## Fairy Godmothers, Inc. Jenniffer Wardell

In a world where fairy tale situations are as much a fact of life as death and taxes, everyone knows hiring Fairy Godmothers, Inc. is the best way to assure that your beautiful daughter or enchanted frog of a grandson will get the happily-ever-after he or she deserves. Sure, sometimes a little love potion is required to make sure those quotas stay up, but what Prince Charming doesn't know won't hurt him.

Kate, an experienced Fairy Godmother, who's enough of a romantic to frustrate her rigidly rule-bound boss, has just received a specialty assignment from one of the company's board of directors. Cinderella—Rellie for short—was placed with an appropriately wicked stepfamily years before, and now needs the dress, ball, and handsome prince to complete her happily-ever-after. The fact that Rellie isn't sure this is her dream come true—balls are fun, but princes tend to be less interesting than fluffy bunnies—isn't something management considers a problem.

Complicating things a bit is Jon, the youngest son of the royal family, who meets Kate, and is smitten, but isn't quite ready yet to reveal his true identity. After all, it's his older brother Rupert who's supposed to marry Rellie, which means pretending to be a lowly civil servant will give him the chance to spend more time with Kate. (As long as he can get the ball arranged, and stop Rupert from getting himself into trouble over his "self-actualization" business, he should have the perfect opportunity to explain everything and get started on making a little magic with the Fairy Godmother of his dreams.)

But, of course, things never ever happen as planned.

## From Reader Review Fairy Godmothers, Inc. for online ebook

### Shanda says

Fairy Godmothers, Inc. was such a fun read. I was entertained from the first chapter to the last. I laughed out loud on more than one occasion. I loved Jon, Kate, Lawton, and even Rellie by the end. As a romance, I knew Jon and Kate would eventually end up together, but there were a few unexpected twists with other characters I didn't see coming and I wasn't sure quite how things would work out until the very end.

I read Fairy Godmothers, Inc. pretty much straight through. (The kids had to eat and I had to sleep, at least for a few hours.) Even though the book is approximately 300 pages long, it moved at a good pace and didn't seem overly long. I was pulled into the story and thought it was well-written and pretty clean overall. The characters were interesting (Bubbles was effectively intimidating, considering her name), and I cared about what happened to them.

It's obvious that the author had fun writing this story. A lot of fairytale, a bit of magic, some intrigue and a generous dose of romance all combine to make Fairy Godmothers, Inc. easily one of my favorite reads this year.

Content: There is some mild innuendo; a few side characters consume alcohol but I don't recall the main characters ever partaking; one mild "curse" word; older teens and adults will probably enjoy this book

---

### Katlin says

First my summary:

Kate is a fairy godmother. Not quite the bippidy boppidy boo variety, but almost. Only she doesn't actually love the job. Or the tutu. And she especially isn't on board with the whole "true love" thing. She isn't the only fairy that feels that way. (Why did she take this job anyway? Don't worry you find out.) Unfortunately, there are other more pressing matters to take up her time. Her current assignment is a real dilly. From the beginning nothing seems to be going quite right. First off it's a slap dash rush request from the top and everything is going to be watched very closely. Not good. And the princess? Princess Rellie is a little...odd, to say the least. And very easily distracted. Speaking of distracted, that seems to be Prince Charming's middle name. But our Fairy Godmother isn't quite as attentive to the case as she should be either. Most of the fault of that lies in the lap of a certain charming young man she ran into on the first day of her assignment...

Next my opinion:

If I was the fan girl type of person I would be fanning and squealing right now. This story is just that perfect. The dialogue is hilarious. The MC is the perfect combo of spunky and sweet. With a bit of a rebellious streak and a slight case of doesn't fit in. And Mr. love interest? Well, if you like the jerk type you may be disappointed. No jerk symptoms here. But he is not Bingley or Darcy either. Maybe the Gilbert Blythe type? The charming tease. I don't know. You read it and then tell me what you think. But I think they are the perfect match.

Sure there are the usual fairy tale tropes. But then, that's what this retelling genre is all about. Giving an old classic a new twist.

Oh, and the princess side character isn't as bad as she sounds. I really don't like ditzy characters, but she is

more space case than ditz. Not a really big difference, but it helps. She isn't the sharpest tool in the shed (most of the side characters are a bit addled, screw ball comedy style) but she is sweet and sincere and comes through when it counts. Until then, just be glad she isn't the mc.

So overall? Great main characters. Entertaining supporting cast. Witty dialogue. Fun world building. A few too many fairy tale tropes to take them all seriously, but hey! This isn't a dark retelling, it's a light hearted romantic comedy take on Cinderella from a young tulle covered fairy godmothers point of view. So put on your fluffy bunny slippers and slip on a tiara as you snuggle in for a fun slightly predictable tale.

---

### **Audrey says**

I'll say 3.7 stars. This book was really cute and funny and a satisfying twisted fairy tale. Romance fans should enjoy it, but there's enough other things going on that you can still enjoy it without being a big romance fan.

Kate is the fairy godmother assigned to Cinderella. "Rellie" has had an Appropriately Tragic Life with a Sufficiently Wicked Family, so her real relatives feel she deserves to marry a prince. While Kate's boss prefers to douse such couples with love potion, Kate tries to get couples together on their own. Kate herself finds romance, and Rellie decides she wants a different sort of happily ever after than this arranged marriage. This leads to changed plans, sneaking around, and other interesting scenarios.

---

### **Annabelle says**

\*\*\*\*\*FINAL RATING: 4.70 STARS\*\*\*\*\*

#### **CATCHALL**

Fairy Godmothers, Inc. surprised me by being one of my favorite reads of the year and ever. Books that rely heavily on humor tend to be hit-or-miss for me since I apparently have a weird sense of humor, but I loved it in this one. The two main characters are enormously entertaining, the plot was the fairytale-esque one you expect it to be and there were more twists than I could count. It is a brilliant concoction of laughter and love set in a gorgeous fairytale world.

#### **THE HEROINE**

##### **KATE**

Kate is a fairy godmother whose job is to help poor, abused girls find true love and marry princes, much like a Cinderella story. She doesn't approve of her company using "true love" potion, however, which is basically an aphrodisiac, and she never uses it herself. She won me over to her side the minute I found that out about her. She doesn't blindly follow what she's told, but she does her best to ensure that her clients are actually happy. Kate is strong-willed, a little stubborn, and has a sparkling sense of humor. She's no-nonsense, maybe a little bit dense, but cute.

#### **THE LOVE INTEREST**

##### **JON**

Jon is a hero who definitely had me swooning; I admit it freely. He's a gentleman from the very beginning and is willing to do almost anything to win Kate over (not that he really needs any help there). He, like Kate, has a wonderful sense of humor. He's also the one in the castle who really runs everything, even though his

mother and older brother should really be doing that. Even so, he takes over. Jon is kindhearted and puts other people first, though like anyone he has his selfish moments.

### **THE SECONDARY CHARACTERS**

#### **RELLIE**

I love Rellie. For some reason, it's impossible not to love her even though she's the type of person that if you met them in real life you'd be hard-pressed to resist the urge to shut them up violently. Her ditziness works for her somehow, and she's sweet without trying to be. I also love how she has her moments, and that even if she's often silly she's genuine. And whimsical.

#### **NED**

Ned is sensitive and yet passionate; he's in love with Rellie from nearly the beginning but he doesn't want to act on it because he wants to let her get her happy ending with the prince. I love that he puts her happiness above his own. We also see him change surprisingly a lot from the beginning to the end of the book.

### **THE PLOT**

Fairy Godmothers, Inc. is officially an adult novel. The heroine and hero are both adults, as are the other characters. However, it reads very clean, and as far as I'm concerned it's got loads of crossover appeal. It's something I myself loved, and I have faith that YA readers will absolutely fall in love with it too. I think honestly that it is a book that can be enjoyed by people of all ages.

I love the world, too. It's very definitely a fantasy world, but there's also a very modern feel to it. It's the type of fantasy world you want to crawl into and live in. It's set up so vividly that it's easy to imagine and there's so much to love about it. There are illusions to several fairytales and even a nod to Greek mythology. It's actually similar to the world of Ella Enchanted—the movie version, the book is way different—but like, infinitely better.

There were so many plot twists—a few of which I probably should've seen coming, but never did. It was more fun that way, though. This book was fluffy and fun but it was also really intense and it actually physically made my heart race. It was thrilling and I got myself really invested into the story. Whenever something unexpected happened it would make me jump a little bit.

The fairytale lore was so much fun too. It's definitely in some ways drawing from several different fairytales, but it is also in many ways its own unique plot. I've certainly never read anything like it although I really wish there was more like this. Kate is a spunky heroine, and she really made this story just come to life.

I honestly don't really have any complaints about this book. There's just nothing I really feel the need to complain about! Every once in a while, that has to happen. This was pure fluffy fun, and yet it was more than that.

### **THE ROMANCE**

Surprisingly, I wouldn't call this instalove. I'm not sure why, but I don't want to. Though the feelings seem to come quickly, they're not immediately acted upon, which I really liked. They get to know each other before that, even if there's strong attraction and chemistry on both sides. The romance is also messy—there were so many factors keeping everyone apart that at times it seemed unfixable. But hey, true love conquers all, right?

The secondary romance did happen a bit quickly for me, too quickly for me to really believe, but it didn't bother me all that much. I kind of just let it slide, but it's still notable.

### **THE WRITING**

This book is beautifully written. It tells the story from the alternating POVs of Kate and Jon—with someone else featured a few times. I won't say what other characters we get. I thought it was confusing at first to suddenly add in the POV of a new character but when I understood why it was done I could just kind of relax and enjoy the ride. It was nice getting the chance to see things from a new perspective. And of course, this writing is so much fun. There's so much humor evident in every word, and the descriptions are gorgeous.

### **THE ENDING**

You know that feeling when you're nearing the end of a book and everything is so messed up you feel like it can't possibly be fixed in time? That's how I felt reading this book. I was so, so worried that not everything would work out. There were definitely some unexpected endings. But I got the one I wanted, so I'm happy. I was very pleased with the way everything turned out and satisfied 100% with the way the story wrapped up. Neat and pretty, but with imperfections.

### **WRAPUP**

Fairy Godmothers, Inc. is one of the cutest books I've ever read, easy. I am definitely looking forward to more from Jenniffer! I'm sure she'll come up with something even more brilliant and I cannot wait to read it. I would definitely recommend this—to adults, to teenagers, to fans of contemporary romance, to fans of fantasy and retellings. It's one of my favorite books, so it comes with my high praises. Even if you think it wouldn't normally be your thing I really think you should give it a try. You might find yourself pleasantly surprised.

FINE.

### **Heather says**

Fun and witty. Thoroughly enjoyed it.

---

### **Tee loves Kyle Jacobson says**

First off I have to say that this book was HILARIOUS! I have never ever laughed so dam hard in my life. My ribs were killing me by the end of this book and boy oh boy what a fast read it became because I could not put it down that is how good it is. I also have to say that the book cover is so eye catching and so on point that when you read the book and get to the part where the cover comes into play you are going to laugh like I did.

Kate is a Fairy Godmother and she works for the best agency around called Fairy Godmothers, INC. She is a godmother who grants princesses their wishes and makes sure they get everything they have dreamed of and more. Kate's boss is a little eccentric to say the least but she is a mean boss to the core and she gives Kate an assignment with the thought's that Kate is going to fail. Who does that as a boss. Kate is assigned to help out Rellie who is a cute girl who is forced to work as a slave for her step mother. Rellie is a little on the dense side and when Kate approaches her in regards to her dream man and what she wants the response Kate gets rocks her world. See because Rellie wants a bunch of bunnies instead of a man. WTH is that all about... lord have mercy this Rellie is really trying. But what is worse is the guy Rellie is going to be paired with is not

ripe apple if you know what I mean.

Rupert dear God Rupert is just as dense as Rellie and his younger brother John has to take care of the kingdom other wise there would be no kingdom and all would be lost for them. As John helps Kate get Rellie and Rupert together John falls in love with Kate. He is hoping to get his brother married off ASAP so he can spend time Kate. But just as they get one thing under control someone else or something else stands in their way. Will Kate and John ever get Rellie and Rupert married? Or will something else happen? Will John and Kate ever get some alone time to be with one another? Will they be pulled apart? This is a must read that will have you in stitches!

---

### **Irene says**

Great book! Really sweet

---

### **Bella says**

Ok so how do you write a review on a book that well was just that good?? Iam going to have a hard time at it so here is how I feel!!

Kate is a Fairy Godmother who works for one of the best agencies around, Fairy Godmother Inc. After having other jobs and failing at them she has become the Fairy Godmother that grants princesses their wishes and then makes sure they end up with prince charming! Then Kate's boss, Bubbles, sticks Kate with the job to help Cinderella, Rellie, find her prince charming. Kate will surely have her work cut out for her. Once she meets Rellie, Kate soon fines out this is not gong to be just some normal quick job like most are for her but this one will have a boy names Jon involved in it. Jon is no ordinary boy he is the younger brother to the man Rellie is set to be married too. So when Kate and Jon meet things start to arise between them, and Jon is ready for his bother to wed so he can have what he feels is right, Kate! But things don't always go so smooth and people can sometimes get in the way. Are they destined to be together? Find out in this fresh and funny read!

I loved it; it was funny, page truing and had the best story line I have read in a while. It had me hooked and just sucked in from page one! I loved the cover and as we all know the cover really sells the book but let me say no matter what DO NOT judge a book by its cover because this could have a black front and I am suggesting this one to all ages and all readers you will love it! Kate was just too awesome and to be a Fair Godmother seems pretty cool but I just loved her character so much! There was a lot of humor in this one and it made it for such a fun read!! Wardell did an awesome job keeping me hooked, I really felt part of this story and all that was going on. She really did a fascinating job explain things and always had me wanting for more! I really love Jon too, he is so funny and loving and just had an awesome part in this story. I hope to read more form Wardell, she sure is a great author!

---

## **Camille says**

Despite the cleverness of the idea, after struggling through this for two weeks, I've realized the writing and the story's execution just isn't holding my interest enough to finish it.

---

## **Sonja says**

The plot of this book is darling!

---

## **Luvmyfamily says**

Hehe that was so cute! A very clean silly love story. Wish my library had more of her books...

---

## **Nanou says**

hiiiiii j'ai adoré ♥

C'est très très drôle, l'auteur détourne tout le mythe de Cendrillon et même en utilisant de gros clichés, elle arrive laisser du suspense et des surprises sur les retournements de situations. On a pas le temps de souffler, il se passe toujours quelque chose. L'histoire avance très vite une fois la machine lancée ^^.

Kate et Jon sont parfait ensemble ♥ mais un Prince et une Marraine-Fée ? le monde est choqué xD ... et le Destin a décidé de s'en mêler : déjà concernant le job de Kate (donner son happy ending à Rellie avec Prince Rupert), rien ne se passe comme prévu, et pourtant elle avait la robe, le bal et les pantoufles de vair ! Ensuite, Jon réalise que ce serait mieux si c'était lui qui disait la vérité à Kate sur son statut de Prince, mais pas de bol pour lui non plus, pourtant il avait réservé un bon petit resto pour la soirée ^^.

Les autres personnages sont aussi géniaux : Rellie, Ned le collègue de Kate, Lawton le BFF de Jon (et accessoirement générateur constant sarcasmes gniiiiii ♥), le Roi et la Reine, Prince Rupert (qu'on voit beaucoup en fait, mais quelles apparitions il fait xD !).

ça aurait pu être gnan-gnan et bizarre, mais pas du tout. C'est romantique certes, mais tout ce qui touche au \*True Love\* ne provoque pas de déchaînement d'arc-en-ciel et de coeurs, fort heureusement ^^'. Kate et Jon ont leur lot de bisous, mais ça reste relativement léger, puisque c'est l'Histoire le plus important !

Je vous laisse avec un bon mot de Monsignor Lawton, qu'on devrait tous se dire au moins une fois par jour xD :

**I am vastly impressed with all of us, which means this is a perfect opportunity for all of us all to celebrate our mutual magnificence.**

---

## Matilda says

We get a lot of retellings of fairy tales these days yet even though this is a retelling it isn't..( if that makes any sense) This is about fairy godmothers its cute fluffy and adorable!

### Synopsis

In a world where fairy tale situations are as much a fact of life as death and taxes, everyone knows hiring Fairy Godmothers, Inc. is the best way to assure that your beautiful daughter or enchanted frog of a grandson will get the happily-ever-after he or she deserves. Sure, sometimes a little love potion is required to make sure those quotas stay up, but what Prince Charming doesn't know won't hurt him.

Kate, an experienced Fairy Godmother, who's enough of a romantic to frustrate her rigidly rule-bound boss, has just received a specialty assignment from one of the company's board of directors. Cinderella—Rellie for short—was placed with an appropriately wicked stepfamily years before, and now needs the dress, ball, and handsome prince to complete her happily-ever-after. The fact that Rellie isn't sure this is her dream come true—balls are fun, but princes tend to be less interesting than fluffy bunnies—isn't something management considers a problem.

Complicating things a bit is Jon, the youngest son of the royal family, who meets Kate, and is smitten, but isn't quite ready yet to reveal his true identity. After all, it's his older brother Rupert who's supposed to marry Rellie, which means pretending to be a lowly civil servant will give him the chance to spend more time with Kate. (As long as he can get the ball arranged, and stop Rupert from getting himself into trouble over his "self-actualization" business, he should have the perfect opportunity to explain everything and get started on making a little magic with the Fairy Godmother of his dreams.)

But, of course, things never ever happen as planned.

This is an amazing book like seriously go and pick it up! I stumbled across this by accident and it instantly looked amazing- I am a sucker to murder mysteries, fairy tale and their retelling and Greek mythology retellings.

This book is told from the point of view of Kate a fairy godmother who works for a corporation who get paid by hooking up people with their prince charming and so on but if it doesn't work they always have Tru- love which makes them fall in love! Now the stereotypical image of a fairy godmother is an old lady in a dress with a wand... but I couldn't be more wrong.

Kate is just amazing in this book but I think that Cinderella or Rellie out shone her, Rellie is just amazing!! I loved her character not often in fairy tales that we have Rellie being this bubbly cute person.

All the characters in this story have a twist on them even the prince in most fairy tales we have him being this regal posh and wonderful man and let me just tell you he isn't like that in this book ;D

John is the love interest and he is adorable I love him and Kate's relationship its soooo CUUUTEEE!!!! It's really sweet and there are no love triangles which is awesome!!! I can get fed up of them after a while...

But what really hooked me into this was the plot- at first it was a great read funny and cute and but towards the end how it proceeded it was amazing!!! And soooo funny!!!! I got more and more hooked as I read it. (view spoiler)

---

### **Allie May says**

A hilarious twist on fairy tales. Though there were a handful of errors and typos riddled throughout the book, the story is well worth the read. It's the perfect sarcastic and cheesy fairy tale.

---

### **Jesse Kimmel-Freeman says**

Do not be fooled into thinking that this is a YA book. Yes, the title makes you think that you're in for a YA rom-com... maybe even the cover in general. Don't be fooled! It's way better than any YA book anyways. This is a funny book!

Kate is a fairy godmother- can't even think of how odd an job this would be!- and she has to grant the wishes of the princesses, ensuring they get their happily ever after and a perfect life- gee, aren't they special. Her latest task is dear, sweet, dumb Rellie. No, this girl really is dumb. And here's the twist- instead of wanting a handsome prince to come and rescue her from her current situation- she wants BUNNIES! Say, what?! You heard me- bunnies!

Of course, the beau that is picked out for her isn't the brightest crayon in the box either. What a match made in space cadet heaven. Then of course there's John, le sigh. But like all good rom-com books, things go screwy.

This is a hilarious book, one that I highly recommend to all the romance lovers out there. Get in the game and find out the world of Fairy Godmothers and next time you're wishing on a star- think before you wish. I'm just saying!

---
