From Reader Review D.N.Angel, Vol. 10 for online ebook

Selena says

Too confusing. During a conversation with Risa, we get a peek into Dark's past, but it's fitted in rather poorly and just ends up being confusing in a bad way.

This book is pretty much what you expect from D.N.Angel, though the bouncing back-and-forth of the date made this story hard to follow. More so than usual.

Victoria says

It is a great book to read

Nathan Cunningham says

Hilarious and suspenseful. Everything about the date with the Harada twins has been such a blast to read; I couldn't put this one down. Wiz is my hero in this volume! Poor Riku, though.

Stephanie says

gonna read it after

Jamie Davis says

Again. I have to say. The couple sitchuation is very confusing but it is so original and so....pulling that it is hard to just say NO. lol. It also has a way of pulling at your heart strings so gently that you don't realize how much something touched you until later when you start to think about it.

The story continues!

Ash says

This series is receiving a rating of 4 stars, and for organizational purposes, I'll be placing this review on every volume.

D.N. Angel is a 15 volume, 74 chapter (if I'm not mistaken) long series. This series is technically ongoing, as it has not been finished. However, I'm not going to hold my breath that it ever will be finished, as it's on hiatus again. The author has a habit of not finishing series, it seems. I gave this series 4 stars because it's

adorable, and generally it's an interesting concept. I also give it 4 stars for nostalgia reasons- this is what got me into anime to begin with and manga, though I'm not really a fan of it anymore- but I can't give it 5 stars because it's not finished.

I remember not liking all of the arcs, and finding some characters annoying- yes, including Risa, even though she does improve later on, I still did not like her- but also enjoying most of the characters. The character development is pretty damn spot on, too. Honestly, there isn't much in the way of plot development, because this is a character driven story. It also unfinished, so there's that too.

I don't know how many times I'm going to say that but: **THIS SERIES IS UNFINISHED. IT WILL PROBABLY NEVER BE FINISHED, OR IF IT IS FINISHED, IT WILL NOT BE FINISHED IN THE NEAR FUTURE.** Like seriously, there is no ending for this **ANYWHERE**. It's just not there.

And as a reader, who tends to prefer series be finished before she starts to read them, or at least close to finishing so that when I start it'll be finished by the time I'm on the last book, that's the most frustrating thing. I realize I'm repeating myself but that's because this is a matter of importance. It felt like a waste of time to read this manga in what is its entirety so far because there is nothing happening at the end. It's just chapters. There is no redemption, no final love- this is a love story, I hope y'all know that- or romantic ending, no major plot points getting finalized, no major character development that makes you think that all of the characters are in a happy place.

While I loved how cute this story could be, how interesting it was, I wouldn't recommend it just because of it's near constant hiatus status. If you still want to go for it, be my guest, but I'm not going to reread this if I get nothing out of it but cute feels with no ending.

Starbubbles says

i was quite literally laughing out loud with this book. it was hilarious! i'm not exactly sure i was suppose to find this as humorous as i did, but i loved it. i mean, two dates as two different people, at the same time? who wouldn't find that funny? but by the end, it was set up to be serious again. so i'm totally prepared for #11 to be more thrilling than funny.

Jean says

Dating switch-a-roos and wacky hijinks mixed with pending revelations about the characters... some was hilarious and some was confusing. Daisuke, just tell Riku already!!

Brittany says

A great series for all young readers!

Shadowm2k7 Aros Rats says

I actually haven't read all the DNAngel books because I can't find them anywhere. WHSmith used to sell them but I never see them there anymore. I bought a couple out of Waterstones this one time but that was the last time I saw them there. I've read quite a few of them though. about 3 or 4 is lying dormant on my shelf. I

aspire to be like Dark. He is my hero. My man-crush. I want to look like him. I want to be as cool as him. He's like my Anime-guy role model.

Kristen says

This series is so addictive, I can't seem to stop reading it! :) As for the flashback that a lot of reviewers are saying is confusing, yeah... It's supposed to be. You're not supposed to completely understand that until later when it comes into play again. As for now, I'm still loving every moment of this series. I love how the author keeps everything so unique and fresh, unlike a lot of mainstream manga nowadays. Highly recommended!
