**Well Hung** Lauren Blakely

**From the NYT Bestselling author of MISTER O, comes a hot and hilarious new standalone...**

Here's what you need to know about me—I'm well-off, well-hung and quick with a joke. Women like a guy who makes them laugh—and I don't mean at the size of his d\*ck. No, they want their funny with a side of huge... not to mention loyal. I've got all that plus a big bank account, thanks to my booming construction business. Yup. I know how to use all my tools.

Enter Natalie. Hot, sexy, smart, and my new assistant. Which makes her totally off limits... ??Hey, I'm a good guy. Really. I do my best to stay far away from the kind of temptation she brings to work.

Until one night in Vegas... ??Yeah, you've heard this one before. Bad news on the business front, drowning our sorrows in a few too many Harvey Wallbangers, and then I'm banging her. In my hotel room. In her hotel room. Behind the Titanic slot machine at the Flamingo (don't ask). And before I can make her say "Oh God right there YES!" one more time, we're both saying yes—the big yes—at a roadside chapel in front of a guy in press-on sideburns and a shiny gold leisure suit. ??

But it turns out what happened in Vegas didn't stay in Vegas. And now, my dick doesn't stay in my pants when she's around. I try to resist. Honest. But the more we try to keep our hands to ourselves, the more we end up naked again, and the more time I want to spend with her fully clothed, too.

The question now is...do I take this woman to be my ex-wife?

**Jenn\_COBB - Collector of Book Boyfriends says**

**Well Hung by Lauren Blakely - 10 stars**

**Hilariously funny, hot as hell itself, Perfection right here!**

**Lauren Blakely at her best!**

I don't even know where to start!

While reading this book words kept coming to me and now they are having a party in my head and I am going to try my best and make them come together smoothly :)

**Lauren Blakely managed to blow my mind.....AGAIN!**

**This woman is unstoppable...She keeps writing these books faster than anyone else I can think of and she keeps delivering without a single fail.**

How is that possible? Beats me and honestly let's just enjoy the ride :)

I would like to say that this book is her BEST work so far, but that would be disrespectful to all her other series and amazing stories.

But this one is her best out of this series of rom-com stand alones.

Wyatt took over my mind and heart from the prologue alone!

I connected with his and Nathalie's story so good I might as well have been with them on this journey of theirs.

This one has it ALL!

Hot hard working alpha ( no billionaires with psycho issues here no) that knows what he wants and works hard on every field in his life to get there.

A strong and confident heroine that has her life organized until the very last detail and her eyes on the ultimate goal.

Throw in some extremely hot sex tension that had months to build up and love and passion that neither of them can deny or resist and you have a winner.

Their writing is magnificent and with such a real and authentic male POV that is sometimes incredible that this comes from a woman. The pace was perfect and stable and I was unable to stop reading.

Even if it was a single POV she still managed to sneak in Nathalie's thoughts too and in a great and unique way that I enjoyed tremendously .

Now it's official that Lauren has a thing for Vegas and getting her characters on a rollercoaster rides  
\*literally\* and some of the hottest and sexiest scenes and acts that will forever be on my mind!

Another thing that I love is how Lauren writes and takes care of her characters and keep them making these cameo appearances in future books and giving us small updates about where they are now and what is going on with them as well as with the main characters.

They are one big happy family that lives happily ever after!

I can always rely on Lauren's books to make me feel good!

She is not a heartbreaker that leaves you crying your eyes out and with a wounded soul.

The woman knows what works for her and she is the best in this field and never lets her readers down.

**Favorite scene: >**

When the whole group was together and that brought a true feel good vibe and I was back in the Friends Reunion!

If you liked any other book by Lauren Blakely you will most definitely LOVE this one!

Don't miss out on a great story that will become one of your favorite ones.

I give it all the stars in heaven!

---

**Angy Potter - Collector of Book Boyfriends says****Book Review: 5+++ Stars**

How is it possible that every man Lauren writes is so damn perfect? How is it possible that every story Lauren creates is so funny and sexy and romantic? How is it possible that she can connect all her books, old ones and news to come, in every book she writes? Well, I don't know, but what I DO know is that I love her, and her books and her characters and everything she does! She's amazing and once again, she'd done an amazing job with this new book of hers: WELL HUNG!

This is the story of Nick's twin brother, Wyatt and Charlotte's sister Natalie. Back in *Mister O*, during Spencer and Charlotte's wedding, Wyatt and Nick were talking about Natalie being hot for Wyatt and that was all the clue I needed to start plotting about their love story and wait for it anxiously. The time setting of *Well Hung* is a little after *Mister O* ends. Natalie is working for Wyatt as his assistant in his construction company and she's been doing a great job in the managing department while Wyatt does his magic with the constructions and remodelations. And of course, their relationship is very friendly but also very professional, especially because of Wyatt's constant mantra "*Do Not Mix Pleasure With Business*". But one trip to Vegas, that was supposed to be about a new job for the company ended up like this...

<https://www.youtube.com/watch?v=xlrqa...>

\*Cracking up\* OK, ok, it wasn't like that but almost!! Ha Ha Ha!! They had the best time in Vegas—insert here the most funny, sexy, crazy and daring time ever—but what happens in *Vegas doesn't stay in Vegas* and here is when the drama begins. Ok, I'm overreacting \*chuckles\* It wasn't an angsty kind of drama, it was the good kind of drama. The sexual tension, the miscommunications, the blanks of the night in Vegas, everything was a constant cause of insecurity to Wyatt. He was so sure he wanted Natalie, and there were times she showed him she wanted him too, but most of the time he thought it was best to be away of Natalie's sandwich, but he wanted to eat it so badly \*pun intended\* Ha Ha Ha.

The conclusion of this story was awesome. I loved everything, but my favorite part was how sweet Wyatt was. He's the most adorable book boyfriend ever with a high addition of sexiness that made me combust a lot of times while reading this book. And Nat, Oh. My. God. Natalie! She's def one new addition to my collection of book girlfriends. Her heart is so big and strong and perfect. And she is a ninja! Ha Ha Ha Ok,

not a ninja, but she's black belt in karate and she kicked Wyatt's ass on the mat #SoBadAss Anyway, they were perfect for each other, just as much as this book is.

A final note about this book: You can read *Well Hung* as standalone, but I suggest you to read *Big Rock* and *Mister O* before, in that way, you'll enjoy more this book, enjoy the cameos of the previous couples and if you follow the upcoming releases, you'll get a glimpse of the characters of *The Sexy One* and *Full Package*.

---

## Dena says

Lauren Blakely has done it again, she's brought us another scorching hot story of two people who are absolutely perfect for each other. I don't know how she does it, but I get all jittery until I can read the newest words she's put together since I know it'll be 100% perfect! Wyatt Hammer is the infamous Nick Hammer's brother from Mister O. Wyatt has an amazing assistant named Natalie. She's been a huge help to his business and even though she's beautiful and perfect, Wyatt does his best to be the perfect gentleman... Until one night in Vegas while drunk... They say what happens in Vegas stays in Vegas, well not when you come home sporting a new wedding band and a wife. Read to find out what happens next between the man with the hammer and the woman behind the desk.

"I knew you were looking at me like you wanted to fuck me. I looked at you the same way, and all I could think was how . . . well hung you are."

"Holy shit.

I kissed my assistant.

I banged my assistant.

I married my assistant."

I absolutely devoured *Well Hung* in one sitting. I couldn't wait to see what came out of Wyatt's filthy and wicked mouth. That man is sex on a stick and his temporary wife is one lucky woman! Hot damn, my Kindle was sizzling with all the sexiness and sexual chemistry between Natalie and Wyatt. *Well Hung* is the story of a man and woman who get drunk and end up waking up the next morning MARRIED! Another BANGING (pun intended) story by Ms. Blakely! *Well hung* is the perfect amount of funny, flirty and magically delicious. Hold onto your seats because this is one delicious "RIDE" you will never forget...

---

## Sheila'S Book Corner says

So who here knows that I love Lauren Blakely? I love her love!

Each book that she puts out I keep saying to myself I don't know how she is going to top that one.

And then

So when I asked her for Well Hung, and she finally gave it to me I was like a kid in a candy store.

I curled up in a corner and I got ready to take a ride. And what a ride it was!

***Warning: I don't give spoilers, so you'll just need to buckle up and enjoy the ride.  
The only thing I'll tell you is this-our ending is one you'll never see coming.***

For everyone that has read Big Rock and then Mister O, we got little glimpse inside the mind of Wyatt Hammer. Mr. Well Hung himself.

***Here's what you need to know about me — I'm well-off, well-hung and quick with a joke.***

I mean seriously as a woman what more can I ask for. I want someone to make me laugh, I want someone to make me swoon, someone who is loyal and let's be honest I want someone with a ummm...big...personality. You dirty dirty minded people.

***I've got all that plus a big bank account, thanks to my booming construction business. Yup. I know how to use all my tools.***

He also has a strict don't fraternize with anything that has to do with work. Be it, workers, clients and most importantly his assistant. I mean it should be easy right? Except

***Enter Natalie. Hot, sexy, smart, and my new assistant. Which makes her totally off limits...***

Now let me start off with their relationship before the hammer came out to nail her. They had the best time ever. They pushed each other to their breaking points, just for fun. Be it a eating contest or just to have the last word. Heck I wanted to work for him!?? ***Until one night in Vegas...***

You have no idea, but when the best day of your life is quickly labeled the worst day of your life you do what every single person would do. You get drunk. Everything is always clearer when you drink!

***"Because of how it tastes on your lips when I kiss you?" I ask, trying that on for size.***

*She says one word. Yes.  
And before I know it, I'm kissing Natalie.*

I swear their first kiss gave me flutters in my stomach, had my heart beating fast and I had giggling like a fool. Because not only is their first kiss hot as heck. They don't stop there. These two leave their mark on every single available surface. ?? *I'm banging her. In my hotel room. In her hotel room. Behind the Titanic slot machine at the Flamingo (don't ask). And before I can make her say "Oh God right there YES!"*

I mean and then what fun would Vegas be if you aren't visiting a wedding chapel??

Yup you guessed it. Hello Mr. & Mrs. Hammer. It's all fun and games till you wake up the next morning and the first thing you see is your assistant with a matching wedding band.

If only that was his only problem. Now back in New York they find out that what happens in Vegas doesn't really stay in Vegas. You see the minute she's around his hammer is ready to nail her.

The way these two fought their attraction was amazing. The way that their friendship shifted yet they didn't even realize it. The way that they cared for each other but just ignored the signs was what I loved best.

But most of all I have to say that I loved the love. I loved how they loved each other. I loved how it was just as natural as breathing that it was to love each other.

And that people is why Lauren is a master mind. She made me laugh, she made my stomach flutter, she made y heart beat faster, she made me palms clammy and she made me swoon for yet another man.

---

## **Beneath The Covers Blog says**

Vegas, an unexpected marriage and an abundance of steamy sex! Well Hung will give you a new appreciation for a man's toolbox! This story explodes with laughter, sensual intrigue and emotional punches to the heart! It's now Wyatt's turn to tell his story...

Told entirely from his POV, Wyatt is gorgeous, funny and a successful businessman. Of course he would be, just look at his twin brother Nick! Good genes definitely run in their family! Wyatt is a laid-back, uncomplicated guy. That is until his assistant Natalie starts tying him up in knots...and not necessarily the good kind, either.

Natalie, Charlotte's sister, has been working alongside Wyatt for months. But each day is more difficult than the next. His sexy good looks, incredible body, amazing personality and impressive tool belt makes it impossible for Natalie to keep her hands off him.

But when a trip to Vegas and an unforgettable roller coaster ride changes their relationship, can they continue to only be work colleagues?...or will their undeniable attraction and erotic feelings for each other finally allow them to see what's right in front of them?

I'm completely blown away with each and every book Lauren writes! Each story she creates is hotter, sexier and more romantic....and the men! Good lord, do the men keep getting better! Swoon-inducing, panty-melting, dirty-talking, take-my-heart-and-never-give-it-back type of men! I will NEVER get enough!

Do not pass this book up! Find out for yourself just how well hung Wyatt is...you won't regret it!

5+ Stars...a one-click MUST READ!

*\*ARC provided in exchange for an honest review.\* ~Kelly*

---

◆\*Arianna◆\* says

4.5 Stars!!

I always have so much fun reading this author's romcoms. Every. Single. Time. She seems to have the perfect formula when it comes to romantic comedies and the fact that all of them (all I've read so far) are written from the male main character's perspective is a fantastic bonus. At least for me. She always makes me smile, grin and swoon and also forget about everything around me for a couple of hours.

'Well Hung' like any other romcom by this author was well written, gripping and so very entertaining from the beginning until the end. From the moment I saw the title and the cover I just knew this one will be an awesome read. And it totally was! In fact, it was my favorite romcom I've read by this author. 'Well Hung' can be read as standalone, although some of the characters from "Big Rock" and "Mister O" make an appearance.

***"I knew you were looking at me like you wanted to fuck me. I looked at you the same way, and all I could think was how . . . well hung you are."***

Wyatt Hammer (Nick's brother – the male main character from "Mister O") is owns a construction business, is smart, good looking, a great brother, a wonderful friend and of course he's **hell hung**. In other words, Wyatt is pretty damn perfect. He's good with his tools...obviously and also with his hands...DUH, but when it comes to organization he's very clumsy. However, he's lucky since he has Natalie.

Natalie had been working for Wyatt for six months. She's smart, impeccably organized and a master planer. Needless to say Wyatt will be lost without her and he's very aware of that. Natalie not only is a smart, kind

and funny, she's gorgeous too and Wyatt knows that. He's more attracted with her than he wants to be, but he has to keep his hands to himself since he doesn't want to mix business with pleasure.

***“For the rest of the day I will be working next to her.***

***Please, please, please let the horny aliens inhabit the planet of another man's mind today.***

***That sweet, sexy smile.***

***Fuck, being a good boy is way overrated. I want to be bad with her.”***

Everything changes between these two on a trip to Vegas. But what happens in Vegas, doesn't stay in Vegas...not this time. The situation gets worse for them when the more they try to keep their hands to themselves, the more they end up naked again...again and again.

***“I rub the head of my cock against her, and in one fast motion, I push inside. She's so wet and tight and snug, and I love the way we fit. Like we're meant to be. Like everything that happened before has led to this.”***

This one had every one of the elements that make a romantic comedy a wonderful, entertaining experience – plenty of funny moments, a fantastic blend of sweetness and sexiness, wonderful, engaging characters and a swoony romance.

I enjoyed the story-line a lot. It was fresh, simply delightful and the fact that story was told from Wyatt's perspective made me enjoy it more than other romcoms I've read. The two main characters were well developed, endearing and they even had depth. Wyatt was a wonderful narrator. I had so much fun being in his head. The man was portrayed pretty great I should say as a sex-on-a-stick, but he was more than that. He was funny, charming, thoughtful and so very sweet and caring at times. I loved his voice a lot and I must admit he was my favorite Mrs. Blakely's hero I've read about. I also loved his perseverance when it came to our heroine, Natalie and how honest and honorable he was at times with her. Natalie was really great portrayed through Wyatt's eyes. She was endearing, even relatable and most important perfect for our hero. The fact that she was a dirty talker as much as Wyatt was refreshing and entertaining to say the least.

***“I want to feel all the joy and exhilaration with you. The ups and downs. Because loving you is some kind of wild ride, and I don't want it to stop.”***

The romantic aspect was done really well. Watching Wyatt struggling with his feelings was pure entertainment. I loved the friendship between these two. They were great together and I simply loved their playful banter and how easily they communicated with each other. As much as I enjoyed their friendship, I have to say their romantic relationship was even better. They were perfect for each other, sexy and the

chemistry between them was fantastically done.

*“She’s like a tiger, and together we’re animals.”*

Mrs. Blakely not only writes fantastic chemistry between the characters, she also writes some incredibly passionate sex scenes. I loved these two between the sheets. They were HOT AS HELL!

Overall, a fantastic read!

---

## **Karen Mc says**

As women, we often wonder: Just what do men really think? How do they really feel? If only we could jump into their heads like we can their pants and read their minds. How about the next best thing? A book written in the male point-of-view so well that it feels like an invasion of the male psyche. **Well Hung by Lauren Blakely is that book, that story that steals those mesmerizing and mysterious male thoughts and makes them yours.**

**In her latest scorching and swoony sensation, Lauren Blakely masters the male mind in Well Hung, a riveting romance that renders you breathless and aching for more.** Well Hung is written in a refreshing and melt-your-panties male voice with a fine-tuned and detailed storyline entailing countless character thoughts and dialogue. Lauren Blakely’s execution of the single POV flawless and fabulous where it felt as if I were in the room with Wyatt in Well Hung and he told me his story.

We first met Nick Hammer in Mr. O and now we meet his twin, Wyatt, in Well Hung. Both brothers are indeed hot, well hung and are definitely O masters. Wyatt runs a construction company and knows his way around tools, especially his big tool that seems to stay pointed at his pretty assistant, Natalie, who happens to be Charlotte’s little sister. Charlotte is married to Spencer from Big Rock. Don’t you love this connection? It’s a big pleasure to read indeed.

*“Here’s what you need to know about me—I’m well-off, well-hung and quick with a joke.”*

The first line of the synopsis sold me to this steamy story, one I knew Lauren Blakely would blast with heat as well as heart...and oh she did. How can just one line have my panties practically saluting this sexy-sounding story?

*“It is an epic battle. Man versus hard-on. Man rarely wins. Boners are too powerful.”*

The Prologue first had me wanting to hop on a plane and find Wyatt and his giant tool. I’d later beg hubby for a hall pass. Because hot guy, big tool, and Vegas, right?!? Well Hung captivated me and claimed me like the best O, as in OH SO GOOD!

Wyatt and Natalie are boss and assistant, but the battle they face not to succumb to temptation as the heat flows between is one of epic proportions.

*“I need to stop thinking of banging Natalie in elevators, and, on that same note, of missing her. That’s*

***girlfriend-level stuff. Natalie is just my employee. Nothing more.”***

The chemistry claims Wyatt and Natalie...every day at work. That lingering lust is an itch that needs to be scratched in the worst way. A relationship between boss and employee is forbidden. Those thoughts can't become actions...unless...unless Vegas.

What happens in Vegas stays in Vegas. Unless you are a hot boss with a big package who goes on a business trip with a beautiful assistant who you'd like to test out your most-prized tool, one that you've caught her eye-banging.

***With Natalie radiating energy and excitement, I'm thinking blonde with a side of spanking is my favorite.”***

Wyatt is more than pleased to know he's not the only one swimming in a sea of lust. Natalie is hot for her boss, and if that is a turn-on in itself.

***Don't you know? I ache for you.”***

What happens in Vegas stays in Vegas. Unless you indulge in a liquid buffet with a liquid courage dessert.

***“We don't lean into each other. There's no inch-by-slow-sensual-inch pull. It's not a slow burn. It's a fiery crash. We kiss hard and rough, fueled by pent-up desire and more than enough vodka and rum to make this inevitable.”***

That kiss...WOW! I felt the sizzle and sparks. The passion poured from the pages right to me.

What happens in Vegas stays in Vegas. Unless your liquid courage takes you to the chapel where you may partake in a wedding on a whim. Holy mother of Hangover movie type of events! Well hung is now well hitched!

***“I crave everything about her.”***

I spun in a sea of swoon, and did not want to surface for air.

Lines are blurred. Feelings are forming. What began as a hot Vegas night starts to become and feel real. Though perceptions aren't often reality, especially when perhaps only one wants the real while the other is fine with one night of fantasy.

***“I did it again. I mixed business with pleasure. And this time, the results may be disastrous.”***

**My laughs bled into tears, my heart was hit with a force I didn't see coming, and the feels floated around me as Well Hung hung on tightly.**

I LOVED this sweet and spicy story so much!!! I was utterly HUNG UP on Well Hung! There is such a sweetness to a well-written friends-to-lovers story, and Well Hung delivers the goods with hilarious lines full of heat and humor that hit my heart along the way. Amusing. Angst-filled. All-consuming. **Well Hung is the perfect recipe for romance, a story that is sheer brilliance from beginning to end.**

**Well Hung, along with Big Rock and Mr. O, is part of a spellbinding and scorching series that has**

**quickly become my piece of page-turning pleasure.** Lauren Blakely is a master at writing stories full of heat and humor that bring both fantasies and feels to life. I am not quite done living this fantasy yet.

5 well hung and heart-felt stars

---

### **Rosa Sharon (iScream Books Blog) says**

*"Your dirty mouth is my guilty pleasure."*

What can I say? *That title... That cover...* I couldn't resist, even before I read the synopsis. It was irresistible. The author's dirty mind was my guilty pleasure. I'm so glad that she shares it with her lucky readers.

I was expecting Wyatt to be a total tool. And while he knows how to use one, and he has one, *he's not one*. No, I don't mean *that* tool, though he definitely has one of those too. He also has a *Stud Finder*. He keeps setting it off every time he puts it in his back pocket, cuz he is one (wink-wink). But what I mean is that underneath the cocky arrogance, there's a nice guy hiding. He has a close relationship with his siblings Nick (his twin), and Josie his sister. He treats his staff well. And he's very well respected in his chosen profession. His reputation is getting him almost more jobs than he can handle in his construction business. It's a good thing he has his assistant to keep it all organized for him. She makes sure that everything runs smoothly and he doesn't know what he'd do without her. That's why he keeps telling himself to keep his hands to himself. It doesn't count if he doesn't, if it's only in his mind, right? Can he help it if he thinks she'd look better bent over her desk than sitting behind it?

Natalie is not just a pretty face. She's a badass black belt in karate. She works miracles all day keeping Wyatt organized, and then she teaches self defense classes in the evenings. Wyatt jokingly calls her a ninja, but he means it with the greatest respect. He thinks the world of her, that's why he's trying so hard not to risk their business relationship by straying into a personal one. He's learned the hard way not to mix business with pleasure. He knows better... *when he's sober*.

Natalie believes that, *There's no such thing as a calorie-free chocolate, or a guy who's funny, well hung, and sweet.*" At least she thought so. After her memorable *"Go big or go home"* weekend in Vegas, she now knows that 3 of the 4 do exist, and it's not the chocolate. He really is too good to be true. *Too bad she can't keep him...*

This delightfully fun read was a treat. It kept me giggling and blushing as I kept my fingers and toes crossed that Mr. & Mrs Hammer would not *un-tie the knot*. I also enjoyed the support characters and I'm excited to spend some more time with them in upcoming installments of this series.

---

### **Kim says**

Ooh Ooh It is Wyatt Hammer's book! He is Nick's twin brother who we met in Mister O! The successful,

hot, outspoken, manly-man owner of his own construction company. Swoon!

Wyatt is just trying to observe his golden rule of not getting involved with someone he works with. He's been burned in the past and his construction business is too important to risk again. Natalie (Charlotte's sister) is now his valued employee. In the six months she has been working for him, she has helped organize and turn his business into a successful well-oiled machine. She keeps everything running smoothly, but also gets his personal motor running. He enjoys having her around, but has vowed never to mix business with pleasure again.

One night in Vegas changes everything--too much alcohol, lust, and lack of inhibitions lead them into one night of intense passion, fun, and daring adventures. Living in the moment seems like a wonderful idea at the time. But what happens in Vegas does not always stay there, and what happens when reality pushes its way back in?

It's hard to stop wanting each other. They are both so attracted and mixed up, and find themselves in situations leading to sexual tension and more amorous encounters. But their issues are not going to disappear. He's still got fears and trust issues based on his past. They still have a working relationship and rely on each other. Their easy interactions become not-so-easy anymore. They are both kind of the black sheep of their families that have been known to be somewhat trouble makers. And it still seems like every time they take a step forward, something happens to ruin it and send them two steps back. It appears that there is no way for them to navigate their delicate situation and really have it all.

Wyatt is a man confused that has major trust issues and fears based on his past. Natalie is just trying to do what needs to be done and deal with what she stands to lose. But it is a wild ride of want, need, miscommunication, hurt, fear, and mistrust.

Their Vegas misadventures have real life consequences. There are so many variables that go into trying to figure it all out, and so much that could go wrong.

I enjoyed spending time with some friends from the other books in this loosely tied series: Wyatt's twin brother Nick and his love Harper (Mister O), their sister Josie, Spencer and Charlotte (Big Rock), Simon, and some new friends like Chase and Max Summers. Definitely some hot, hunky hero material and some underlying stories to tell. I love that Lauren has little connections between her books, but that the stories all also stand alone.

This was told in Wyatt's no-nonsense point of view. And I loved him! His voice and personality was unique and stood out even from his twin brother, Nick (Mister O). He was hot, naughty, dirty-talking, but also sweet, loyal, vulnerable, and torn. He has his own goofy, sarcastic sense of humor, and I loved his relationships with his siblings and friends. He was just that kind of good-natured, honest, trustworthy guy that you want as a friend. But he also had his sexy, passionate side that made him so magnetic and appealing.

And Natalie was fun, organized, tenacious, caring, and adventurous. She was smart, goofy, and had a giving heart, but was equally lost on how to deal with their mess. I liked that we got a little taste of her point of view during text messages.

This couple was just so likable and so totally hot together! They give Mister O a run for his money in the orgasm department! They had such a fun rapport, smoking chemistry, and a shared sense of adventure. But they did have some real, concrete issues to figure out. I enjoyed their wild roller coaster ride that they found themselves on. It was steamy, naughty, sweet, humorous, and romantic. There was enough tension, drama,

and issues to make it interesting and keep me wondering how it would all play out. And there were a few surprises. This was another engaging male point of view book from Lauren Blakely and I fell for another one of her sexy, down-to-Earth heroes.

I was gifted a copy in exchange for an honest review.

## **Tina says**

If you want passion, lust, great "get caught in public places" sex, true love, humor and did I mention passion, then Lauren's new book Well Hung is for you. Wyatt Hammer owns his own construction company and is very handy with his tools (yes both types). Natalie is his assistant. But because they work together, will that give them the red light for love? Lauren has hit another huge homerun with this book. I was laughing throughout and love the public places where Wyatt and Natalie found passion. I have been hooked on Lauren's books since the first one and can't wait for the next one!!

### **5 TAKE ME TO VEGAS CROWNS**

I have never read a Lauren Blakely book I haven't liked. I enjoy her writing style, and her ability to switch between tropes. Her romantic comedies have me rolling with laughter, and her mysteries leave me sitting on the edge of my seat, but no matter what she writes, it is always so well done!

Well Hung is written from the male POV of Wyatt Hammer, the brother of Nick, who we met in Mr. O. I love being inside of this man's brain. He is crazy and impulsive and radiates an energy that is infectious, and yet when it comes to his business, he is responsible and dependable. The reader can certainly see why Natalie would be drawn to him as a person. Wyatt had me laughing uncontrollably, fanning myself, and swooning all over the freaking place, and, let's be honest, is there really anything hotter than a man that can make you swoon, make you laugh, and make you hot and bothered? I don't think so!

The partner in crime for Wyatt is Natalie, sister of Charlotte from Big Rock. Natalie is great as well, and I really like where Lauren Blakely took her character. She is honest and trustworthy, and her actions in the novel show that she truly understands the meaning of love.

These two together are just fantastic, although there are times that I became frustrated with them, because their obstacle preventing them from getting together doesn't seem to be that large. So many times, I wanted them to just confess their feelings and move on with the story. But, there are some plot details that are revealed at the end that make their refusal to talk about their feelings plausible and led to a better understanding of character motivation for the reader. Their chemistry as a couple is electric, and you can feel it coming off the pages and you hope to absorb just a little bit of their fun.

This plot is completely and totally entertaining! The banter, the sex, the will they finally be honest with each other is all highly engaging and will pull the reader into their adventure. There is low drama and lots of laughs and smiles. I couldn't help keep the smile off of my face as I was reading, and that epilogue will just melt your heart and leave you giddy. The last thing that I loved is the little nods to other books and characters. I am sucker for any mention of past books and stories I loved, and Lauren Blakely does it in a way that doesn't detract from the main couple.

As I stated before, I love Lauren Blakely's books! The variety, the style, and the stories are all engaging and entertaining. She allows me to leave my world and find happiness in her books, and this book in particular left me smiling.

*"Trust isn't about getting fooled, or not getting fooled. It's a choice. One you make with your heart."*

➡Oh Wyatt... He will hang your cabinets, your doors and assist you with any remodeling job you might need.

➡Ok, all jokes aside... **Another great romcom by Lauren Blakely!** This can definitely be read as a **standalone** but for those of you who have read **Mister O** - this one here is about Nick's fraternal twin **brother Wyatt**. As you have probably gathered already, he is in the **carpentry business** and owns his own company.

➡Natalie has been Wyatt's **assistant** for six months before a job related trip to **Vegas happens**. They decide to let loose and some very interesting things end up happening to them in Vegas. How will these two deal with coming back to New York to **reality**?

♥I really love Lauren Blakely's ability to create **great characters**, specifically **the heroines**. I never seem to have a problem with any of them. Natalie here is a **firecracker**!

*"Natalie Rhodes, temptation made flesh, the All-American black belt with a tongue of iron fire."*

♥Reading a **male-only POV** was, as always, very entertaining. Wyatt is very **charming, funny, naughty** and at times **frustrating**. (Aren't most men?) It was interesting to see how he struggled with the **issue of trust** and overcoming a fear of a woman screwing him over for money.

*"Sometimes it's unfair we have the fuckers (dicks) to do battle with all day. And believe me, it's an epic battle.  
Man versus hard-on.  
Man rarely wins."*

➡I recommend this to those who love **sexy romcoms** with some **good humor, male-only POVs**, "**what happens in Vegas stay in Vegas**" stories. :) Lauren Blakely's romcoms have become my favorites and I can't wait to read **The Sexy One**, which is coming out in October!

### **5 KEEP RIDING THE ROLLER COASTER STARS!!!**

This book! Oh my heart! It did things to me!!! I seriously, FOR REAL, felt like I had butterflies in my chest through most of this book. There were also many heart felt moments that brought tears to my eyes. But mostly I laughed. And laughed. And laughed some more! I smiled so much, even at the teary parts. Because.....gah! Wyatt!!!!

Wyatt. I loooooove this man! He's fun, sweet and HOT. An all around good guy! He is out of this world sexy. He says the most delicious things. Does the most delicious things. I just wanted to get hammered. And nailed. And screwed. I mean. I wanted to help him do those things, you know...as his assistant. That's right. I want to be his assistant. And assist him. With the things. Because a good assistant would help with the things a carpenter does. The reaming. And rubbing. And drilling. And screwing. Am I right? Or at least hold his power tool. And maybe handle his wood.....

Wyatt is a swoon worthy guy who knows all the right things to say to capture your heart. And he had me from the beginning. I loved Natalie and Wyatt's banter and sense of humour. And as their love adventure unfolded, I fell harder. I fell for Wyatt. I fell for Natalie. I fell for this story. And the sexy scenes. Oh. My. Whoa. I swear. They had me bringing my O face. Over and over.

Well Hung is all of the everythings you want in a romantic comedy. You'll laugh. You'll swoon. You'll fan yourself. You may even get teary. Lauren Blakely nailed it with this fun, heart melting and sexy romance! You can't help but fall in love with a Blakely boy. And you'll fall oh-so-hard for Wyatt! And Natalie too! They'll have you wanting to play naughty carpenter. Not gonna lie! You need this book in your life!!!

Hilarious. Intoxicating. Titillating. Complete romantic NIRVANA. Wyatt Hammer, Lauren Blakely's newest leading man of ROM COM, is my latest guilty pleasure. If you are looking for a couple of hours of complete and total BLISS, then you need to read this book! If you want the 'Full Vegas experience' without the trouble of a hangover or regret, WELL HUNG is the romantic comedy for you. Blakely is ROCKING this genre and she's climbing to the top at lightening speed! Jump on this sexy rollercoaster ride and feed your senses with this KNOCK OUT rom com that will leave you with the BIGGEST smile on your face!
