**Time and Time Again: A Collection** Tamara Ireland Stone

**A spellbinding love story by *New York Times* best-selling author Tamara Ireland Stone, originally published as *Time Between Us* and *Time After Time*, is now available as a bind-up.**

*Time Between Us*

Anna and Bennett were never supposed to meet: she lives in 1995 Chicago and he lives in 2012 San Francisco. But Bennett's unique ability to travel through time and space brings him into Anna's life, and with him, a new world of adventure and possibility. As their relationship deepens, they face the reality that time might knock Bennett back where he belongs, even as a devastating crisis throws everything they believe into question. Against a ticking clock, Anna and Bennett are forced to ask themselves how far they can push the bounds of fate-and what consequences they can bear in order to stay together.

*Time After Time*

Bennett's unable to stay in the past for more than brief visits, skipping out on big chunks of his present in order to be with Anna in hers. They each are confident that they'll find a way to make things work...until Bennett witnesses a single event he never should have seen (and certainly never expected to). Will the decisions he makes from that point on cement a future he doesn't want?

# From Reader Review Time and Time Again: A Collection for online ebook

## Layne Clausen says

From the minute I opened this book, the characters, the setting, and the plot were absolutely captivating! In no time I found myself wrapped up in the mysterious and bizarre relationship between Bennett and Anna. This book was extremely well written, very high praise to Tamara Stone! This is a book I will be sure to read again!

## Michele says

Maybe really a 4.5. There were things that I loved about this book and things that were frustrating and complicated. Overall though, I would have to say that it was a good, but unusual, love story.

## Sara says

This was an OKAY book with a lot of MORE-THAN-OKAY moments. There were a lot of little things in this book (books) that were specific to my tastes or my life. For example, the main character had the same kind of hair as I do. They also went on a mini vacation to a park that is an hour from my hometown. And at one point, they listen to one of my favorite songs.

Without those little things, I wouldn't have liked it as much, but it was still a very cute book.

Done with the second book! Rating: 3.5

It was still cute and I liked Bennett's POV better than Anna even though absolutely nothing happened in the second book. The whole book felt like a 300+ page of fillers that was still light and fun to read.

Done with the first book. Here's my review:

Changing from 3.5 stars to 3.75

Feels similar to the Time Traveler's Wife but definitely a lighter and happier read. I enjoyed most of it but I had issues with the characters, specifically Anna. Towards the end of the first book I realized that she's not very empathetic to the situation of other people. She's almost always concerned about having what she wants. I hated how she asked Bennett to do a day-over like she didn't care about Bennett's reasons/explanations for not wanting to do it in the first place. I don't know, she just seemed like a selfish person to me. I didn't like how Emma said that she's a strong person because she didn't seem like that to me at all. Also, I just realized that the characters are a little shallow. They didn't really have distinct personalities. I'm not even sure how Anna and Bennett's relationship started, there didn't seem to be any foundation. I like the premise itself, and the writing style is so easy to read and be absorbed into.

Now I know why I haven't met my soulmate yet. He's stuck in another timeline ;)

When I picked this book up on one of my many trips to the bookstore, I just immediately knew I had to buy it. I had never heard of the author, but the story sounded so intriguing and the cover was awesome.

OMG. I don't even know where to start. This book was intense. It kept me guessing and wondering what the hell was going to happen next. I mean, just look at the premise of the book. Boy and girl fall in love. Boy is from 2012. Girl is from 1995. It can't possibly have a good ending, can it? That's what I was constantly thinking throughout the entire book. I had so many theories and so many possibilities of how it was going to end. But I ultimately had one general prediction. And I ended up being completely wrong, which I LOVE. It will definitely keep you guessing!

Oh the romance. It got me good :) ...I haven't been in the best romantic mood because I am pretty much done with my own romantic life, so I've been a little cynical, which SUCKS because I'm a hopeless romantic at heart (I have the chinese symbols for true love tattooed on me!). HOWEVER, this book reminded me of how much I love love. I mean, come on. It's like the ultimate love story. Not only is distance keeping these two people apart, but time is as well. They were never supposed to meet, but somehow, they belong together. There aren't even enough words to describe how much I love this idea.

You know how you read a book, and you wonder what the other main character's viewpoint is? Well, this book gives it to you. The first half is in Anna's point of view, and the second half is in Bennett's point of view. Once I realized this, I immediately thought: we know what it's like to be the one who is left behind, but now we get to see what it's like to be the one who leaves. Brilliant idea on the author's part.

There is also a life lesson that can be taken away from this book. There are consequences to your actions, and there can be huge impacts on your life and other people's lives because of the decisions you make. That is obvious if you are a time traveler, but this is also true in non-time-travel-type situations. It definitely made me think about decisions I have been making, which I honestly really appreciate. I needed that.

So, what did I think overall? I think Tamara Ireland Stone is an amazing writer. I am so happy I picked up this book, and I am so grateful that she wrote it (and combined both books into one! Awesome by the way!). I just loved the plot so much. No unnecessary drama. Everything was believable, which is crazy because we're talking about time traveling! There wasn't a moment where I thought, omg this is ridiculous. The entire story was practically perfect. My only complaint is that I want more! I want to know what else happens to my two new favorite people. One could argue that it ended perfectly and needs no more explanation, but I

can't help but wonder. I guess that proves that this book and this author are incredible :)

#### MY FAVORITE QUOTES:

Bennett: So, what are you doing tomorrow?

Anna: Tomorrow night?

Bennett: No. Tomorrow. All Day. Unless that's too much of me?"

(OMG. This was so cute! Put the biggest smile on my face!)

"I don't think I can go back to a life without you."

(This is just one of many quotes that gave me all the feels. LOVE this.)

"So many people take proximity for granted. We just want to be in the same place at the same time."

(So heartbreaking, but I absolutely love it. Perfect quote here.)

I already own both of these books, but I need to own this book solely because of that AMAZING cover.

#### **Reyna says**

When I found this book it really caught my attention. I loved everything about it. There are a few things though that weren't quite clear. The ending was really confusing for me. If anyone would like to explain it to me so I can understand it better I'd really appreciate it.

#### **Kaleena Brown says**

I was definitely not expecting that ending!! Took me forever to read, but everytime I picked this book back up again I was glued. I would definitely read these books again! I love how each book was in a different

characters perspective :) !!

### **Willow says**

These books were the perfect pair to begin the school year with. Especially when I have no time to read and school is stressful and it gives me a break/outlet from my own life. I fell in love with Every Last Word by Tamara Ireland Stone and I'm so glad that I decided to buy her other book(s) - it's confusing when the entire series was put together into one single book - because ahh they remind me why I love to read.

### **Ambria May says**

I am going to do two reviews for this book and split them up because this book is a collection of two. so i figure why not review both.
