Trouble in Paradise Deborah Brown

A Brand-New Madison Westin Novel, with More Craziiness in Tarpon Cove...

Remember Madison? What she had to go through... inheriting her aunt's cottages was peanuts compared to what awaits her in TROUBLE IN PARADISE, the latest addition to the Paradise Series.

What is big news in small town Tarpon Cove? An accidental drowning or maybe even a ruthless murder? When a dead fisherman rolls up on the shore of Tarpon Cove, Madison cannot resist but to jump into her new role as Private Investigator, with only one goal in mind: to solve this intriguing mystery of the dead guy. But things do not go as Madison wants as she discovers that people in small towns are usually tight lipped, and that is certainly the case for the residents of Tarpon Cove. Although a hot bed for gossip, in a town where everyone knows everyone's business, what is safer than keeping your mouth shut?

But that is not all... With Madison's tenant assessment skills not shaping up, her cottages are still full of riffraff, and it has become Tarpon Cove's hotbed for illegal affairs.

Madison teams up with her best friend and Glock-carrying Fabiana... Together they take on cases no other investigators would ever dare to touch in Tarpon Cove or anywhere else.

Sometimes a girl needs a bubble bath and a fun book. So draw your bath and dive into Madison's adventures!

Madison is a trouble magnet.

Another winner here!! Madison Westin attracts trouble every where she goes, even when she's trying to be good. A kooky family, barely legal friends, and a hot boyfriend who wants to lock her up and throw away the key, make up her unusual entourage. It all adds up to a really good enjoyable book experience.

Victoria Brinius says

Trouble in Paradise is part of the series called The Paradise series. Madison loves being a private investigator and starts trying to solve a new mystery as fast as she can. Why are the residents of Tarpon Cove giving her the cold shoulder? Why is she thinking that she is the one who can solve this cause of death? I have to admit that this is the first book in the series that I have read. I will be getting a copy of the others as soon as possible, I really enjoyed it. I give this book a 4/5. I received this book to review through Beck Valley Books Book Tours, all the opinions above are 100% my own.

Deborah Brown is a new favorite author! Deborah's In Paradise series are addictive, hot, fun, cant-put-em-down reads. (And they're not just for the beach, either!).

Trouble in Paradise has the book's female main character, an in-training P.I., Madison, stumbling into her first "official" jobs as a P.I. getting hours under another P.I.'s license. Brown does an amazing job making all of her characters distinct and extremely loveable or hateable, as the case may be. With characters like Brick, Spoon, Dickie, Creole, Cosmo, and Kibble, you know it's gonna be a fun read, and a wild ride. The books take place in the Florida Keys, and are every bit as heat-filled and full-of-life as the area.

The In Paradise series is the True Blood equivalent, wrapped in a P.I. mystery read based in the Keys, instead of vampires in Bon Temps. It's every bit as exquisitely written, with a wide-range of unforgettable characters, with heat and sex, and lots of guns. Did I mention, lots and lots of guns? Everyone packs in Brown's stories and it adds a slice of humor and charm that make the romp an even cheekier ride.

No spoilers here, but just to say that Brown does a good job solving the crime, with a character I wasn't necessarily suspecting (it could've been just about anyone), and sets up the next book nicely without leaving a frustrating cliff hanger. This makes these books great as stand alone reads, but they're like chips...you won't be able to devour just one!

Madison returns with all the usual characters, along with a new mystery to solve (imagine that). A dead body washes up on shore (these things happen when you live by the water), and there ain't nobody talking about it. At all. Very unusual in a place notorious for gossip.

Madison has grown into a character I can appreciate, even if I don't exactly like her all that much. But I do like that her heart is in the right place. Her partner in not-really-crime, Fab, has grown on me some. She's still extremely scary, but she's not all scary. I'd really like to read more about Zach's work, but for the moment, he serves only as the sexist "boyfriend" of Madison. The characters all seem to be fairly consistent, even the lesser characters.

As I was reading through this, about 2/3 of the way through, it seemed like the story was fairly disjointed, more just a series of incidents than a cohesive story. And it dawned on me that maybe Madison's life has progressed to a series of incidents rather than one big mystery. That revelation elevated the story for me.

Enjoyable.

Trouble in Paradise by Deborah Brown is a 2014 Paradise Books publication. I was provided a copy of this book in exchange for an honest review.

This is my kind of cozy mystery novel. It's a combination of mystery, romance, friends, and family with lots of humor capping it off.

In Tarpon Cove, the usually very talkative residents suddenly clam up when a fisherman turns up dead and foul play is suspected. Madison is a private detective itching for a case. Despite her boyfriend Zach's objection to her current occupation, she is determined to find out the truth about the suspicious death. Teaming up with Madison is her good friend Fab, who is a riot. Add to the mix Madison's mother, who is always interfering in her love life, her brother Brad and his new girl, and having inherited her aunt's rent cottages, which is littered with some real lowlives involved in who knows what kind of illegal activities. Having to earn her detective license, Madison is also being sent out of some of the strangest cases you could imagine.

Madison and Fab make a great team, even if they have some rather odd cases and have an unusual way of getting things solved. I loved the tropical locale and the secondary characters, all of whom were well written, some playing it straight and others a bit on the quirky side. Occasionally, the story got a little too busy and too many people were involved which had me mixing a few things up once or twice. Other than that, this is a really fun mystery, action packed, with characters you will want to keep in touch with for a long time to come. This one is 4 stars.

Madison Westin is back and better than ever! This book like all the others starts out with a bang!!! The first thing you will learn about Madison is that she is an IOU collector and redeemer! This woman has inherited IOU's from her late grandmother and keeps on racking them up herself for all of her amazing deeds she does for friends and family. The new addition of Creole as a third player in the Madison and Zach love triangle

just makes it even better! I am totally team Zach BUT I would love for him to get a bit of a scare so he steps up :) This book starts out with Madison making the decision to get her private investigators license which much to her dismay is not something Zach is on board for!

This book is the third in the In Paradise Series and Deborah once again does not disappoint! I am so happy to have the opportunity to review these books :) This book can definitely be read by itself but you should totally just dive in with book one Crazy in Paradise! Go get them all now! You won't be able to put it down!

More Excitement and Crazy in the Keys.

I like the characters very much! They live on the edge, not really criminals, but always pushing the limits. This series is light hearted adventure. The details and story lines get convoluted enough that you never quite see the end coming until it's there.

It's a little hard to remember who everyone is, because they all have odd nicknames. (Is that really a thing in the Keys?) other than that, it's a fast paced story with great quirky characters.

Stunatra says

Started off pretty good but fell off somewhere in the middle and that's where I quit. The writing left a lot to be desired. Everything felt too "fluffy". I guess for me it didn't have a decent balance of comedy and drama. It reminded me of Twilight in some ways, and that's never a good sign.

Drew says

A little bit different than the first two books in the series 'Trouble in Paradise' seems to focus a bit more on Madison's love life rather than her crime solving abilities. Yes, there are some of those as well which are another sore subject for me. She jumps from case to case almost every chapter while the main case, Cosmo's murder, felt largely ignored until it's suddenly resolved near the end. It felt more like a romance novel than a beachy mystery to me.

Sharon Martin says

The third book in an excellent series, it's all kicking off in the Keys, Madison and buddies are knee deep in trouble and have iou's to the big hitters in the area. How much trouble one lady can land herself in as well as trying to help her friends is unbelievable. The whole team has to give everything if they are all to survive.

This novel is full of excitement, sexual tension and romances and superbly backed up with humorous quips. The characters have grown into a very moulded group and their traits shine through.

Another very easy but enthralling read and a lot more going on, odd jobs for the local don, problems of

trying to evict troublesome residents and also solve the mystery of a man floating in the local waters.

The women will love the hunks with their dark sides and overprotective nature, with the female characters trying to prove they can live and survive without them, which adds a touch of feminism to the story. The fast cars, the gun tottering and dodgy characters embellished in a warm weather climate makes a rip roaring read.

Nickie says

Omg

Loved this adventure. Madison and Fan bff's. Love the suspense around every corner. Kept me reading till the end, can't wait to see what kinda trouble they get into next.

Becca says

This series definitely lands at one of the top spots of my favorites for the year. As you all that have followed me for a while with my reviews know, I love books. I love all sorts of different genres. Mystery has to be one of my absolute favorites though. A good woman lead role is also something that I adore. So the In Paradise series takes the cake for me. Madison is a strong woman who you would not really suspect would be leading a double life. Madison is a take charge female and her group of friends that she surrounds herself with are amazing to follow as well. Characters that have their own personalities are that much more interesting. Friends that mold into each other can make for a boring novel, which this group of friends definitely is not.

This book is not short on action and the way that Madison handles herself is something for the ages. Women that can hold their own and not have to depend on men are very attractive, and these girls are all that and more. These books in the series are quick reads but they are enjoyable. I never want them to end, but they do. I have had the pleasure of always having the next one to look forward to though. This is the case with this one as I move on in the series. This book gets FIVE stars from me and I look forward to giving the full report on the next Deborah Brown masterpiece.

I received this book to review through Beck Valley Books Book Tours, all the opinions above are 100% my own.

Keys Life

I live in the Keys and have a great time reading these books. The only thing is sometimes I wonder if the author ever came here. Ocean waves and beaches aren't easy to drive down overseas highway and have the view of.

Joan Blinn says

These books are so much fun-I'm looking forward to reading the entire series!

Don Rich says

Madison and Fab are my favorite characters out of all the books that I've read this year so far (except my own). In just three books, Madison has gone from doormat to badass with a Glock, and I can't wait to see where she goes from here! Keep writing Deborah, I'm in 'binge reading' mode! Three down, and eleven more titles to go!
