A Shade of Dragon 2 Bella Forrest

Continue Theon and Nell's story in Book 2 of the A Shade of Dragon trilogy...

Only a few hours ago, it had been New Year's night in Beggar's Hole, Maine. Nell's biggest problem had been being forced to attend a going-away party thrown by her former best friend, Michelle Ballinger. And now here she was... in the clutches of the terrifying dragon Lethe...

Theon... Could the oracle's prediction really be true? Was he mistaken all along about his chosen mate? How could it be, when he felt so deeply in his heart that she had been the one?

Alyson Villanueva says

I loved Nell in the first book but in this second one not so much. I always hated Michelle so I just hate her more and Theon is weak in my opinion; honestly I started liking Lethe more. This "love triangle" is really weird. I read the entire A Shade of Vampire series before starting this trilogy so I know how it ultimately ends but not really what happens so I'm curious to see how it plays out.

Laurielu Bona Fide Reflections says

The action in this book is not as exciting as the action in A Shade of Vampire Series, but it was entertaining and kept me reading to see what would happen to the Fire Dragons, Theon's people. I still found Nell's relationship with him so blasé. Michelle (Nell's former best friend) is a more interesting character than Nell, and that is not saying much.

Tanisha Frazier says

I lost sleep. (Beware spoilers)

I lost sleep reading the second book in this dreadful romantic tale. This second installment is filled with love, war, and a cruel destiny. I love the vows between Nell and Theon so eloquently worded and I hate how the stars are against their love. I also wish I didn't have to wait for the third book. This is a great book and I recommend reading the entire series.

Judy Lewis says

COMPLETELY CAPTIVATING !!!

A Shade of Dragon 2

Series: A Shade of Dragon

Designation: Book Two of Three, NOT a Standalone, Does Contain Cliffhanger

Author: Bella Forrest

Reading Platform: Kindle Unlimited Edition

Steam Level: Sweet

My Rating: FIVE DRAGO-LICIOUS STARS*****

Magnificent! Bella Forrest has once again stunned her fans with A Shade of Dragon, her second mesmerizing trilogy spin-off of her bestselling series, A Shade of Vampire. After reading the first book in Forrest's A Shade of Vampire series several years ago, I joined millions of fellow readers worldwide and became a diehard fan and official Shaddict who now eagerly await each new release. This release is the eagerly anticipated second book in Forrest's A Shade of Dragon trilogy and she totally nailed it - again! The dragons of the Hearthlands were first introduced in Rose and Caleb's story, A Shade of Vampire 13: A Turn of Tides and became popular recurring secondary characters in the series. As a result of the mass popularity

of the dragons, Ms Forrest paid homage to her readers by giving us A Shade of Dragon, proving once more that she always listens to her fans. The story is exceptionally well crafted and well written in the first person with multiple points of view. I was immediately drawn into the story and by the end of the first two chapters, I was totally smitten which was largely due, in part, to the intriguing, captivating and well developed cast of supernatural and human characters. I fell in love with the two protagonists from different realms, young fire dragon Theon Aena, Prince of the Hearthlands, and Penelope "Nell" O'Hara, nineteen year old human college student. Each started the adventure as young, inexperienced and somewhat naive in the ways of the world but quickly matured to become strong, intelligent adults in the face of adversity and tragedy, all the while becoming a courageous and wise hero and heroine worthy of the title King and Queen. Even the villains of the story were engaging, warranting quite a bit of dislike from the reader. Yes, I'm guilty of shaking my fists and totally hating the bad guys of this story. But isn't that the indication of a great book? We become so involved in the story, get so caught up in the lives of the characters that we rail against any injustice, all the while cursing the villains. Isn't that the true definition of entertainment? At least it is for me and I was most assuredly entertained. If you love young adult fantasy filled to the brim with supernatural creatures, mystifying magic, spine-tingling adventure, heart-stopping danger, heartbreakng angst and heartwarming romance, then you will surely love this story. Follow Prince Theon Aena and Nell O'Hara as they search for love and happiness only to discover that sometimes, one's destiny is not written in the stars and more importantly, fate is only what we make it. What did I like about this book and this series? Everything! What didn't I like? Not a darn thing! Would I recommend it? You bet and I am! Will I read this author again? You better believe it, just as soon as she releases her next book! This book does NOT contain graphic language or explicit sex. Fabulous entertainment and an awesome read!

Tonya Mason says

Never Fair!

Theon and Nell come from different worlds, but find themselves falling in love with one another. After Theon shows Nell his true form, she seems to love him all the more. But after returning to his home land and finding that the ice dragons have taken over the kingdom nothing goes right and all that was once beautiful is all gone.

Theon can't seem to win no matter what. Seems it's time for the ice dragons to rule the kingdom. And to make matters worse, the human, Michelle, ex friend of Nell takes sides with the Ice dragon. Will anything good come of all this. Read on in book 3 to find out

Deb says

Belle Forrest can spin a fantasy so well.

Meeting someone who is so different from any guy you know and discovering his secret is a fantasy come true. Who would think by going to visit your Dad you would fall in love and be married to a dragon....

Keri Grammer says

I really liked theon in the shade series and was so excited that he was getting a series but I'm just not diggin it at all... Michelle is a pain in the butt and Nell is just I dunno but it's definitely not what I was expecting

Sonja Ferrell says

So mad

I hate the oricle!! And Michelle the backstabbed and now I am curious did Lethe actually love Penelope?? This is just to much book to only have one left please tell me your kidding!!

Cindy says

In this part of the story Nell has been kidnapped by Lethe who thinks he's fallen in love with her and she let's him think that she cares so she'll stay out of the dungeon. She does begin to care for him which confuses her. Meanwhile Theon is stuck with Michelle who is constantly trying to seduce him. Sheepshead what drama, and all of this is happening because the gods want them apart. There is a deeper question which I really like in this story. Should they bow to the wills of the gods and fate or should they mare their own path. It makes this a much richer read.

Heather Cornett says

Riveting

This is a great story Bella just continues to amaze me with all of the stories. I will patiently wait for the next book to be released.

Kimberley says

I'm not sure if I love or hate this book! So incredibly twisted & frustrating. I hope book 3 brings me peace...

Mikayla says

Starting to like the dragons a little more now. Great installment !!

Tiffany Clark says

Went to #3 so fast I barely remember but it's always good if it's Bella

Huma says

Too short for my taste. It could have developed more strongly. Storyline was very strong but because of poor execution it fell short of becoming my fav. I regard myself as easily pleased with good story and this one disappointed me left me with great dissatisfaction and thinking about all the wasted points that could have contributed a lot to smoother execution. The story seem more like FILL in the BLANKS.

But still for what it could have been 3.5 stars

Amber Kestner says

I know it took me over a month to read but oh my gosh the ending is such a killer and I need to know what happens to Theon and Nell...this is unbearable I feel like crying can't believe Nell can't pass on the family name of her beloved Theon. This war is a nightmare too and I can't believe Michelle ditched Theon for Lethe the most evil person she could end up with. Off to read book three for sure and than more of Vampire Series soon enough.
