More Than Her

Jay McLean

More Than Her Jay McLean

"For every action there is an equal or opposite reaction."

For every choice you make there are rewards,
or there are consequences.

It was my choice to walk away the first time.

And my choice to chase her the second.

But sometimes you don't get a choice,
and all you get are the consequences.

"Being deeply loved by someone gives you strength,
while loving someone deeply gives you courage."

Unless that someone is Logan Matthews.

Because loving him didn't give me
the strength to walk away.

It didn't give me
the courage to fight for him.

And when it was over,
all it gave me was a broken heart.

Lisa Jayne says

FOUR MATTHEWS STARS.

I lost myself. In his hold. In his kiss. I completely lost myself in Logan Matthews.

I'm still kicking myself that it took me so long to start this series. And now that I have, I can confirm that book two was almost everything I wanted it to be. Jay McLean is an author that has made me sit up and take notice and now I'm finally understanding the hype around her 'More than' series. I can't quite believe that I'm able to sit still and write a review for this book when the next book in the series is sitting on my kindle waiting for me. So you'll excuse me when say I'm going to quickly jot down my thoughts and then commit myself to my reading cave to get the bottom of the questions that book two has left me hanging with ...

What did I love?

Logan, Logan, Logan and more Logan. What can I say? I think I'll always be 'that' reader who finds herself helplessly addicted to the reformed hero who falls helplessly in love with the soul mate of his dreams. (Yes I sound ridiculous I realise this). But Logan Matthews is what New Adult dreams are made of. And as for his mistakes and less than desirable qualities, well I can more than overlook those flaws because readers this fictional character won me over. Jay Mclean has a way of keeping her readers on their toes, nothing is predictable or boring there will always be a new development or plot twist that gets thrown into the mix and I for one loved every moment of it. From meeting this lonely bad boy in book one he totally grabbed my attention and going into book two I was excited to see what this author would do to convince me to fall in love. There's plenty of emotion involved, much like book one of the series and I was glad to have an endless supply of dreamy new adult moments that gave me what I always crave from this trope. Again I loved to see the friendships continue to progress between the 'more than' characters and what more can I say other than I'm happy to continue on with my Jay McLean marathon. Here's to heroes we love and heroines that we adore.

Why not five?

If I was to rate this book entirely on it's ability to make me fall in love with a hero, then you can bet your life on it that id be handing out a five star as quick as I could. But we all know (sadly) that there is much more to a book than it's hero. (However much I adored Logan). So, here's where the rubber hits the road, it took me a little while to get into the flow of this book, I struggled somewhat with the back and forth timeline which then made me constantly question who was doing what where? (It took out some of the enjoyment factor because I couldn't simply just 'get lost' in the story line). I also got just a teeny bit frustrated with the speed of the story telling I felt like the characters were going round and round in circles and I would have preferred a much clearer plot with more character development than the frequently placed drama. However, there is zero doubt that this author has me wrapped up in this series and I'm dying to move onto book three. What a journey, Here's to loving heroes and falling in love with fiction.

Final thoughts ...

Nothing feels better than when I can say that I'm excited to carry on with a series. I love how Jay McLean has made the focus of her books about friendship and love, with each book the readers gets to see more and more of this group of characters and how their lives link together. Obviously these coming of age characters have a lot of work to do in their respective relationships and I'm more than impressed (see what I did there)? with how well this author pieces all of that together. If like me you love a new adult romance tale then I'm pretty sure you'll be happy to get wrapped up in this series. And as for me, I'm now stuck like glue to this author and her entertaining more than adventures. I can't finish my review without mentioning my love for all things, Logan Matthews. He is the perfect hero, he won over my heart and I can't deny that I loved reading about him, I'm more than willing to allow Mrs McLean to make me fall in love with another hero of hers but as for now I'm claiming Logan as my favourite. Readers, I'm so glad that I started on this journey and if you haven't yet picked this series up and you are a fan of swoony, dramatic love stories then what are you waiting for? Go grab book one right away. Enjoy ... Kisses

Lady Vigilante (Feifei) says

[Yes, but many issues do get resolved. There is definitely more to come about Logan and *her*. It's really hard to categorize this one as a definite cliffy because of the extenuating circumstances that led up to the ending. Hope you understand why the ending happ

5 STARS out of 5

Genre: New Adult Romance

FULL REVIEW POSTED 11/18/13

First of all I just want to say that opening my inbox this summer and returning Jay McLean's message for me to read More Than This was the

I TRULY LOVE THIS SERIES!!!!

I think Jay McLean likes to make me cry..hmm.. Well I did not all out bawl like I did with MTT but I did get all misty eyed. She knows how to hit me right in the **FEELS** with her characters. You see, when I thought it was impossible for me...Jay made it possible..... No one will understand this comment until you read the book. **HINT: it's in reference to a character.** Ha, even with the hint you still probably won't understand after reading the book, well maybe a few.

I want to make this clear, More Than Her is not More Than This part 2. More Than Her IS VERY MUCH Logan's book. Besides the steamy angst and the recurring set of characters this book stands on its own two feet. ****lays right hand over heart**** And I must say, getting to know Logan is a true pleasure!

In *More Than Her* Jay McLean takes us from past to present in the beginning of the book so that readers can catch up on what's really going on with Logan and his love interest. I must admit I struggled with the beginning but uhh that's mainly because I'm a nosy chick who wanted answers like NOW. Though, I must say reading the banter between Logan and his love interest made for some good entertainment.

Somewhere between 25 and 30% you are caught up to the present and the book **TAKES OFF** like a rocket and when you get to the last page you will keep trying to scroll for **MORE** pages!!!

There is a lot of push and pull filled angst with the main characters; you constantly feel the will they or won't they because he's chasing and she's running. However whenever he gets close enough she has no choice but to yield. Yes, Logan is that irresistible. *wink, wink*

We flashback to when she and Logan first meet in his pov. And witness first hand at how he fell hard and fast with a chick that seems to not be susceptible to his charms. *Smirks* Well, at least she is not allowing him to see that she is.

Could **SHE** be **HIS MORE...**

Giving in to Logan is more like something she simply could not help, the attraction is very mutual. She acknowledges this by giving him a chance. And everything is all good..until it's not.

Logan F's up **BIG TIME**. And correcting it proves to be a task but just like in the beginning when they met she learns that Logan is still very persistent. SHUT DOWN after shut down occurs with her vehemently against giving him that second chance until FATE intervenes. Well fate and Logan's man whore ways get his butt in trouble. When a friend of a friend helps him out Logan is once again face to face with **HER**.

Ok I'm going to shut up about that and just give you my thoughts and feels now before I slip up.

You should however know that I plan to do an extended version of this review days after the release so that I may discuss the characters more freely.

My Thoughts

A-DORA-BLE these two are perfect for one another. Jay leaves no room for error when she put them together. She also does an awesome job with Logan's character and allowing us to get to know him more. I LOVED how he defined his life by the moments and how he explained it to **HER** in the book.

The Writing

For this to be her second novel I thought the writing was pretty damn good. I think it's safe to say that she

has a keen trait for writing Angst. But not just angst.. Has anyone else ever read a line in a book and felt like it cut you and you jump back from the physical pain of it? That is exactly what happened to me as I read a certain scene.

This book was filled with some great moments. Hard hitting moments, **EXPLOSIVE** moments. Moments that make you take an extra gulp of air before moving on to the next sentence. There is this one scene where Logan is watching something happen..he takes it in and immediately reacts. ****Snaps finger**** And just like that with 5 words I was all misty eyed.

I gave this book 5 STARS because I LOVED IT!! Not only did I get teary eyed, I also laughed - A LOT, had a change of heart and fell for a chick. What? It happens,lol!

McLean likes to tease you with her secondary characters, giving just enough to leave you wanting so much more and it's a good thing she plans to deliver.

Now I need the next book ASAP!

My Ratings

Characters- Lovable

Writing Style- Will hit you right in the feels

Plot/Storyline- A young guy meets 'the one' and finds that catching and keeping her is proving to be the fight of his life

Steam Factor- Medium/Steamy on a scale of 1-10 I say 7.5

Overall- I LOVE LOVE LOVED IT!!!!

Now go forth and read. Then come tell us about it on Goodreads!

PATIENTLY AND ANXIOUSLY AWAITING FOR RELEASE DAY!!!

Jay McLean says

Jacqueline's Reads says

3 to 4 Stars ... depending on your stance

This is a difficult review for me to write, because I honestly don't know what to rate *More Than Her* (MTH)...I think I will decide by the time I finish this review. I loved book 1, *More Than This* (MTT), like A LOT. MTT was a five star read to me, so it's hard for me to be disappointed with book 2, but I am.

A lot of people will disagree with me on this review and I completely understand that, it's because I do not like ANGST

I hate it. I can't stand ANGST! Again, my definition of Angst is a story written about two main characters not being able to overcome an issue because of misunderstanding. That is what it means to me. Have I given a five star rating for a book with lots of angst, of course, but not for MTH.

McLean went in a completely new writing direction for this book and it worked completely for a lot of people.... I see the reviews and everyone loved MTH. This reminds me of the time where I wasn't fond of ... *Going Under* by S. Walden, *The Sea of Tranquility* by Katja Millay or *The Opportunist* by Tarryn Fisher, but everyone loved it.

So, if you like to use my review to form a basis of what you like to read, then note this... did you like the above books I mentioned? Do you like angst? Were you okay with *More Than This*? If you say yes to any of those question, than MTH is for you. With all the reviews I have read, mostly everyone that was okay with MTT, really loved MTH.

It's Logan's story and right away we find out who "Her" is. There's flash backs, a lot of tension and back and forth throughout the whole book. This drove me crazy. I had to take mini-breaks and I was pulling my hair out from start to finish.

I didn't quite understand Logan, nor his issues. Actually I didn't understand "her" issues as well. Maybe I was reading this in a mood, but it was hard for me to empathize with the characters. I think I was setting myself up with a MTT kind of read and when the direction was turned on me, I was taken back a bit.

Then we get to that part... the part where EVERYONE knows what I am talking about. Pretty much throughout the whole book, I was holding out hope that there would be some redemption between Logan and Her. I was looking for that connection and spark. But when THAT part happened, I almost vomited in my mouth. I think I re-read it a few times because I just couldn't believe it.

This is my issue with stuff like that. Not that I am "sensitive", I don't think I am, because I can read pretty harsh things, BUT I didn't feel like it added any value to the book (of course I am not the norm because a lot of readers had a positive affect by this). I rather have not read that. I think my rating would have been higher too.

Also, the cliffy didn't bother me. A lot of people have issues with cliffys, I do not. I find them entertaining,

but I do have issues if a series is not known to not have cliffys and then to throw it in, well that kind of bothers me. However, I was fully aware of the cliffy in MTH, so I prepared myself for it.

After going back and forth, I decided this was a 3.5 star read for me. I am fully aware I am part of the blog tour and I have converse with the author several times. However, I feel like my review does justice on how I feel. If you know me as a reviewer, then you can gauge what works for you. If I am known to not like angsty reads and you love them, well then, you know this one is for you.

An ARC was provided in exchange for an honest review

RELEASE DATE FOR (view spoiler) is SPRING 2014

Anna says

Logan, get over here with your dimples♥? it's Anna kindle cocoon time !

This is how we left things : 99% book 1 "More than this"

If you knew about my past, you'd understand why I don't let people get too close to me. The people that are supposed to love you don't always do that. Sometimes they hurt you, physically and emotionally. Sometimes they just check out completely.

Logan, come hither.... It. Is. Time. I've been waiting **more than a lot for your story ♥?**

GAAAHHH!!! Why did it end like that ?!?!?!

Perfectly messy brown hair
Stupid green eyes
Perfect teeth
Hot as fuck panty dropping smile
Dimples

Logan fucking Matthews....

get your shit together !!!

Meanwhile Waiting for next book....

I will consume **more than a lot**
Of tequila

Think **more than a lot** of theories

Angry cliffy-face emoticon !!!! Why does the author hate me ?????

I love Logan Matthews Even though I'm in angry face with him right now

I'll love him forever. But I will keep that to myself

read. This. Book. !!!!!

NiCoLeTa E. says

Fuck me!!! What was that shit???

Oh, dear Lord!!! What a madness!!!

I still can not believe all this shit that happened at the whole book, and especially at the end!!!

I thought that Kayla had a difficult story, but neither Logan or Amanda was having a better life!!!

Oh shit!!! All of that can't be real!!!

And now, what??? It so hard for me to accept it!!!

I was waiting like a crazy person for my happy ending and when i was about to have it, after all this shit that Logan and Amanda went through.... Shit go real!!!!

Damn!!! There's no enough words to curse the universe for what happened!!!!

Well, this book focused in Logan. He is Jake's best friend from the first book. He is a little bit crazy, funny and a womanizer type... But somewhere between the previous story, he started feeling something about Amanda for the very first time in his life...

But then he confused the caring and loving for a friend who suffered with the love of a lifetime and he fucked up everything with Amanda!!!!

Now, after 1,5 year he is longing to see her again and when his wish come true, Amanda wants nothing to do with him!!! So he has to make the things better but which is the better way to do that when the girl that you desire hates you???

Amanda alouds herself to feel things about Longan even though she knew the rumors that followed him around!!! But in one single night, he crushed her heart and from that moment everything went down in her life...

How can she ever forgive him, even though she still had feelings for him... feelings that she is trying so hard to ignore???

But they are moving in the same circles and he is making it difficult for her to not aknowledge him!!! And

the worst part of all is that from a twist of luck, Logan is her new roommate...

Will they manage to overcome the bad things in their life and to find the happiness together????

Or all this shit that ruled their lives will swallow them???

Because both of them they had too much pain in their lives because of their past.

They will manage to run away from their demons or they'll rule them and destroy everything that they are trying to built together????

Oh, shit!!! That book was more better than the previous book!!!

It shocked me so many times... In some point i almost lost it with the things that was happening all the time...

Shit!!! I need something good in the next book because i don't know if i can handle more pain for that two...

Amanda and Logan are both so good and they deserve to have their happy ending!!!!

Phew!!! With very heavy heart i will continue to the next book!!!

I need to found out what will happen next!!!

I am crossing my fingers for good luck!!!

Kristina says

"Between baseball, the parties, the girls and the sex I have just enough time to study. If I had to give up one of those things, it would be baseball."

This is his behaviour AFTER the shit he does to the h.

What a complete and utter douchebag!

He didn't deserve her, and she should've left his ass dumped in the gutter. Her doormat behaviour towards this loser really pissed me off.

So...he screwed around a year and a half after being with the h. And keeps on fooling around with other chicks right up until the second he tries it on with the h again, literally with another chick's lipstick on his neck. Ummm, yuck and disgusting.

If she was the love of his love why didn't he fight for her? Why did he NEVER try to find her and show his regret/sorry for being an asshole??? Hah, because he preferred to be a manwhore and screw around with random girls.

H was a BIG FAT NOOOOOOOOOO!!!

I did not like this story at all. I don't like Logan, I don't like any of the things he did, he frankly did NOTHING to redeem himself at all. Nothing so it pisses me off that she just let him off the hook. Logan was just a seedy shthead.

Catarina says

4 Intense Stars.

Logan fell in love once. But he was confused, his past was weighting in and he gave up on that. Now, one year later he and the girl meet again on college: the feelings are there, the connection as well, but now she doesn't trust him. And with good reason, after all he is a man-whore who broke her hearth. He is decided to get her back, she is decided not to forgive him afraid her heart will be broken again. This time he don't want to lose her, but if he have her again... will he be ready this time?

I normally run from angst like I would run from Ebola in Africa (too soon?). And there's a reason for that: my heart can't take it! But once in a while comes a books that makes me forget my angst-allergy and turns into an all-night amazing reading. This was of those books. It made feel, it made me cry, it made me smile. The writing was perfect and the scenes and characters so realistic that it's impossible not to connect with the story. There was some drama that was a little over the top, but other than that, these books are definitely one the best NA series ever written.

Rating: 4 Stars.

Characters Development: Logan is one of those broken guys who behaves like a jerk for several times, but we love him anyway because we can see there's a great guy underneath it all. I really liked him. Amanda was also pretty good, some of her actions weren't perfect but she was a girl with a broken hearth and lack of trust. They were understandable. I loved to see more of the others. Lucy is probably my favorite girl ever written, I can't wait to read her book.

Steam: Some hot moments.

Sensible Subjects: (view spoiler)

Love Triangle: (view spoiler)

Cheating: (view spoiler)

HEA: (view spoiler)

Beverly says

5 *Logan is a boss* Stars

This is the second book in the *More Series*. We met Logan when he spilled his drink on Mikayla and started the chain of events that led to Jake and Mikayla meeting. Logan is Jake's best friend, we know him as a cocky asshole who says what's on his mind. He doesn't apologize for who he is, love him or hate him, what you see is what you get.

Logan is seriously one of my favorite book boyfriends ever. Logan comes off as an asshole and I guess to most people he is, but he has also overcome so much to become the cocky asshole everyone knows and loves. Logan has had his share of girls, too many to even count. Then one day he meets the girl who can withstand his charms and turns him down.

Amanda Marquez isn't interested in the self absorbed man whore, so when he begins pursuing her she turns him down multiple times. Finally Amanda agrees to go out with Logan after he creatively coerces her. Something happens and that is basically how the beginning of the story unfolds. We know Amanda and Logan know each other and something happened between their senior year of high school and their freshman year of college. Amanda and Logan haven't seen each other in a year and half, but that doesn't stop Logan from beginning his pursuit again and trying to win her over.

"That day I saw you at the library, after we talked at the bus stop. That was the moment, that for the first time in my life, I wanted to believe in second chances."

The story is told in dual POV, alternating from past and present. So you get to see how the past events shaped their future relationships.

It is no secret I love this series and here is few reasons why. I feel like I know these characters and if they are the type of characters I would want to spend time with in real life. I love my billionaire books and my crazy plot lines, but these stories just feel more realistic to me and completely pull me in. I love how these college students are just living life, they all come from the same town but have different pasts that make them unique.

I love the reading references, you can tell this series is written by an author who loves to read. I have never met Jay McLean, but I can tell she has a kick ass personality and wicked sense of humor. Here is one example, but honestly there are so many. This story kept me laughing out loud.

"So what's this about a book club? You girls sit around, reading dirty books, fanning each other's vaginas? Because if so, count me in!"

This series has heart and soul, humor, and hot sex. I loved Logan Matthews. He is a great hero and Amanda is his a perfect match. She isn't annoying or irrational, they just fit together.

"Boys in books are so not better. Not compared to Logan Matthews. I love him."

This book does end with a cliffhanger, but thankfully the sequel is out so you can go straight into More than Him. Sometimes it pays to be the last person to read a book/series. :-)

Christy says

5 I MORE than loved this stars

For every action there is an equal or opposite reaction.

If you've read *More Than This*, you've met Logan (and if you haven't read it, you really should!) I absolutely adored Logan in the first book. I can't tell you how excited I was to hear he was getting his own story. Because I loved book one so much, I was a little nervous to read the second. I have been having some issues with sequels falling flat compared to the first book of the series recently... let me tell you, that is NOT the case here! This book surpassed the first book for me. Yep, it wasn't just as good as the first book, it was better!

Logan has fallen for someone, but it's not who you think... or is it? Either way, we get a back and forth, from past to present account of their relationship. I loved the flashbacks. This girl doesn't want to give poor Logan a shot, but you can't really blame her. He has quite the reputation.

'I'm trying really hard not to be the person that you think I am. I'm not that person. At least not with you.'

She really tries to stay away from Logan, but he wears her down with his irresistible charm. For the first time, Logan really feels something for someone. It's scary, but he knows she feels it too.

She wants Logan, is ready to take that leap, but then- he screws it up.

Fast forward a year later... The two of them run into each other. The attraction is still there, the chemistry is still there, the feelings are still there. But so is the past hurt, the issues and confusion over what went wrong.

Logan did fuck up, he knows it and wants to fix it. He makes it his mission to win his girl back. He'll do whatever needs to be done. For the first time, he will have to really work at getting a girl. Not just any girl, THE GIRL. This is the girl for him, and he will convince her to give him a second chance. The spark between them is still there and undeniable, but will she be able to trust Logan, to open up and let him in?

There were some not so easy to read parts in this book. Learning about Logan's past broke my heart. Seriously, I cried and cried over this. You will need to pull out the Kleenex. I fell in love with another character after learning all of this, Logan Matthew's dad. Yep. I love Logan's dad. Such a great guy. You get a decent bit of the characters you love from the first book: Jake, Kayla, Heidi, Dylan, and my personal favorites- Lucy and Cam. I just love those two! Some of the best parts of the book were Lucy parts. I love her drunk alpha male rant!

"What the fuck, Luce?"

“Why don’t you ever go all jealous-and-hot-alpha on me?”

“Are you fucking kidding me right now?”?

“Fuck you Cameron. I want that same fucking treatment. I’m gonna start chatting up assholes daily.”

?

Lucy and Cam have an incredible relationship and I really hope we get more from them in the future.

Being in Logan’s head was amazing. Freaking swoon. I was such a Jake fan in the first book, but Logan is just SO much better to me. I still love Jake, but, yeah... not near as much as Logan ;) Logan made me melt!

Emotional, real, hilarious, sexy, swoony and just perfect! I love books that make me **feel**, and even though I’m crying they can also make me laugh, smile, and swoon. This book does that. It did have some angst, but I don’t feel like it was overkill. And the growth- I love watching characters grow and evolve, and Logan definitely does that. This book is a must read. This series is a must read. A favorite of mine for sure!!!

Boys in books are so not better. Not compared to Logan Matthews.

ARC kindly provided by author, Jay McLean, in exchange for an honest review

Jennifer Kyle says

4.5 Stars

OH THE ANGST!!

This book had me from the first chapter. I did however have to ask a friend to remind me who was who, I have the worst memory.

This story had twists, broken hearts, mental patients, twin brothers and Hoovering. Frankly, the drama never quit!

The story is told in alternating povs of "Her" and "Logan" and I have to give the author props because I absolutely swooned over Logan Matthews, flaws and all.

"I can't give you much, or anything at all. But when I say those words to you, it won't just be words - It will be me giving you something that means something. And you deserve to know that, to feel that. So please, let me be the first to say it - because I need to be able to at least give you that...and when I do - those three words will be yours, forever. And so will I."

I was devouring this story right up to the very last page when...

SPRING? REALLY?

Jay McLean ~

Please tell me that is a typo.

I honestly need this book NOW.

P.S.

"This can't be all there is to us. To our story. This can't be how it ends."

*****4.75*****

It could be that I'm delirious from lack of sleep but I think this book was really good.

Review to come...

Carol [Goodreads Addict] says

More Than Her is book two in the More Than series by Jay McLean. This book is the story of Logan and Amanda. It starts out going back and forth between the past and the present. It took me a couple of chapters to adjust to the time swings but once I got a feel for it, everything was good. But let me warn you, this is an emotional book. So get your tissues and let's dive in.

I loved Logan in book one. I knew there was a story there but had no idea how tough things really were for him during the early years of his life. He first met Amanda before college. And he liked her. He wanted to get to know her. So finally they have their first date. And...it's epic. But things happened and he didn't call her back, and he let her go. She was the one that he let get away. The one he could never forget. So now they are at college and he finds her. And he wants another chance.

"No one else would understand how one night with a virtual stranger changed me. How I never wanted to be close to anybody my entire life. Not until I met you."

Amanda let Logan break her heart once. Could she forgive him and risk her heart again? He wears her down, though, works himself into her heart...again. But Amanda has her own share of challenges in her life. Her Dad left, her mother is unstable. She has her own secrets as well. Something that happened. Something she doesn't want Logan to know.

“You own me, Amanda. All of me.”

“She became more than just my girl. She became my everything.”

First, I want to say that I love the familial relationships in this book. And there are a lot of bonds and ties between families. Nathan is Jake's Dad, and Logan and his father's lawyer. That is how Jake and Logan became best friends. Logan's Dad is the Dr. who helped Kayla in book one. I also love the relationship between the parents and children in this book. The bonds are strong. The strength of their love apparent. And there is one very surprising revelation revealed that ties Logan to Kayla.

“God, Amanda. I'd be the luckiest asshole in the world if I got to wake up like this, with you in my arms, every day.”

From the start, Amanda and Logan have everything against them. When they reunite in college, they are so good together. But when some secrets are revealed, it seems like it might be too much to overcome. But overcome it they do. So you get to thinking that this is it, that they are going to get their HEA. But then the author throws more trouble into their paths. And the ending, OH MY GOSH. I did not see that coming at all!

“I'll follow you wherever, Logan. For as long as you'll have me.”

Throughout all of this, I believed that these two were perfect together. But their story is not complete. Consider yourself warned, there is a cliff hanger. So in order to get the end of Logan and Amanda's story, I will have to continue on with book three, More Than Him. I guess that's what makes a good author, one that knows just how to make us keep coming back for more. Well, Jay McLean definitely got that one right because now I'm hooked.

Jess-i-ca ~Sometimes a Gif Witch~ says

4.5 Angst filled, anxiety inducing, drama filled Stars!

Jay mother effing McLean!!!!!!!!<---Notice these exclamation points

Why would you do this to me??? I am an Angst avoider for a reason! My heart can't take it!!

Seriously! I'm gonna come to Australia and ~~beat kill~~

steal your pet kangaroo while singing Fergie.

Ok so back to the story....This was Logan's book.....I love love LOVED Logan from More than This. More than Her was an enjoyable read and I love Logan's character....I will say we saw a softer side of Logan but he didn't quite grow a vagina so that was good. There was a lot of back and forth with the relationship of him and the girl who will not be named. There were plenty of great quotes throughout the book and I am excited for Lucy and Cam's book.

We meet secret girl and come to find out they have a history. Girl sees Logan present day and is like

"I hate him. I hate him. I hate him. I hate him so fucking much , I want to push him up against the wall and punch him in the face. And then I want to lick him."

and then of course she eventually changes her mind....

and then they are so happy

"I can't give you much, or anything at all. But when I say those words to you, it won't just be words--it will be me giving you something that means something. And you deserve to know that, to feel that. So please, let me be the first to say it--because I need to be able to at least give you that...and when I do--those three words will be yours, forever. And so will I."

and then like most guys....they have to go and screw it up and be an asshole...

And then that ending! I need to know what happens!!! NOW!!! NOW!!!

I will say even with all the drama I thoroughly enjoyed this one....I could not stop reading! I had to finish and

may have ignored other priorities to finish... *cough* *cough* work..... ummm yeah...

And guess what?? Only two "legit"s in this book!

Can't wait for the next book!
