## All Messed Up Kelly Jamieson

If he's a mistake, she's ready to make him her favorite mistake.

Mallory Hurst has tried to live a life that makes up for past mistakes. But now she faces a huge ethical dilemma. Her pharmaceutical company's unapproved, off-label use of a medication puts lives at risk, and her protests have fallen on deaf ears.

Hoping a trip home will clear her head, she boards a plane for California. And strikes up a conversation with a handsome stranger.

Joe Mason recently learned that the man he's called father all his life... isn't. At least that explains why he never measured up to his older brothers. Flying to meet his biological father for the first time, he meets a sleek, sexy woman who makes him want to mess up her perfect hair.

Shared conversation leads to a shared drink between flights, then when their flight is canceled, a shared bed overnight—where their rush of attraction explodes into a night of much-needed kinky fun.

Yet a night of hot, messy sex won't fix anything—in fact, blowing off steam could have blown their lives all to hell...

*Warning: Contains a hot cop, a neat and tidy executive, dirty talk, kink in an airport, mile-high shenanigans, a little foot fetish fun. And love, of course.*

## Rebecca says

### KINKY FUCKERY

That's a favourite phrase of my partner in crime on this blog and couldn't be more appropriate than with this book! I have not read any Kelly Jamieson before but, as an opportunity came up for an arc, I thought why not? And oh lordy, kinky fuckery indeed!!

Mallory Hurst has tried to live a life that makes up for past mistakes. But now she faces a huge ethical dilemma. Her pharmaceutical company's unapproved, off-label use of a medication puts lives at risk, and her protests have fallen on deaf ears.

Hoping a trip home will clear her head, she boards a plane for California. And strikes up a conversation with a handsome stranger.

Joe Mason recently learned that the man he's called father all his life...isn't. At least that explains why he never measured up to his older brothers. Flying to meet his biological father for the first time, he meets a sleek, sexy woman who makes him want to mess up her perfect hair.

Shared conversation leads to a shared drink between flights, then when their flight is cancelled, a shared bed overnight — where their rush of attraction explodes into a night of much-needed kinky fun.

Yet a night of hot, messy sex won't fix anything — in fact, blowing off steam could have blown their lives all to hell...

Warning: Contains a hot cop, a neat and tidy executive, dirty talk, kink in an airport, mile-high shenanigans, a little foot fetish fun. And love, of course.

This was a quickie read for me, a fast fun fuck of a book! The story was just a little predictable but nicely written. Joe is gorgeous and hell yes, I'd join the mile high club with him. Mallory frustrated me at times because while some of her behaviour was understandable I suppose, I kept thinking "grow the fuck up woman" - but it's a page turner and at no point did I skip or get bored even when I wanted to slap her....

And so..... To the kinky fuckery. From the first scenes of intimacy and sex in the airport their chemistry is an amazing, combustible heat. The dirty talk will without doubt get you hot and bothered and I raised an eyebrow or two through this one at some shenanigans! Still not sure about the foot fetish but on the other hand (or foot!) for Joe, I might be persuaded!

I actually think this one will appeal to those who love contemporary romance and also those liking erotica romance that's not on the dark heavy side. An enjoyable quickie!

Overall Rating ~ 4.5 Stars

All Messed Up is the type of book that I wish would have never ended. I LOVED SO many things about this story.

Mallory, the heroine, was going to L.A. to see her parents. She needed a break from her job to do some serious thinking, because things were not going well at her work place. All she wants to be is a good daughter, one her parents could really be proud of. So, she books a flight to visit her parents to explain just what has been going on with her job and to get some much needed advice. Her job is VERY important to her but, at the moment it has her life, all messed up.

Joe, the hero, is on the same flight, he too is all messed up. He just found out the man who he thought was his father all his life, is in fact not his real father at all. He's on his way to L.A. to meet his real father, a man who has NO idea that he even fathered a child.

Mallory and Joe end up meeting when their flight has been delayed. It's not long afterwards when the sparks start flying between them. They end up having some very kinky foreplay while waiting in the airport for word on when their flight would take off. I'll tell you this, after reading that scene, I'll never think of an airport waiting area in quite the same way again. Things accelerate even more when the flight is canceled and they end up sharing a hotel room together. These two went at it all night long and let me tell you, they were so HOT together. I was ready to COMBUST after reading that scene! Yes, things happened rather quickly between them, but for me right from the get go, I could definitely feel the attraction they had for each other. They fit perfectly together on so many levels. This book is VERY erotic the whole way through and Joe and Mallory get down and dirty MANY TIMES, but only with each other.

What was supposed to be only a fling between them ended up being SO MUCH MORE! As the story moves along, they become friends that really care for each other. Joe opens up to Mallory about his childhood, and his back story was fantastic and tugged on my heartstrings BIG TIME. It took a while for Mallory to open up to Joe, but when she does, the problems with her job and her story was every bit as good as his.

I ABSOLUTELY LOVED JOE! He was strong, caring, protective, generous, and sexy, overall he was everything I want the hero in my romances to be.

I really liked Mallory too, but there were some moments when I wanted to reach inside the book and smack her upside the head. Thankfully she did straighten herself out and realized that Joe was the man for her.

In the end there was an epilogue that gave Joe and Mallory their HEA. Things were also wrapped up nicely for some of the secondary characters, but still left me wanting more.

All Messed Up is the second book in the Windy City Kink series and even though I did not read book one, Sweet Obsession, All Messed Up reads fine as a standalone. This was such a good read for me that I find myself really wanting to read Sweet Obsession too. I'm also excited that book three, Playing Dirty, is scheduled to release in January, 2015. This will be a MUST read for me.

If you find yourself in the mood for a REALLY HOT READ with a VERY GOOD STORY LINE, this would be the perfect book for you.

Slick's review posted on Guilty Pleasures Book Reviews

5 STARS

Review copy provided for an honest review

Holy freakin' hotness! I have always loved Kelly Jamieson's work but All Messed Up is the best work of her career. I'm having a hard time even articulating what I want to say about this book because it is just so damn awesome. A chance meeting, what is suppose to be a clandestine one night stand, two people who have no problem pushing each other's boundaries, and who can't stay away from one another no matter how hard they try makes this a book that is impossible to put down. I loved the intensity between this couple; the way they accepted each other baggage and all, how they knew when to listen and when to push, and the absolute need they had to be together even when it scared them. I am thoroughly in love with this couple and their story.

As an adult Mallory Hurst has tried to do the right thing including not disappointing her parents. A dilemma at work has her taking a week off to visit her parents in California to seek their advice. The last thing she expects is to meet a man in the airport; a man that will prove to be more than she ever expected.

Joe Mason's life has been turned upside down and he's headed to California to try and make some sense of it all. Getting stranded with a beautiful woman is something he ever expected and while he hopes they have time to explore the heat between them he's not sure it's a good idea. He soon finds out his first impression of her was way different than he expected.

From the beginning their attraction burned through the pages of this book and there is no doubt where they are headed. While they both figure their time together to be a one night stand, it quickly becomes evident it is so much more. I loved the way these two shared so much of their lives with the other; the way they confided their hurt, their fears, and their dreams. Yes this book was extremely sexual, yes they explored some "kink", and yes they had what some might call a backwards relationship but it didn't stop the fact that they formed a strong emotional connection as well.

If you are a Kelly Jamieson fan I have no doubt you will love this book and if you've never read her before I urge you to pick up this book; you will not be disappointed and will most likely want to slap yourself for not reading her sooner. Sexy yet amusing, emotional yet kinky...All Messed Up is an excellent addition to this series and this author's best work to date.

## **books are love says**

What is the most wonderful aspect of this book is that these two characters are not perfect. They have problems. Problems we can relate too. They have pasts. Pasts that they are trying to overcome. One overcompensates and forgets who she is and the other puts up walls to try to mask the pain he feels- he becomes emotionally closed off. Mal and Joe meet in a airport on their way to figure things out. Mal is trying to gain perspective on a problem at work and Joe trying to figure out his life in general. He now knows why his dad who raised him was how he was to him and is hoping that this new destination will accept him. Along the way they get stuck in Denver and have a amazingly sensual night together. They start to reach out to each other and become what they need for each other. They support each other in their own way and accept each other. When they get to their destination Mal at first treats Joe horribly and it does bring back feelings from childhood but he brushes it off. She is now in the i must please mode and trying to forget what her and Joe did. Joe is off to face what he hopes is a good thing. For him he is left feeling inadequate for someone again. This prompts him to call Mal and their time together on vacation begins. Together they face Joe's issues and try to tackle her problem while enjoying each other in body and in just fun. Joe is comfortable in his skin but feels as if he is not someone to be proud of and love, Mal just wants to please and not ruffle the waters. Joe in his own way helps Mal with her problem but helping try to find ways to solve it. She's in a rock and a hard place not only with the dilemma at work but with herself. When they get back into town, Joe wants to continue the relationship but Mal runs from it. Only when she runs she strikes out at Joe and says some awful things. And you wonder why he doesn't call or ask you for a chance. You brought back feelings from childhood. He let down his guard and opened up to you and you shut him down. Treated him like everyone else did. That is until Joe is in danger and she realizes what she let go of. She realizes she can be fun and let go and serious at the same time. Joe as a character is strong and flawed. He loves but has walls around that love to protect himself. He accepts who he is and embraces his life as a experience. With Mal he wants to experience everything and help her as well. He wants to be her support system and lover. Such a great way to write him. Mal is the one hanging on to herself by a tendril. She is losing herself to the new identity she has created. Created to please others and drown herself in guilt for her past. She can be kind and caring but also very cold. A book on two people who find one another and fall in love. Love that is supportive and beautiful. About finding yourself again and accepting who you are and who you are to be. A fun sensual book that will leave you with a smile on your face.

## **Becky Wise says**

This is one hot and sexy read. I love how Mallory and Joe meet and just have that instant connection. When they are together you find yourself just drawn in and fanning yourself over and over again. Joe is strong yet has this side of him that makes you want more. Mallory you can tell is trying to overcome things and figure out how to do the right thing. Together they just make so much sense. Even as Mallory thinks it is only a fling you can just tell it is so much more. I love that we still get a little bit of Sasha and Jack in this one too. I just have to say I wasn't expecting that kink when it came to Joe if you know what I mean. This is a fantastic steamy read.

---

## **Jody says**

Fans of erotica will find much to like in this read that is both familiar but with a touch of uniqueness in presenting its brand of kink. As the second installment in the Windy City Kink series it can easily stand on

its own but with its own brand of comfort reading you'll likely want to read the previous installment too. With its likable main characters and appealing group of secondary characters it's easy to get drawn into this erotic world where two people take time away from life's pressures for a bit of sexual relief that ultimately becomes more.

Mallory was once a wild child who has locked that side away, but when pressures at work mount she's left feeling like she's going to explode. On a trip home to relax though she encounters the super sexy Joe which leads to a travel layover like no other where he encourages her to indulge. What follows are numerous scorching encounters along with a bit of unique fetish that brings both of them closer together despite what they thought they wanted initially. Mallory is a smart and likable heroine dealing with a serious issue that is unfortunately wrapped up too easily. She prided herself on forcing her wild side into submission but it left her choking and it's no wonder she jumped at what Joe was offering. All of this left me cheering for her and Joe to admit what they had together.

Joe too is dealing with heavy issues which has left him very tense and on edge. He just found out that the man who raised him, and emotionally abused him, wasn't his real father. While traveling to meet his biological father he encounters Mallory and sparks immediately fly. To outsiders he may appear serious-minded and domineering but with Mallory he shows a softer side. For too long he's closed himself off wary of opening his heart as his past taught him. With Mallory though he can finally open up and their mutual exploration proves that. He's a delightfully sexy and supportive lover and their sexual interludes crackle.

This was an entertaining story with a good flow that nicely balances the steamy side with the serious. The main characters are likable and easy to relate to with a connection teeming with sexual tension. Joe's friends are equally likable and I found myself wanting to know more about them. All in all this was a sexy story with familiar elements that brought comfort and entertainment to my reading experience and I recommend this book to those wanting an immensely satisfying read.

---

### **Tara Peters says**

From the moment Joe and Mallory met at the airport they had a connection, but she was ruining from herself and her past. When their plane gets delayed, they find a very sexy way to spend their time. Realizing their is a deeper connection that he wants to explore, he only gets them one room when their flight gets canceled. She believes it will be one night, so she goes for it, even though it reminds her of her past.

The next day, when things get heated on the plane, they exchange numbers. One heartbreaking day, Joe calls and Mallory realizes there is more to Joe than she realized and that she is starting to care about him. She is trying to make better choices and trying to forget about a work problem. He is trying to forget why he went to California and the secret that ticked his life to the core.

When they get back to Chicago, will she be able to keep Joe away our will she finally realize that what she wants doesn't make her a bad person? Will Joe be able to get his life back on track? A great second book in the series.

---

### **Viper Spaulding says**

Love works best when it's all messed up!

Oh, what a wonderfully sweet, kinky story! Mallory is at a crossroads with her career and has some difficult decisions ahead. Joe's life has just been blown apart by a long-buried secret and he is struggling to find his way back. They meet, quite by accident, at the airport as they both journey to LA for answers.

What was supposed to be just a one-night fling turns into so much more as they each lean on the other for support and advice as they figure their way out of their current situations. Their romance finds them uniquely well-suited for each other, sharing kinky predilections and finding safety that they'd long given up hope for.

Unlike the other two stories in this series, this story's kink doesn't include Dom/sub or power exchange issues. They do explore the need for trust and communication as the backbone of any relationship. It's a fresh and thoroughly entertaining romance with characters you'll instantly fall in love with. I voluntarily reviewed an ARC of this book.

---

### **Christy Wilson says**

I have to say that I like the idea that a couple can meet somewhere like the airport and feel a chemistry that makes them want to see each other again. It was nice to read a book where things progressed as they should when a couple first meet. This couple had some extremely HOT sex initially, but hey - some relationships begin that way.

It was an easy read, as well as interesting. And did I mention HOT sex? Because this author knows how to write a sex scene that is so descriptive, you feel it in your lady parts. Big time feel it.

Anyway, I digress. Each of them has a dilemma that they are trying to deal with. The author doesn't drag anything out, and manages to make you curious about what each of them are dealing with, and how they manage the issues with the help of the other. On top of the...well, hot sex. Also accurately portrayed are all those feels you have after you meet someone that you are wildly attracted to, in all ways possible. How you want to know more about them. Help them. See them. Be with them. All in all, this was a great romantic read. It passed the Christy eye roll test (ask me if you don't know what this is, lol). Everything came across as believable.

---

### **Jackie Ziegler says**

Book 2 in the series but can be read as a stand alone

Mallory is traveling to LA to visit her parents and get away from the stress at work. Joe is traveling to LA to visit his Dad. Instant attraction is there and when the plane gets delayed and cancelled they decide to act on this attraction. While in LA they continue to spend time together and Joe is all in for this to continue back in Chicago but Mallory is not so sure. What will it take Joe to get her to realize this is more than physical?

---

### **Liz says**

If you are looking for a steamy read with all kinds of kinkiness, look no further than the Windy City Kink series by Kelly Jamieson. Let me warn you, you want to be reading somewhere privately! In All Messed Up,

we meet two characters at crossroads in their life who never expected the other!

Mallory takes pride in the work she does, however, she does not agree with a recent decision. She decides she needs a break and heads out to visit her parents in California. Joe is going to meet his biological father. They find themselves on the same flight and then stranded on their way. They enjoy each other, but can they truly open up to something new?

All Messed Up was so damn sexy and steamy. It was an emotional journey for both characters and I enjoyed reading their journey and look forward to reading more of this series!

Happy reading!

---

## **Victoria says**

**3.5 RATING-** All Messed Up started so good! I loved the instant chemistry between the two characters, the dynamics were great. And the sexy parts were well done. Kelly Jamieson always writes great steam and she didn't disappoint here. Nothing crazy dirty but just sexy. Worth a mention, I'm not sure if I'd classify the hero as having a foot fetish, but there was some definite foot hanky panky going on and it was surprising hot. I'm not sure I would think the same thing if another writer tried to pull that off but the author really nails it.

Unfortunately, the female lead hit on one of my major pet peeves: she had major mommy and daddy issues. Urgh!! I get why she had some problems, I totally do. But for God's sake, when you get to be a certain age, do what the fuck you want! I know maybe it's unfair but I have zero tolerance for grown adults who cave to their parents, are filled with self doubt over all their decisions, yada yada yada. Give me a break! I really struggled with this part of the plot while reading this one. I'm sure most readers won't mind but I did.

The first half was stronger for me because of what I mentioned above but overall it was still an enjoyable read. I'm surprised that more of my friends haven't read this series, they are all worth a look! Book three was my favorite by far. I definitely want to go back and read more from this author. I just find her writing very readable and her romances very sexy.

---

## **Book Hangover Page says**

Kelly Jamieson can write one hell of a love story! Joe and Mallory's story was written with the careful ease of a seasoned author.

In this very 'messed' up story you are introduced to a very anxious and stressed out Mallory, who is on her way to visit her parents because she is on the verge of a nervous break down. She never imagined that she was going to run into a very charming Alpha male! Joe is your very swoon-worthy Chicago Swat team police officer. Charming, good looks, and just a little adventurous \*\*wink\*\* wink\*\*

The title of the books lives up to the plot line in the book and the developing story flows just as smoothly as the character development does.

You can't help but fall in love with both of these characters as their love story unfolds and they work their way through the "mess" that they have both been dealing with.

I can't wait to see what else is in line for this series! Great job Kelly Jamieson!

---

## **Gladys says**

This entertaining book offers reader an engaging plot, steamy scenes, drama and plenty of emotional turmoil for it's characters. I liked Joe and Mallory. Their chemistry sizzled and it was very easy to sympathize with the dilemmas they were dealing with emotionally. A very good read. This is my honest, voluntary review.

---

## **Downward dog says**

This is the second book in Kelly Jamieson's Windy City Kink series. It is an engaging, sexy story filled with passion and emotion and the characters are down to earth and easy to connect with.

This story is about Joe and Mallory, who meet by chance in the Chicago airport.

Joe is a policeman and he loves his job because he wants to help others. Mallory is a senior marketing manager for a pharmaceutical company. She works hard at her job and wants to make her parents proud of her.

Joe and Mallory meet at the perfect time and they are able to help each other deal with their issues. They are caring, passionate people and are good for each and make a great couple.

---
