## Across the Ocean Heather Sosbee

Brooke has spent the last four years dreaming of visiting Iceland. When everything in her life seems to fall apart, she takes it as a sign that now is the time to go. She heads to the land where the sun doesn't set, the mountains are fierce, and the hot pools are divine.

Ari is the handsome Viking that Brooke has fallen for over the years through the internet. Now that she finally gets to meet him in person, she's unprepared for how steamy things are between them. Only Ari isn't available. He's involved with a woman whose jealousy brings nothing but torment between Brooke and Ari. Will Ari choose Brooke? Or will she be forced to leave all of her dreams behind?

This book is for mature audiences only, due to sexual content, language, and difficult scenarios.

## From Reader Review Across the Ocean for online ebook

### **Pamela Nivasch says**

I'm not sure why this book doesn't have a higher rating. I really enjoyed all of it. It was just the right length, with just the right amount of angst and sex. It was sweet, sexy and fun. Can't wait for the next one.

---

### **Karan says**

I was asked to be a beta reader for this book by the author Heather Sosbee. I loved this book from the start the author's descriptions of Iceland were amazing and you felt as if you were there. The characters were full of life and so funny. The story follows Brooke and Ari who have had an online romance for a few years. They never thought they would ever meet until Brooke decides to visit her friend. The first time Brooke and Ari meet sparks fly but nothing is ever straight forward in Brooke's life as she finds out that Ari is already in a long term relationship. Things heat up quickly between the two of them although they try hard not to hurt anyone or themselves. Lines are crossed mistakes are made and confusion reigns. Will Brooke get the happy ever after she longs for.....This is a super HOT read and one I highly recommend.

---

### **Kristin says**

it's been a long time since a book rocked me like this. Seriously, pre-order this NOW.

---

### **Maria says**

This book was HOT. It was different and it had a beautiful setting in Iceland. Brooke and Ari story was beautiful and I was rooting for their love. Great secondary characters too. Looking forward to read her other books.

---

### **J. McCoy says**

Review to come

---

### **Karmen says**

2.5 stars. Unfortunately didn't feel this one at all.

---

### **kenzie says**

I picked this up and could not put it down. It made me wish that I had an online connection with some hot guy somewhere else. I loved this book and can not wait to read more from this author!

---

### **Christina says**

\*I had the pleasure of being a beta reader, in exchange for an honest review\*

For a freshman effort, Ms. Sosbee knocked it out of the park. Across the Ocean was very well-written, the storyline flowed naturally and it was a quick and easy read.

The part of the story that was narrated by Brooke could be a little distracting at times, and I say that in a good way...Brooke is a young 20 something so some of the things she says are very immature at times, and Ms. Sosbee hit the nail on the head conveying those feelings.

The sex was HAWT, but you could also feel the love between Brooke and Ari. You could understand the elements of a relationship that have developed over time, over thousands of miles of ocean. There was definitely a depth to their commitment and character.

I would have liked to see a little bit more character development between Brooke and Ari, especially with their online past, you could tell the history was there, and it was meaningful, I just liked seeing their MSN online exchanges, it gives you a real glimpse into them. A lot of times we find it easier to type than verbalize, so the emotion can be more honest...of course that is something that could easily be explored in subsequent books. I also would have liked to know a little more about the relationship of the core group of girl friends, Lara, Emilia, etc.

I am definitely excited to read more about Brooke's exploits in Iceland, and if I correctly picked up on Ms. Sosbee's foreshadowing, there's going to be a major plot twist coming up for us. Four and a half stars and I'll be one-clicking the next volume!

### **Amy Morrison says**

I was pleasantly surprised with this book. I really enjoyed Brooke and Ari's long distance long term friendship/relationship. I really felt their love for each other. My only complaint was that I would have liked to seen more of their online interactions!! This was a great first outing for the author. I will definitely read other offerings from her!

### **Joanne says**

I really want to visit Iceland now! And try one of those hot dogs

---

**Stacie says**

If guys like this do exist, I so WANT to MOVE to ICELAND ASAP. LOVE Ari!! The chemistry between Brooke and Ari was Delicious. Thank you Heather Sosbee! Can't wait to read Sophie and Gunnar's story in Across the Music.

---

**June says**

Am I the only one who read this with google images at the ready? Like everyone else, I need to visit Iceland now.

I liked it. I liked the story. It was very simple and to the point. Sometimes I felt the author would try to inject more substance, but it would fall short.

---

**Stephanie says**

4.5 stars. Excellent read!

---

**Melissa says**

I never reread books. Confession: I one-clicked 845 books last year... I have too many books to read BUT I read this one again. Why, because it is hot! And sweet and I felt like this scenario (in a world of cyber love) very believable. The heroine was cute and sexy and made no apologies for her attraction to the hero. Our hero is a beautiful conflicted Viking of a man. The sex scenes are scorching that alone is worth a second read.

---

**Leslie says**

Just not good...
