## Keep Me Wanting Avril Ashton

The last thing on Damian Archer's mind is a relationship. He's focused on running the family business and keeping up appearances. He's fine with the way things are, until the tattooed help at a friend's party takes one look at him and calls him on his bull.

Fired from a brand new job, Fin Thornton is homeless and penniless. He knows men like Damian. He abhors men like Damian. Despite the wealthy man coming to his aid when he desperately needs it, Fin is hesitant to lower his guard. Yet Damian insists on being in Fin's face, demanding things and offering help.

In spite of their differences, something keeps them wanting each other. The same connection that has Damian desperate to stake a claim on the skittish Fin. But it will take a ghost from Fin's tragic past to show both men that what they have is worth more than money.

## From Reader Review Keep Me Wanting for online ebook

### **Mspraise50 says**

I am loving this author's stories. Although the stories are about M/M romance, the stories are so intense and full of love and genuine emotions that you just get into the story being about love and romance.

This is Damian Archer and Fin Thornton's story which I enjoyed. This is an interracial story, the older wealthy man with younger homeless man. This story was not about law enforcement and criminals but about two people falling in love. The rest of their story is in All these Hidden Scars.

In order to get the full enjoyment out of all the stories I have gone back to the very beginning and I have started reading the stories order. The (Brooklyn Sinners) is the first series. In this series we meet a lot of the couples we go on to read more about in the other books.

I am just reading them back to back. Still enjoying them very much. Definitely worth a read.

---

### **Daphne says**

All these books are so entwined - it's like a series of Easter eggs. I love that.

This shorter book has the trademark Avril Ashton heat, but so much less angst and violence.

---

\*2.75 stars\*

Avril Ashton knows her stuff and is good at it. Bad boys, gang members, assassins, bikers...you name it. This is her area of expertise in my humble opinion.

Damian and Fin are good boys. I don't know if this is the reason, but this story didn't work all that well for me.

Damian and Fin are polar opposites. Damian is the rich CEO of the family business, while Fin is homeless, broke and currently unemployed. Their chance first meeting is filled with instant dislike but at the same time with unwanted attraction.

But this won't last long. Fin needs help and Damian decides he's the right man for the job. Honestly, things felt too rushed and too insta-lovey for my taste. And Damian's insistence on "saving" Fin all the time or being constantly in his face was almost too much. They didn't even know each other!

And Fin...Oh, man...One of the most immature characters ever! Most of the time he acts like a teenager, running hot and cold. One minute he pushes Damian away and the next he is all over him. When you give someone your room number in case he wants to stop by with food, it means you invite them, right? And

when he eventually shows up, you don't start yelling at him because he came uninvited! Well...not Fin. For the life of me, I don't get what Damian saw in him.

As expected, the sex is off the charts. Damn, but that woman can write a sex scene... Very intense and so so dirty...

There is a "mystery-crime" subplot going on and a new character introduced. I'm very interested in reading Sullivan's story which is next. It seems closer to what I'm used from the author.

So, 2.75 stars rounded up for the delicious smut.

### **Lisa J. says**

I loved the Brooklyn Sinners series but the Run This Town series seemed too BDSM-heavy and dark for me so I had to give it a pass. I'm glad to be back reading this author because her writing always seems so fresh and real to me.

I enjoyed the dynamic between Fin and Damian. I loved their physical, cultural and personality differences. Damian was determined to help Fin whether Fin liked it or not. When Fin compared his circumstances to a Lifetime movie, I had to agree (and laugh).

Fin was going through some pretty heavy stuff, which caused him to run hot and cold with Damian. Fortunately, that didn't go on to the point of annoyance.

The only thing I didn't like about this book was the ending. It was abrupt and too HFNish. I hope that means that their story will continue. I want more.

Avril Ashton...always has me wanting for her work. This is no exception.

---

### **Michelle says**

This review would be sham if I failed to talk about how completely sexy this book is. The author definitely knows her way around writing a sex scene!

The love was missing. I could tell they felt very strongly for each other but somehow, it didn't come out all that well. I wanted more of their relationship. Maybe the author should have explored the trial with this

couple. I know she probably reserved it for the next installment, but unless she ties up this couple, this book will always feel unfinished.

I also don't know how I felt about Fin.

And Damian. I failed to fall in love with him. I liked him, but I didn't love him.

All I can say is, it is a good story which I think had room for improvement.

### **Tina says**

4,5 stars

Fuck! What a book! Loved Damian and Fin, loved their story.

Keep Me Wanting was a little like Pretty Woman... morphed into my very special, awesome, hot M/M world.

Of course Damian, the sexy billionaire, is much hotter than Richard Gere, and cute Fin, the trailer trash kid, is much cuter and more angry than Julia Roberts.

Just when I thought it couldn't get any better Sullivan appears on the scene. Fuck! What a guy! Can't wait to read his story!

Highly recommended!

### **Karla says**

3.5 stars!

I'm so glad I found this book I couldn't have been happier to know Damian/Fin got their story. I'm kinda wondering why this book was not included in the (loose ends series) since this characters were introduced in the prequel. But nonetheless I'm happy I now know how they met and fell in love.

After Fin witnesses the murder of his family he runs away not wanting to face what he has to do. He struggles to take care of himself with odd jobs till he meets the rich Damian. He miss judges him and thinks his just another rich man who can buy him off. But soon he realizes Damian really cares for him.

I'm glad I read this book second since it helped me understand Fin's situation and why he would not trust his relationship with Damian. He did frustrate me a bit though because Damian was so amazing and patient with him. But once he open his heart and trust to Damian he was all in, loving and possessive of their relationship.

And as Iways with Avril Ashton's books so passionate and sensual. The chemistry between the MC always so dam sexy.♥?

### **Tamika♥RBF MOOD♥ says**

3.75 stars bumped it to 4 just for the smutty times.

Okay we all know how I <3 Avril. Good Lordt that woman can write a sex scene. Oh my goodness. I would have rather this been straight smut then the contemporary story. Damian and Fin are extremely hot together. I think I need to reiterate that. I'm never bored with that aspect of her stories. For this one though, I kinda felt like we walked into the middle of this potential couple history. Automatically it was rudeness between the two. I just feel like we were missing the introduction between the two. It moved fast from that initial meeting. I do like the chemistry between the two a lot. It was some sparks, and they were on fire. I mean Fin was a little spit fire from beginning to end. I like Damian, I kind of wanted to see more of him per say. We saw his family side, business side but nothing just Damian. I don't have to worry that the sexual side of the relationship is boring or dull. Goodness, I re-read a few this morning for scientific research purposes only. She writes those scenes extremely well. I needed to reiterate that. LOL. All in all I thought this was a cute contemporary novella. Mrs. A is never going to not have a little drama, or funk in her stories so we did get this. I can't wait for that little prequel whenever that's out. I see you Sullivan & Carter.

### **DaisyGirl says**

3.5 rounded up to 4.0 Stars

This was a sweet contemporary romance.

*Huh?*

Yup, that's right. AA did contemporary romance, with very little angst.

*Say what?*

Em-hmm and it was entertaining as all get out but it'd be disingenuous to say I didn't miss the angst. Happily, AA makes up for it with hawt, sexy-smexy scenes. Day-um but no one does sexy-smexy like AA.

Bottom line: I missed the angst but this was still worth the read. I was sad to reach the end and I always take it as a good sign when a book leaves me wanting for more. Bring it, AA!

*A Joyfully Jay review.*

#### **3.75 stars**

This book is definitely different from Ashton's usual line of badassery and I found that refreshing. Unexpected, but definitely nice. Not to say that this story is fluffy, because it's far from that, but it's a fun

and sexy story that had me hoping for a happy ending for these two.

I liked Damian—even as a rich playboy. He's big, bold, and confident and not without his own perceived issues. He's not technically in the closet, but he's not not in the closet either. Most of his issues were internal things—the closet/not closet situation and the lack of communication (which is understandable seeing as he doesn't do relationships). For Fin, his conflict was more emotional. His past plays a big role in who he is, although we don't discover the entire story and his end goal until very near the end of the book.

The story is really very good, although I found its quality a bit less than Ashton's other works. Maybe it was the dialogue or the descriptions that got to me, but I found myself comparing this to other stories that I absolutely adored and found this one good, but not as spectacular as the rest. Another thing I didn't like was the lack of conclusion to Fin's storyline. We see what the guys are hoping to do, but not what is actually done, which leads me to believe that there may be another story, but I'm not sure.

### **Makhda says**

#### **3.5 stars**

Ok. It was sweet. And the sex scenes are hot. But I feel like there's something missing here. I don't feel the sexual tension off the chart like the usual.

They're good guys. I loved them too. But I miss my bad guys!

---

### **Susan65 says**

The Blogger Girls

I've read some other reviews that say this is a sweet, contemporary romance. Say what? Maybe the ending was sweet, but there was nothing sweet about the clashing of wills between Fin and Damien. If anything, I was wondering how much Damien would take from the foul mouth ingrate before he threw his hands in the air and walked away from Fin. Of course, we don't know right away why Fin is such a hard man to love, but when you do he is completely redeemed.

I guess for Avril Ashton this could be seen as a less angst-y read, but I'm still putting angst in my tags. Being that I love a good angst-ridden book, this one was fit that bill. It wasn't long and drawn out because *Keep Me Wanting* is a novella length story and things move quickly. I liked Damien, a lot. He was not your typical arrogant rich guy, even though he did come across that way at the beginning. If anything, both Fin and Damien have a depth to them that needs to slowly be unveiled, but once the truth is revealed you breathe a sigh of relief and move on.

I was happy to see that a prequel will be coming out soon, I look forward to reading about Sullivan and his

tug of war between right and wrong, and dealing with the pain associated with a lawless twin.

Overall Impression: I really liked it

### **Jewel says**

2.5 Stars

I wanted to read *Keep Me Wanting* in preparation to reading All These Hidden Scars, but *Keep Me Wanting* didn't work for me, pretty much at all. The relationship between Damien and Fin was too much, too fast, and the power dynamic was way too unequal. And, I guess there is a big part of me that is really tired of the rich older guy/poor younger guy trope. Money doesn't impress me. Thankfully, it doesn't impress Fin, either. The sex was hot, but it was hard for me to actually enjoy it because Damien was an overbearing, managing, know-it-all ass. And Fin had a chip on his shoulder the size of Alaska.

I have it on good authority, though, that this is not representative of Avril Ashton's writing. I am very happy to know that, because *Keep Me Wanting* didn't impress me, at all.

---

### **Mimi says**

4.5 stars

Not as much gun toting and knife wielding going on in this book. Damien and Fin had a combustible beginning. Damien hated him on their first meeting but couldn't get him off his mind. Fin didn't trust Damien but was intrigued by him. Opposite do attract even though they don't want to.
