A good short entertaining read that played out much like an episode of the show would. The story being written as a book had more time to develop the characters for the story and the story itself. I enjoyed reading, it was light quick and easy. As I read the book I imaged it out as an episode in my head. I would've liked to see some of these books being used as the script for episodes. It could work really well. The ending of the book was just bittersweet, but it not being cannon doesn't really matter, but still. I would consider Piper as the main character in this story.

I'm loving reading the Charmed series. This was another great installment in the series. I love the sisters and thought the author captured them great. Looking forward to reading more of these books. :)

I enjoyed this book in the same fashion I enjoy the series as a light-hearted guilty pleasure. The writing veers to the slightly cheesy "Fear not!" "The witches must be destroyed!" but then again so does the dialogue and on the show ;)

Fortunately the author also pokes fun of the cheesier aspects of the series with gems such as:

Bad guy: "You may address me as Master."

Piper: "Master of what? Hokey Halloween costumes?"

It's a fun read and very true to the series.

I love Charmed! This was a quick read that brought me back to the Charmed world. I wish they still sold new copies of these books as I am missing some from my collection.

I was a big fan of this book. There were some parts that I skimmed due to predictable battle scenes, but the overall plot of the story was really interesting. I loved the "infiltration" of the Charmed ones lives. This was an episode that I would have fallen in love with.

Alright so what to do if you want to rewatch your favourite series: Charmed. but you are already watching so much and also time is an issue here. Correct, you are going to try and read the entire bookseries this year. Since you haven't done that before.

I myself own a couple of the Charmed novels but my father has them all so it's a nice way to see him from time to time. Steal I mean borrow his books and read them all. Currently eleven extra on my shelf. Let's see how fast I can finish them, especially if school is over for me.

Pure, Piper & Phoebe are in danger. A secret coven are trying to destroy them by befriending them destroy them from the inside without them knowing. Little did they know that the people betraying them would mean so much to them.

Once again I loved this quick read! I love the adventures of Prue, Piper & Phoebe. Every book I love them more and more. Connection with the characters is easy and you really get drawn into the story. The pace of the story was fast and the story line was fun. I felt like I was watching the series while reading this book, you know exactly what you are going to get. Prue yearns for friendship, Phoebe yearns for love while Piper tries to be a mentor at a shelter.

Final Thoughts:

This was a great read. I haven't been disappointed yet!!

F. Goldsborough really captured the vibes and feels of Charmed! Reading this made me feel like it could be an actual episode in the show!

I really liked this story and I think it was a fun one to read. It was intense and exciting from start to finish!

I love Prue, I just do. I know lots of people don't like her but I do and it is one of the reasons why I love the Charmed Classics books.

I love Piper a lot in this book, she is awesome and on one of her best moments I think. The story is enjoyable and exciting and one of my favorites of all the Charmed stories I have read up until now.

Marguerite Earhart says

I really liked this book. It started off a bit disturbing but as the story went on I almost couldn't put it down.

The Crimson spell is the third book in the line of Charmed books based on the show. It was slow at first, but it got better before the ending. F. Goldsborough wrote this book and I did enjoy it. I read it between 2004 and 2006, but not sure which year to be exact. I had forgotten how the book went so I took another stab at it.

The Charmed ones haven't been in the witch craft long in this book. However, Piper does have her night club P3 and Prue is still at Bucklands. That is a timeline reference for the book, which I think makes it set in season one maybe or season two.

The sisters are going about their lives not knowing that a coven of warlocks are after them. Phoebe is taking Karate classes and meets a nice guy, which she hits it off with. Piper is going to start mentoring a girl named Celeste, but turns into her mentoring two girls. The second girl is named Daria.

Her sisters don't think it is a good idea that she does this though. Piper is not going to have any of it though and does it anyway. Prue has met a person in the Wicca like them Adrienne that owns a shop. Prue is starting to trust a little more, but she still is second guessing things.

There is only one huge problem with the sisters' new friends. One or more of them is going to be bad news. It takes them a while to figure out something is off. Prue about gets ran over by a SUV. Phoebe has a premonition that has the opposite affect and Piper is almost killed by a falling shelf of can goods at P3. The one thing that is in common is the red ribbon they all find right before the accidents.

Their powers have been reversed, instead of helping them their powers are working against them. A trip to the Book of Shadows reveals a coven of warlocks that are called The Coven of the New Sun. They have been around for a long time and have tried for their ancestors powers before. The red ribbon is their calling card.

The sisters find themselves trapped at the end. The coven members are revealed and it is a shock to them. Two members bit the dust, one completely forgets about the coven and Celeste the girl Piper was trying to help gets a fresh start.

I felt bad for Prue and if you read you will understand why. Phoebe's ending was heart breaking as well. As she says in the end sometimes love hurts, especially if you're a witch.

When it comes to the book in the world of Charmed I am looking for fun, easy reads. Usually I find myself reading them on vacations mostly beach vacations. I have been a fan of Charmed since I was in middle school, it continues to this day to be one of my favorite shows. This book was a great addition to the world of Charmed. It was a unique story but still stayed true to the ways and themes of Charmed. I love visiting Piper, Phoebe, and Prue in books and this was a great story!

Toni says

Nice, easy, quick read.

Strange it took them while to figure out about red ribbons though...
