The Kurtherian Universe Expands, by Micky Cocker

A poem to kick introduce our collection of stories

Holi's Savior, by N.D. Roberts

On the alien world Castellegia, brave young Holi fights for the survival of her ragged band of orphans. Who will save them from the green-eyed mutants who stalk the night? Justice calls upon Castellegia at the moment all is lost for Holi.

Last Adventure First, by S.E. Weir

Phina just wants to be a spy and use her self-taught hacker skills to help the Etheric Empire.

She embarks on one last adventure to try and make her best friend's wish come true. All it takes is a little B&E and some access pass forgery- no big deal for Phina's skills.

But with a mystery man talking in her head and tracking her every move, and a confrontation with leaders of the Etheric Empire, Phina might get more than she bargained for.

Renegade,by Erika Everest

I am one of the Drakis, the enhanced warriors of our race. Our Gods have sent us to fight ignorance and injustice in the universe, and to bring peace and enlightenment instead.

On the planet I am assigned to, I meet a native who is not grateful for our help. In fact, she despises us for our interference. Her attitude challenges my entire worldview. Is my cause truly as noble as I have always believed? Or is it something more sinister?

And what are the God's real intentions for the Drakis?

Sarah Jennifer's First Samhain, By N.D. Roberts

How do you survive an eternity alone?

Sarah Jennifer Walton had it all. A family, a purpose, a husband. Not anymore. Loss has shaped her into a true nomad, wandering the country in a bid to outrun her pain. A chance encounter and a little magic could

be the answer to Sarah Jennifer's prayers.

Set on the foundation of The Terry Henry Walton Chronicles this reconciles the past with the future, and a hidden destiny.

The Terrorist Within, by James Gartside

The Meredith Reynolds is a beacon of hope to many in the federation, but to one young girl it is a symbol of everything she wants to destroy.

Dark Savior, by Ian Nicholson

What will you do for the one you love?

How will you face your worst nightmares?

Something sinister is lurking in the dark of New York City, preying on those abandoned by society. Young runaway Adam tries to rescue his best friend, but he ends up caught as well. They have little time and no hope left. Because when monsters are real who can step up to fight them and set things right?

Till The End Comes, by James Gartside

The Kurtherians created them to fulfill a need.

Excellent set of stories from new writers

Surprisingly good stories from some new writers. Some new characters which I hope will get some more exposure. Great to see the KGU opened to these new faces.

Heather says

What a nice read for the fans from the fans!

To all the author WTG everyone. I loved each and every story for there own unique vision of what's going on in the KGS universe. Maybe my idea of writing isn't so crazy after all.

To the fans of KGS I hope I out give these stories the chance they deserve and love them also.

So many characters here I really want to know more about especial Holi that little girl really touched my heart.

Pam says

Great Read

I wasn't sure when I saw this book if it would be as good as the other books.. But let me say YES IT IS JUST AS INTERESTING AS THE OTHERS !! PLZE CONTINUE THESE STORIES ...???

marion dillon says

Well done!!

All the stories are interesting, but there were some that grabbed me and brought me into their world. That is amazing in a short story! If I was rating these individually, most would be 3 or 4 stars, which is amazing when you consider they are beginning authors, and there are 2 that would have been 5 stars. Astounding work ALL!!!!?

Breakdown of my opinions

- 1) Holi's Savior: excellent read. Emotional, sweet, tender, and badass!
 - 2) Last Adventure First: another excellent read. Great intro to a character that I would love to read more about. Lacking in some technical aspects, but I'm sure that would be rectified if this turned into its own series.
 - 3) Renegade: interesting insight on one of the Kutherian clans. Not much else tying it into the universe as of yet, but the writing is done well and it might be fun watching The Bitches go against The Drakis.
 - 4) SJ's First Samhain: the beginning of the Age of Magic! A beautiful story about a young lady's search for self.
 - 5) The Terrorist Within: Wow! Completely unexpected and amazing. I can't say anything else without spoiling the story. Excellent job!
 - 6) Dark Savior: turns the earth of TKG into a horror story that still touches the heart. Excellent
 - 7) Til the End Comes: this was awesome. A creation tale, of sorts. Giving its more info on the Five. I can see Tahzine becoming a well loved character. I'm already looking forward to his series.

Kurtherian Gambit Short Stories Vol 1

A Challenge was given by Michael Anderle and This series of short stories is only the First Volume. He allowed published and Unpublished authors to make up short stories in his universe. sometimes Bethany Anne shows up and sometimes she doesn't. Enjoy.

Nipa says

WOW!!!

Now I'm a fan of the fans! Such imagination and creativity. I'm glad you decided to write these tales and enrich the TKGU even more and what an awesome poetry to start the book. Bravo!!! I look forward to reading more about all the characters in all the tales.

Jared McIntyre says

Fans write

Some of these short stories are very good. Although, I would have like them to be more detailed. For example, the description of the space station was severely lacking in some of the stories. My favorite one was the last stories. And I would like to see a Book come out of that one. It was exciting and approaches the Bethany Ann series from another angle. But I would like it to include more detail and more technology. LOL

Belinda Baker says

Great bunch of new authors.

I'm ready for some new series after reading this. The stories were great and answered some questions in the story lines I had wondered about. A couple caught me by surprise. Keep up the good work authors and fans.

Alden Pierce says

Michael Anderle has written stories focusing on justice and honor in the Kutherian Gambit series. He is now demonstrating that honor in his life by assisting other writers. Giving a helping hand to new authors when he could bask in his own praise alone, is an example that he is truly a unique individual.

I am anxiously waiting to find out what they all can do next.

Jack says

Mostly very good

I wonder if the editors purposely placed the better written stories first, they were very good if not great. The last several stories were horrible. I wish it were easier to give appropriate 5 stars reviews and the others 1 star.

Ryarios says

Wow.

Wow, I have to say that most of the should not be short stories. They have full length books and maybe even series hidden within them. I hope they become all they can. Amazing for fan fiction.

Julie says

AMAZING!

Amazing! You guys rocked this fan book! Michael Anderle is one of the coolest authors ever! I mean, how many authors make it big & then invite everyone to come join their world & share in the glory...the success? I dare say not many! Congratulations to all of you for putting together an amazing set of stories! Can't wait for the next one!

Donald Jr Whitted says

Interesting Concept

I enjoyed this collection of short stories. Some more than others but all showed merit. Four story lines (I won't say which) I'd like to see expanded. Michael is the very ideal of a mentor.

Wayne Brown says

WOW

I have read a LOT of these books and I'm delighted that so many authors are adding so many more books to the Kurtherian Gambit series. Thank you Michael Anderle for this new world.
