**Worthy cause**

Worthy cause and a great read!! Enjoyed all the stories! Susan Stokers was my favorite as I just love little Annie and all her 6year old wisdom!!

---

**Kim says**

Note to other Sawyer Bennett readers: if you've read "Max" already, then you don't need this book anymore (even though my buying it last year supposedly helped contribute to a charitable cause). If you've read Lauren Blakely's books before, then I ask you "are you still reading her books, 'coz I've stopped." If you've read Chelle Bliss's books before..... okay, I'mma stop right here. I didn't like this anthology, 'kay? It was a stark difference from the first Night Shift anthology, which was composed of mostly original stories. This second antho? Nuh uh. It's mostly pre-logues and epilogues.

## Sharon ∞🐉 is an emotional book junkie 🐉∞ says

◆ Only read *My Always* by Eden Butler at this time ◆

3.5 ★'s

Anthologies make me have OCD and this one bothered me until it just wouldn't go away! And I have a real love/hate relationship with them. I hate having to buy *more* books just to get a short story but if I don't...I feel like I'm missing out on something.

However, for the most part, they're usually not anything vital as is the case with this deleted scene. It's not necessary for you to enjoy Kona and Keira's HEA but it does make it oh-so-much better.

After all the craziness of the last book, *Thick & Thin*, Kona and Keira need some alone time to reconnect. They head to their cabin in Tennessee but Keira is feeling horribly guilty and is not there for Kona, at least in the beginning.

I really enjoy these two and their connection but it really makes me miss their younger years!

## Veronica LaRoche says

Love the extra stories and sneak peek into upcoming books. I love getting more of Chelle Bliss's books and upcoming reads. Great book for a very great cause

## Julie (Jewls Book Blog) says

With proceeds going for a great cause, this anthology is packed with extras on some favorite characters in various series! I finished most of the anthology and these two stood out for me.

Pucks, Sticks, and Diapers

Toni Aleo

4.5 stars

This one had lots of feels-the pregnancy mood swings definitely brought back a couple of memories-but that "omg what's happening scene" in the delivery room..well-played!

Rescuing Emily  
Susan Stoker  
4 stars

Annie is cute, precocious, and the star of the piece! For a bonus chapter, Stoker did an excellent job making it seem like a short story instead. Now I need to read the actual book and get the deets on Fletch and Emily!

### **Trader (RedHotBlueReads) says**

There are plenty of great authors involved in this charity project and plenty of great excerpts from them in this anthology. This is a review for My Always by Eden Butler, which is a very nice sized deleted scene from the Thin Love series.

What a terrific way to wrap up the series with this deleted scene of Keira and Kona finding their way back to each other after some marital troubles. It was different to see a bit of a reversal here, with Keira being the one to fret over her need for forgiveness from Kona. I loved reading this story and I bought this book just to get one last bit of romance from this couple. Great job Eden Butler! Loved getting a little more of one of my favorite series.

Go and pick up a copy of this anthology. It's for charity and I thought it was worth the price just for this one story, although I'm sure there is more to be found between these pages.

### **Mags says**

A really enjoyable selection of short stories.

My favourites were Pucks, Sticks and Diapers by Toni Aleo. Which features one of my favourite hockey families the Sinclairs and tells the story of Baylor and Jayden's upcoming arrival along with a few surprises and another favourite family of mine the Adlers who make a brief but nonetheless entertaining appearance. Also the additional bonus epilogue to Brenda Rothert & Chelle Bliss Dirty Work, which tells the story of Jude and Reagan's wedding in Hawaii and Chelle Bliss sneak peek at upcoming release Wicked Impulse, which I'm really looking forward to reading and a prequel to Enshrine which I thoroughly enjoyed and am now keen to dive into Enshrine. As it's been sitting on my kindle for a while.

There were also a few authors who were new to me, and I enjoyed the opportunity of previewing their books and I can certainly see myself buying them and reading more from these authors in the future. I especially enjoyed the preview of K Bromberg's Sweet Cheeks and Sawyer Bennett's Max.

Of the other stories there were three I didn't read only because they were an epilogue or bonus content to a story or series that I've not read but two of them are on my ever expanding to read shelf so I'm sure I'll come back to them at some point in the future.

Overall though I really did enjoy this collection and would certainly recommend it to others, as not only is it

a great way to read more about your favourite couples but to find new authors too.

**\*\*SECRET PREQUEL By Kindle Alexander**

5 Hearts

I loved Kindle's novel Secret so I was excited when I found out she was writing a short prequel for this anthology! It was awesome to get a glimpse into Dylan's mind . At this point his life was spiraling and he needs to get himself together for his wife and kids. It's hard for him but it was time to make a confession...

I loved getting to see a bit more of Dylan before he enters into Secret. It was a short read but gave some great insight into what was going on with him.

Quote:

“They’re what I’m most concerned about. We have to do better. They deserve more from us.”

**\*\*FORBIDDEN NIGHTS BONUS By Lauren Blakely:**

5 Hearts

I love this couple! Its the night before their wedding and they must keep with the lovely tradition of not seeing each other the night before the big "I do's." What's a couple to do when they don't want to be apart, even for just one night.

This was a very short read but it's so them.

Quote:

It feels like cruel and unusual punishment to withhold now that you’ve turned me into an every-night-addict.

**\*\*\*NIGHTS WITH HIM BONUS By Lauren Blakely:**

5 Hearts

Awe! Another amazing couple from the Seductive Nights series. It's nice to see that Jack and Michelle still know how to spice it up!! It was an awesome little bonus for these two lovebirds.

Quote:

“Are you going to distract me from staring at its beauty?”

A simply insanely wonderful collections of shorts from some of THE best authors out there today!

You get updates on favorite couples, chances to see where it all started for other, one last time with a few beloved ones and a great opportunity to get a glimpse of a book or two that hasn't even come out yet.

It is all here and I loved every word. I had a chance to read a couple new to me authors and now I'm hooked and ready for more. Even a seasoned author who I've never read, had me scratching my head as to why? Why hadn't I read her before?

All I will say is this: you get beautifully written bonus chapters and all money goes to a good cause. There is NO reason why you shouldn't read this anthology.

Grab your copy now. I'm telling you, you'll be very happy you did.

5 huge stars!
