The Mistake

Lucia Jordan

The Mistake Lucia Jordan

This is the first book of the 'Claiming Love', series by Lucia Jordan. Written with her signature style of high passion, emotion and great sex.

An innocent night of drinking between friends turns into something not-so-innocent: the fulfillment of Krista's longest sexual fantasy—to have sex with her best friend, Danny. Will one night of passion ruin a lifetime of friendship?

Krista Baker meets her lifelong best friend, Daniel "Danny" Marks at a local bar for an evening of drinks and laughs—it's their typical Friday night. However, Krista soon learns that Danny just got dumped by his most recent girlfriend, and he's devastated to the point that he gets extremely drunk. Krista takes him home and puts him to bed. Only, she ends up in bed with him, and the two share a night of drunken debauchery, sex so amazing it stuns both of them. The next morning they agree to forget about it and remain friends. Krista agrees even though she wants more. A week later, she's determined to tell him the truth about how she really feels.

This ebook contains very hot and explicit descriptions of erotic activity. Only mature readers should download this book.

From Reader Review The Mistake for online ebook

Stefanie says

Enjoyed the book, always love when best friends hook up especially when one of them is secretly in love with the other but afraid to admit it. Definitely need the 3 other books now so I can finish the series.

Becky says

This series is done in VERY small increments and while I did enjoy where the story is going and would like to read further, I don't want to pay \$2.99 (current price) for the next 24 pages. Maybe if it comes out in a bundle that is reasonably priced or becomes part of Kindle Unlimited I will continue the story.

Nicole Henderson says

Could a one night stand destroy a friendship??

Drunken friends have a one night stand after he breaks up with his girl friend.

She knows what she wants, has wanted it for a long time but are his feelings on the same page??

Would I recommend this book YES

Shurrn says

This is the First Book in yet another collection of erotic serials...

You know the drill... Each book is going to be short.

The first book is going to be free.

The book will be heavy on sex, light on plot...

Verdict: Not worth continuing the series

Your standard *Best Friends Hook Up* (this time while drunk) story...

She's in love with him,

He just wants to stay just friends...

We've all heard this one before...

The whole will-they-or-won't-they type of deal.

Since this is a serial, it is necessary for the author to hook me in the very first book if she wants me to continue reading (and paying for) the other Novellas in the series...

Alas, she failed to do that. Simply not interesting enough.

Becca says

Tengo una relación amor/odio con estos libros que los hacen de 20 páginas cada libro y sacan 5 o más. en lugar de sacar uno solo, sé que cada quien hace lo que quiera con su libro pero es extraño (bueno eso siento). Este en especial es de 15 páginas.

Peni says

First and foremost, this is not a stand alone story. It does end in a cliff hanger. The good part is that the series is available as one book (which it should have been to begin with)

The story itself is good. I got a good picture of the situation and it definitely kept my interest. There is a lot packed into the 16 pages. I will go on to the rest of the story.

I recommend this story to 18+ and mature due to mild bondage and sexual situations.

April says

I love stories about best friends hooking up. One drunken night cause these best friends to have a one night stand. One feels like it's a mistake and the other feels like it's a dream come true. This book should have been a full length novel because I want more. Plus with that cliffhanger ending, I'll be buying the other series to find out what happens next.

J. Kahele says

Best friends that take it to another level

Krista and Danny have been best friends forever and one drunken night they end up having sex.

The next morning when Danny tells Krista he made a mistake she is devastated and crushed even though she won't admit it to him now she wants more than friendship with him. Will Danny feel the same when Krista shows up at his place to confess her real feelings?

Christine says

For such a short book it is sooo powerful

I found myself relating to Krista
I cried when Danny said it was a mistake
I felt her heartbreak
Extremely well written
I can tell I'm Gona love this series

The Book Junkie Reads . . . says

First read by Jordan and she gave me a very **HOT, WET, ELECTRIFYING, and INTOXICATING** ride to the release of one's inhibitions. That leads to Krista doing something that she has wanted to do for a very long time. When friends mix alcohol in to things they should wear warning labels to 'stay away until effects wear off'.

Hanna says

It seems that my current favourite theme is (best) friends getting involved. I liked the story even though it was mostly just sex. What speaks for itself that after finishing the book I bought the complete series (which i am about to read right now).

Jennifer Figueroa says

Loved it Lucia Jordan knows how to write some really REALLY good and HOT short storys that are so good I can read EVERYTHING she writes

Shannon Davison says

Ruined Friendship

Did 1 night of sex between 2 friends ruin their friendship for good? Krista has been in love with Danny for years but has never said a word. Does he feel the same?

Storm says

I liked it but would have appreciated more character interaction apart from sex. I love the build up of tension in books. There was some to an extent but not enough to really set it apart.

Mrs. Reader says

This was about two best friends having one night together and trying to find out what happens after. The sex was great, but the cliffhanger threw me for a loop. I should have read better. It actually said there was a cliffhanger, ugh. I just saw friends to lovers and got a little distracted, LOL.
