## **The Changing Place** Kris Villarreal

When Stephen's mom dies, his too-drunk-to-function Uncle Kasey takes guardianship over him and his younger, bullying brother, Warren, all while his lost dad continues to text a dead person. Despite his physical disability, Stephen's working hard to watch out for Warren and to bury the hurt and resentment he feels over his mom's death and his dad's absence. But you can only keep things bottled for so long.

One night, Warren doesn't come home, and Stephen has to search for him. Near the old fairgrounds, he sees a bright, orange light flickering in the trees. Stephen follows the burning ball of light, only to come face-to-face with a reflection he isn't quite ready to confront. As the reflection disappears, the light blinds him, and he passes out.

Since that night, everything changes for Stephen. His emotions start to manifest themselves in ways he can't control. Leery and weary, he enlists his two best friends to help stop the changes, and in the process he uncovers the past troubles of his parents' lives. The Changing Place is a coming of age story in which Stephen must navigate his emotions or deal with a lifetime of negative consequences.

## Mike says

DNF at 50 pages. Good idea, very poor execution - the main character is pretty well-developed, but the writing and dialogue both feel very unedited and amateurish, and the narrative is cluttered with unnecessary details and infodumps. Overall, I don't recommend this.

## Heather Bridson says

Ok, I may have liked this a little more than I usually would have since it is based in Michigan, and I'm a Michigan girl. Having said that, Grand Rapids is not a place you can walk from a bus station to a really nice neighborhood... but other than that this was a very good book. It has a bit of magic, to go with a lot of sadness and hard times for the characters. I can't say much without giving away too much. I was quickly pulled into the story, and easily finished it in one evening. It isn't a long book to begin with, but I didn't get bored reading it. Well done story, hard and twisted subject.

I won this book in a Goodreads giveaway. I was not paid in any way for my review, and all opinions are my own.

Oh, and when this came it came signed to a Dale, so if there is a Dale who received a book signed to a Heather, message me and we can trade :)
