Having an obsession with Melanie wouldn't be such a problem if it weren't for the fact that Charles is a serial killer.

Before it's over you are going to be wondering not only how did Melanie bond with a serial killer, but how did YOU bond with a serial killer. This is a dark erotic tale that will pull you in and have you wondering why and how Charles Wentworth III found redemption in your eyes...

Looking forward to reading more about theses dark men and the women who loves them.

2 Stars for the hot dirty talking man, as for the rest I'm not sure what the heck I read.
The "H" never lies about his motivations, he's looking to clean up the streets and make the "heroine" his submissive/doormat.

If only the sexy talk came out of a decent guy and a decent Dominant.

Maria says

I believe I just fell for a serial killer. ;)
Dark, different & good!

4.5 ~~black roses~~ stars!

This story had it all: bdsm, degradation, disturbing scenes, intriguing mystery, necrophilia, vigilante justice and of course serial killers. I really enjoyed this fast-paced book, loved Black Rose *Sigh* but there was some scenes that where a little bit ridiculous (especially on the Bdsm) Sorry, but it takes time, trust and communication to just have a woman become submissive over-night! Just saying! The other negatives I have, I would have loved to have known, "Why Black Rose (Charles) was so obsessed/possessive of Melanie?" And the "6" POV's was way to much. I just wanted to know more about Black Rose/ Melanie.

My Favorite Quote:

"Why is it always you white boys who are so kinky? Y'all must have some fucked up kink DNA or sumpin'. I don't mind a little bit of kink but I ain't gonna have no mother fucker tryin' to piss on me and playin' dead is just weird."

I got a good portion of this book done since I was intrigued by the concept of "sociopath-like guy finds a babe" but I'm just not ballsy enough as a reader quite yet to look past some of the gore of the book since I'm a bit on the timid side in terms of reading dark romances. The author is no doubt very talented and I hope I grow more as a reader who is just now truly dabbling in dark romances into a reader who can mature into reading books of a higher level of darkness that this one presents.

Until Next time :)!

Great job Suzanne!!! Breathtaking, haunting, mind numbingly obsessive and soooo...freaking hot. Right up my alley. We might share the same fantasies ;) I also highly recommend His Captive Bride by the same author if you like this type of genre. Thanks again Suzanne for the great read...please keep writing.

4.5 Blood Dripping Black Roses Stars

Holy mind twister of serial killing craziness. This book has your mind gripping to the edge of normal and what the who the crazy.

"YOU. ARE. PREY. "

This book is fully of crazy, dark, gritty, dangerous, sexual deviance on a whole new level. My draw dropped with a couple scenarios!! I give kudos to Miss Steele for daring to be daring.

Charles was one sexy serial killer. I crossed so many "I love you/hate you" feelings. Vigilante killer that was a monster one minute to obsessing the next to evil sadist to passionate care taker. WOW....he makes my head spin.

" You see, I am a born predator. "

Melanie.oh sweet Melanie.....you had my emotions confused. The life you have is tough as a single mother in the wrong part of town. I was cheering you on the entire book.

"He is calling forth a part of me that craves danger and obsession.

SHOCKING MOMENT!!!! Little miss innocent is NOT so innocent and I really liked that side of you. Picking Charles as your savior and accepting him as he is all in the name of the ultimate life for you and your son. I say we readers have a lot more to learn about you!!

" I am the only one that sates your hunger for blood."

That my reading friends is true crazy love!!

The bonus side of this book.....multiple craziness of characters weaving together....our author is grabbing us from many angles. Keep speaking those killer tentacles....leaves me needing more.

PS to my sexy serial killer.you don't have to remind me of how bad you are....we know sugar.you a very bad boy!

Debra says

How do fall for a serial killer? I dont know but Suzanne did it maybe not in love, love but an understanding of why he does what he does. Of course he's bossy, he pretty much just took Laura and her son, but she looks at it as a much better place than were she was...her only rule is to obey him, not to bad of a deal since she's loving the kinky sex. Alot of people in her but you were able to keep track of them all.

Dr.Anderson*****gulp**** I dont believe I have read someone like him O.O before..Recommended for lover's of the Dark, some kinky sex and a bossy rich man who will take care of you as long as you take care of all his needs :))

Sandravides says

He's crazy passionate and always in control. Dominate and deviously calculating by nature he pretty much is the epitome of an evil jerk. This was actually kind of HOT maybe I'm just as wicked as the intangible Black Rose

Michelle says

This had the potential for a great book, but it had way too many main characters with their own stories. It read like cliff notes. With so many characters and plots to wrap up it felt rushed. Each couple should have had their own book.

Kitten Mercer says

I couldn't rate this because I haven't read the entire book yet. But just for the record, I stopped reading at 38%. I have no problem with the author's writing whatsoever, but there were just too many POVs from different people in this book. It reminded me of when I read Dark Lover by J.R. Ward. I wasn't able to finish the book too because of those too many damn POVs.

Another thing I'm concerned about this book is the hero. I don't get the idea of him fucking other women during the first few chapters of the book and treating them like garbage when all he thinks about is the

heroine. That was an asshole move, I believe.

I'm marking this as DNF for now, but maybe later I'd read this when I'm in the mood for some Suzanne Steele's dark and dangerous obsessive alpha heroes.

Christine says

Is is wrong to love books about a hero that is a serial killer?!?!?!

Gale Stanley says

This dark story of obsessive love hooked me on page one. I love to see flawed characters grow in redeeming ways and these didn't disappoint. The heroine is so real, I could put myself in her place. Her conflicted feelings as she was being stalked came through loud and clear. This is another winner from an author who knows how to write dark, twisted romance.

Lepp says

This was my first Suzanne Steele book, so like most readers who are reading an author for the first time I wasn't sure what kind of story I was going to get. From the beginning of the book our MC socialite-turned-serial killer, Charles Wentworth III, tells the reader:

“For those of you who have read of my exploits in Miller’s memoirs (The Contract Series), I believe it is necessary to share this one story once again, for the sake of those of who have not. At the risk of repeating myself, please bear with me in order for me to enlighten those who have not read that series. Once again, I graciously offer my apologies. This will be the only story repeated and, I promise, I have purpose in doing so.”

So I guess that means that this is a companion novel of sorts?

When you start this book, you figure it will be a dark romance involving a serial killer and the woman he desires. Well... I wouldn't exactly call this a "romance". While I enjoyed the overall plot, I think it lacked character development needed for me to classify it as a "love story". Charles calls Melanie his "soul mate" because she gets off on his depraved ways just as much as he does. Melanie calms the bloodlust in Charles with sex. And Charles has a seriously dirty mouth! I.e:

(view spoiler)

But while there's plenty of sex and obsession... I didn't feel a romantic connection between Charles and his obsession Melanie. I did, however, enjoy reading about their weird...relationship.

Another thing about this story is that there are *multiple* POV's. Not just one or two.... but seven! Everyone has their own role in the story: Charles, Melanie, Dr. Anderson, Selena, Evelyn, Dr. Ozment, and Agent Turner. And Charles is not the only serial killer in town, oddly enough.

I think my favorite characters might have been Agent Turner and his mistress, Rene. Maybe it's due to my love of Agent Reed in the *Dark Duet* series, but there's something about the female dom/male sub dynamic that intrigues the hell out of me!

I don't know if this book would be for everyone, but for me this story was weird, and kinky, and so screwed up that it helped to outshine the other small flaws of the story. I do want to read more of Suzanne Steele's books because I think they hold some serious potential!

4 stars!

Apart verhaal: serial killers (good & bad).... and cops, chirurgen, whores and kinky sex. Gezien vanuit (zeker in het begin te) veel POVs, maar dat maakt allemaal sense tegen het einde. A very nice read!
