Jessie Burroughs says

Lots of useful information. Well laid out, very comprehensive, and really aesthetically pleasing. Even so, the best part for me was the introduction, and learning what kind of backgrounds the brothers had, and the circumstances that lead them to be the property brothers! :)

Susan says

I watch their show when I'm at the gym (if we had cable, I'd probably be addicted) and the Scott Brothers' likable personalities are clearly showcased in this book. I enjoyed looking through it, though it depressed me no end. Our house screams "I was built in 1995!" and after reading this I feel like we'll never sell it unless we do some major work on it. Sigh. I would have liked more before and after pictures, but they did offer some practical advice.

Kris says

Jonathan and Drew Scott give advice on improving, selling, and buying a home. Lots and lots of great photos. Recommended for fans of their shows and anyone who is thinking about re-designing their interior either to stay or sell.

Shilpa says

Jonathan & Scott Drew are the dreamy pair who actually know how to turn a drab place into a dream home. Their new book is a practical step-by-step instruction manual for anyone who's ever thought of doing a reno. But, rather than just another how-to book, this one is more of a psychological handholding journey where they make you do the hard work of figuring out what's the right reno for you, and if you should even waste your time doing a reno in your current house.

Absolutely a must have for people who love decor and are thinking of renovating, and/or buying or selling their house. Lots of practical advice on what to do and what not to do. The book is absolutely fabulous, and I may just eventually accept the fact that I should give up my dream of The Property Brothers coming and helping me create my dream home. The dreamer in me says not just yet! But, in the meantime, I shall be practical and follow some advice from their amazing book.

Monique says

This book has everything you will ever need to think about in buying, selling or renovating your home. The book reads with the same funny banter the brothers create on the show Property Brothers. The ideas I have to turn my 1960s ranch into a cozy modern empty nester paradise are all in this book!

Rhonda says

This book provides valuable information/advice on every aspect of the home whether you are looking to buy or not. Love these brothers.

Cindy says

If you've seen their TV shows, most of the book will not be a surprise. There are some nice lists of information that are handy. The photographs are interesting even though most of the decorating is not to my taste.

Aneth Manía says

Linda Hartlaub says

Fun book to read with a lot of ideas whether upgrading your home or getting it ready for sale. Additional sections on home purchase and what to look for. I only wish they had a section on maintenance and repair.

Kaethe says

I've never seen any of their shows, so this book is all my opinion is based on. Meh. Good photography of generic spaces. Not everyone wants granite countertops or non-woodburning fireplaces or open floor plans. It does have a hilarious screw-up, though: in a spread on fireplaces (all electric it looks like) there is a random picture of a bathroom mirror. That was the only exciting moment I had going through this.

Anna says

I am a big fan of Property Brothers and this was a fun book with enough of their signature humor to be a fun read, but it suffers from style over substance. The advice while good as far as it goes, seems vague most of the time. It is a lovely looking book with many pages of beautiful photography of finished projects. I just wish there was more solid advice, even about how to choose qualified pros. I have been thinking about this review and realized that there were areas where there was solid specific advice: deciding whether to sell your current home or renovate, and how to best sell a home. I had forgotten these areas when I made my first assessment as they are towards the beginning of the book.

Shawn says

Expected more.

Yaaresse says

I'm probably being a little too generous, but I thought this quick read had some good information in it. If you've ever bought/sold a house, it isn't so much new information as it is an update and refresher.

The only time I've seen their show, if you can call it that, is when I'm at the gym. They have TVs lined up in like little glowing altars in front of the treadmills and stationary bikes. The sound is off, and I can't really see the captioning, so I don't know if that counts or not. (And my other options are FAUX news, golf, or endless Pioneer Woman, so it's sort of more like I stare at it to avoid the rest.) Maybe their picking on each other is part of the show, I don't know. It gets kind of old after a while, but the lists and advice is solid if you can scan past the pretend bickering.

Becky says

Great book.

Very helpful if you're on the quest for your perfect home.

Also helpful to make the home you have the way you want it.

Got to meet these guys at their book tour, they are just so nice!

Laura Shih says

Finding a perfect home made easy. Lots of practical advice and a great leisure read before bed.
