Deadly Secrets Nina D'Angelo

After surviving a copycat killer, whose sole intent was to make her his one claim to fame, Stephanie Carovella just wants to leave the past behind her and move on. But how do you escape the past when everything you thought you knew about it has been turned upside down? As she finds herself one step closer to discovering why her parents were really murdered, she is drawn into a deadly game with an old enemy. Stephanie must use all her wits to stay alive, as a web of deceit is spun, lies are told and one final act of betrayal is played out. That's the thing about secrets. They can break hearts and they can be deadly. And, before it's all over, hearts will be broken, someone will die and nothing will ever be the same for Stephanie Carovella again.
