Corner Office Aria Grace

An M/M Mystery

Jay Maxwell has always suspected foul play was involved in the plane crash that killed his husband. When his house is ransacked, he retains the services of Real Answers Investigations to help him figure out if he's also in danger.

Doug Anson wants Jay to not only find closure for his husbands death but to be safe. He feels a certain pull to the sexy coffee shop owner with bright blue eyes and a mile-wide smile that he hasn't felt in a long time. He shouldn't let his feelings get in the way of his work but he can't just walk away from Jay when it's all said and done.

Suze says

A quick pacey read.

I liked the idea of the murder mystery - Jay's husband dying in a plane accident and then the house being ransacked.

I do think a longer treatment would have benefitted both the development of the mystery and the personal stories of Jay and Doug.

The ending was a bit quickly wrapped up so some story lines were left hanging, hopefully they will be picked up in book 2. I will probably read book 2 to see how the series may develop but I would prefer more depth to the mystery element in a series such as this.

Chris, the Dalek King says

It was pretty good till the end, where the whole mystery kinda collapsed in onto itself and imploded.

Anke says

Just finished and totally disappointed. Yap. Sadly. I'm a fan of this author and was really looking forward to reading this book, but it was totally harebrained. The story was told in an engaging way, so I read it in record time, only the whole solution to the 'mystery' - well, let me just say, plot-holes all over. And what happened to Ethan? And his pursuing of Jay? Where was the romance that supposedly developed between Jay and Doug??? The whole thing went down within a few pages, wrapped up nicely but without any context. So, I turned the final page, sitting there with a big question mark in my head and have to say - reading another book of this? Nope, thanks.

So, the only rating I can give this is 1* - did not like it.

Sorry book!

Lucrecia says

Corner Office: A Real Answers Investigations Mystery

Not much to say. Nothing special about this story... kinda feel like I forgot all about it after just having read it just now.

A one-off for me.

Keep reading ?

Charles says

I love Aria Grace's work and her first stab at a mystery (no pun intended haha) was a fun read. I kept trying to figure out the clues and took several guesses at "who" and "why"! The romance blended into the story was fun to read and I loved the flirtation between Jay and Doug. I can't wait for the next book to see where their romance may go and see what little mystery Aria cooks up for us next!

Brenda Sharp says

Loved this new series.

Andrea says

KU

Basic premise was great but the story was weak, not credible and kept wandering. Also didn't care for the character development.

Emma Jaye says

Jay's husband was killed in a plane crash, the authorities concluded it was an accident. Jay wasn't so sure, and when his home is ransacked, he employs private detective Doug to help. The feeling between them are tentative, but they grow the more time they spend together during the investigation. A cosy m/m mystery with a romantic undercurrent I found intriguing and engaging.

Leslie says

More like the outline to a book than an actual novel; it has potential but needs to be flushed out a bit.

DeeNeez says

[The only action was between Jay and another friend. (hide sp

jules0623 says

Too many side characters to keep track of on the mystery side of things and little chemistry between the MCs (one of whom was banging his best mate through most of the story). Hate where the author chose to end this. The romance could have been taken a little further and given those who don't wish to read on a sense of

closure to the story. But I guess then people might not buy the second book, right? :/

Star says

Good

It was a short read. Jay is a widow who still feels like there are unanswered questions about the death of his husband. Someone breaks into his house. He hires Doug to look into it. It was really rushed so the climax in the book just kinda fizzled. It was still a good read just not as mysterious as you would think.

Linda Bran says

Good story, nice mystery, lots of tense romance..... ahhh all the makings of an awesome book. Can't wait to finish the series, Got the next in the series "Soy Latte?" today and will read before I sleep.

BWT (Belen) says

What can I say? I was enjoying the narration immensely until the narrator began mixing up the character voices. He'd use one voice for Jay when it was Jay's POV with a different kind of gravelly voice for Doug, but then switch them when the character's POV changed. VERY DISTRACTING. Other than that major complaint the narration was quite good.

The story was kind of the same way - it started off very entertaining, but then when it came time to tie up the mystery it went off the rails quite a bit and wrapped up in a too-easy-and-kind-of Scooby Doo mystery way. I was just waiting for them to rip off his mask and be all, "If it weren't for you meddling kids!" (That doesn't happen, more's the pity.)

Bottom Line: The narration was entertaining but there is not enough substance in the story to recommend it.

Nic says

This was a fairly short book that was focused on trying to solve the murder of Jay's husband. It was really lacking on the development of Jay's and Doug's relationship. It appeared hurried as if the author skipped a few months. I felt lost as I was reading certain parts because all of a sudden Jay and Doug are fighting an attraction to each other including Doug being jealous of Jay spending time with another friend- - seriously

how did we get here??!
