Intercepting Love L.P. Dover

Both have what she wants ... but only one has what she needs.

Working with professional athletes and helping them recover from their injuries has always been Kate Townsend's dream, but after an accident left her scarred and heartbroken years ago she refuses to let what happened in her past happen again. Staying focused is the key, as well as not letting her feelings interfere with her job ... no matter the circumstances. All of that is easier said than done when not only one, but two men crave her healing touch, igniting every single desire she's denied herself for so long.

Cooper Davis, NFL's star quarterback and most eligible bachelor, packs up and leaves his home to move across the states to the East Coast after an injury results in the embarrassing trade to another team. Bitter from the pain, he deals with his problems through drugs and alcohol—almost ruining his football career—until he meets the one woman who makes him want to feel; the same woman who refuses to give up on him no matter how many times he screws up. He has to have her, and he's not going to stop until he makes her his. Especially, now that someone else threatens to take her away.

Motocross champion and local bad boy Luke Collins never takes no for an answer. For the past four months he's used his charms to get what he wants, and now he's so close to getting the girl of his dreams ... if she'll give in just once. One time is all he needs, and he's never been known to fail, but he's also never had to fight for a woman's affections. Only one man will win their way into Kate's heart, but which one will intercept the other and take what they want? Which one will she choose?

L.P. Dover has scored a TOUCHDOWN with Intercepting Love!!!! She has done it again. First off, I want to say how much I love this series. Each book can be read as a standalone, but the way each book intertwines with the other is absolutely brilliant. In Intercepting Love, we get Cooper's and Kate's story. I got to know a little about Cooper in a previous book when he was dating Claire. I really felt bad for Cooper in Meant for Me, because he seemed like such a great guy. I was so glad L.P. decided to give him his own story. Kate is their team physician. She loved working for the football team. She didn't have to worry about the guys making moves on her, because her brother was on the team and he made sure he told them. I was glad that the story switched POVs between Kate and Cooper. Being inside both of their heads let me connect with both of them even more.

Cooper and Kate both have skeletons in their closet. I love how both become what each other needs to get past it. They lean on each other and are there for each other during their lowest points. That is what love is after all. Being at your lowest point and having that one person there to help push you through. I love how protective Cooper was of Kate and Vice Versa. When Cooper first arrived, I loved how Kate wouldn't even give him the time of day. Cooper never gave up though. He was a very persistent man and a huge flirt. Kate had no chance.

There was a love triangle in Intercepting Love. Luke is the best friend of Kate's brother. He has a past of being a player as well but there was something about Kate that he wanted as well. They were friends for so long and he tried to get her on a date several times. When she finally agreed, Cooper came into the picture. Luke seemed like a great guy. I hope I get to see more of him in the future.

This story was beautifully written and the the character development was perfect!!! Kate and Cooper both grew so much by the end of the story. This story felt so real and life like that I was able to feel everything that the characters for feeling. I felt as if I was there the entire time rooting for them. The suspense was killing me in this book!!! Even though I knew who was doing it, I was on the edge of my seat the entire time waiting for them to strike again. Intercepting Love was a real page turner. It was full of love and suspense from the very beginning. I was hooked after the very first page and did not want to put it down. I can't wait to see where L.P. takes us next!!!! I highly recommend this book!!!!

Man oh man, how am I supposed to pick and stick with a book boyfriend if every time L.P. Dover writes a book I have a new one?!?! I love love love love that L.P. Dover did a fifth book to her Second Chances series, and decided that this time it was going to involve football. However, I do miss the MMA fighters, any sports athlete is fun! This story was no exception. LP Dover really knows how to write a story that involves, love, friendship, drama, and sports. I love how realistic she makes her stories and how relatable the plots are. These kind of situations can actually take place and I'm sure have taken place we just haven't heard about them. I also love the play on words with the title and how it always always is a play on the specific sport that is written into the character!

"I know I definitely wouldn't want you spending time with another man if you were mine."

Intercepting Love is a sweet story about two people who have deep, sad, and messed up pasts that meet and find that they can be loved and can find love again!

"My fingers ached to grab a handful of it and hold her to me as I claimed her lips with my own. She was so goddamned beautiful."

Kate Townsend, experienced something quite traumatic two years ago that no one should have to experience, especially when it involves a loved one. This very traumatizing incident has left her feeling as though she is not worthy of someone's love every again and therefore she throws herself into her work as the physicians assistant to the NFL Charlotte Panthers. Never really able to let go and completely move on Kate deals with the pain everyday and even worse on the anniversary of it until she meets the new quarterback for the team, Cooper Davis.

"I'm sure you'll figure that out when the time comes. If you want me to kiss you, I'm not going to do it until you place your soft lips on mine first. If you want me to touch you, I'm not going to unless you beg me for it. It's all on you now, love."

Cooper Davis, former quarter back to the Oakland hurt his shoulder his life went downhill. Eventually all the spiraling got him kicked off the Oakland football team, however one team did want him and he was traded to the Charlotte Panthers. Never receiving any positive support from his parents Cooper always felt like he would never be good enough or felt as though he could be loved until he walked Kate Townsend.

"Hope that one day you will see in my eyes what I see in yours. There's a craving deep inside of you that I can see each time I touch you. It burns brighter every single time. I've never seen that with anyone, and that is how I know I have a chance."

Immediately Kate starts feeling nervous around Cooper and his dazzling crystal blue eyes, but keeps telling herself that she can't possibly fall for someone like Cooper, someone that is only into the sexy and drugs according to the many tabloid stories. Meanwhile, Cooper makes Kate aware that he is going to wear her down and she will eventually be his and that he never gives up.

"It's because I love you, Kate, and people aren't supposed hurt the ones they love."

Eventually, Cooper does what he said he would and Kate gives in! The chemistry between the two of them is fun and intense. Each being what the others needed to move past the pain from the past. Both being there for each other when they really need it and trusting and loving each other is what gets them through their bumpy love story. It just takes that one person sometimes to help you realize that you are worth it and that people can change for the better. I love stories like this because it gives people out there hope that there is someone for everyone and you go through certain experiences good and bad and that things happen for a reason.

"Nothing and no one is going to keep me away from you.....None of that even compares to you."

When I was reading the story nothing seemed as if these events and type of relationships could never happen. Not every relationship is easy...pretty much none of them are and that is why I love the stories that sum up the Second Chances series and the characters of each story get just that a second chance, however they have to work for it it isn't just handed to them. They have to earn this second chance in order to make them not take it for granted. Real life lessons in this story and the others. Never give up and always fight for what you want and never feel as though you don't deserve what you want.

"I'm always thirsty for you love."

I can't wait for the next installment to the Second Chances series. Thanks to L.P. Dover for writing such great stories.

If you like sports, romance, sexual tension, great friendships, a bit of drama/action, and strong characters this book is definitely something you will want to read. Cooper Davis is one sexy character and my new book boyfriend.

I'm a huge fan of LP Dover and she's actually one of my one click obsessions. What does that mean you ask? Well that means that whenever she releases a new book I automatically go out and one click it on Amazon. Her writing ability is amazeballz and she has a way of pulling the reader into the story. You end of feeling like you are right there with the characters living a life with them and being part of the story. Though all of her Second Chance books can be read as a stand alone I recommend reading them in order just because you are introduced to some of the characters in these books in previous books.

This book had it all romance, a love triangle, mystery, suspense, danger, and yes tears and sometimes there are lots of those ugly snotty nose crying tears. Kate Townsend is a physician for a NFL team in Charlotte, NC. She has a troubled past and doesn't date because of the guilt she carries over the way the last relationship she was in ended. It's been two years and now that she's decided to give dating a shot again she finds herself stuck between two hot and sexy alpha men.

Cooper Davis, who we got the pleasure of meeting in Meant For Me, is the new quarterback for the Carolina Cougars. After losing Claire to Mason in Meant For Me his life went on a downward spiral which only got worse when he got injured. He got into some trouble that got him kicked off his old team the Oakland Raiders and "traded" to his new team. He's attracted to Kate when he first sees her and when he discovers that she's not married or dating he decides to pursue her. I feel for Cooper and everything he's going through especially after meeting his mom. A woman who I despise and you will all discover why as you read the story.

Luke Collins is a motorcross champion, the best friend of Kate's brother Evan, the local bad boy, and a player. He's been friends with Kate for a few years and for the past four months she's been helping him with physical therapy after a mototcross accident left him with a broken leg. Now that the therapy is over he wants more from Kate.

This is a story about overcoming obstacles and being there for the one you love regardless of what they are going through or what you are going through. It's about opening yourself up to someone and taking a chance on love. Helping the one you love move on from their past mistakes or pain and finally begin to heal. Being there for them so that they don't go back down that road again. This story was a real tearjerker at times and by tearjerker I'm talking that snot nosed crying. I can't wait to see what LP has for us next.

I recommend going out and one clicking this baby now. I promise you won't be disappointed and while you are doing that don't forget to check out the other books in her Second Chance series. She also has a Fae series

that is absolutely amazing. L.P. I just want to say you're a whole lot of awesomesauce and amazeballz rolled into one. A will remain a fan of you and your books for life.

Cooper's story ~ Changing it up with this book. Instead of MMA fighters we're going to get up close and personal with the football player we all love so much, Cooper Davis. I'm excited for this one!!

Booked Every Night says

Another great love story by a great author.

We met Cooper in Meant for Me when he lost who he thought was the love of his life to another man. Now in Intercepting Love Cooper has been given a second chance to be the professional quarter back he was before his injury. Not only did he hurt his career with his injury but everything that followed after the jury made his team in Oakland trade him to Carolina Cougars. Cooper is definitely not happy about this trade.

Kate works for the Carolina Cougars as a Physician Assistant. Her brother Evan is a wide receiver on the team. Kate has had a rough few years and is just trying to stay focused on her career. She happens to be the physician on duty when Cooper arrives and has to do his check up. He also happens to have moved in 2 houses away from her.

Luke is a motor cross star and is also Evan's best friend. He has decided he is ready to try and make Kate his after years of playing the field and having fun. Luke and Kate are close friends and so Kate decides to go on the date with Luke to see if their friendship could evolve into more.

Kate has 2 amazingly hot guys chasing after her and has to choose which one. I am not usually a fan of love triangles but this one doesn't take the whole book to resolve since there are other more dangerous things that need to be dealt with.

Not only does Kate have the 2 guys trying to claim her but she has someone who is after her. I don't want to give anything away.

I really enjoyed this book just like all of the other books by this author I have read. The characters are all well written and the storylines are great. I can't wait to see which character gets their own story next. I hope it is either Evan or Luke. I recommend this book to anyone who loves a great love story with some mystery and suspense involved.

Kendall {Book Crazy} says

I just adore this series and I always look forward to the next book! I was really excited about this book when I heard whose book it was going to be because both main characters really intrigued me when they made appearances in the previous books! The plot of this book was amazing! There were a few times where the plot did slow down, but then it would start to build again! There was also a bit of suspense in this book, but I felt it was over too quickly lol! I would have loved it if more had happened to make the suspense build more! I really enjoyed it though and there were plenty of hot scenes too, which I loved! I also couldn't put this book down until I had finished it! I was really drawn into the plot and the characters! The characters were amazing! Kate was the main female character and she was such a loveable person! There was something about her that just made me love her and connect with her! I have to admit though that I didn't make the

connection that Kate was actually in one of the previous books in this series until it was mentioned in this book lol! I recognised the scene as soon as it was mentioned though! My heart also broke for Kate in this book as well! Something devastating happened that changed the way she was and I cried so much when everything was revealed! It really showed how strong Kate was though and it showed what she had been through! Cooper was the main male character and also the main love interest of Kate! Cooper was introduced in the third book in this series, but he was only in it for a short time! I loved Cooper! He was so hot and I loved how protective he was of Kate! I could see how strong his feelings for her were! Cooper had a few secrets of his own in this book and I didn't know what was going to happen when they revealed! I was really happy with the outcome of it all though and I liked that Cooper's secret stirred things up a bit! I loved that this book was written from both Kate and Cooper's point of views! It helped me connect with both characters more and I loved getting to see their feelings for each other develop through both of their eyes! There was a love triangle in this book, but the synopsis tells you there's going to be! The love triangle was between Kate, Cooper and Luke! I was Team Cooper from page one, but I did like Luke! What I loved about the love triangle was that it wasn't the main focus of the story! There was so much more going on and I liked that the love triangle didn't overshadow that! It did add a lot to the plot though! I'm really excited to read the next book in this series! It's going to be about a character whose story I can't wait to read, so I'm excited! The cover for this book is absolutely stunning! It suits the other covers perfectly and I fell in love with it as soon as I saw it! Big thank you to L.P. Dover for an ARC of Intercepting Love and to Enticing Journey Book Promotions for having me on the Blog Tour!

Renee W. Tyler, Battery Operated Book Blog says

"I love you, Kate," he murmured in my ear. "I never thought it was possible to love someone so much." Keeping up her pace and clenching her body tight all around me, she shook her head and let the tears fall. "Nothings wrong, everything actually feels right. For once I feel ... complete." These have to be two of my favorite lines from this book... you can just feel the emotions in them.

Now as for the book... we meet Kate as she is getting ready to move into the next stage of her career path which is graduating and finishing her medical degree. She has just accepted a job as a physician with Carolina's football team, which her bother plays on as well. Unfortunately her world is shifted upside down when she goes over to her then boyfriends house and discovers him dead. She could not understand why he would commit suicide because she was moving and how could he do this right now. Left completely torn apart from this even two years later Kate is still trying to recover, and feels that she is not worthy of finding love again.

Cooper has hit rock bottom. The only team willing to take a chance on him in the NFL is that of Carolina which his Uncle Joel coaches. Not having any other choice Cooper leaves California and moves to Carolina to start the next chapter of his life and to try and leave the demons in California behind. What he doesn't expect is to meet the one person who will change his life for the better, but can he prove to her that he is nothing like what the papers has presented him as?

I am a sucker for a good romance story. Through in my love of sports and it could not be a more perfect combination. Kate and Cooper have both been dealt blows in their lives that have all but knocked their feet out from under them. Not willing to give up and both prepared for a fight of wills, they help each other through some of the most difficult moments that they can face. Because of the support that they give one another, with emotions running high, they both find themselves in a positions of not knowing how to deal with their feelings. This is one of the parts that pulls you into this book. Add to the suspense of who is

actually trying to tear them apart and the fact that Luke, Kate's brothers best friend, wants Kate's attention and affection as well and you have one hell of a story. This is one of those stories where it just goes to show that the heart will win over mind ever time. I love the way L.P. Dover writes her athletes and their girls. I can honestly say that yes this is a book that I will pick up and read over and over again, just because it gives me the warm and fuzzy's. If you want a book that is light and just fun to read then this is a book for you. It is four bar worthy for sure. Nicely written Mrs. Dover.

Crystal says

Kate has been deeply damaged by the love of her life. She doesn't know why he did it, but his family won't let her forget it. After two years mourning him, she's finally at a stage to let someone make her feel what she's longing for. She'll wants to let go physically even if she can't emotionally.

Luke has tried hard to get Kate to open up to him. They are finally at a point where it seems things may turn the corner. Enter Cooper Davis, the new quarterback for the team Kate is a physician for. He set his sites for Kate as soon as he saw her. Kate isn't oblivious to the attraction as it's two sided.

She has decisions to make and no matter what she chooses she'll hurt someone she cares about.

I was SO glad to see Cooper again! I felt so bad for him when Claire and Mason got together. I absolutely adore that every time another book comes out in the series that we get snippets of characters from the past books. I do believe I cried more in this book than any of the others. The scene with the dvd had tears rolling down my face. Read the book and you'll understand.

As with the other books in the series, L.P gives you just enough info to assume who is doing what and allows you to be wrong. There's always a twist that catches you off guard. This is probably my favorite yet and with as amazing as they all are, that's saying something. There are so many layers to this book. Each person has their struggles and skeletons. They are all trying to overcome them. Then you have the suspense of who is doing what. Add all this to a love triangle and Wahla! you have the perfect combo to hook you into reading a book non-stop.

Be prepared for some very emotional scenes. The detail to the scenes is superb. It's like your right there, down to the swinging motion of the hammock. There are plenty of new wonderful characters in this book and I'm hoping to see their stories in the next books.

This book is 5 stars.

An onion doesn't have this many layers to it's story, but just like the onion the read is sure to make you cry when you peel back the layers.

I was given this book for an honest review. As always when I read ANYTHING by L.P. Dover I fell

absolutely in love with this book and could not put it down. Such an enjoyable and hot read. This can be read as a standalone although it is part of the Second Chances series. Everytime I read one of these book in the series I fall a little more in love with all the characters. I just love how the author weaves them all together. I absolutely adored Kate and Cooper's story. This is one story you do not want to miss!!!

Kirsten says

L.P. has a way of just sucking me into her world and making me comfortable. I really loved this book. I loved that L.P. brings back characters from past books in the series and makes use of them in the current situation. I loved seeing those glimpses of them, just to know that they were doing well and that they were happy in the path they chose.

I enjoyed meeting the characters in this book and seeing Cooper again. I had been hoping he would get his own woman who loved him as much as he loved her. He did. He just didn't know what a ride he was in for when he found her. Erin has been through a lot in her life. Things that most people don't even have to think about dealing with. Luke is Erin's brother Evan's best friend and has convinced himself that he's perfect for Erin. He finally convinces her to go on a date with him when Cooper enters the picture. Cooper enters Erin's life when he's traded to the team that she works for. After hearing nothing but negative things about Cooper in the press, Erin's not certain that he is what the team needs. She goes into the meeting with Cooper expecting to dislike him immensely. Everyone expects Cooper to be a handful and then some, so it's a pleasant surprise when he's not. Cooper has been dealing with a lot of issues himself, and being traded to a new team is not something he wanted.

Cooper deals with everything with a grace that he had to have gotten from his Father, because his Mother is definitely not graceful or even smooth. I despised her for what she did to Cooper, I mean, how does a Mother betray her child in that way? She hurt not only Cooper, but Erin as well. Erin, Cooper and Luke all are involved in the things that happen surrounding Erin. Erin's past is reaching out to drag her down, trying to ensure that she is never happy with anyone. Once Cooper finds out what's happening, he's on it. He doesn't want the woman he cares for being hurt, and goes to Mason for help in the matter. Once Cooper finds out what's happening, and what has happened to Erin, he intends to make her safe. Erin finds herself falling for Cooper, despite herself. Once they make that connection, there's no turning back for either of them. There are some twists and turns and bumps along the way, but Erin and Coper have found the one they've never knew they were searching for and they're not going down without a fight.

I truly love this series, and will continue to do so. L.P. writes fantastic story lines that pull me in and don't let go until the end, most times I still want more. I wish I could rate it higher because 5 stars isn't enough.

Katie says

L.P.Dover has done it again writing amazing stories. Once I started this book I could not put it down I had to know what happen next. Kate just finished Med School and has a job as a Physician for a NFL Team. She meets Cooper who is a football player he can't seem to stay away from her and there's her brothers Best Friend Luke which Luke has had a thing for Kate and finally Luke asks her out on a date it's hard for Kate to agree but she finally does. Can Kate ever Love again? Or we'll her past keep haunting her forever? Who we'll she choose Luke or Cooper? I could go on about This awesome book but I do not want to ruin it for you!!

Rebecca says

L.P. Dover's Second Chances Series brings together two aspects of the romance genre that I love - sports and a second chance at love. Readers met Intercepting Love's hero, Cooper Davis, in Meant to Be, where he watched who he thought was the love of his life choose someone else; since then, he's been in a bit of a downward spiral. Cooper is now the damaged football player whose past actions have made him a favorite with the tabloids and an outcast among the NFL, and now, he finds himself with one last chance to get back to being the confident, winning quarterback he used to be. Coop comes to his uncle's team looking for redemption on the field, but it's the woman on the sidelines that just might be who he needs to get back to being not only a player but a man worthy of victory both on and off the field.

Kate Townsend has a past of her own that has prevented her from getting close to anyone, fearing the damage that she could cause another person. So, she keeps to herself, focusing solely on her job. But a certain motorcross superstar, Luke Collins, who just so happens to be Kate's brother's best friend, is slowly changing her mind, but just when Luke finally persuades Kate to take a chance on him, she gets a call from the coach of the NFL team she's a physician for to come check out their new quarterback - Cooper Davis. Now, there's two men vying for Kate's heart; a heart that she doesn't know if she can risk giving to either one.

I'm not a big fan of love triangles, so at first, I wasn't sure this was going to be the book for me, but this is not your typical love triangle. Early on, there's a clear cut winner regardless of how much the other guy doesn't want to face that fact. So this story isn't really about two guys fighting over the same girl; it's about the hero and heroine fighting for each other. It's about seeing past someone's external persona and diving underneath to see who s/he really is. It's about feeling like someone has your back no matter what's uncovered. The story's about so much more than who gets the girl.

I loved getting Kate and Cooper's perspective as everything begins to unfold as well as unravel. It definitely helps to understand where they are both coming from and what they're risking for each other. Kate is an incredibly strong woman, but she internalized her guilt so deeply that it controlled her life until Cooper helps her to see beyond the pain. L.P. captures Kate's struggle brilliantly through the first person point of view. Cooper hit rock bottom, but with Kate's assistance, he slowly pulls himself out and makes amends for his actions. I don't think readers would be able to clearly understand how far Cooper's come without hearing it from his perspective. Kate and Cooper's road to redemption needed to be told through their own eyes, and L.P. does a fantastic job of allowing their story to be told.

Intercepting Love has a great mix of angst, suspense, steam, and romance. At first, I found it a bit hard to get into, but once the storyline picked up and secrets started to be exposed, it had my attention until the end. Now, I need to go back and check out the first four books in the series!

Angela DeMarco says

A copy of the book was provided in exchange for an honest review.

The story is based on a love triangle (not your typical one) of Kate, Luke and Cooper. Let me just emphasize there is no cheating in this book. This story is about learning to accept love and be loved again, being there for that someone no matter what they have going on in their lives. Trying to help them heal from their past mistakes to prevent them from occurring again. It's about taking a chance on the one you love, accepting them, and willing to open up to them about your past.

Kate Townsend suffered a tragedy two years prior in her life and has never fully recovered from it. Moving on from it has never been easy for Kate but each day she puts one foot in front of the other, thankfully she has a job she loves. Kate's a private physician for her hometown NFL team the Carolina Cougars. She has her brother Evan to thank for since he's the star wide receiver and he encouraged her to apply for the job. Kate's a strong, caring, loving person who swore off dating two years prior and focused all her time and energy on her job, that was until Cooper Davis breezed into her life.

Cooper Davis, NFL's star quarterback and most eligible bachelor, packs up and leaves his home to move across the states to the East Coast after an injury results in the embarrassing trade to another team. Cooper has a dark past and has done everything in power to cover it up. He's a very bitter man and uses drugs and alcohol to help him through his pain, almost to the point of ruining his football career.

Cooper's was in love in the past and had his heart broken, he's now decided to move on from it and focus all his time and energy on his football career, that was until he meets the beautiful Kate Townsend who could help him feel again, maybe even love again, the woman who would stand by him and help him no matter how many times he screws up in his life.

"There's a craving deep inside of you that I can see each time I touch you. It burns brighter every single time. I've never seen that with anyone, and that is how I know I have a chance."

Luke Collins, motocross champion and bad boy, best friend to Kate's brother Evan. For quite some time now Luke's had feelings for Kate and he's finally ready to let her know. He finally asks her on a date this is his one and only shot to prove his true feelings for her. He's not the type of guy who fights for a woman's affections or takes no for an answer. Once Kate accepts to go on a date with Luke can he show her he's the man she really needs in her life.

Will Kate finally take a chance on love again, or will she continue to live her life unhappy?

The bigger question is who will Kate choose to be happy with, the NFL quarterback Cooper Davis with the troubled past, or motocross local bad boy Luke Collins?

"When I want something I'm going to go for it, and when I see it I'm going to take it."

Intercepting Love will have you hooked from the prologue to the epilogue. The story has romance with some sexy steamy sex scenes, also thrown into the mix you got some suspense, emotions and heartache all which makes for an excellent story. There's some twists and turns you won't be expecting.

"I want to spend the rest of my life with you. You know how hard it was for me, but yet you stuck by me and always saw the good. You never gave up on me when so many others in my life did."

Angela's 4 Star Review

A copy of the book was provided in exchange for an honest review.

The story is based on a love triangle (not your typical one) of Kate, Luke and Cooper. Let me just emphasize there is no cheating in this book. This story is about learning to accept love and be loved again, being there for that someone no matter what they have going on in their lives. Trying to help them heal from their past mistakes to prevent them from occurring again. It's about taking a chance on the one you love, accepting them, and willing to open up to them about your past.

Kate Townsend suffered a tragedy two years prior in her life and has never fully recovered from it. Moving on from it has never been easy for Kate but each day she puts one foot in front of the other, thankfully she has a job she loves. Kate's a private physician for her hometown NFL team the Carolina Cougars. She has her brother Evan to thank for since he's the star wide receiver and he encouraged her to apply for the job. Kate's a strong, caring, loving person who swore off dating two years prior and focused all her time and energy on her job, that was until Cooper Davis breezed into her life.

Cooper Davis, NFL's star quarterback and most eligible bachelor, packs up and leaves his home to move across the states to the East Coast after an injury results in the embarrassing trade to another team. Cooper has a dark past and has done everything in power to cover it up. He's a very bitter man and uses drugs and alcohol to help him through his pain, almost to the point of ruining his football career.
