**Binding Ecstasy** Setta Jay  
A Beautiful Weapon Contained.

Natasha and her sister were created with sinister purpose. They were Apollo's most deadly and potent weapons. After finally escaping the evil God long ago, they made a secret life concealed among humanity in Earth Realm. There, Tasha has spent her nights watching the mortals at her club engage in erotic scenes that leave her aching... desperately longing for someone with the power to dominate her, to provide the pleasure she craves. For her own safety she knows she's destined to live her life in the shadows, but when she sees a male who sparks an insatiable hunger she is unable to remain hidden.

A Powerful Guardian Restrained.

Bastian and his fellow Guardians have spent the last month in a fruitless search for Apollo. They know that something dangerous is on the horizon and it is imperative they lock away the corrupt God immediately. After recently witnessing a number of his brethren find their fated mates, Bastian never considered that he would also be blessed. But when the calm and controlled Guardian sees his alluring and seductive female he learns just how wild and consuming the mating frenzy can be. However, his mate is incredibly powerful and at risk of being caged by his own brothers if he doesn't do everything, including lie, to protect her.

Immovable Object, Meet Irresistible Force.

It's a battle that both will win if they can survive the deadly forces, both friend and foe, that surround them.

Warning: This novel is intended for a mature audience. You will find kick-ass females, explicit sex, voyeurism and alpha males with bad language.

3.75 *Psihi Mou. His Soul stars*

***“Can you take the animal in me, or do you want the gentle lover ...”***

**Natasha** and her twin, Nastia, were made for one purpose, a tool to kill the Gods. It has been centuries since they were held prisoner by Apollo and now choosing to spend their freedom hiding in plain site in the Earth Realm. They vow to never be a prisoner again, and do everything in their power to fog the minds of those they meet just to keep their identity and power a secret...that is until they fogged the mind of a Guardian.

***“You screwed with me.” His voice lowered behind her. “And the second we get this done, I’m going to screw with you. You. Will. Pay.”***

**Bastian** has found his mate, and the instant that she reaches out to touch him, it's game on. Trying to protect his one and only from his brothers and sisters is no easy task, but they trust in him to learn more about his mate and twin, and the possible threat that they may be. Their mating frenzy takes priority from finding the missing God, but at least they have an enemy in common. Their lives may have taken a different path, but there is a reason for everything and Natasha and her twin may prove to be more useful than they originally planned.

**Binding Ecstasy** is another kickass addition to the Guardian of the Realms series, it features two assassin's born of a God's blood. Bastian is on the sweeter side of the Guardians, now don't get me wrong he still has a dirty mouth and the skills to back it up, but he takes his time to get to know his mate and court her as they continue on with the mating. I'm honestly not sure of what I feel about Natasha, while she was a badass by trade, there was something lacking making the other couples stories stand out more for me. While the main focus is one Bastian and Natasha, there are other couples gearing up for a very explosive mating, and I honestly can not wait. It almost never happens to me, but I was anticipating the scenes between Drake and his mate and Natasha and hers. I won't spoil it for you, since it's something you should experience on your own. But regardless I very much enjoyed this addition and can not wait to get my hands on the next!

#### **4.5 Action Packed STEAMY READ!!!!**

**"I'm going to carry you, Psihi Mou. I love having you in my arms too much not to."-Bastian**

Binding Ecstasy is another home run for the PRN Romance Genre! I started this series about a week ago and I just can't seem to get enough! This read had double the action, double the matings, and double the fun!

The hunt for Apollo is on and Bastian is in the heat of the search. Drake (their leader) is working at half capacity as he is grieving over his sick mate. As Bastian is on patrol, he visits a popular sex club and the scent hits him hard. Although it takes him a while to identify his mate, when he sees her he immediately stakes his claim.

**"Can you take the animal in me, or do you want the gentle lover this first time, Psihi Mou?"-Bastian**

Natasha and her sister own the club and are also frantically searching for Apollo. They want to kill him for all of the pain that he had brought upon them when they were young. Just as they are working to make their escape and pursue the god, Bastian enters the club and claims every inch of Natasha.

**"You're my other half, Psihi Mou."-Bastian**

The other Guardians are unsure of Natasha and her twin sister because of their strong powers. They have been living their lives in hiding and trying to shield the fact that they too are Immortals. Bastian makes it his mission to ease Natasha's worries and bring her safely into the Immortal Guardian fold.

Compared to the previous books, I found that there is more action in this book. The tension in the series has been building up to this point. I am thoroughly invested in each of the Guardians and their mates and this book seemed to bring everything to an explosive level! Bastian is definitely the most "dominant" of the Guardians and the extra sliver of BDSM LIGHT really added to the passion between Natasha and Bastian.

**"She felt more a part of something than she ever had."-Natasha**

Overall, Binding Ecstasy has left me on the edge of my seat. Now I will be ~~stalking~~ following Setta Jay's page as I anxiously await the release of the next book in the series. I have to know...will Drake and Delia find a way to be together? Will Alyssa be ok? What will happen with Apollo? This series is so addictive. I cannot wait for more! Bravo Ms. Jay! Bravo!

**Jeanny says**

First let me start by saying we end with (the typical/another) cliffhanger not just in regards to a coupling left incomplete but also the overall story arc.

I should disclose I've not been overly interested in anything but the mating. Up to this point the story has been all about the characters. After this book that's changed for me the overall story arc & its continuation has finally interested me. I'm intrigued by the unknown & suspect I know why Apollo was captured.

The love interest in this story wasn't what kept my interest. Please don't misunderstand I found Bastian courting Natasha cute if a little overly romantic for my taste. Nastia & Sander's coupling was really what interested me. Nastia's actions toward the overly aggressive make prior to Bastian meeting Natasha was although horrendous also hilarious. I kept laughing out loud at every interaction between the two. They're a love hate type of relationship. I foresee fire in they're future interactions.

I rate this book a 4.5 & am highly interested in the next book. I'm hopeful the incomplete mating will not be treated the same way Vane's was.

**Get the frenzy out of here...**

\*\*\*Could be spoilerish if you haven't read the previous installments in the series. Best to be read in order\*\*\*

In *Binding Ecstasy* we see another mating frenzy and another Guardian bites the dust...these guys and gals are dropping likes flies. First off, I just have to say that it squicks me out when you mix a kinky books character and a family member's name...WRONG!!!

I really enjoyed this latest installment of *The Guardians of the Realms*, but to be honest, I was worried. I started it, found out that Tasha and her twin sister Nastia were created for evil purposes, and worried that they would cause destruction and devastation or be a new accomplice for Apollo. It turned out OK though, because you can be made for a purpose, but it doesn't always take. Both Tasha and Nastia don't have ambitions to take over the world. They are trying to live a normal life in the earth realm. Well as normal as can be, considering the fact they're immortal, hiding from the guardians and have a goal to achieve...kill Apollo.

Bastian and fellow guardian Sander are in an erotic club, probably *wanting* to get their jollies off (they are Guardians after all), when both of them feel something off. Neither of them can work out what it is, but both wished they had more time to investigate. They are there on a mission to track down the missing God, Apollo. That slippery little sucker keeps getting away from them, and Drake (head honcho Guardian) is loosing his ever loving mind because of it. Eventually, Bastian makes time to investigate and is stunned to find two immortals hiding out (more like misting out) and one of them is his fated mate.

Lots of getting to know you's, mind chatting, bumping uglies and sharing of secrets, gets both Tasha and Bastian to a certain level of comfort with each other. Unfortunately, Bastian has kept a teeny, tiny secret from Tasha that he knows could blow up in his face. When push comes to shove, and the secret comes out, Tasha knows that he did it to protect her, but she can't help but be a bit pissed off. Luckily, they get that their relationship is special and make every effort to be there for each other.

The sexy times in *Binding Ecstasy* were HOT!! Now, I know I say that every time I read one of Setta Jay's books, but this one really did it for me. He's not an asshole Dom and she's not a weak submissive. They just seemed to work together naturally. I can't really pinpoint exactly why it worked so well, but I think it had to do with the way he talked to her. Commanding, but sweet, dirty but loving...he just got it right.

Drake is having serious meltdowns, Apollo is still causing problems and Nastia and Sander have to work through some frenzies of their own. I'm also a little worried that Sirena is going to hit a brick wall soon. Every installment of the series she gets a little more used and abused. Come on Creators, get her a destined

mate sooner rather than later please.

I'm addicted...and I'm not ready to quit. Bring on the next MATING FRENZY!!!

**~ 5 Binding Ecstasy Stars ~**

**Binding Ecstasy** is book six in the *Guardians of the Realms* series. I don't know how Setta Jay does it, but each book is more astonishing, outstanding, unique and unpredictable as the last.

When I open any book in this series I am sucked right back into this magical erotic world of the *Guardians of the Realms* and can't put the book down. I devour the pages like an addict. I was blown away from begging to end. We have a incredible start and an unthinkable ending with more surprises, twist and turns throughout this fabulous book.

We are given some hot sexy alpha Guardians and some very strong independent women who end up loving so profoundly. Each character is as unique as their matings and they complement each other so adequately that it is never boring. The erotic scenes are so well written with these couples that I keep a fan on hand just to cool me off from the blazing hot sex. Everything is so well put together that you don't want to set the book down.

*Binding Ecstasy* is another well written addition to this series. This is one series I highly recommend reading. It is also one that must be read in order, because each book builds on the characters, plot, and world adding so much more to this extraordinary series.

**Holy Hot Guardians Batman!** Book 6 in Setta Jay's Guardians of the Realms series left me wanting more. Ok, who am I kidding... They all leave me wanting more! With each new book I find myself falling in love with a new Guardian. This is one of my all-time favorite, top best-ever series! And it just keeps getting better and freaking better! Bastian was not at all what I expected, and that was fabulous! In the previous books, we

didn't learn a lot about him other than that he could port and he was quiet. Well, move over guys cause there's a new dominant badass in town!

I loved every minute of this book. When I got to around 90% I had to take a break. I was so into it that I knew when it was over I'd be left in the biggest book funk, which usually happens after I finish one of these books! I just wasn't ready for it to be over! I'm still not ready for it to be over! I WANT MORE!!! But alas, I went back and read the end and now I'm left in limbo waiting for the next installment!

I don't want to recap too much as it will give spoilers. And anyone who knows me knows I usually don't mind spoilers, but this series is so good it needs to be experienced spoiler free! There is an ongoing story arc that progresses in each book so I would definitely recommend reading them in order. However, each book is about a different Guardian finding his mate.

Here we have Bastian, the Kairos Guardian who meets his mate Natasha. Her and her twin are special. They have abilities not seen before and are some pretty badass ladies! I especially enjoy books with a strong female lead and there is an abundance of that in this series.

Natasha gives Bastian a run for his money for sure. She struggled with her feelings towards him, but ultimately knew what the end result would be. I loved how Bastian was with her. I especially loved seeing another side to him and how he felt towards his mate. Not to mention, his sexy dominant side was freaking hot! ;)

There was lots of action in this book and as I mentioned before, the ongoing plot definitely thickened in a way that I seriously hope Mrs. Jay is already hard at work on book 7! I really enjoyed getting glimpses of Drake and what's going on with him as well as Natasha's sister! I really don't what else to say that won't give too much away! All I know is, this series is amazing and I can't recommend it enough! Binding Ecstasy was a fabulous addition and I really can't wait to see where the next book will take us!

A special thanks to Setta Jay for providing a copy for my honest review! You Rock! :D

Book 6 of the Guardians of the Realms series, Bastien and Natasha's story.

Having just read the first 6 books of this series back to back, I keep expecting to get bored with it but it hasn't happened yet. This book focuses on the relationship between Bastien and Tasha but we also get glimpses into the relationships between Sander & Nastia and Drake & Delia. I'm looking forward to Drake & Delia's book because there are serious hurdles in their way and I'm dying to see how it's going to work out. Bastian

and Tasha's relationship was sweet and hot, Tasha is another strong heroine and the dialogue between her and her twin sister after Nastia caught her with Bastian was really funny.

A lot happens with the ongoing story arc in this book and things on that front are really getting interesting with new protagonists getting thrown into the mix as well. I'll be reading the next book ASAP.

#### **4.5 Stars**

*...I need fuck you so hard you won't be able to take a step without knowing you're mine.*

I swear to all things holy, if my ovaries haven't cumbusted by the 3rd book in this series, surely they're steel plated right now. Because this book? I can't even with how hot it was. No seriously. There's hot, and then there's Setta Jay Guardians hot. It's a category all of its own and ovary survival is not guaranteed. As a matter of fact, say goodbye to those bitches right now because no way can they make it through this book.

But let's be real here for a moment; I may be a pervert but I'm a pervert with standards. I want a great story to go with my book porn and this has it in spades. If anything, each book in this series continues to be better than the last. They're my crack of choice and I'm not planning on rehab anytime soon.

Meet Bastian...

Guardian, badass and sporting some enviable hair. Along with his fellow Guardian brothers, he's been on the hunt for Apollo who has been recently been released from his stasis prison and wreaking havoc in the earth realm. They're determined to bring him down and also find the answers about how to deal with Drake's mate who seems to be pained at his mere presence. Those questions lead them to a club...

Meet Natasha

Natasha used to be Apolo's secret weapon until she escaped his prison along with her twin sister and has been hiding out in the earth realm ever since. But when a sinfully sexy Guardian steps foot in her club, she doesn't understand her instant carnal reaction to him. Being in the earth realm for as long as she has, she has no idea about matings or Tetartos. But what she does know is her hunger for a long haired guardian seems to only get hotter with each encounter.

What I love about these books is how flawlessly Setta manages to write two parallel story lines. You get Tasha and Bastian, you also get her twin sister Nastia and the phoenix Guardian Sander. Along the way you also get a tantalizing peek at Drake and his mate. But the two main stories are Natasha and Nastia. It's more like 70/30, but it just works. What's even better, is that the secondary romance is even more tantalizing than the main one. They typically stretch over two books and manage to keep the reader panting for the next book for the conclusion of the story, which is exactly where I'm at right now. I loved this spicy little number and

can't wait for more. If you haven't discovered this series yet, you're seriously missing out. Fair warning though, if you don't have a significant other on hand as you're reading side-effects may incur...

4 "Binded to You" Stars

Setta Jay does it again! Bastian and Natasha's story might've just taken the top spot from Gregoire and Alyssa in book two but it's close. These two turned up the heat (which is saying something because Setta can write sexy sex better than most) and left me a panting mess. Add in more of Drake and his downward spiral as well as introducing a new mated couple and I was in Guardian heaven.

Bastian and the rest of his guardian brother's are on the hunt for Apollo. After he escaped and Drake found that his mate Delia was losing her sanity, all the guardians are struggling to keep everything under control. Out on the hunt Bastian finds his mate at a club. But after their initial interaction he realizes that she and her twin sister have abilities that can even mess with the guardians minds. Finding this out sends Bastian on a mission to not only protect his mate but keep his brothers from taking action against her.

Natasha and her sister have spent their lives since escaping Apollo's cruelty trying to find a way to get to him and make him pay. Finding out that she has a mate, something she doesn't truly understand, starts to get in her way. When the mating frenzy starts to take hold, she has to decide if she can let Bastian in and if she and her sister with their abilities are actually safe with the guardians.

Oh boy. The first encounter between Natasha and Bastian turned up the heat. I have loved each time a guardian goes all alpha for his mate, but Bastian turned it up a notch. Then when they added the light BDSM, I started panting. The push and pull was perfect even when Natasha didn't fully understand what was happening. I loved that she fought but didn't fight too hard and gave as good as she got.

Watching Drake suffer was painful and I can't wait to watch him get his HEA. He deserves it. The new pairing of Natasha's sister Nastia and the guardian Sander being introduced, made me giddy to imagine what it will be like to see these two go at (in more ways than one).

**Twins**

Nastia and Natasha are identical twins created to be Apollos slaves. When they escape his reign, they make a pact to someday find him and kill him. They settle on running a sex club and it's here where Natasha sees Bastian, there is a strange draw to him and we find its because their mates.

Nastia was my favorite character, she is a strong female character who doesn't take noting from anyone. She is drawn to Sanders, but hates him at the same time. They are both have huge egos and are dominant. My favorite part of the book was when she dropped a stage on his head. Sorry I know it's wrong, but it was flipping hilarious and him nicknaming her 'nasty,' was funny two.

This book had a lot more action, then the other books and absolutely loved it. It was real page turner all the way to the end.

### **Marta Cox says**

Good grief it's another seriously smoking hot story about these Immortal Guardians charged with protecting the four realms. Each book has a different guardian finding his Mate and I know there will be some disappointment as this time it's the quiet and more restrained Bastian who is about to go through the wringer! The female meant for him is lovely but deadly and has a secret of her own! Fans of Drake fear not though as there's plenty of scenes featuring that tortured dragon. What is really interesting though is that the story arc is really pushing ahead now with the god Apollo having escaped from his incarceration. Forget golden boy and think more Frankenstein as this god is anything but nice!

When I first had these books recommended to me I was a tad unsure of the steamy ménage content as I really couldn't quite equate these possessive guys with sharing. Happily the author seems to have pulled away from that trope a little but it's still quite a hot read with acts not meant for younger readers. Who am I kidding? This book is about a dirty as it gets from voyeurism to light bondage and anything else Ms Jay can come up with! However the plot really does thicken here with events that no one could predict . Yes I still want Drakes story but Bastien and his incredibly screwed up ideas about courting Natasha are very entertaining but for this reader it's everything that's coming to ahead that keeps me reading. Bad ass hero who takes no prisoners. Dangerous but caring heroine. Mating heat too but best of all snark, action, unexpected enemies and I'm left wanting to know what happens next! Anything I didn't like? The abrupt ending because now I'm on tenterhooks waiting for the next book!

I've said it before but it bears repeating...I LOVE this series.

Bastian was just as yummy as his brothers with a little bit of kink thrown into the mix. Natasha and her sister, Nastia, are both great mates for their prospective Guardians. And the fight with the bad guy keeps evolving and changing and keeps you on the edge of your seat.
