Little Kids First Big Book of Birds Catherine D. Hughes

This adorable reference introduces young readers to birds of all kinds: big and small, flyers and swimmers, colorful and plain. They'll find backyard favorites, such as robins and cardinals and be introduced to more unique species that inhabit rain forests and deserts around the world. Bird behaviors kids can relate to, including singing, dancing, building, swimming, and diving, reveal fascinating insights into the avian world. More than 100 colorful photos are paired with profiles of each bird, along with facts about the creatures' sizes, diets, homes, and more. This charming book will quickly become a favorite at storytime, bedtime, and any other time.

Awesome pictures. Lots of information but also can skim if desired. I learned stuff from this book and enjoyed reading it with my daughter

An introduction to what makes a bird a bird for kids, and a look at various birds all over the world with chapters that focus on different methods of nest building, mobility, eating habits, etc.

These little kids first big books are great for curious kids and can grow with the child. At first they'll just be captivated by the eye-catching photos, but as they grow older they can explore all the info boxes, soak in the text, enjoy the activities at the end of each chapter, or even do the suggested extension activities in the back of the book. Very informative, and I like how there are birds from all over the world that are highlighted. Great nonfiction pick for kids, especially bird lovers.
