Deal Makers

Laura Lee

Deal Makers Laura Lee

I'VE OFFICIALLY SCREWED THE POOCH.

I mean, not literally, because that would be disgusting. But I did break one of the cardinal rules of Bro Code, which is equally appalling. You see, I fell in love with my best friend's sister after he explicitly forbid me to go near her. As if that weren't bad enough, I went ahead and married her while sh*tfaced in Vegas.

I know that I should get an annulment and forget the whole thing ever happened, despite the fact that our wedding night was the hottest thing I've ever experienced.

The last thing I should do is go back for seconds.

Or thirds.

Or...you get the point.

And what I definitely shouldn't do, is say f*ck the consequences and give this marriage a real shot.

But here's the problem with that: I'm pretty sure that Charlotte Harris is the one. And if that's the case, nothing is going to keep me away from her. Not even her brother.

*Deal Makers is filled with lots of laughs, drunken shenanigans, and a sexy romance. It is the third installment in the Dealing With Love series but each one can be read as a standalone.

Amy says

I've been dying to get my hands on this book. I may have stalked Laura and bugged her until she finally gave in and sent it to my kindle.

Charlee and Drew... I don't know who's hotter. Their chemistry was off the charts explosive. Charlee is sexy, sarcastic, and just as big a perv as her brother. Drew, well Drew is kinda me in male form, it's all about sex and food. And of course, Charlee.

This book came at just the right time to pull me out of a book slump. If you enjoy laugh out loud scenarios, super steamy sexy times, and a close knit family of friends this book is for you.

I licked Drew's V and I liked it!

Sissy's Romance Book Review says

Deal Makers by Laura Lee is book Three in the Dealing With Love Series. This is the story of Charlotte 'Charlee' Harris and Andrew 'Drew' Summer. I have read the previous books, but feel you can make this a standalone book if you wish to do so.

Drew is Charlee's brother good friend and so he has placed her in the off limits section but when they have a night Vegas they end up getting married. Thinking to get it annulled but their feelings and desires for each other start making that impossible.

I am always a sucker for a mistaken marriage where they find it wasn't a mistake, so of course I loved this story.

Vanessa Lawford says

I absolutely loved Drew and Charlotte's story and couldn't put it down.

This was book was a steamy read and is a definite mist read. This book could be read as a standalone but I would recommend reading the books in order.

Merry Jelks-Emmanuel says

He broke the "Bro Code" and dated his best friend's sister after a drunken night in Vegas but oh know he kept going back. This is a hilarious story with two individuals you will love to get behind because the characters are so deserving of each other. Will Drew and Charlee have their happily ever after?

I received a free copy of this book via Booksprout and am voluntarily leaving a review.

Reviewed on behalf of 3 Degrees of Fiction book blog.

Well I couldn't ask for a better book to start the new year off with. The only thing I'm disappointed in is that I haven't read the first two books in the Dealing With Love series.

Drew is Brody's best friend and has only recently met Brody's sister Charlee. I loved how they couldn't stay away from each other, knowing that Brody would not be happy. I also liked how the story jumped from past to present. This was done seamlessly.

There were plenty of laughs throughout the book. But mostly what I found most enjoyable was the great cast of characters. Now I know that several of them have had their stories previously written, and I am going to make sure I read them too.

Book-Bosomed blog says

2.5 Stars

Andrew Summer, 32, is fighting a strong attraction to his best friend's sister. But Drew lives by the "Bro Code" so resisting Charlotte Harris, 31, is what he's determined to do. Until alcohol and a night alone in Vegas takes away his inhibitions.

I give points to Charlee for not buying into this whole Bro Code that included her younger brother's silly insistence that she's off limits. I couldn't agree more that he had no say in her love life so why she later let him manipulate things is part of the downfall of this romance. Initially, Charlee appeared forward and confident, and it was refreshing that she wasn't buying into the sexist bs. But Charlee started to wear thin with me after a while. I found her bitching and bossiness during intimate or tender moments a turn-off, and I didn't understand why she wanted to annul the union since she genuinely liked Drew and went after what she wanted.

The side characters (couples from previous books which I have not read and after this have no desire to) wore thin quickly too. But my patience with this story was lost with Charlee's crude brother Brody, a grown man with the finesse of an unruly toddler. He was a hypocrite; he was a bully. He made everything about him and yet shifted responsibility for his behavior to the people he claimed were important to him. He got his way by being loud and obnoxious.

But what made me lose respect for Drew and Charlee and the rest of their friends was the way they all let him control things. No one needs a toxic and controlling misogynist like Brody in their life, whether he's a best friend or a brother.

There was a serious lack of maturity with these people. From the group's constant talk about T&A and dicks...

(They were in the 28-32 age range for the record.)

...to Drew and Charlee's inability to own their impromptu nuptials/relationship, this couple lacked back bones and good sense.

“If this thing between us has to end...then...I want to be with you without any barriers between us before I can't be with you at all.”

Nothing screams irresponsible adult like ditching the condoms before you plan to break up! But then Drew upped the ick scale by confiding that he went bare once before and got his college girlfriend pregnant! And that little backstory is apparently such a turn on to them that they follow through with going bareback themselves immediately after!

Only Mrs. Pistorio and Charlee's mother had any sense or good advice. Well and their father had their number too.

“I could've sworn we're all adults here, but you two are acting like bratty teenagers.”

All in all, the story is built on immature characters who can't communicate properly and a contrived conflict.

Lastly, and this seems like a minor issue now in comparison to all the issues I had with the characters, but this story incorporates the trope where said couple can't initially remember the details of the events leading up to their drunk nuptials and yet despite being so black-out drunk, are able to play tourist up and down the Vegas strip for hours and have more orgasms than you can count on your fingers.

Told via Drew and Charlee's alternating first person POV, bring your suspension of disbelief and an endless supply of patience if you're going to tackle this read. The blurb sounded cute but it didn't live up.

Angelica Larsson says

This is the first book that I've read by this author and the first in this series and I loved it! I loved the

storyline and the wonderful characters in it. I loved the chemistry between Drew and Charlee. They are just so good together. Would love to read more about them and their family and friends.

Reviews from the Heart (Kimberly Anne) says

Laura Lee has set the bar high for 2019. I could not of asked for a book better than this one, to start this year with. I am absolutely, positively in LOVE with Drew and Charlee's story. This Interconnected standalone was better than I could have imagined. Laura Lee completely captivates me with her writing. It is flawless, and so easy to read. Deal Makers is that book that hooks you from the very first page, and keeps you held hostage; willingly to the very last word that is on the page. I will be the first to admit, many authors are going to have a tough time topping this one, Laura Lee is easily becoming one of my favorite authors, and I can not wait to see what 2019 brings us from her.

Charlee. I am just going to put it out there, that I love her name. Like seriously, love it. She is as beautiful on the outside as the inside. She is witty, pig headed, and needs to come with a sign saying, " NO FILTER. " In a sense she also thinks like a man, which makes her super unique. Her personality is epic. It is legit going down in the history books.

Drew is a 6 foot 5 inch man, that is all muscle. With a body to die for and a career as a firefighter, he ticks off every box on a womans wish list. He is playful, but honest. Perverted, but in a good way. A sense of humor that reminds me of a comedian, and a great friend.

I loved this book so hard. Charlee and Drew's chemistry was off the charts, even I started breathing heavy, throw in Vegas and some things are bound to happen. Just enjoy the ride, because it is a great one.

I 100% RECOMMEND THIS BOOK!

~ Ashley

Ashley Gayhart says

Love love love this book. Drew and Charlee's story is epic. This rom-com is going to be one to beat.

H.B. Jasick says

I Loved this book so freaking hard!! Drew and Charlee are the perfect match up. In this story you get, love, laughter, LOTS or Drew flavored advice, and hot hot heat!! This is a definite MUST READ. The perfect romantic comedy to start out the year!! Quite possibly my favorite book in the series!!

Crystal says

Is there an option for more stars? I freaking LOVED this book!! I was excited to read Drew and Charlee's story, especially after we got a glimpse of them in Laura's Christmas short, but I wasn't sure if I was going to love them as much as I loved Brody and Rainey in Deal Takers.

Well.... happy to report that I laughed just as hard... probably even harder during Deal Makers!

I love how the author totally takes us in the head of the characters. Drew and his conversations with his certain ^anatomy part^ are freaking hilarious. I love how unfiltered Charlee is she can totally dish it out just as well as the guys do.

I will say, I was laughing reading the first page, really the first paragraph. Laura Lee has a way of pulling you into her book immediately. I seriously could not put this one down today. Great detail in the writing! Made me feel like I was right there with the characters!!

Rejane says

Today I read many reviews and 99% of them said the books had either misunderstandings, miscommunication or immaturity. This one is the latter.

I have a horrible feeling this is going to be the new trend. ???????

Britt Franks Red Hatter Book Blog says

Laura Lee perfectly combines sweet swoony romance with laugh out loud hilarity like no one else! I've adored every book in this series so far, but Drew and Charlee's story is definitely my favorite. They have this perfect mix of heat, sweet, fun, and a pinch of drama to really make things interesting. To say I devoured this book is an understatement. I don't think I've ever read anything so fast in my life! I just couldn't get enough of their story.

I loved everything about these two. Drew is sexy, kind, and loyal. Charlee is sweet, funny, and outspoken. There's literally nothing to not love about them! Together they've got electric chemistry that steams up the pages along with having the kind of sweep you off your feet whirlwind romance that leaves you breathless. Deal Makers is what romantic comedy dreams are made of!

Ashley Sledge(UnderCoversBookBlog) says

Omg!!! This is the first book I've read by this author, definitely not the last! My gah I was blown away with her writing!

This was also the best forbidden, best friends sister book I have read in a long time!

Charlee and Drew were amazing!

Charlee wants Drew and he wants her too but Bro Code is standing in the way!

A bachelor and bachelorette party in Vegas lead Charlee and Drew together for a while, they get totally wasted and end up married.

At first they both want an annulment, but as time goes on they end up falling for each other until Brody, Charlee's brother and Drew's best friend finds out and gives Drew an ultimatum!

Ok I'm stopping now I'm going to end up spoiling it if I don't!

Buy this book! READ this book y'all! Ya won't regret it!
