## **Handcuffs and Trouble Kim Dare**

As the newest constable in the station, Trent Rawlings isn't entirely surprised to find himself being hazed by the other cops. Determined not to make any more of a fool of himself than is absolutely necessary, he's merely biding his time and going through the motions until he gets to the punch line. It has to be a hazing. If it's not, he's in real trouble.

Kieran Osmond doesn't know what the hell the little fool thinks he's doing, stumbling into the middle of an undercover operation. All Kieran knows is that he has to rescue the younger man before he gets them both killed. Luckily for them both, Trent seems to be good at obeying orders and following a more dominant man's lead. He may even be too good at it for Kieran's peace of mind.

Maybe Trent isn't the only man who's in trouble...

## From Reader Review Handcuffs and Trouble for online ebook

### ? BookAddict ↗ La Crimson Femme says

This is my second Ms. Dare book. This is a short and sweet smexy story. I love reading about cops. I wasn't sure how the m/m would work with cops. As it turns out, it worked out well for me. The story wasn't so much about cops but more about a virgin cop being topped by a more experienced cop. There wasn't much development in the story and the interaction between Trent and Kieran went pretty much straight into D/s. I still enjoyed it and now want to read the entire series. Recommended for those who like hot sexy men getting it on so they can use it for their self pleasuring.

---

### Cherie Noel says

I did like this one, and must agree with the other reader who said this was probably the best of the series...unless of course, Kim writes another in the series!

---

### Mandi says

I always enjoy Kim Dare's writing and this was no exception. It's hard to choose, but I think the Rawlings series have to be my favorite.

Though, as usual, I wished for it to be a bit longer!

---

### Monica says

I'm finished with Handcuffs and Trouble: Very good story, probably the best in the series. That's saying something since the Rawlings series is great. I wish it was longer.

---

### Gerald Sessions says

#### Mistaken identity

Tent Rawlings went under cover without a briefing because the Sargent thought he was Ed. He survived the assignment and found the right domm for his submissive nature

---

### Kimberly says

Detective Sergeant Kieran Osmond knows all the Rawlings men are trouble. He may be friends with them,

but he'd never be involved with one. Until Constable Trent Rawlings stumbles into Kieran's undercover op and nearly gets himself killed. As it turns out, Trent was mistaken for his cousin, an experienced undercover police officer and was sent blind into a mission that Trent believed was only a hazing. The debacle has unexpected – but not unpleasant – consequences when Kieran saves Trent. The Rawlings men may be trouble, but Trent seems to be exactly the type of trouble Kieran needs.

I've read almost all the Rawlings Men stories and Handcuffs and Trouble is my favorite so far! Trent is too sweet for words and his shy, slightly awkward nature when it comes to men and sex endeared him to me from the start. Quite simply, I adored him. Kieran, in turn, is experienced, confident, and surprisingly tender. I loved his fascination with Trent and I eagerly read Handcuffs and Trouble, wanting these two to get together.

Handcuffs and Trouble is the fourth installment of Kim Dare's Rawlings Men series, but it can be read as a standalone. However, readers who loved Handcuffs and Headlocks will delight in getting a brief glimpse of that story's hero, Ed Rawlings. All in all, Handcuffs and Trouble was a fantastically entertaining tale and I look forward to revisiting Trent and Kieran again in the near future.

### **Enny says**

I always buy Ms. Dare's books as soon as they get released. This one was much better than Handcuffs and Headlocks. I only wish it had been longer.

---

### **Interrupted Reader says**

Trent and Kieran. Very good story with unusual plot and great connection between characters. More emotional depth with this one.

B+, probably reread

---

### **Kari Gregg says**

Trent Rawlings is a rookie, mistakenly sent in place of Ed Rawlings to an undercover op where Kieran is forced to improvise to save the operation (not to mention both their lives) with a bit of hot D/s subterfuge.

Trent is adorable, Kieran is hot. An excellent addition to the series!

---

### **Nikyta \*Miss Forgetful\* says**

This is a great continuation of the Rawlings Men series. I liked the relationship between Kieran and Trent and how Kieran didn't exploit Trent's virgin submissiveness. He took control of it (in a good way) cradled it, smoothed it and loved it. Lol.

I loved the start of this book and how Kieran is forced to rescue him. How Kieran is willing to be the dominant to Trent's submissive but knows that even though Trent is a definite submissive, he's still a Rawlings. And Rawlings men are definite trouble. :D

---

### **Elisa Rolle says**

Handcuffs and Trouble is part of a novellas series, Handcuffs and Lace, that mixes BDSM, cops (or better constables) and pretty boys. I read the first in the series and now this is the fourth, and the above is the common trend I found.

In this novella, Trent is a rookie that is sent out to the “wolves”; not clear if it was intentional or if it was a mistake, the fact is that Trent is in a warehouse full of criminals his first day on the job. As a consequence, Ossy, an undercover cop, has to come to rescue him, and the only way he sees is to convince the criminals that Trent is his pet.

If the reader was wondering about Trent's willingness to play “gay” for the sake of the job, don't worry. Trent is gay and Ossy, that is also a family friend, knows that, so he is not forcing a 19 years old guy to do something he despises, but indeed he is forcing a virgin boy (virgin in all the meaning of the word) to face his sexual desires and urges.

Lucky Trent, Ossy is a good master, and apparently, he is also willing to play teacher and Dom, all at the same time. There is a bit of “fated” lovers here, Ossy is gay and he is a friend of Trent's family, an enlarged family where most of the men are cops: if they have to “give” their baby, Trent, to someone, at least they will do that to someone they know and trust, and Ossy will know that he cannot mess with Trent, otherwise he will have to face all the family.

Nice novella, good sex, and a cute character, Trent, who was really up-to the “pet” role, he really made me think to an eager puppy.

### **Gigi says**

Just re-read this book after a year and lowered my rating. I actually found this book kind of insulting. The 19 year old rookie police constable is treated rather horribly by his superior officer who then takes him home and fucks him. Not cool, not romantic. \*shrugs\*

---

### **Trio says**

This one was very sweet actually - again, as with each of the books in this series, I wish it was longer.

---

### **Serena Yates says**

This fourth story in the series takes a look at yet another type of D/s relationship: that of an experienced dom and a young man who is just beginning to figure out that he may be a submissive. Add a little bit of danger, since they're cops in an undercover situation, and you've got a very interesting, and extremely hot, mix of elements.

Trent is a rookie cop, who ends up almost exposing himself because his superiors don't adequately brief him (due to an error, as it turns out, but still). He tries to play along but is clearly out of his depth. All he knows is that his life depends on the older cop. His biggest fear is that he'll stop taking an interest in him once the case is solved. All he knows is that he wants more - of being told what to do and definitely more hot sex.

Kieran is a slightly cynical older cop who can't believe Trent came onto the case as unprepared as he does. He also can't believe how attracted he finds himself to the virginal submissive, not his normal 'type' at all.

I really liked this look at both of them, their slowly dawning realization that they may want more than working the case together, and how careful Kieran is of Trent - not just because he is inexperienced, but because he figures out he wants more from the younger man. Despite the lack of open emotions (which really wouldn't have fit with these two characters) I found myself involved an interested in how they'd get along.

---

### **Chris says**

Good kinky m/m romance about a rookie constable who thinks he must be getting hazed or something when he ends up in a dangerous dive bar with no idea who he's supposed to find. Good thing he's found first. :)
