Fear in Her Eyes Nikita Slater

Daniel Mercer wanted something he couldn't have. He wanted the woman from his building: the blind musician. The black part of his soul called for him to reach out and take her, to make her beg. He wanted to see the fear in her eyes as he took her from her tidy world.

But he needed to protect her. From himself.

He was a savage through and through. He'd seen and done things normal men couldn't even imagine. That was why he was head of King security. Unfortunately for her, he couldn't seem to let her go. Her lush curves, delicate beauty and helpless attempts at independence soothed the predator in him.

Addison's ordered life has gone from perfectly pleasant to terrifying in two crazy missteps:

1. Daniel Mercer
2. Stalker

Daniel stormed into her life in a hail of bullets, saving her life and bullying her with his overbearing non-musical presence. He touched her at every opportunity, lighting up her dark world with a kaleidoscope of colour, then pushing her away whenever she got close to his heart. But will he push her too far, into the arms of the stalker who lurks in the shadows?

My favourite Nikita Slater book so far. Obsessive and dark for sure, but Addison is such a fantastic character. Well-written and clever. And great attention to details, Nikita does her homework.

I really enjoyed the first 35% of this book. The H was so crazy about having the h and their initial sex scenes were scorching! However, as the story progressed the H became scary abusive. He would humiliate, threaten, and say awful things to the h. The sex scene turned disturbing and the H had no care about mistreating the h. He would even deliberately make her stumble and disorient her because she was blind. There were several instances where I thought he was going to kill her because he was so angry that she wanted them to go on a real date. At one point he threw weights at her when he was angry!!! She is blind and I still don't know if he was trying to hit her. He treats her so badly that I was horrified. Plus, the donkey h kept wanting his love which made no sense. She was another character that really bothered me. She kind of sucked big time. There is one scene where the h goes on date with a woman and that's when the h reveals that she is bisexual. I like this author and this series but this book was BAD! I hope Boris, Nick, and David's stories are better.

Loved

This story was amazing, if there is ever too much alpha, Daniel Mercer definitely fits that profile. Alpha to the extreme. But can Addison tame him?! Read & find out.

Beautiful Juxtaposition of Light and Dark

Nikita Slater always writes the most eclectic characters and Fear in Her Eyes is no exception. Addison might be visually impaired but it is this vulnerability coupled with her lust for life and musical genius that enthralls cold-blooded mercenary Daniel. I absolutely loved the push and pull of their unlikely pairing and the

absolute, unbending dominance of Daniel. Addison is a strong, independent and uncompromising character in her own right and it's their multifaceted and complex dynamic that makes this story great. I absolutely loved Addison and Daniel's story and I would highly recommend it.

I found it really hot and a bit psychotic. Really enjoyed Daniel's antihero tendencies.

Daniel (H) is an OTT alpha stalker, obsessed and possessive of the blind heroine. He was in her house without her knowing it and watching her undress, masturbate. He also planted multiple bugs in her home after they broke up.

Of course, in real life this is very disturbing but in Romancelandia, the story is quite hot and the smexy scenes were borderline violent but still hot!

Rgreader says

Dnf'd early. Heroine annoying. No chemistry. Writing style bland.

Last. Heroine ruined the book. She was phony to someone who wanted to be her friend. She took off her pants in the presence of her boss who is male and married. She had no care he would be uncomfortable about that. That was callous of her. She was slutty. Pointless since she knew how to use a vibrator. In her thoughts she treated the other lovers callously.

I never warmed to this heroine and couldn't stand her so I lost interest in her romance with the hero.

Expresso-Girls Just Wanna Have Books ; A Mafia Romance says

This story definitely detail the depth I've come to associate with Slater. Book 5, Fear In Her Eyes, detail a couple that is the most broken to date.

Mercer is a rare entity. Very few stories I've come across has his level of brokenness. Unfortunately, his awful past define him and he lives in perpetual darkness. The other half of his soul, Addison, battles her own demons. Demons inflicted on her at a young age. However, she's managed to carve out a good life for herself. Or so she thought. Hurricane Daniel comes through and wreak havoc and beautiful insanity!

This story is soooooo good! It's definitely darker than the prior installments in the series. Daniel is extremely rough around the edges, in the front, back, and on the sides! He's not for everyone. If tortured heroes are your thing, then you MIGHT be ok. If your tastes run in the vanilla, please keep it moving! Daniel is gonna whip your hind parts like he's Bruce Lee! Boom!

Five stars!

I was eagerly anticipating this story about Daniel and Addie, and it completely lived up to my expectations. I also enjoy being pleasantly surprised by unexpected directions a story can take, and Nikita Slater has proven a master at providing this. Once again, I am impressed with her ability to create such diverse characters who I always end up liking--even when they're not very likable, as in Daniel's case because he is so closed off. Addison is wonderful, too, with her varying nuances and brings her light to Daniel's darkness. They're a wonderful couple together, and I look forward to continuing the series when Boris and Laney's story is released.

Carena Jones says

Omg!!! Every time I read one book from this series I'm dying to read another. They just keep getting better and better and mind you I'm reading them out of order. I thought Vladimir was the worst jerk of them all but I stand corrected. I now believe that Mercer is...that is until I read Niccolo and Maria's book. Another great on Nikita. Keep them coming!!!

Amina says

I couldn't put it down! I always look forward to reading Nikita's books and this one was no exception. There's something about her characters that just suck me into their lives and have me hoping against all odds that they'll end up together (even though I know she only writes HEA's!). Daniel is one of the darkest, least redeemable characters I've read that I've actually loved and wanted to still get the girl.

I couldn't believe he was breaking into a blind woman's apartment and watching her at her most vulnerable, yet I still wanted him to win. Even when he was unpredictably scary, I wanted him to convince Addison he was worth loving. He was so broken that every interaction was like a fight for him not to crush her while she slowly fell in love with him.

Addison is a beautiful, independent musician that plays in an orchestra. She's wary of Daniel because he acts

like a terrifying beast around her, but she's also intrigued by him. This book has darker themes. It's absolutely worth reading. I highly recommend it!

Barbie Hamilton says

Yes Daniel sure is a scary dangerous man which leaves you thinking he might be too much for our girl Addison but nope she soothes some of the crazy in Daniel. Now he is still a scary man but I think loving Addison gives him just enough humanity that it makes for an exciting read. No one not even her stalker will take what is his not for long anyway.

PHENOMENAL READ!

Wow this book was intense, Daniel and Addie had me crying through out the whole book. You can feel the Sadness, the Hopelessness, the Anger that Daniel is feeling, for him to go through all of that and try to find peace, light, with Addie is great. Daniel's a jerk but he love intensely, He's dark and Addie is his whole world. Nikita Slater did amazing with their story, she took you to whole different world with their story, the fact that Daniel redeem himself was amazing! Giving it 5 stars of course, she deserves it, great job!
