even more!) This book has a cliffhanger to die with. I got sucked into the book as a whole and didn't realize that I had come to the end ... until I hit the cliffhanger. It's probably good that I don't have another human being living with me. I screamed NO so loudly that my neighbor called me to make sure I was alright.

A better review I cannot give anyone than this. I was pulled in, spun around and left wanting. That's why I deducted a star (it's really a five star but my throat is so sore I can't talk above an alto). Plus, you're making

me wait until January for the next book. I guess I'll just have to treat it as a Birthday present.

Christina Luberts says

OMG, this series is so awesome. I could not put this book down. We have mystery, action, suspense and love and more. I can't wait for the next book to find out what happens. Red is having to accept more about herself, now that she has been captured. Can she get away, can her mates find her? Who is this demon? Why has the other pack turned to the demon and hunters? What is the story behind her ex? What will her mates do to protect and save her? Who is the traitor? Can Red find out the truth? Can she save everyone? I received a free copy for my honest review.

Epically mind blowing!!!

This book brings a whole new twist to Red Riding Hood! This book is even better than the last book. I'm glad Billy is 'growing' out of his omega status maybe he'll be a beta! Now that would be something epic! Him and Nina make a awesome couple!!! I can't even believe Nadine is a black jaguar!!!! This book has made my jaw drop more then once and speechless as well! I'm extremely curious about what Kenya is/will be/could be... I can't wait to read the next book and to find out if Tristan & Dante are alright or not.... I'm definitely going to be in a book hangover for this!

Captivating

Crimson hollow wolves is a captivating story that will have you on the edge of your seat waiting to find out what happens. Red and her mates face struggles beyond anything they could imagine, the character nadine is a surprising addition who has suffered too much but is going to pop out of her shell more of in book 3. I hope we find out more about nina and billys partnership, and whats with the bear shifters reaction to nadine is it just untrust or could it be more....

Cali Jewel says

Extremely thrilling, action packed adventure filled with danger, dark secrets and blossoming magical powers.... Loved how she is just coming into her own and becoming stronger with each struggle overcome. Was a very entertaining and engaging read.

Marshia Carbajal says

Absolutely love this series, couldn't put it down. Can't wait for the last book. Hurry please!!

Jacinta says

Holy Moly!!! This was such an amazing thrilling exciting ride. You can not read this as a standalone book I must be read first!

From the very first page to the very last you are kept of the edge of your seat it's so exciting. You will have trouble putting this book down

This ends on a cliffhanger. I can not wait for the next book.

Puna says

AHHH!!!! I've been waiting for this book for a VERY long time! Hot. Damn. This was sooo gooodd!! I love how all my favorite series are coming out now. This was so good. I really like how Red is coming into her own. She starting to find her place in the pack which is something I truly enjoy. The whole 'Mother of Wolves' is a very interesting bit. We start to take a look at her past and I can't wait to learn more. Also, the ending! I hope now that Red is starting to understand herself and her heritage she'll start kicking ass!

Overall: 5/5

I received an ARC copy to review.

Wolf's Calling is the second book in a suspenseful paranormal trilogy. I loved this book! It's twice as awesome as book one, which was brilliant, and will leave you on the edge of your seat by the end. I cannot wait for the final book. Highly recommended.

Danielle Grimes-Oliveira says

Was so excited to read Wolfs Calling. The wait was torture but omg it was so worth it. There were so many twists and turns in this book it had me on the edge of my seat from page 1. I could not put it down. This is one of those books that draw you in and then leave you with a major book hangover. The end ahhhh major cliffhanger!!! This is such a good read and I can't recommend this series enough. I will be impatiently waiting for book 3. I am sure will be more than worth the wait ?

** BETA REVIEW **

Ms. Soars has outdone herself in that book this one had set a **HIGH** level for the whole series. Events start almost right after book one ends. And will follow the story known from book one. The events will get **DARKER**, like a lot **DARKER**, but this was so needed here that I was devouring every part of the book as events were coming constantly from every place there. Be warned there will be a lot going on - devour that read and make sure that you have time to read it in one sit. Red and her men will have to deal with a lot of things but what secrets lay underneath the surface? Will they manage to solve everything or web of secrets is bigger than anticipated? For sure this read will put you on toes with the number of emotions and events that are there! A **GREAT** read that will not disappoint for sure when you look for something that is covered in thick layer of plot and events!
