From Reader Review Captain Marvel (2014-2015) #1 for online ebook

Ivan Renz Ramos says

Captain Marvel is kinda boring in my opinion. I did love this series though. The plot was kinda great and adventurous but in the end, It didn't met my expectations.

The only thing that kept me going was chewieeee. I want a eat Flerken as a pet also. ❤️❤️❤️

Chewie > Rocket

Chewie best cat avenger 10 out of 10.

-New York Times

Jennifer says

Definitely fun, but not really for beginners. I've never really read any Marvel comics and seen some of the movies, but this book assumes a lot of knowledge about the Marvel universe and I felt a bit at sea. I know it's a trade paperback, but for me it was too episodic and the difference in tone between the different issues could be a bit jarring. Carol is a great character but I didn't get any sense of the limitations of her powers, and an invincible hero is not particularly interesting.

Maybe that all sounds less than 3 stars but I am intrigued enough to read more.

Kayla Queso says

What the hell did she need the Guardians of the Galaxy for? could've done without that bit.

quinnster says

No bad.....for a Marvel title ;)

Cameos from the Guardians, Iron Man and the Iron Patriot tied everything together easier. Some of the characters seemed familiar to me, but I'm not sure exactly where I've seen them before. The story was

interesting and the end satisfying. As I got down to the last few pages I worried that I would actually be left on a cliff hanger. There's obviously still more story to be told, but for now, the ending was good enough.

Joe says

"Have you ever seen a little girl run so fast she falls down? There's an instant, a fraction of a second before the world catches hold of her again...a moment when she's outrun every doubt and fear she's ever had about herself and she flies. In that one moment, every little girl flies."

People throw around the phrase "girl power" without giving it much thought. I blame the Spice Girls for this. In the late 90's, they simply said it so often that it lost all meaning and just became noise.

Captain Marvel is not an example of "girl power". She's an example of "Grown-Ass Woman Power." She's got everything. She's independent, loving, a leader, beautiful, caring, brave, strong, bad-ass, and fearless.

DeConnick does a great job of introducing the character in case the reader was unfamiliar with her without wasting any time in the process. She starts in the middle of the action and then goes back in time to catch us up. We don't even return to that point in time until several issues later. To me that shows confidence in the character and in storytelling. DeConnick respects her readers enough to follow the age old rule of writing: Better to confuse your reader for fifteen minutes than to bore them for five.

This makes a good companion piece to the "Ms. Marvel" series although given how much Ms. Marvel admires and constantly references Captain Marvel throughout that series, it should come as no surprise.

I can't wait until my one year old daughter is old enough to read this. I hope she never stops running so fast that she falls down.

Taylor Knight says

Caroline says

This was a fun one. I *cannot* wait for the movie next year. Captain Marvel is a compassionate bad ass who, in the end, works for herself first and foremost to do what's right. Love the cultural references and cameos in this one!

Meghan says

This was a lot of fun. Carol Danvers as Captain Marvel is pretty kick ass. Also the Guardians of the Galaxy were randomly in this! Pretty awesome. If you don't read comics often I'd recommend this since I'm new to comics but I enjoyed this.

Ria says

Aww yeah. This was crazy fun and my first impression of Carol Danvers was very favourable, she's ballsy, likes Star Wars and punching people, has a cute cat AND she hangs out with my favourite intergalactic superteam. Loved the artwork too - so nice to see an expressive female face in a superhero comic, and not the glassy eyed pout women are sometimes limited to. Sign me up for more!

falling asleep reading says

Everything about this (art, dialogue, storyline etc) is better than the 2016 one so I'll just read these.

Also Carol and Rhodey???? Amazing

~*kath*~ says

AWESOME! Love the crossover with Guardians of the Galaxy, the story had me hooked all the way through, and the artwork is really beautiful. Some of the best drawings of women I have seen in mainstream comics for a long time. Can't wait to keep reading.

Noelia says

Carol Danvers is badass and I can't wait to see her in the big screen.

Love the art, the story-line was interesting and that cameo of the Guardians of the Galaxy was awesome!

Steph says

Like most comics, it just assumes you know what's going on and drops you in the middle of a story. Regardless, I'm eager to learn more about Carol Danvers.

Gavin says

OK, so I wasn't on board the new Captain Marvel when Marvel did it recently, I thought it was OK, but wasn't as WOW as some people thought.

So when I see another re-reboot, I get kinda snarky...

However, this is very good, 4+stars good. and definitely piqued my curiosity. It's funny, well drawn, a great take on what makes Carol tick, oh, and her home base is the Statue of Liberty? Boom. Nice.

I love the intro, with the ragtag space crew, the Droids reference, and the old school brawling and racing for the getaway.

I had no idea Carol and Rhodey were getting their freak on, but I love it. Great idea, why not. I like how she and Tony work fine together but still seem to be a bit like family members who like to piss each other off.

More funniness with Star Wars references, and set up a new chapter for Carol on the stage she deserves. Plus, gets me mildly interested in Cosmic Marvel, which I'm usually scared to get too into (GotG aside, unless you also include some old Quasar).

There's enough mystery, great humour, action, art, story, but the character feels right here, not like the self-doubting foolishness they did last time around with her. This just seems to be a near-perfect issue #1...it's just not long enough lol. But it does end at a perfect point.

OK, I'm sold, take my money, where is the rest of Vol. 1?

Melissa ♥ Dog/Wolf Lover ♥ Martin says

This was good! I loved The Guardians Of The Galaxy made an appearance!

A great story and I will for sure read more =]
