## For All Eternity Linda Lael Miller

She is a creature of the night. Beautiful. Seductive. Immortal. Her kiss brings the mercy of death to wounded soldiers at Gettysburg. Her courage defies the darkest schemes of the queen of the vampires. Her soul struggles for peace in a war that is brewing with angels and warlocks.

## From Reader Review For All Eternity for online ebook

### Jennifer Kronk says

I like Miller's vamps a lot. They time travel, they can do magic, they can even influence people's minds. It is pretty fun and Maeve is one of the most powerful of them. The romance is very melodramatic but it works for me. And it makes sense, to me at least, that vamps and all other sorts of supernatural creatures would haunt battlefields.

---

### Annette Summerfield says

I don't read many vampire romance books, but this one I liked. I've read other books by Linda Lael Miller and I've enjoyed them, so I gave this one a try. It kept drawing me back to it. I missed the first one though, 'Forever and a Night'

I am going to check the library for a continuation to this one.

Listened for Review/Read for Fun (Tantor/Physical Book)

Overall Rating: 4.75

Character Rating: 5.00

Story Rating: 4.50

Nostalgic Rating: OFF THE CHARTS!

Audio Rating: 4.50 (not part of overall rating)

**Quick Thoughts:** This is a reread for me! This series is one of the first paranormal romances I fell in love with. Maeve is perhaps my favorite female vampire ever and her romance with Calder is fantastic. I loved everything about this story from the Civil War to the war for Vampires. There was action, romance, and a little twist at the end that never ever gets old no matter how many times I read it. If you are a fan of old school romance, I truly believe you will love this story.

### Audio Thoughts:

Narrated by: Cris Dukehart /Length: 9 hrs and 57 mins

Cris really brought Maeve and Calder to life! I knew that she would nail Maeve because that character is a weird combo of very powerful and yet with Calder she is vulnerable. The way she played her was fantastic.

### **John Love IV says**

An improvement over the first book. While I liked the characters and such from book one, I just didn't find myself absorbed into the story. I was just reading it to finish. The story wasn't bad but....

I found this book to be much more interesting for some reason. I got more caught up in what was going on and wanted to see what happened next. Even so, I didn't care as much for the characters. They were interesting but less appealing and I was less concerned about what happened to them.

That being said, the increase in my liking of the plot overshadowed my drop in caring for the characters. Overall, a good read and I'd suggest it. I do plan on reading the third book soon.

\*\*\*\*\*SPOILER\*\*\*\*\*

These vampires don't sparkle.

### **Jennifer says**

I guess I'm just not a vampire romance kind of gal. The book was okay. It was full of every bit of paranormal you can put in a romance (vampire, warlocks, angels, time travel) but I just didn't buy Maeve as the great and all powerful Vampire Queen. She just wasn't strong enough for me and so the rest of the book suffered for my disbelief.

---

### **Jason w Lindsey says**

This trilogy is one of my all time favorites and would love to see it be made into a movie..twilight pales in comparison.

---

### **Morpheus Reads says**

This is the second in Linda Lael Miller's vampire series. Features Maeve Tremayne and Dr. Calder Holbrook. This was not one of my favorite books by Miller. Immortal vampire (Maeve) and mortal man come across each other on a battlefield during the American Civil War. They fall in love at first sight (no lines, no waiting, folks) and hardly spend any time together except for the random moments--which can be counted on one hand--that Maeve pops in to see him from various continents and centuries. She is busy battling the ancient and mad vampire queen, Lisette, and is fated to become the next vampire queen.

In the meantime, Calder is trying to convince her to transform him into a vampire so they can be together through eternity. The way the book reads, however, he seems more interested in the bennies of being able to travel to the future to gain more knowledge about medicine and to be able to bring back antibiotics and morphine, etc. for the Civil War soldiers.

The characters were both kindhearted and wanted to ease the suffering of mortals, but I found the romance part lacking. They were also both stubborn. This is one of those times where if you attended a wedding you

would say, "Ah, I give 'em six months."

The first book in the series, "Forever and the Night" featured Maeve's twin brother, Aidan. He was a disgruntled vampire who fell in love with a mortal (Neely) and if there were any possibility of it happening, he would be willing to sacrifice anything to be given his mortality back.

Both books feature an ancient vampire, Valerian, who was both Aidan and Maeve's maker. I'm thinking there must be a third book in the series about him because it was made clear that he had an interesting past that needed telling.

[Edited] Just saw on another review that there are four books in this series. The next two are "Time Without End" and "Tonight and Always".

#### **Better than the Anne Rice vampire series. thankyou**

I don't ever bother with reviews since I am not a writer and cannot express myself with words but I was so very much expressed with this Black Rose Chronicles that I had to leave my view. Better than the Anne Rice vampire series. Thankyou

---

### **Judy says**

Read 2nd time 2/12/2011

Maeve must go on with her vampire life and forget her beloved brother, Aiden. He was now a mortal who married his true love and Valerian had told her they were expecting a child. She seen the flowers he left for her to let her know he survived transformation.

Now she faces a war. Valerian tells her she will be the Queen of the Vampyres but she don't know that she wants that job. While wandering over the fields of war, relieving some of the young men from the pain and death awaiting them she meets Calden. She should not have spoken to the mortal Dr but now that she has he is in her mind and thoughts. Like brother like sister Valerian says, as they both chose mortals.

Calden wants her to change him but she will not condemn another's soul to hell as hers is.

This book is written from all angles. Calden, Valerian, Maeve, Lisette.

### **Alex is The Romance Fox says**

I love this vampire series by Linda Lael Miller.

The first book was Forever and the Night, the story of Aidan Tremayne - see my review [here](#)

<https://www.goodreads.com/book/show/6...>

For All Eternity, the 2nd book is Maeve Tremayne, Aidan's sister's story. I loved Maeve from the very beginning and I was looking forward to her finding her very own HEA.

The story takes place over centuries. Maeve meets the mortal Dr Calder Holbrook during the American Civil War, where they are tending to the sick and injured in the battlefields.

They fall in love but their happiness does not come quickly or easy. It will take many meetings over many years before the two finally are able to be together for eternity.

Fabulous characters.....meeting up with the evil super vampire queen Lisette, and Valerian, the maker of Maeve and Aidan. I cannot wait for his book...which is next.....YIPPEE!!!

---

### **Robin says**

Maeve Tremayne is a vampire capable of traveling through time. When she visits a Civil War battlefield to feed off of the dying soldiers, she is discovered by Dr. Calder Holbrook. Calder believes he is seeing an angel tending to the wounded. When he finds out she is a vampire, he asks her to change him into one too. He longs to be able to travel through time and discover the advances in medicine in the twentieth century. Maeve refuses. She will not be the person he eventually blames for a never-ending life of darkness. But a rogue vampire named Lizette is loose and the angels have threatened to destroy everything if Maeve and her friends don't destroy her.

This is the second book in Linda Lael Miller's vampire series. I read it when it was published and listened to it this time around. The romance in this book was OK, but I liked the plot concerning stopping the war with the angels by destroying Lizette. The vampires teaming up with their mortal enemies, the warlocks, to fight Lizette made for some interesting situations. My rating: 3.5 Stars.

### **Jennifer Gelert says**

I have a weakness for romance books. This one involves a vampire and a mortal. Maeve and Calder and their love passes times and periods. Maeve is a vampire who wanted nothing more than all the benefits being a vampire can offer. Her world changes as she comes upon Calder, a doctor during the Civil War. In the midst of their romance, a rogue vampire is out to destroy all. Nemesis, God's head angel is determined to destroy all evil unless Lisette is destroyed. Great light reading.

---

### **Stephanie says**

I thought I wasn't going to like this one as much as the first one because some of the characters from the 1st one were not in this one. But it was really good. Can't wait to read the third.

---

**Shelly Jacobs says****Excellent book**

This is the 2nd book out of the 4 book series. I have the original printed set and I still love it and was thrilled to find it here. I love Maeve and Valerian and would love to have the series continue with other characters! Great book!

---

**Sandra Dagg says**

Have just finished this one, and once again, it was like reading for the first time. It is many years since my first reading, so I am thoroughly enjoying this series. This book was as good as the first, telling the story of one of the secondary characters from the first book. They are definitely interconnected and need to be read in order, but they are great books. Highly recommend to anyone who loves Vampire romance...great story line, wonderful characters, and I am going to start the third book right away!
