**Faux Pas** Natasha Madison

*A vacation fling wasn't what she was looking for, or was it?*

Six days in Paris, that was the plan. Keep my head down, do my duty, and then I'd go back to my vineyard. It was smooth sailing until she came into the restaurant and sent back my newest full-bodied, savory creation.

I ignored her until she stormed out of the restaurant looking for a taxi at one in the morning. The gentleman I was, I couldn't leave her wandering around the streets of Paris, could I?

I'd give her a ride, make sure she was safe, and it would be done. Except it wasn't.

Something about her pulled at me. With one drunken moment and a simple question, everything went haywire.

This could be the vacation fling of a lifetime. After all, there is no real reason for her to know my life story and all my secrets.

I'm France's most eligible bachelor.

This 'faux pair' is almost a faux pas...

**Shayna says**

*“Chérie, it’s me and you. It’s always just me and you.”*

**Faux Pas** by Natasha Madison is a beautiful toe curling romance that left me swooning for days! Meghan and Alex were simply MAGIC on the pages! It was supposed to be an amazing vacation with friends from a wine-induced night of decision making, but it turned out to be a journey towards a happily ever after that Meghan will never forget. That YOU will never forget.

A gorgeous French hunk with a mouth that will bring you to your knees. A beautiful spitfire Canadian that holds nothing back. Together, these two set the pages on FIRE! Their sexy, swoony, and oh so romantic love story left me with the biggest smile on my face. Faux Pas was light-hearted, fast-paced, dreamy, and ridiculously charming! I never wanted their story to end! There was amazing banter, incredible chemistry, and enough exciting adventure that will have you booking your next vacation to Paris ASAP! Happy reading because this book right here is sure to transport you to your happy place in no time at all!

**Jenny••Steamy Reads Blog•• says**

I have wanted to read this author for a really long time, even have some of her books patiently waiting to be read on my kindle. So finally, I got to read her and hot damn I am really liking what I got in this read and can’t wait to read more by her.

We start off with getting to know Meghan, she’s flown to Paris to enjoy a impromptu trip with her best friends to relax and enjoy themselves, see the many sites of beautiful Paris. Little did she know by sending back and declining a bad bottle of wine in a top restaurant in France would she be meeting France’s most eligible bachelor. And never did she imagine she would be falling head over heels for this man.

Alex and Meghan fight off their attraction. But their chemistry is too strong, their attraction impossible to deny. There’s secrets hidden and not told that eventually come out and crush this amazing new couple. So how will this couple fair the lies and the impossible distance?

I enjoyed this story, it was sweet and I definitely look forward to more from this new to me author!!! Recommend this book for those of you looking for sexy French men, sweet love, and the relationship that makes you ewww and ahhhh ??

## Emma says

Dnf

It was ok until she asked him why he hates her, and of course he answered her with a kiss. that's not the reason I didn't like it, I didn't like it because it was the book anyone can write.

---

## Leo (Queen of the Rants and the Crazy) says

Dnfed @ 27%

The author has racially profiled an entire nation based on what information we don't yet know, however, the information were untrue. She has used demeaning and derogatory terms for the French people and was downright racist. On top that she was extremely racist towards the "Albanians", her word, not mine. The information she has given about France is also incorrect. I have people verifying those information for me. So she has portrayed a country and nation under bad light throughout her book with the information which can be deemed false.

I personally would like to know where she has gotten her research material from. I'm hoping it's not the movie "taken". Despite Liam Nelson's brilliant screen presence, one has to remember, that is a fictional work, produced in Hollywood and cannot be used as a reference material.

All the talk of the "snotty French", is this Natasha's personal experience during her visit in France? If so, she probably should put a disclaimer and a bold one that comes to everyone's attention BEFORE reading the book not 27% after.

"The Albanian" May be a kidnapper? Did she not read what she wrote, did the editor not read what she wrote and did the numerous reviewer before me not read what she wrote? How is this not racist? And since when is it cool to be racist?

Has this been about a judgemental sheltered conservative white female? Well, in that case, if you haven't started redeeming her by 27%, it is a too little too late.

People would invariably bitch and moan about people being too politically correct this days, and no fun. To those people, political correctness is not fun policing. It's telling you that most of the others around you is not finding it funny when you make your joke in expense of the others. When you joke about the French l, and then say no disrespect, ummm...if you have to reassure no disrespect it usually means whatever you said sounded disrespectful so whether you meant it or not is now moot, and it's open to interpretation to the one it aimed at. Political correctness is not making things too prim, it's just telling you, you can no longer get away with being disrespectful in the name of fun. Political correctness is respectful.

~An ARC Was Kindly Provided In Exchange For An Honest Review~

I really enjoyed reading Faux Pas. It encapsulated a few things I loVe LoVe loVe: Paris, the French culture, food and did I mention Paris?

This is my first Natasha Madison book and I really enjoyed the way she writes.

Faux Pas takes you into a whirlwind journey of gastronomical adventures of food, wine and more wine, whispers of sweet declaration by a frenchman (absolutely nothing wrong with it hahaha), friendship and love (what more can you expect from the city of love, right?)

Faux Pas is truly an enjoyable read. Loved it!

---

## **Darlene Avery says**

Faux Pas by Natasha Madison is outstanding!!!

I went in completely blind, without even reading the blurb, and I'm so glad I did.

This storyline was so refreshing, fun, and full of adventure.

Madison makes you feel as though you are actually in Paris, as she sets the stage and brings the storyline and characters to life.

I absolutely love Meghan and her two besties Kate & Diana. They will have you laughing out loud.

Throw in the hot as sin Alex and his sassy sister, and you have an in-depth story with all the feels.

Be prepared for your jaw to drop and your heart to melt!

5 YOLO Stars!!!

---

## **Tracy- OMGReads says**

Full of swoony moments, Faux Pas is crazy good. I found the beginning to be a little slow, but was quickly pulled into Meghan and Alex's story.

The two are rich with chemistry, from the moment they meet. They fit each other so well, and while their story isn't without obstacles, it's refreshing. The characters are witty and fun, and each uniquely flawed.

Overall, Faux Pas is a must read from me. I couldn't get enough of the story, I want to be whisked away to Paris. Faux Pas is sweet, spicy and a joy to get lost in.

\*4.5 Star Review\*

### **Heather andrews says**

Alex is a demanding one, "I just got added to the list," I tell her. "You can do what you want during the day, but at night, you come back with me." I really loved the chemistry between Alex and Meghan, "those pants make me want to do very dirty things to you," I whisper in her ear, and she wiggles her ass back on my \*\*\*k." I really liked this book, I loved Alex.

5 Stars!

As soon as Natasha Madison stepped onto the writing scene as an author, I knew she was going to be very special. The ease of her words and the addicting quality in her characters... I had no doubt she would be big. And since her first book, she gets better and better, releasing yet another new favorite of mine.

Faux Pas is her latest standalone contemporary romance and y'all holy wow! This book was everything. Sexy. Sweet. Fun. Laugh out loud. The best group of friends and one couple you will never forget. I laughed, I swooned, I even cried a bit when the emotions got thick... I loved loved loved this book a lot and it's one I won't soon be forgetting.

She's on a vacation. He's British royalty. From the moment they meet, nothing will ever be the same. The draw between them is just too magnetic and the fire between them continues to burn brighter... Yet they live countries apart with established lives. But in the game of love.... anything can happen and for these two, forever is just the beginning.

Meghan and Alex lit up my kindle the moment they met. Sparks flew and I instantly knew this journey was going to be full of sexiness, sassiness, and a whole lot of heart and fire ..... and boy I was not wrong at all y'all. The chemistry between them was so undeniable, electric, suffocating in the best ways and the moments they shared were so very unforgettable every single time!

Natasha is a new go to author for me and now I crave her words so hard... I can't wait for her next.

I highly recommend this book.

### **AJ says**

4 stars!

I loved this book. A fun, sexy, gorgeously romantic book with a love story that completely captured my heart!

Meghan and her two best friends are on an impulsive trip to Paris for five days, excited to explore, see the sights, and party it up in the city of light. They are doing just that at a restaurant one night when they encounter a rude waiter and bad wine, and they complain to the Manager. He is clearly not happy, but when the girls are stumbling along the street looking for a taxi, he seems concerned for their safety and offers them a ride home. And then he continues showing up... everywhere.

Alex is a wealthy businessman whose family owns multiple successful restaurants across Paris. He's only in the city for a short while and is keen to get back to his family's vineyards, but there's something about the feisty Canadian tourist that captivates him and he is unable to stay away. Meghan is equally attracted to the gorgeous, if rude, Frenchman and the chemistry between them simmers through multiple meetings and nights out until it all becomes irresistible and they throw themselves into a holiday fling that rocks both of their worlds.

Ho.ly. hell. This book is SO freaking sexy! Alex and Meghan are wild for each other and they both have a dirty streak, and the sex is hot, intense and a little bit filthy, and just... wow. They literally can't get enough of each other, and when the time comes for Meghan's holiday to come to an end, neither of them are ready to let go.

*"This," I say, gesturing back and forth between us. "This isn't just a fucking fling anymore," I say, putting my hands on my waist. "I want this all the time."*

But Alex has a secret, and it's a huge game changer. How will these long-distance lovers cope with being on different continents, especially once Meghan learns the truth about his status as Paris' most eligible bachelor... and all of the baggage that comes with it?

I freaking loved this romance. It's natural, functional and beautifully intense with no game playing or stupid behaviour, and so many feels! Yes, they're not always perfect, but their relationship is realistic (for romanceland, anyway) and their actions are understandable, I could feel everything happening between them, and I loved watching them follow their hearts and figure it all out.

Alex, in particular, rocked my world as the smitten man in love. Just, wow. He's hot, he's sexy, he's romantic and super swoony and I fell madly for him!

*"I fall in love with you more and more everyday. Your laugh, your smile, even when you get angry and tell me to fuck off. I don't know what tomorrow will bring, I don't know anything, but one thing I do know is that wherever this life leads me, I can't do it without you at my side."*

\*dreamy sigh\*

I did find that parts of the book seemed a bit rushed. It was fast moving, jumping from scene to scene really quickly, and I admit I wasn't immediately invested in the story. It wasn't until the love story really ramped up that I started to feel it, and wow, did I feel it!

And another thing - I didn't understand the need to put all of the French dialogue in, especially when it's immediately followed up by an English translation, which I appreciated, but it's sometimes thrown into the middle of a conversation that up until that point has been all in English. Why? Of course I just skimmed it looking straight for the translation, but it did break into the flow of the story a little bit.

So yes, I did have some issues with this one, but those are so easily overlooked because the love story is just so damn gorgeous, and I couldn't get enough of Alex and Meghan together.

The book ends in a great place, with a gorgeous epilogue that finishes the story off beautifully, and I finished this one with a huge grin on my face.

4 stars.

## **Dee Montoya says**

### **FOUR *Paris* STARS \*\*\*\*\***

Natasha Madison is taking us to Paris!!! We go to the city of lights, to experience the romance, the beautiful architecture, the delicious wines, and macaroons. This delightful novel will be like taking that amazing vacation you've been waiting for...

Meghan and her two best girlfriends are going to Paris for a one week vacation. One night they were drinking wine and having fun when they decided to take a trip to the most romantic city in the world.

When they get there, they have their whole itinerary planned. Beautiful restaurants, breathtaking views, and a lot of fun await them. But not everything will be as they expected. One night at a restaurant, a really rude waiter and a bad bottle of wine will cause Meghan to meet a mysterious Frenchman that will make her trip something that she will never forget.

My favorite thing about this novel has to be Meghan. Her character is strong, sassy and unapologetic. Meghan knows what she wants, what she's worth, and won't settle for less. She's also funny, her friends too. There's just something so awesome about strong female characters in a novel. It also didn't hurt that Alex was not only French, brooding, and incredibly sexy. The chemistry between the main characters was super, red-hot!!!!

Like I said at the beginning of my review, reading *Faux Pas* felt like a fun, beautiful and romantic vacation to Paris. Truly Magnifique!!!

## **Yamina -Women Who Stare at Books says**

What can I say apart from MERCI Natasha Madison!!

I am a French citizen who lives abroad and I am so happy that your words took me back to Paris, my favourite city, my hometown , for a few hours.

You nailed it- I could name the restaurant with the beautiful view on the Eiffel Tower and I love it there despite the waitress who never smiles LOL.

The story was romantic and an easy read that put a smile on my face. I could feel that the author has put a lot of efforts in researching Paris but also has clearly shared her experience. Le Père Lachaise, the lockpad bridge, LA DURÉE...

Alex and Meghan was a fairy tale that was set in the city of love and will make you want to buy a plane ticket to go to Paris!

The banter and the relationship of Meghan and her girlfriends made me laugh so hard- they had no filters and I loved that.

Merci beaucoup!

## **perksofabookblogger says**

I just read Faux Pas. Natasha Madison is a genius.

I have 5 exams next week. I should be studying and I started a new job. A job where I really do not understand anything. My life keeps rushing and rushing. There's no break. I am busy - I have no time! But I took my time for this book. And it was worth every second of it. It was my break... my desolation and my biggest salvation.

I loved every single book, that Natasha has ever written. She's just it. Easily my favorite author. She is the only author that can keep me from drowning. Her books, the characters, and the storylines make it so easy for you to stand still and take a break.

And this book is no different. This book is about Alex and Meghan. Two completely different people from two completely different worlds. I had my thoughts about this book, because look - he's French, and after being forced to study French for years and years and still being incapable of even understanding it... I have my difficulties with french xD But this book - dude, it made me love français.

As I said, this book is about Alex and Meghan. It is fun, hardcore sexy, and leaves you behind smiling.

Meghan and two best friends book, after a few too many bottles of wine, a trip to Paris. They have fun - yadda yadda yadda - and one night on their one week stay, something really XXX happens and they meet Alexandre Deville. And the story goes on. Funny things happen. Shocking things happen. Juicy things happen, dirty things too but obviously as we're in Paris... The city of LOVE. The scenes will make your toes

curl and your heart combust.

NOW please read the blurb:

I think ... the blurb is really reason enough to start reading this book.

Stop learning! Stop having sex! Stop fighting! Stop eating! Stop taking a shit! Stop feeding your children (your husband can do that)! STOP EVERYTHING- and GRAB THIS BOOK! Before you even know... you'll be finished and the only thing you want is to erase your mind, only to read it again.

That's all I have to say.

Enjoy,

xoxo - Nisha

Who should you read it?:

Everyone looking for an easy romantic story, which will make your day.. hell even your year.

My Rate:

6 out of 5

Very short excerpt, because I love to torture people: (Please don't sue me... I seriously don't know, if I'm even allowed to do this. I haven't been in love, lol. I can't go to jail, without loving first.)

“Why do you hate me?” I hear from next to me and see it’s Meghan. She stands on the top step next to me, so close I can smell strawberries. The lights go off and then flick on again, and I can see the twinkle in her green eyes. “So are you going to tell me?” she says, coming closer. “Why do you hate me?” she says and then smiles, and it reaches her eyes, making them even brighter, and then I finally snap.

---

## **Jamie Guellar says**

Every time I hear Natasha Madison is coming out with a new book I get so excited, when she does I know I'm in for a treat! Loved Faux Pas!

Love Alex and Meghan's story, it was fun, sexy and had me laughing out loud and possibly had me tear up a time or two.

Meghan and her two besties book a trip to Paris after one to many glasses of wine. You only live once right?

Alex is France's most eligible bachelor, but she doesn't need to know that. Right?

The sparks flew the minute these two met. And omg Meghan and her sass! Loved it! And Alex, sexy as hell and so damn charming!

Loved this story and these characters, definitely a story that will keep glued to your kindle!

Another wonderful story from an amazing author! Definitely one click worthy!

---

## **Carla Bulian says**

Que delicia de livro! Um romance tão bem escrito e maduro. Adoro essa autora.

---
