## Claimed by the Wolf Charlene Teglia

They guard humanity against supernatural threats from the five gateways into the world. The Shadow Guardians: a vampire, a werewolf, a demon, a dragon and a fae are united in brotherhood—and war.

Shadow Guardian Kenrick is an alpha werewolf forever in his prime. When Sybil, a beautiful apprentice witch, unknowingly opens a realm to the Otherworld, there is a sudden influx of demons—and it's up to Kenrick to help her stop them. Soon their passion flares and Kenrick desires Sybil as his mate. But to form their union, Sybil faces the ultimate test: She must bind herself to the Shadow Guardians by sharing herself with all five warriors.

### 0.5 STARS

I didn't like this book at all!!!! So disappointing. I was looking forward to reading something interesting when I picked this up but really it was gross!!! ;( So the main character, Sybil, she's a witch and she gets into some trouble with a dark book. That's where the five guardians of the gate come in. They are supposed to keep the book out of the hands of evil but didn't know where it was until now.

The dark book has a mind of it's own and buries all of it's dark spells and magic into Sybil. The guardians now have to watch out for her but the thing is she can't control the magic. But there is a way,.....she can become immortal like the guardians. In order to do that she needs to get the mark of the goddess for whom the guardians work for. So she says yes to the mark. Now wait for it.....to get the mark she has to have sex with all FIVE of the guardians. I mean can you say gross!

I understand some people might be into that but that is gross.! BLahhh! ;( I hated the ending. She loves all of them but she is *in* love with Kenrick the wolf. So, she ends up being his mate and his wife as well as being a junior wife to all the others!!!! WHAT THE FUCK! (mind my language but seriously....come on)!

This book was not at all romantic in any way and every single good fighting scene ends up with her having sex with one of the guys! I didn't like that at all. I mean where's the romance in that!? I am pissed as hell cause I really was looking forward to the book! What a waste of my money!

In my opinion, there was way too much sex for my liking (like every single page). Now don't get me wrong sure I like romance in my reading but not a freaking porno book! It was gross. I am just surprised I finished! Also, although some might think Sybil had to sleep with them, she was given a choice and could have said no! She acted like a slut and kept on repeating how much she hated it when in head she kept on saying she wanted more! PISSED, PISSED, PISSED!!!!!! I honestly don't think I will read any other book in the series, if ever one comes out.

**Beate says**

So. What do I think of this book then. Oh my. Where do I start?? I guess I'll start by saying it's pretty well written. No awkward grammar or sentence structures. Well, almost none. A book that is well written, no matter how dumb I think it is, automatically rates higher on my scale of 1 to 5.

Plot. Wow. I guess it can be discussed whether the plot is good or bad, or even there at all. Because this book is one huge orgy with a basic plot at the beginning to lead into the orgy, and a little bit of plot to wrap the story up nicely. Though, the book ends on the biggest orgy of them all, with six "people" in the bed. Yeah.

This book is just so cheesy with all the orgies, that I couldn't help but love it. The cheesiness that is. But rather than being plot driven, or having solid characters, it's all a huge multiple menage fantasy. You have a witch that hooks up for 24 hours each, with a wolf/shapeshifter, a dragon/shapeshifter, a demon, a vamp, and a fey. One on one is a given with everyone, but it is mixed up with threesomes and foursomes and

voyeurism/exhibitionism. You even get some tail (!) action in there. No joke.

All this orgy going on non-stop gets tiring after a while. It quickly goes from sexy to just plain weird. I had to skim through large chunks of all this porn. At times it was borderline bestiality. So a little bit of almost ick going on.

When I got about 4/5th through the book, I was ready to flounce. But I wanted to see how the "plot" was wrapped up, so I powered through. Almost wish I hadn't. There wasn't much plot to speak of, and that final 6 person-orgy at the end was just...meh. Oh, and it's only the girl that gets all the attention here, no boy on boy action. At all. Not even any boy on boy flirting to break things up a little.

Apparently all this author writes is erotica, and having read *Claimed by the Wolf*, does not tempt to read anything else by this author. When it gets to be too much of a good thing, it becomes work to read it, and I read because I want to escape, to be entertained, without having to think too much about it. (If this last part made any sense to anyone but me, I'll be surprised. LOL)

### **? BookAddict ↗ La Crimson Femme says**

Ms. Teglia is new to me, recommended by one of the goodreads groups as April '11 BOM. I was a bit skeptical to read this book. I ended up enjoying it a lot. The narration was fun from Sybil's point of view. The five studly men she sleeps with turned me on. Each of the men had their unique sexual kink. While the premise of the story was rather weak and the characters weren't fully developed, I still enjoyed the sex scenes so much, I'm ranking it a 4 star. I'm even going to look for other books by this author.

### **Tigress (Warrior Elf) says**

Who knew that an erotic PNR wherein a witch must repeatedly have sex with five immortal warriors (a werewolf, a demon, a vampire, a sidhe, and a dragon-shifter) as part of a magic ritual to serve Inanna to save the world from demons could be so **BORING?** Just lots of thrusting and orgasming from barely a touch. Repeatedly. And it says something about how jaded I've become that the BDSM (or, I should say, "BDSM") scenes seemed so mild and, again, BORING. It's partially the way it's written--lots of sentences like "*His heated male flesh met soft feminine surrender*" (referring to genitalia) or "*Flesh mated*" (again, referring to genitalia). At least it was all consensual. And, for once in erotica, there wasn't anything all that offensive or horrifying or dehumanizing or rapey. Which shouldn't be saying a lot in this book's favor, but in this genre, it absolutely is. So I must tip my hat to the author for that. Although, I feel like this book is like, "Look at me! Look how kinky I am!" with all the shifter sex involving barbed members and tails, while I, the jaded romance reader, am just bored. If you haven't read any fantasy or sci-fi erotica, this would be a better place to start than most, since, as I said, it's mostly mild and inoffensive. Compared to what else is out there, anyway.

Anyway. Boring, completely unromantic, unintentionally hilarious softcore porn. And thus, I'll continue on

my seemingly impossible quest for decent erotica elsewhere.

### **Darcy says**

While I liked this book, I did have some problems with it. The first was Sybil's easy acceptance of her fate, sex with 5 men who are strangers and then to be tied to all of them for life. With each man getting to spend 24 hours with her, then to hand her off to the next, it made for the straight 100 or so pages of sex scenes make sense, but did give me pause. What woman could handle that, not be incredibly sore and able to walk, but I digress.

I really liked how each of the men were so different, from their species to their personalities. Each of them treated Sybil so different, but that was part of the fun.

I also expected the ending, the hints were very obvious.

I do look forward to reading more in this series, because even with my issues it was enjoyable to read.

### **~Vixhen~ says**

Sybil is a fledgling witch who happens upon a book that opens the gate to the shadow realms. Since the magic is far too strong for her to handle, she calls for the aid of the goddess, Inanna. In walks Kenric, a wolf shifter, who is one of the five Shadow Guardians. To save Sybil, he takes her back to Xanadu where Sybil is told that since she threw herself on the goddess's mercy, she will have to accept her mark and serve the goddess. Well, serving the goddess Inanna, who is a goddess of sex, means she has to have sex with each of the five guardians. Holy hell, and does she ever! There is Kadar, the dragon man; Abaran, the demon; Adrian, the vampire; and Ronan, a fae. This book totally blew my mind and gives new meaning to "share and share alike" - lol. There was so much sex and so many different combos of sex that I lost count (M/F/M, foursomes,etc ). If you are looking for a book with sex so hot, it will make you want take up residence in a walk-in freezer, this is the book for you. This is my second Charlene Teglia book and while it was over the top kinky, I did enjoy the story more than I did Wicked Hot .

---

### **Michelle, the Bookshelf Stalker Queen of the Undead says**

I was mentally exhausted while reading this book. There is a story in this book but the story is wrapped around Sybil having sex, lots and lots of sex with 5 beasts, I mean men over 5 days. Did I mention she has lots and lots of sex? After reading Animal Attraction by Teglia, I am starting to see a pattern here. Sex, lots of it, with lots of men over a very short period of time. Hmm... doesn't sound bad to me.

---

### **Donna says**

WTF?

No plot, no ... nothing, except sex, sex, sex. With 5 guys!

I have nothing against erotica, or porn (in this case), but don't sell it as some mate-bonding romance, please!

---

### **Jasmine King says**

This book was all about sex, sex and more sex.?

I would've given it a 4 star if there was more action and relationship development.

---

### **Shawna says**

3 ½ stars – Paranormal Romance/Erotica/Ménage/BDSM

Apprentice witch Sybil, frustrated and bored with being treated like a fledgling errand girl by her coven, goes looking for some action, buys a seemingly worthless, innocent book of magic at an estate sale, and inadvertently ends up opening a gate to the shadow realm that can unleash demons and possibly end the world. So what's a witch to do to make things right again and save humanity? How about submitting to a big ol' sex fest with five immortals who serve as the Shadow Guardians for the goddess Inanna in an elemental ritual that will unleash her power and bind her to their ancient brotherhood? Besides, how bad could it possibly be, living as a pampered, pleasured sexual plaything with five supernatural studs of varying, voracious sexual appetites?

This doesn't have much of a plot and there's minimal character development, but it does have loads of sex. Sybil and her quintet of paranormal paramours (a surly, brooding, tortured alpha werewolf, a flirtatious, jovial dragon with a tale that can do all kinds of kinky, naughty things, a devilishly sexy chaos demon with retractable black wings, a stoic two-thousand-year-old Roman centurion vampire, and an ethereal, elfin fae god with a proclivity for domination, bondage, and punishment) engage in a variety of sexual escapades and excesses: anal, voyeurism, exhibitionism, ménage, and mild BDSM play. Of course, even though she has to sexually submit to all five guardians (individually and together when requested), only one can ultimately claim Sybil as their mate, and you can probably guess from the book's title (no spoiler warning necessary here) which immortal warrior wins that coveted spot?

So if you're in the mood for an uncomplicated paranormal erotic romance that doesn't have much depth but does have plenty of steamy sex, then this story of a nympho witch 'getting it on' hot and heavy with five supernatural, immortal hunks might be a "good read" for you. 3 ½ stars.

---

### **Jamie says**

Okay read, very hot. Wish the story had been more in depth. I would buy the next in the series if it comes out hoping to get more story line. I liked the dragon.

---

### **Robin says**

This book was just not for me. I am ok with lots of sex and ok with shifter sex of all kinds what I am not really ok with is really no character development and I felt like I was reading an excerpt from play girl fantasies. Just not for me I need to like the characters I am reading about .

---

### **~\*~Princess Nhya~\*~ says**

WHEW!!! This one had me blushing basically through the entire book. The plot was simple, quite uncomplicated considering the dangers surrounding it. But the guardians are all HOT!!!!!!!!!! I must tip my hat to Sybil because I know I could not have handled all five of these guys on my best juggling days! LOL

The only reason I give this one 3 stars is because it just doesn't sit well with me if a man claims a woman for his mate, for him to be okay, more than okay, with his fellow Brothers sharing her equally. Although hot and obviously all of them cared a great deal for Sybil, even treated her as their treasured Queen, it still seems just degrading to be shared in this capacity when a commitment has been established.

Plus I was a bit smitten not with Kenric (the alpha wolf) but with Kadar (the dragon) dude was FINE!! If you are looking for an erotic read with a bit of suspense, then I would recommend this read.

---

### **Dina says**

I was pleasantly surprised to find some humor in this book: dragon with the sense of humor. As expected, the 80% of the book were sex scenes and I had to skip some – too repetitive
