This is the 4th book in this series to rate '**My Favorites**' shelf. Wasn't a gripping/intense read, but did hold my interest throughout, and I was very satisfied with the ending., which is an excellent survival tip! I really enjoy sharing the adventures of these familiar characters, and getting to know new ones. It feels like rejoining old friends, and I will surely be visiting them again soon.

## Linda Rainey says

Death by Dumplings is another nice cozy mystery.

It's always a pleasure to watch Gloria Rutherford and her band of sleuths solve another mystery.

It's a pleasure to visit their small town and catch a glimpse of their lives.

On to the next book in the series.

This book is a quick read without a lot of plot or character development. The sentence structure tends to be choppy too with lots of Subject-Verb sentences. There were also grammar errors which were distracting. At one time the point of view was switched during a conversation with a very minor character. A good proof reader should have found these problems before the book went to the publisher. I liked the camaraderie among the main female characters, and there were several of these. I would say that the book has good

potential, but the author and her proof reader need to do some more work before publishing.

What a great read! The characters in Hope Callaghan's Garden Girls Series are like real people who everyone can identify with. The friendship Gloria and her "girls" share is amazing and Hope smoothly blends faith, friendship, mystery and intrigue into her books. Not only did Gloria help solve another murder, she found time for some matchmaking for the secondary characters. It is so refreshing to read a good Whodunit with no foul language, graphic violence or sexually explicit scenes. I'm looking forward to reading more books written by this author and highly recommend all of her books.

#### **Death by dumplings**

This book has an easy to follow plot and interesting characters. I recommend this book to all lovers. Of clean, mystery novels.

### **Barbara says**

Perhaps it was the mood I was in, but this book seemed more predictable than the others. One could recite the dialogue right along with the character. It was that predictable. There were many missing words. If you read fast, you don't notice it because you know how the author writes. It was a light, good, cozy mystery.

As I am reading the series I enjoy all the different characters in the town and really enjoy Gloria's sleuthing. This is a fun series and an enjoyable read.

A couple weeks ago I read book 1 of this series. I loved it so much I believe I purchased 2-7. I read the first 3 in 2 days. I then had to stop and do other things and read a book i had committed to. I kept wantiwanting to come back to this series. Well today I sat down and read book 4. I love this series. This book was fantastic. I love who caring Gloria is. Always thinking of and looking out for others. She never stops. Everything about this book just screamed at me to keep reading and do NOT stop. I am glad I finally had the time. I am looking forward to now starting book 5. I am so glad I found this series.

Murder mystery- the girls are at it again. Too many suspects makes things more crazy. This story mentioned the prior story of when Liz was leading them on a wild goose chase. It was nice to be reminded of that adventure. Those who haven't read the prior book really should. I didn't see a lot coming in this mystery. It did keep me turning the pages. Recipes are included.
